Graduation Requirements Summary

Minimum Total Hours	Minimum	
	Major GPA	Overall GPA
73	2.000	2.000

- Enrollment in RADT courses is limited to students accepted to technical study which is a selective process based on specific criteria.
- US 10097 is not required of transfer students with 25 credits (excluding College Credit Plus and dual-enrollment) or students age 21+ at time of admission.
- BSCI 11010/11020 Foundational Anatomy and Physiology I/II are the preferred courses for radiologic technology. Students who have completed BSCI 20020, Structure and Function or ATTR/EXSC 25057/25058 Human Anatomy and Physiology I/II may use these courses in place of BSCI 11010/11020, but it must have been completed within the past five years prior to admission to the program.
- MATH 11010 is recommended for students pursuing the Radiation Therapy concentration in the Radiologic and Imaging Sciences major.

University Requirements: Applied and technical associate degree-seeking students must fulfill selected Kent Core (general education requirements). For more information about this requirement, please read the following section in the University Catalog: Kent Core – www.kent.edu/catalog/kent-core.
