**Note 1:** Students majoring in French Translation are expected to have some proficiency in French through high-school study. All students with previous French study should take the French Placement Test and enroll in the correct course based on their score. Students who have completed three or four years of high school French should see a French Major Advisor for placement. Students lacking in sufficient major-level proficiency to take the first major courses (FR 33211 and FR 33212) can reach it by taking courses in the prerequisite sequence (FR 13201, 13202, 23201, 23202) based on their placement score and high school training. Students with sufficient French to place into higher semesters are not allowed in Elementary French I. Due to prerequisite requirements; summer study is required after the first year to complete the major within four years.

**Note 2:** The Subject Area Specialty is a departmentally approved coherent sequence of courses (30 credits) in one or more other disciplines (i.e., not in the Department of Modern and Classical Language Studies). In order to be approved, the Subject Area Specialty must include courses in an area or areas that are currently marketable, such as business, legal studies, international relations, political science, computer science, chemistry, physics or other "hard" sciences. The Subject Area Specialty may include up to 17 credit hours of a different language in the sequence through composition/conversation. It may also optionally include MCLS 23217 The Francophone Experience. The recommended Kent Core courses (see Kent Core Summary) may be included within this area with advisor approval.
