Policy for Dissertation for a Doctoral Degree Proposal Summary

SUBJECT SPECIFICATION

This proposal seeks to revise the policy for the dissertation for a doctoral degree as published in the University Catalog.

BACKGROUND INFORMATION

Members of the Graduate Deans Advisory Council (GDAC) reviewed and revised the university's policy the dissertation for a doctoral degree. The policy has not had a full review in many years.

Revisions include the following:

- Headers are added to organize the information, registering for the dissertation course, approving the dissertation prospectus, convening the dissertation and examining committees, conducting the final examination and submitting the dissertation.
- Clarified that a dissertation is required for the Ph.D. degree, rather than all doctoral degrees. Most professional doctorates (e.g., Doctor of Audiology, Doctor of Podiatric Medicine) require practical experiences rather than a traditional dissertation.
- Language regarding the dissertation committees is replaced with more up-to-date information from the Guide to Graduate Education.
- Graduate faculty status levels are removed for the committee membership, replaced by associate and full graduate faculty status.
- Requirement is eliminated that students must register for the dissertation course in the summer term.
- Statements are added that maximum 30 credit hours of dissertation is counted toward the degree, and credit hours earned in Dissertation II do not count toward the degree.
- Deadline is added for the filing of the dissertation as the last day of classes in graduation term; the calendar always listed the deadline as third Monday following the final date for oral examination, which never was written into policy.

ALTERNATIVES AND CONSEQUENCES

The alternative to the proposed policy revisions is the status quo, and the consequences will be an outdated and incomplete policy in the University Catalog.

SPECIFIC RECOMMENDATION AND JUSTIFICATION

GDAC, in consultation with graduate faculty coordinators, recommends the following:

- Elimination of the summer term registration for the dissertation to be approved effective for summer 2020 due to the COVID-19 pandemic.
- Revisions as listed on the next pages to be approved effective for fall 2020.

TIMETABLE AND ACTIONS REQUIRED

Approval by the Graduate Dean's Advisory Council	March 2020
Approval by Educational Policies Council	April 2020
Approval by Faculty Senate	May 2020
Implementation	Summer 2020 (2020-21 Catalog)

<u>Added</u> Removed Moved From <u>Moved To</u> Taken from Guide to Graduate Education

Dissertation for Doctoral Degree – Marked-up Revisions

A dissertation is required of each doctoral candidate for the Ph.D. degree in any department offering the doctoral degree. The dissertation must demonstrate that the student has acquired the ability to conduct research in a discriminating and original manner. The dissertation should make a significant enough contribution to the field in which it is written that at least one scholarly article suitable for publication in a professional journal may be derived from it or that the findings of the dissertation would be otherwise publishable.

The dissertation topic must be approved by the department and filed with the college dean no later than one semester preceding that in which the candidate expects to receive the degree. Each graduate unit has adopted a procedure for the preparation of a dissertation prospectus. This document will normally include an outline of the parameters of the projected dissertation topic with a statement of the problem to be undertaken, the procedure or methodology to be used in the research, a preliminary review of the literature substantiating the need for the study, and the principle sources of information for the dissertation. The prospectus must be in writing, but an oral presentation may also be required.

<u>Dissertation Registration and Applicability Toward Degree</u>

Each doctoral <u>student</u> <u>candidate</u>, upon admission to candidacy, must register <u>continuously</u> for Dissertation (8x1x99) <u>each semester (fall, spring)</u> for a total of 30 credit hours. <u>A student who has completed the required 30 credit hours of Dissertation I but has not finished the dissertation It is expected that a doctoral candidate will continuously register for <u>Dissertation I, and</u>, thereafter, to register continuously for <u>Dissertation II (8x299)</u> each semester (fall, spring), including summer, until all requirements for the degree requirements <u>are have been</u> met. The <u>student receives an In-Progress (IP)</u> administrative mark <u>grade is used until the student completes</u> <u>dissertation is completed, at which time the all-IP mark grades in dissertation are is changed to either the Satisfactory (S) or <u>Unsatisfactory (U) grades</u>.</u></u>

No more than 30 credit hours of Dissertation I may be counted toward completion of degree requirements. Credit hours earned in Dissertation II do not, under any circumstances, count toward the degree. The dissertation must demonstrate that the student has acquired the ability to conduct research in a discriminating and original manner. The dissertation should make a significant enough contribution to the field in which it is written that at least one scholarly article suitable for publication in a professional journal may be derived from it or that the findings of the dissertation would be otherwise publishable.

Dissertation Prospectus

The dissertation topic must be approved by the academic unit department and filed with the college dean no later than one semester preceding that in which the candidate expects to receive the degree. Each graduate unit has adopted a procedure for the preparation of a dissertation prospectus. This document will normally include an outline of the parameters of the projected dissertation topic with a statement of the problem to be undertaken; the procedure or methodology to be used in the research; a preliminary review of the literature substantiating the need for the study; and the principle sources of information for the dissertation. The prospectus must be in writing, but an oral presentation may also be required.

Dissertation Committee

When the student has developed a dissertation topic acceptable to the advisor, a dissertation committee responsible for overseeing the progress of the candidate's dissertation is convened. The graduate/program coordinator in consultation with the student and the student's advisor appoints the members of the committee. This group will consist, at minimum, of four members:

- 1. The advisor, who chairs the committee
- 2. Two additional members from the candidate's program
- 3. One faculty member from a discipline outside the program

The advisor and two committee members must be members of the graduate faculty who have been approved to direct dissertations. The remaining members of the committee must have associate or full graduate faculty status and be approved to serve on a dissertation committee. Only one of the four members may be A-3 or F-3 graduate faculty status. All others must have F-4 graduate faculty status. A co-advisor, if used, will count as one of the above members.

Special permission must be obtained from the college dean for anyone on the dissertation committee who does not meet the qualifications stated above.

Examining Committee

When the advisor believes the candidate's dissertation is ready for preliminary approval, the advisor will convene an academic college dean must be notified to request the appointment of the graduate faculty representative (GFR) to serve on the examining committee. The examining committee will consist of members of the dissertation committee (a minimum of the advisor, two additional members from the candidate's program, and one faculty member from a discipline outside the program), plus a GFR and a the graduate faculty representative who is appointed by the college dean, or designee. The procedures for appointing the graduate faculty representative for the examining committee are detailed in the procedures section below.

Once the graduate faculty representative GFR is appointed, the advisor will submit the dissertation to will be circulated in easily legible form among the members of the committee for . The advisor will allow a minimum of a ten 10-day reading period for reading of the dissertation. Following the reading period, the advisor and will then convene the examining dissertation committee to evaluate the dissertation including the GFR (without the candidate) for the purpose of evaluating it, The advisor will note and communicate to the candidate any Recommended revisions recommended by the committee. will be noted by the advisor and communicated to the candidate, and Wwhen, in the opinion of the advisor and the candidate, the appropriate revisions have been made, the advisor will inform the graduate/program coordinator, the academic unit's lead administrator department chair/school director and the academic college dean.

Final Examination (Oral Defense)

After the dissertation, typed in legible form, is accepted by the dissertation advisor, it will be read by the student's dissertation committee, and any recommended revisions will be communicated to the student. Upon completion of the revisions, if any, the student will be required to defend the findings before a committee of graduate faculty members, including the dissertation committee and others chosen by the academic unit department and college dean. The advisor will designate the time and place of the final oral defense and notify all members of the examining committee. The final date for the oral defense of doctoral candidates is determined by the college and communicated to the students in advance. The final oral defense will be open to the university community. The procedures for the defense are detailed in the procedures section below.

The responsibility for conducting the examination itself will be that of an impartial moderator selected from a department other than that of the student's major or minor. The defense of the dissertation is open to the university community. Questioning is restricted to members of the graduate faculty, and the vote of the examining committee will be conducted in private.

Dissertation Submission

After <u>passing</u> the candidate has passed the oral examination, the doctoral candidates <u>must</u> <u>will</u> submit their dissertation in electronic form to the OhioLINK Electronic Thesis or Dissertation Center where the thesis is made <u>publicly available</u>. The dissertation <u>must</u> <u>will also</u> include an abstract of <u>maximum</u> no more than 350 words. Information on the process <u>can</u> <u>may</u> be found on the University Libraries' guidelines for <u>ETD</u> the preparation <u>of Electronic Theses and Dissertations</u> website. Theses and <u>dissertations</u> <u>The</u> <u>dissertation</u> must be prepared according to established guidelines, <u>which</u>. <u>Guidelines for preparation and typing of theses and dissertations</u> are available in the college office.

Dissertations submitted electronically are available through the OhioLINK Electronic Theses and Dissertations Center. Individual units may still require submission of a paper copy for their archives, and the deadline for the dissertation to be filed in the college office is the last day of classes for the term of graduation (some colleges may require an earlier deadline). It is the responsibility of the doctoral student to fulfill this requirement.

All dissertations must be published according to a plan provided by ProQuest Information and Learning, Ann Arbor, Michigan, for the purposes of archiving, indexing, and dissemination. All communications and relations between faculty or students and ProQuest shall be carried out only through the Kent State University librarian. Publication of the complete dissertation or significant parts of it through other avenues is expected, but this is not to be used in lieu of the requirement stated herein.

ACADEMIC POLICY

Dissertation for Doctoral Degree

POLICY STATEMENT

A dissertation is required of each candidate for the Ph.D. degree. The dissertation must demonstrate that the student has acquired the ability to conduct research in a discriminating and original manner. The dissertation should make a significant enough contribution to the field in which it is written that at least one scholarly article suitable for publication in a professional journal may be derived from it or that the findings of the dissertation would be otherwise publishable.

Dissertation Registration and Applicability Toward Degree

Each doctoral student, upon admission to candidacy, must register continuously for Dissertation (8x199) each semester (fall, spring) for a total of 30 credit hours. A student who has completed the required 30 credit hours of Dissertation I but has not finished the dissertation is expected, thereafter, to register continuously for Dissertation II (8x299) each semester (fall, spring) until all degree requirements are met. The student receives an In-Progress (IP) administrative mark until the dissertation is completed, at which time the IP mark is changed to either the Satisfactory (S) or Unsatisfactory (U) grade.

No more than 30 credit hours of Dissertation I may be counted toward completion of degree requirements. Credit hours earned in Dissertation II do not, under any circumstances, count toward the degree.

Dissertation Prospectus

The dissertation topic must be approved by the academic unit and filed with the college dean no later than one semester preceding that in which the candidate expects to receive the degree. Each graduate unit has adopted a procedure for the preparation of a dissertation prospectus. This document will normally include an outline of the parameters of the projected dissertation topic with a statement of the problem to be undertaken; the procedure or methodology to be used in the research; a preliminary review of the literature substantiating the need for the study; and the principle sources of information for the dissertation. The prospectus must be in writing, but an oral presentation may also be required.

Dissertation Committee

When the student has developed a dissertation topic acceptable to the advisor, a dissertation committee responsible for overseeing the progress of the candidate's dissertation is convened. The graduate/program coordinator in consultation with the student and the student's advisor appoints the members of the committee. This group will consist, at minimum, of four members:

- The advisor, who chairs the committee
- Two additional members from the candidate's program
- One faculty member from a discipline outside the program

The advisor and two committee members must be members of the graduate faculty who have been approved to direct dissertations. The remaining members of the committee must have associate or full graduate faculty status and be approved to serve on a dissertation committee. A co-advisor, if used, will count as one of the above members.

Special permission must be obtained from the college dean for anyone on the dissertation committee who does not meet the qualifications stated above.

Examining Committee

When the advisor believes the candidate's dissertation is ready for preliminary approval, the advisor will convene an examining committee. The examining committee will consist of members of the dissertation committee and an appointed graduate faculty representative. The procedures for appointing the graduate faculty representative are detailed in the procedures section below.

Once the graduate faculty representative is appointed, the advisor will submit the dissertation to the members of the committee for a 10-day reading period of the dissertation. Following the reading period, the advisor will convene the examining committee to evaluate the dissertation. The advisor will note and communicate to the candidate any revisions recommended by the committee. When, in the opinion of the advisor and the candidate, the appropriate revisions have been made, the advisor will inform the graduate/program coordinator, the academic unit's lead administrator and the college dean.

Final Examination (Oral Defense)

Upon completion of the revisions, if any, the student will be required to defend the findings before a committee of graduate faculty members, including the dissertation committee and others chosen by the academic unit and college dean. The final oral defense will be open to the university community. The procedures for the defense are detailed in the procedures section below.

Dissertation Submission

After passing the oral examination, doctoral candidates must submit their dissertation in electronic form to the OhioLINK Electronic Thesis or Dissertation Center where the thesis is made publicly available. The dissertation must include an abstract of maximum 350 words. Information on the process can be found on the University Libraries' guidelines for ETD preparation website. The dissertation must be prepared according to established guidelines, which are available in the college office.

Individual units may still require submission of a paper copy for their archives, and the deadline for the thesis to be filed in the college office is the last day of classes for the term of graduation (some colleges may require an earlier deadline). It is the responsibility of the doctoral student to fulfill this requirement.

All dissertations must be published according to a plan provided by ProQuest Information and Learning, Ann Arbor, Michigan, for the purposes of archiving, indexing, and dissemination. All communications and relations between faculty or students and ProQuest shall be carried out only through the Kent State University librarian. Publication of the complete dissertation or significant parts of it through other avenues is expected, but this is not to be used in lieu of the requirement stated herein.

REASON FOR POLICY

Policy enforces uniform standards for the doctoral dissertation submission and oral defense and defines the dissertation committees and applicability toward the doctoral degree.

PROCEDURES

Procedures for Appointing the Graduate Faculty Representative

The college dean, or designee, will appoint the graduate faculty representative to the examining committee after consultation, when appropriate, with the advisor or lead administrator of the academic unit. The graduate faculty representative must have the following credentials:

- Directed a dissertation to completion
- Familiar with the general content area of the candidate's dissertation
- Outside the candidate's program or outside the candidate's area of focus

The graduate faculty representative may be appointed from outside the university but still must have directed a dissertation to completion.

The principal responsibility of the graduate faculty representative is to preside and moderate the final examination (oral defense) and to note whether the nature of the questioning of the faculty and the responses of the candidate meet highly respectable scholarly standards. Any concerns must be presented immediately to the college dean or designee. As moderator, the graduate faculty representative should ensure that all participants in the defense act in a civilized, polite and proper manner. The graduate faculty representative should be familiar with the procedures of the oral defense and has the authority to suspend the examination should a situation arise that would not be conducive to a fair examination. The graduate faculty representative is expected to question the candidate and to vote on the passing of the final examination.

If a separate moderator for the final oral defense is desired, that individual will be selected by the dissertation committee from the members of the graduate faculty who have been approved to direct dissertations. The separate moderator will not be a faculty member in the candidate's program.

Procedures for the Final Examination (Oral Defense)

When the dissertation committee has met and has agreed to proceed to the final examination, the advisor will designate the time and place of the final oral defense and notify the student and all members of the examining committee.

The oral defense is open to any member of the University wishing to attend and, therefore, a facility adequate to meet this requirement should be provided. The defense should be scheduled to allow a minimum of 10 days for all members of the examining committee to review the dissertation; this is in addition to the 10-day period preceding the dissertation committee meeting.

In the absence of the advisor, the lead administrator of the academic unit may postpone the oral defense. In the case of long-term absence or enduring illness of the advisor, the lead administrator, in consultation with the college dean, should make appropriate arrangements for a substitute.

The dissertation must be in final form (not merely a late draft but also not necessarily the final typed copy) prior to the final oral defense. Students are permitted to number their pages in pencil to reduce the cost of final changes that may result from the oral defense. If, in the opinion of more than one member of the examining committee, the dissertation is not in acceptable final form, the oral defense will not be held. An acceptable final form refers to the substance and usefulness of the dissertation as well as the quality of the writing. The decision to halt the defense is to be determined by vote prior to the final oral examination and without the candidate or others being present. If a negative vote occurs, the candidate may be called in to provide clarification.

A rescheduling of the oral defense, if necessary, will occur when, in the opinion of the advisor and the student, the dissertation has been modified to incorporate the suggested changes. The dissertation must be acceptable, with no more than one dissenting vote, before the rescheduled final oral can be held. If the dissertation is not in suitable form at this second scheduled oral, the advisor will notify the college dean. Further action is then the responsibility of the college dean.

The final oral defense will be open to the university community. The advisor should notify the academic unit of the time and place of the so that it may be announced in a suitable way. The student should provide copies of the dissertation abstract to the academic unit so that it will be available to interested individuals prior to the defense to familiarize members of the graduate faculty with the methodology and findings.

Students may participate in the oral defense in a different location than the committee members (i.e., by web conferencing) if they are declared in a fully online degree program or have obtained permission in advance from the committee chair. See the policy on Remote Participation in a Thesis or Dissertation Defense in the University Catalog.

The candidate will open the defense with a brief presentation of dissertation findings, after which the members of the examining committee will question the candidate in an order to be determined by the moderator. When, in the opinion of the moderator, members of the examining committee have had an adequate opportunity to question the candidate, the moderator may open the examination to appropriate questions from others present. Questions dealing with the substance, meaning and usefulness of the research in the dissertation are of greatest propriety. Questions or comments dealing with punctuation or grammatical minutiae, spelling, etc., are out of order and should be written out and privately submitted to the advisor.

If, in the opinion of the moderator or upon motion duly passed by a majority of the committee, it should be deemed necessary to discontinue the defense, the moderator may recess the defense until a time mutually agreeable to the moderator, the advisor, the candidate and the college dean.

When the questioning has run its course, the moderator will adjourn the defense, and the room will be cleared of everyone except the members of the examining committee. Parliamentary procedure will be observed to determine the success or failure of the candidate, with the moderator acting as chair without a vote. The committee should evaluate the candidate upon both (a) the overall quality and significance of the dissertation, and (b) the oral defense of the findings.

All members of the examining committee will sign the Report of Final Examination form, recording their votes of "yes" or "no." Committee members may not abstain in this vote. A candidate passes the final oral defense if there is no more than one dissenting vote. The moderator and lead administrator of the academic unit must then sign the report, which is forwarded to the college for the signature of the dean. The college returns a copy of the completed form to the academic unit.

Only members of the examining committee who voted "yes" are required to sign the dissertation signature page.

FREQUENTLY ASKED QUESTIONS

There is no FAQ associated with this policy.

DEFINITIONS

Academic Unit: an academic department, school or a designated graduate program within a college, department or school.

Defense: refers to students presenting, explaining and defending their ideas submitted in their thesis. The defense is designed so that faculty members can ask questions to ensure that students understand their chosen field and focus area.

Dissertation: a highly individualized investigative study that results in the development and writing of a scholarly, comprehensive paper and fulfills the culminating requirement for a Ph.D. degree. The dissertation must demonstrate that the student has acquired the ability to conduct research in a discriminating and original manner. The dissertation should make a significant enough contribution to the field in which it is written that at least one scholarly article suitable for publication in a professional journal may be derived from it or that the findings of the dissertation would be otherwise publishable.
