Executive EPC Committee Member Proposal Questions

The role of the Executive EPC is to take an in-depth review of the proposals that are submitted to EPC. The members felt there were additional questions that needed to be asked, see below.

Emerging Media and Technology - M.S.

Full proposal to establish a new major

1. How does the curriculum support the job titles listed in the labor market demand section of the proposal (e.g., sociologist, HR manager, video game designer)?
2. What experience/skills/knowledge will students earn with this program that they won't receive from a master's program in their discipline (e.g., public health)?
3. Did the college verify that the new courses are not duplicating existing courses?
