Graduation Requirements Summary

Minimum Total Hours	Minimum Upper-Division Hours 30000 – 40000 level course	Minimum Kent Core Hours	Minimum	
			Major GPA	Overall GPA
120	39	36	2.250	2.000

1. UC 10097 is not required of transfer students with 25 credits (excluding College Credit Plus) or students age 21+ at time of admission
2. Students who have successfully completed BSCI 11010/11020 Foundational Anatomy and Physiology I/II may use those courses in place of ATTR/EXSC 25057/25058 Human Anatomy and Physiology I/II.
3. Chemistry Elective (4-8 credits)

Choose from the following:

CHEM 20481 Basic Organic Chemistry I (4) <i>or</i>
CHEM 30481 Organic Chemistry I * (3) <i>and</i>
CHEM 30475 Organic Chemistry Laboratory I * (1) <i>and</i>
CHEM 30482 Organic Chemistry II * (3)
CHEM 30476 Organic Chemistry Laboratory II * (1) <i>and</i>

* Recommended for those students planning to apply to the Doctor of Podiatric Medicine degree.

4. It is highly recommended that the Exercise Science major take the American College of Sports Medicine Health Fitness Specialist and/or Certified Personal Trainer exams upon completion of their degree program.
5. A minimum C (2.000) grade must be earned to fulfill the writing-intensive requirement.
6. Number of credits required depends on meeting minimum 120 credit hours and minimum 39 upper-division credit hours. Students are strongly encouraged to meet with faculty advisor when selecting electives. Maximum 12 credit hours from the Doctor of Podiatric Medicine degree can be used to fulfill general electives for students accepted to the program

Program Notes:

- A minor may be selected to meet the students' personal interests as well as to enhance their professional preparation. Students interested in research careers in exercise physiology should consult their advisor about enhancing their sciences preparation. If a minor is included, total coursework may exceed the minimum 120 credit hours required for graduation
- Exercise Science is one route to Physical Therapy and Occupational Therapy advanced study programs. Athletic Training is another option for pursuing advancement into PT and/or OT graduate programs. Specifically, Athletic Training involves clinical courses and dual-certificate (AT/PT) opportunities for those choosing Pre-Physical Therapy/OT as a course of study. Additionally, Integrated Health Studies provides a viable course of study which can also serve as Pre-PT/OT curricula for interested students. The Health Science concentration includes a strong math and science curriculum which provides a solid foundation for numerous health/medical graduate degrees in particular physical and occupational therapy.

University Requirements: Bachelor's degree-seeking students must meet Kent Core (general education requirements), diversity, writing-intensive and experiential learning requirements.
