Interdepartmental Correspondence
Kent State University
Kent, Ohio

TO: Members of the Educational Policies Council, Deans, Associate and Assistant Deans, and Academic Consultants

FROM: Kathryn A. Myers, Director of Curriculum Services
Office of the Provost

SUBJECT: *Curricular Bulletin No. 170*

DATE: March 6, 1995

       Enclosed is a copy of *Curricular Bulletin No. 170* documenting curricular actions approved through the Educational Policies Council for the 1995-96 academic year. Please call me at x2220 if you have any questions.

Enclosure

Office of the Provost
Kent State University

Curricular Bulletin
of
The Educational Policies Council

No. 170
March 1, 1995

Table of Contents

The following approved actions are effective **Fall 1994**.

College of Arts and Sciences

1. Established an outcomes assessment graduation requirement for all students in the College of Arts and Sciences
    EPC Approval: 1/21/94

College of Business Administration

Business Administration

1. Revised the Executive MBA program [Master of Business Administration degree]
    Several revisions to requirements
    EPC Approval: 12/06/93

College of Education

1. Revised the name of the Center for School Personnel Relations to Center for Educational Leadership Services
    EPC Information Item: 1/21/94

2. Revised Technology Education-Curriculum I major [Bachelor of Science in Education degree]
    Major Code Number: 426 AAA
    Added requirements: EDPF 49565, Education in American Society
                              SEED 32146, Introduction to Content Area Reading
    Action requested by the Office of the Provost to bring requirements, catalog copy, and current practices into sync.
    EPC Approval: 8/29/94

3. Revised Technology Education-Curriculum II major [Bachelor of Science in Education degree]
    Major Code Number: 426 BAA
    Added requirements: EDPF 49565, Education in American Society
                              SEED 32146, Introduction to Content Area Reading
    Action requested by the Office of the Provost to bring requirements, catalog copy, and current practices into sync.
    EPC Approval: 8/29/94

The following approved actions are effective **Fall 1995**.

Office of the Provost

1. Established Exploratory major [no degree program]
   Major Code Number: 007
   For the assignment of undeclared students to the Undergraduate Studies [US] unit and grants US the authority to assume responsibility for academic actions involving these students.
   EPC Approval: 8/29/94

2. Uniform adoption of minors
   Upon the recommendation of the Assistant and Associate Deans Committee, the Educational Policies Council adopted a proposal that "Undergraduate students at Kent State University have access to all minor programs offered by the Colleges and Schools with exception made for those minor programs designed to meet special certification needs." Written confirmation was included from all colleges and the School of Nursing.
   EPC Approval: 9/26/94

College of Arts and Sciences

1. Revised policy to allow students in the College of Arts and Sciences to pursue additional majors under the Bachelor of Arts and Bachelor of Science degree programs subsequent to the initial posting of a degree to the student's transcript.
   EPC Approval: 11/21/94

2. Revised policy to simplify a distributional restriction which limits the number of courses which can be taken in any department toward the College of Arts and Sciences General Requirements.
   EPC Approval: 11/21/94

3. Revised policy to eliminate the College of Arts and Sciences English Penalty which denies credit toward the 129 hours required for graduation for freshman English composition courses not taken within a specified timeframe.
   EPC Approval: 11/21/94

College of Arts and Sciences continued

Biological Sciences Department

1. Established BSCI 20140 Cell Biology
   Credit Hours: 04
   Prerequisite: BSCI 10181, 10182; CHEM 10060, 10061, 10062, 10063; pre- or corequisite: MATH 11011 or 12001
   Credit/Exam: Not Available
   Course Fee: None
   Course Description: Investigation of the cell as the fundamental unit of life with an emphasis on the relationship between cellular structure and function.
   EPC Approval: 9/26/94

Criminal Justice Studies Department

1. Revised Paralegal Studies minor
   Minor Code Number: 356
   Add to select from list: CJST 38005, Tort Law
                                   CJST 38006, Applied Legal Research and Litigation
   EPC Approval: 2/21/94

2. Revised Criminal Justice Studies major [Bachelor of Arts degree]
   Major Code Number: 355
   Revised endnote: A total of 6 hours of 46792, Internship; 45093, Variable Title Workshop; or 45096, Individual Investigation, can be used toward the fulfillment of the 9 remaining hours; CJST 36792 cannot be used as a major elective.
   EPC Approval: 6/27/94

3. Revised Paralegal Studies minor
   Minor Code Number: 356
   Removed requirement: CJST 46792, Internship
   Added requirement: CJST 36792, Internship in Paralegal
   Program hours remain the same.
   EPC Approval: 6/27/94

College of Arts and Sciences continued

Criminal Justice Studies Department continued

4. Established CJST 36792 Internship in Paralegal
    Credit Hours: 03-12
    Prerequisite: CJST 18000, 28001, and 28004
    Credit/Exam: Not Available
    Course Fee: None
    Course Description: Work experience under direction of supervising faculty member
                               in the following entities: private law firms, legal service/legal
                               aid offices, law departments or corporations, and government
                               agencies. "IP" grade permissible.
    EPC Approval: 6/27/94

5. Established CJST 38005 Tort Law
    Credit Hours: 03
    Prerequisite: CJST 18000 and 28001
    Credit/Exam: Not Available
    Course Fee: None
    Course Description: Focuses on tort and personal injury law.   Topics include
                               intentional injuries to person and property, negligence, strict
                               liability, product liability, defenses and immunity, and ethics.
    EPC Approval: 2/21/94

6. Established CJST 38006 Applied Legal Research and Litigation
    Credit Hours: 03
    Prerequisite: CJST 18000 AND 28001
    Credit/Exam: Not Available
    Course Fee: None
    Course Description: Case analysis and preparation of argumentative memorandum.
                               Includes writing of factual memoranda, file summaries, and
                               advocacy letters.
    EPC Approval: 2/21/94

7. Established CJST 38007 Human Service Agencies and the Law
    Credit Hours: 03
    Prerequisite: Nine (9) semester hours including CJST 12000, or permission
    Credit/Exam: Not Available
    Course Fee: None
    Course Description: Designed to acquaint the student with the substance and
                               procedure of law pertaining to human service agencies.
                               Included: definitions, terminology, topical areas, and legal
                               ethics.
    EPC Approval: 2/21/94

College of Arts and Sciences continued

Critical Languages

1.   Established CRIT 10095 Special Topics in Elementary Critical Languages
     Credit Hours: 04
     Prerequisite: Permission
     Credit/Exam: Not Available
     Course Fee: None
     Course Description: (repeated registration permitted)
                            Elementary levels of a modern critical language. Includes listening,
                            speaking, reading, and writing. Emphasis placed on oral/aural skills.
                            Course may be classroom or self-instruction.
     EPC Approval: 6/27/94

2.   Established CRIT 20092 Practicum in Critical Languages
     Credit Hours: 01-03
     Prerequisite: "C" or better in Elementary Crit II and permission
     Credit/Exam: Not Available
     Course Fee: None
     Course Description: This practicum is intended to allow students the option of working with
                            the program coordinator to develop a language immersion project to
                            enhance language skills in real-life situations. Projects may be highly
                            individualized.
     EPC Approval: 8/29/94

3.   Established CRIT 20095 Special Topics in Intermediate Critical Languages
     Credit Hours: 03
     Prerequisite: Permission
     Credit/Exam: Available (without departmental approval)
     Course Fee: None
     Course Description: (repeated registration permitted)
                            Modern standard critical language. Continues emphasis on all four
                            language skills; increasing emphasis on reading and writing. Course
                            may be classroom or self-instructional.
     EPC Approval: 6/27/94

College of Arts and Sciences continued

Geography Department

1. <u>Revised Cartography minor</u>
   Minor Code Number: 341
   Removed requirement: GEOG 39080, Computer Applications in Geography
   Added requirement: GEOG 49080, Principles of Geographical Information Systems
   EPC Approval: 6/27/94

2. <u>Revised Urban Studies and Planning minor</u>
   Minor Code Number: 067
   Removed requirement: POL 40222, Metropolis and Its Problems
   Added requirement: POL 30221, Municipal Government
   EPC Approval: 6/27/94

3. <u>Revised GEOG 37068 Geography of African Development</u>
   Course number changed to: 37040
   Course title changed to: Geography of Africa
   Course title abbreviation changed to: Geography of Africa
   Course description changed to: Study of the physical and human geography of Africa, especially of the areas south of the Sahara.

   EPC Approval: 6/27/94

4. <u>Revised GEOG 41082 Geography of Soils</u>
   Prerequisite changed to: GEOG 21062 or permission
   Course description changed to: An edaphological approach to soils including morphology, formation, classification, geographical distribution, and utilization. Field work required.

   EPC Approval: 6/27/94

5. <u>Abandoned GEOG 47075 Resource Geography of U.S.S.R.</u>
   <u>Abandoned GEOG 57075 Resource Geography of U.S.S.R.</u>
   <u>Abandoned GEOG 77075 Resource Geography of U.S.S.R.</u>
   EPC Approval: 6/27/94

College of Arts and Sciences continued

Geography Department continued

6.   Revised GEOG 47077 Regional Geography of the U.S.S.R.
      Course number changed to: 37050; removed slash with 57077
      Course title changed to: Geography of Russia and the Commonwealth States
      Course title abbreviation changed to: Geog of Russia & the CIS
      Course description changed to: Study of the physical, economical, political, and cultural
                                           geography of Russia, Ukraine, Central Asia, and other
                                           components of the former Soviet Union.

      EPC Approval: 6/27/94

7.   Abandoned GEOG 47078 Peoples of Eastern Europe and U.S.S.R.
      Abandoned GEOG 57078 Peoples of Eastern Europe and U.S.S.R.
      Abandoned GEOG 77078 Peoples of Eastern Europe and U.S.S.R.
      ECP Approval: 6/27/94

8.   Revised GEOG 49198 Research in Cartography and GIS
      Credit hours changed to: 01-03
      Prerequisite changed to: Permission
      Course description changed to: (repeated registration permitted)
                                           Individual research on a topic in cartography or GIS
                                           under the direction of any faculty member. May be
                                           repeated for credit. "IP" grade permissible.
      EPC Approval: 6/27/94

9.   Abandoned GEOG 57077 Regional Geography of U.S.S.R.
      Abandoned GEOG 77077 Regional Geography of U.S.S.R.
      EPC Approval: 6/27/94

10.   Established GEOG 64040 Seminar in Economic Geography
      Credit Hours: 03
      Prerequisite: Graduate Standing
      Credit/Exam: Not Available
      Course Fee: None
      Course Description: Survey of recent literature in economic geography, including industrial
                          and technological change, services, and the world economy.
      EPC Approval: 6/27/94

College of Arts and Sciences continued

Geography Department continued

11.   Revised GEOG 69701 Seminar in Research Techniques and Presentation of Geographic Data
       Credit hours changed to: 03
       EPC Approval: 6/27/94

12.   Established GEOG 74040 Seminar in Economic Geography
       Credit Hours: 03
       Prerequisite: Doctoral Standing
       Credit/Exam: Not Available
       Course Fee: None
       Course Description: Survey of recent literature in economic geography, including industrial
                            and technological change, services, and the world economy.
       EPC Approval: 6/27/94

Mathematics and Computer Science Department

1.   Inactivated Mathematics and Computer Science minor
      Minor Code Number: 292
      EPC Approval: 6/27/94

2.   Revised Computer Science minor
      Minor Code Number: 291
      Removed requirements: CS 33003, Assembly Language Programming
                                       CS 33201, Microcomputer Systems
                                       Plus three hours from the following:
                                         43101, Structure of Programming Languages
                                         45101, Computer Organization and Architecture
                                         47101, Computer Graphics
      Added prerequisite: MATH 12001, Algebra and Trigonometry
                                       MATH 12002, Analytic Geometry and Calculus I
                                       MATH 12003, Analytic Geomtery and Calculus II
      Added requirement: Elective courses (12 hours) list
      Minor hours decreased from 27 to 18.
      This minor is now officially available to students in the College of Arts and Sciences.
      EPC Approval: 8/29/94

College of Arts and Sciences continued

3.   Revised Mathematics minor
       Minor Code Number: 290
       Removed requirement: Plus six upper-division hours
       Added prerequisite: CS 10061, Introduction to Computer Science
       Added core courses: 41001, Introduction to Modern Algebra I
         (requirements)   or
                                         42001, Introduction to Analysis I
                                            or
                                         42044, Applied Analysis I;
                                         Elective courses (9 hours) list
       Minor hours decreased from 26 to 18-19.
       This minor is now officially available to students in the College of Arts and Sciences.
       EPC Approval: 8/29/94

Computer Science

1.   Revised CS 10061 Introduction to Computer Science
       Prerequisite changed to: CS 10051, or placement and no credit for CS 10060
       Course description changed to: Emphasizes programming in a high level language,
                                         includes structured programming, program design,
                                         expressions, data control, arrays, records, strings, and
                                         functions.
       EPC Approval: 6/27/94

2.   Revised CS 23021 Intermediate Programming and Applications
       Course description changed to: Techniques for solving computational models in various
                                         disciplines; includes programming style, linked lists,
                                         recursion, basic data structures, searching, and sorting
                                         techniques.
       EPC Alpproval: 6/27/94

3.   Revised CS 33001 Data Structures
       Prerequisite changed to: CS 23021, MATH 12003, or permission
       EPC Approval: 6/27/94

College of Arts and Sciences continued

Mathematics and Computer Science Department continued

4. Revised CS 33003 Assembly Language Programming
    Course title changed to: Computer Organization and Assembly Language
    Course title abbreviation changed to: Comp Org & Assemb Lang
    Course description changed to: Introduction to structure and organization of digital
                                            computers: representation, manipulation, and flow of
                                            information in binary form, and introduction to the CPU
                                            and assembly language.

    EPC Approval: 6/27/94

5. Revised CS 33004 C Programming
    Credit hours changed to: 03
    Prerequisite changed to: High-level prgramming knowledge or permission
    Course description changed to: Structured programming concepts in C including lexical
                                     elements, data types, control structures, expressions,
                                     arrays, pointers, records, functions, advanced data
                                     structures, and standard library functions (no credit
                                     toward Computer Science majors).

    EPC Approval: 6/27/94

6. Established CS 33006 Social and Ethical Issues in Computing
    Credit Hours: 03
    Prerequisite: CS 33001 (concurrent registration is permitted)
    Credit/Exam: Not Available
    Course Fee: None
    Course Description: Social issues, including historical and social context, professional
                         responsibilities, risks and liabilities, and intellectual property.
    **This course may be used to satisfy the writing-intensive course graduation requirement with
    approval of major department.**
    EPC Approval: 9/26/94

7. Revised CS 43006 Object-oriented Programming
    Prerequisite changed to: CS 33001
    EPC Approval: 6/27/94

8. Revised CS 43101 Structure of Programming Languages
    Prerequisite changed to: CS 33005
    EPC Approval: 6/27/94

College of Arts and Sciences continued

Mathematics and Computer Science Department continued

9. Revised CS 43201 Operating Systems
    Prerequisite changed to: CS 33003 and 43001
    EPC Approval: 6/27/94

10. Revised CS 45201 Computer Communications Networks
    Course description changed to: Provides a comprehensive treatment of the analysis and
                                        design of computer networks: data communications
                                        techniques, network architecture, OSI models and
                                        protocols, LANs, routing techniques, and congestion
                                        control.
    EPC Approval: 6/27/94

11. Revised CS 46101 Design and Analysis of Algorithms
    Prerequisite changed to: CS 31011 and 33003
    EPC Approval: 6/27/94

12. Revised CS 53006 Object-oriented Programming
    Prerequisite changed to: Graduate standing and CS 33001
    EPC Approval: 6/27/94

13. Revised CS 53101 Structure of Programming Languages
    Prerequisite changed to: Graduate standing and CS 33005
    EPC Approval: 6/27/94

14. Revised CS 53201 Operating Systems
    Prerequisite changed to: Graduate standing and CS 33003 and 43001
    EPC Approval: 6/27/94

15. Revised CS 55201 Computer Communications Networks
    Course description changed to: Provides a comprehensive treatment of the anlaysis and
                                        design of computer networks: data communications
                                        techniques, network architecture, OSI models and
                                        protocols, LANs, routing techniques, and congestion
                                        control.
    EPC Approval: 6/27/94

Modern and Classical Language Studies Department

1.   Revised the Literature concentration within French major [Master of Arts degree]
      Major Code Number: 141 AAA
      Removed requirement: RLNG 60000, Literary Theory: Spanish and French
      Added requirements: MCLS 60000, Literary Theory in Modern and Classical
                                             Languages
                                  MCLS 60094, College Teaching of Foreign Languages
      Degree hours increased from 32 to 33.
      EPC Approval: 6/27/94

2.   Revised the Applied Linguistics and Pedagogy concentration within French major [Master of Arts
      degree]
      Major Code Number: 141 BAA
      Removed requirements: RLNG 60003, Foreign Language Curriculum and Testing
                                  RLNG 60004, Foreign Language Media
                                  RLNG 60094, College Teaching of Foreign Languages
      Added requirements: MCLS 60003, Foreign Language Curriculum and Testing
                                  MCLS 60004, Foreign Language Media
                                  MCLS 60094, College Teaching of Foreign Languages

Business Administration (Graduate) continued

10.   Revised B AD 64011 Systems Simulation
       Revised B AD 74011 Systems Simulation
       Prerequisite changed to: Graduate standing and permission of instructor [for
                                             64011]
                                             Doctoral standing and permission of instructor [for
                                             74011]
       Course description changed to: Techniques and applications of computer simulation of
                                             existing or proposed real-world systems. Use of
                                             simulation language, simulations studies, analysis of
                                             interpretation of result.
       EPC Approval: 3/21/94

11.   Revised B AD 64012 Scheduling and Planning I
       Revised B AD 74012 Scheduling and Planning I
       Prerequisite changed to: B AD 64003 [for 64012]
                                             B AD 74003 [for 74012]
       Course description changed to: An introduction to production planning and scheduling
                                             models used to solve real world problems. Included are
                                             aggregate planning, nonlinear cost, production and work
                                             force smoothing, adaptive, multistage models and pull
                                             systems (JIT, OPT).
       EPC Approval: 3/21/94

12.   Revised B AD 64015 Stochastic Models I
       Revised B AD 74015 Stochastic Models I
       Course title changed to: Stochastic Models
       Course title abbreviation changed to: Stochastic Models
       EPC Approval: 3/21/94

13.   Revised B AD 64018 Mathematical Programming
       Revised B AD 74018 Mathematical Programming
       Course description changed to: Advanced techniques including interior-point methods in
                                             linear programming; branch-and-bound and cutting-plane
                                             methods, traveling salesman and knapsack models in
                                             integer programming.
       EPC Approval: 3/21/94

14.   Revised B AD 64019 Stochastic Models II
       Revised B AD 74019 Stochastic Models II
       Course title changed to: Quantitative Management Modeling
       Course title abbreviation changed to: Quant Mgmt Modeling
       Prerequisite changed to: B AD 62022 and 64004 [for 64019]
                                             B AD 72022 and 74004 [for 74019]
       Course description changed to: The purpose of this course is to introduce the student to
                                             the principles and the approaches of problem formulation
                                             and solving by quantitative management methods.
       EPC Approval: 3/21/94

15.   Revised B AD 64020 Advanced Statistical Models
       Revised B AD 74020 Advanced Statistical Models
       Course description changed to: This is a special focus course for which the topics will
                                             vary. It will generally include sampling techniques,
                                             experimental designs, similar statistical methods,
                                             internal, external validity, and reliability issues.
       EPC Approval: 3/21/94

16.   Revised B AD 64031 Quality and Reliability Systems
       Revised B AD 74031 Quality and Reliability Systems
       Prerequisite changed to: Graduate standing and permission of instructor [for 64031]
                                             Doctoral standing and permission of instructor [for 74031]
       Course description changed to: Modern quality and reliability assurance that combines
                                             statistical and behavioral aspects: sampling plans,
                                             statistical process control, tolerancing, reliability
                                             assurance, product and product optimization, economical
                                             allocation, and scheduling of inspection.
       EPC Approval: 3/21/94

21.   Revised ART 53092 Internship-GD/I
       Course description changed to: Experience in design studio, agency or company
                                             involving design responsibilities and procedures to
                                             broaden a student's understanding of the profession
                                             through a real job situation. May carry an "IP" grade
                                             when appropriate.
       EPC Approval: 3/21/94

22.   Revised ART 53101 Advanced Illustration/Media
       Course description changed to: Discussions and practice of media and grounds as they
                                             pertain to the illustration field. Discussion will also
                                             center around the problems in developing work for
                                             reproduction. May carry an "IP" grade when
                                             appropriate.
       EPC Approval: 3/21/94

23.   Revised ART 53103 Ediotrial Illustration
       Course description changed to: Exploration and discussion of various illustration
                                             techniques and their application in the publishing field.
                                             Emphasis is placed on client need, concept, and intended
                                             audience. May carry an "IP" grade when appropriate.
       EPC Approval: 3/21/94

24.   Revised ART 53104 Advertising Illustration
       Course description changed to: Exploration and discussion of various illustration
                                             techniques and their application in advertising.
                                             Emphasis is placed on client need, concept of solution,
                                             and intended audience. May carry an "IP" when
                                             appropriate.
       EPC Approval: 3/21/94

25.   Revised ART 53105 Computer Illustration
       Course description changed to: An introductory course on the use of the computer as an
                                             illustration tool. The class will cover the necessary
                                             computer applications for advertising, editorial, and
                                             book illustration. May carry an "IP" grade when
                                             appropriate.
       EPC Approval: 3/21/94

26. Revised ART 53200 Kinetic and Sequential Graphic Design
     Course description changed to: The exploration of the use of the computer in kinetic and
                                        sequential graphic design, 3D modeling, and sound.
                                        May carry an "IP" grade when appropriate.
     EPC Approval: 3/21/94

27. Revised ART 53202 Typographic/Photographic Graphic Design
     Course description changed to: The use of typography (rather than visual imagery) as
                                        the primary design form in solving graphic
                                        communication problems. May carry an "IP" grade
                                        when appropriate.
     EPC Approval: 3/21/94

28. Revised ART 53203 Corporate Identity/Graphic Design
     Course description changed to: Use of graphic design forms (typography, photography,
                                        and illustration) in the development of corporate
                                        identification for total advertising programs. May carry
                                        an "IP" grade when appropriate.
     EPC Approval: 3/21/94

29. Revised ART 53254 Experimental Typography
     Course description changed to: Investigation of form, pattern, and texture in typographic
                                        usage. Emphasis on linking traditional letterform
                                        technology and computer-generated forms. May carry
                                        an "IP" grade when appropriate.
     EPC Approval: 3/21/94

30. Revised ART 53302 3D Graphic Design-Direct Mail/Packaging/Point of Purchase
     Course description changed to: Use of typography and visual images, photography and
                                        illustration, in the structure of information for
                                        communication on three-dimensional surfaces: direct
                                        mail, packaging, and point-of-purchase display. May
                                        carry an "IP" grade when appropriate.
     EPC Approval: 3/21/94

School of Nursing

1.   **Established Doctor of Philosophy degree (joint program) with The University of Akron**
     Major Code Number: xxx
     EPC Approval: 3/21/94

2.   **Established NURS 60041 Advanced Assessment of Adult Clients**
Credit Hours:	03
Prerequisite:	Graduate Standing
Credit/Exam:	Not Available
Course Fee:	None
Course Description:	Assessment, reasoning, and decision making skills for the advanced practice nurse to formulate comprehensive health data bases and therapeutic regimens for adult clients.
EPC Approval:	6/27/94

3.   **Established NURS 60042 Adult Primary Health Care I**
Credit Hours:	05
Prerequisite:	NURS 60041, 60206, and physiology
Credit/Exam:	Not Available
Course Fee:	None
Course Description:	Advanced primary health care for the nurse practitioner student caring for adult clients with common acute and chronic disorders. Emphasis on nursing and health care management within a multidisciplinary context.
EPC Approval:	6/27/94

4.   **Established NURS 60043 Adult Primary Health Care II**
Credit Hours:	05
Prerequisite:	NURS 60041, 60205, 60206, advanced physiology, and pharmacology
Credit/Exam:	Not Available
Course Fee:	None
Course Description:	Advanced primary health care for the nurse practitioner student caring for adult clients with complex acute and chronic disorders. Emphasis on nursing and health care management in a multidisciplinary context.
EPC Approval:	6/27/94

School of Nursing continued

5.   Established NURS 60052 AHN: Clinical Interventions and Health Behaviors
     Credit Hours: 04
     Prerequisite: NURS 60041
     Credit/Exam: Not Available
     Course Fee: None
     Course Description: Clinical reasoning applied to complex problems of clients and their health
                           behaviors.   Includes analysis of socio-economics, health policies,
                           developmental stages, belief systems, and life styles. Clinical sites
                           individualized..
     EPC Approval: 6/27/94

6.   Established NURS 60053 AHN: Clinical Intervention and Physiological Health Status
     Credit Hours: 04
     Prerequisite: NURS 60041, advanced physiology
     Credit/Exam: Not Available
     Course Fee: None
     Course Description: Clinical reasoning (diagnosis, intervention, outcome evaluation) applied
                           to complex problems of clients and their health behaviors, with emphasis
                           on relationship to physiological status. Clinical sites individualized.
     EPC Approval: 6/27/94

7.   Established NURS 60205 Introduction to Applied Epidemiology
     Credit Hours: 01
     Prerequisite: Basic understanding of biostatistics
     Credit/Exam: Not Available
     Course Fee: None
     Course Description: Seminar on basic epidemiology principles, concepts, and procedures for
                           disease surveillance and investigation.
     EPC Approval: 6/27/94

8.   Established NURS 60206 Ambulatory Diagnostics for Advanced Nursing Practice
     Credit Hours: 02
     Prerequisite: Corequisite: NURS 60041 recommended
     Credit/Exam: Not Available
     Course Fee: None
     Course Description: Experience for the nurse practitioner student in selection, safe use, and
                           interpretation of basic laboratory testing, screening, and examinations for
                           client management in primary care.
     EPC Approval: 6/27/94

School of Nursing continued

9.   Established NURS 60207 Professional Issues in Advanced Practice Nursing
      Credit Hours: 02
      Prerequisite: At least two adult clinical courses or permission
      Credit/Exam: Not Available
      Course Fee: None
      Course Description: Analysis of nursing and health care policy at the community and national
                             levels for specific populations at risk.
      EPC Approval: 6/27/94

10.   Established NURS 60431 Advanced Practice Nurse Seminar
      Credit Hours: 02
      Prerequisite: Two of three clinical courses for adult, parent/child, or psychiatric
                             mental health nursing
      Credit/Exam: Not Available
      Course Fee: None
      Course Description: Seminar on roles and functions of the advanced practice nurse, including
                             current trends and issues.
      EPC Approval: 6/27/94

11.   Established NURS 60432 Adult Nurse Practitioner Role Practium
      Credit Hours: 04
      Prerequisite: NURS 60431
      Credit/Exam: Not Available
      Course Fee: None
      Course Description: An individually planned practicum in the final semester in which students
                             perform in the role of a nurse practitioner in a selected multidisciplinary
                             primary care context under guidance of an experienced preceptor.
      EPC Approval: 6/27/94

12.   Established NURS 70710 History and Philosophy of Nursing Science
      Credit Hours: 03
      Prerequisite: Doctoral standing or permission of professor
      Credit/Exam: Not Available
      Course Fee: None
      Course Description: This course examines the nature of metaphysics and epistemology and the
                             influence of contemporary Eastern and Western philosophies on the
                             developing epistemology of disciplinary nursing knowledge.
      EPC Approval: 3/21/94

School of Nursing continued

13.   Established NURS 70715 Theory Construction and Development in Nursing
       Credit Hours: 03
       Prerequisite: Admission to PHD program and NURS 70710
       Credit/Exam: Not Available
       Course Fee: None
       Course Description: This course examines strategies for theory development including logical-empirical-deductive and inductive approaches. Emphasis will be on elements and strategies used in theory building.
       EPC Approval: 3/21/94

14.   Established NURS 70720 Introduction to Nursing Knowledge Domains
       Credit Hours: 03
       Prerequisite: Doctoral standing or permission of professor
       Credit/Exam: Not Available
       Course Fee: None
       Course Description: Introductory seminar analyzing selected theoretical and methodological approaches to knowledge development in nursing. Emphasis on critical analysis of knowledge in areas of special interest.
       EPC Approval: 3/21/94

15.   Established NURS 70725 Quantitative Research Methods in Nursing
       Credit Hours: 03
       Prerequisite: Doctoral standing or permission of professor
       Credit/Exam: Not Available
       Course Fee: None
       Course Description: An integrated approach to the study of quantitative nursing research. Exploration of the interdependent relationship of methodology, design/measurement issues, including analysis and interpretation of findings.
       EPC Approval: 3/21/94

16.   Established NURS 70730 Qualitative Research Methods in Nursing
       Credit Hours: 03
       Prerequisite: Doctoral standing or permission of professor
       Credit/Exam: Not Available
       Course Fee: None
       Course Description: Selected qualitative research methods used to study nursing phenomena. Philosophical bases; design, data collection and analysis; evaluation of rigor; and ethical issues for major qualitative methods will be analyzed with regard to nursing phenomena.
       EPC Approval: 3/21/94

School of Nursing continued

17. Established NURS 70735 Nursing and Health Care Policy
     Credit Hours: 03
     Prerequisite: Doctoral standing or permission of professor
     Credit/Exam: Not Available
     Course Fee: None
     Course Description: Critical examination of theories and processes of formulating state/national health care policy. Focus on health issues, the political and legislative process, and contemporary policy dilemmas.
     EPC Approval: 3/21/94

18. Established NURS 70745 Advanced Methods for Nursing Research
     Credit Hours: 03
     Prerequisite: Doctoral standing or permission of professor
     Credit/Exam: Not Available
     Course Fee: None
     Course Description: Advanced seminar on selected areas related to research development, methods, and evaluation essential to the advancement of nursing knowledge.
     EPC Approval: 3/21/94

19. Established NURS 70746 Advanced Methods for Nursing Research: Measurement in Nursing
     Credit Hours: 03
     Prerequisite: Doctoral standing or permission of professor
     Credit/Exam: Not Available
     Course Fee: None
     Course Description: Theories and concepts related to measurement and nursing research including techniques for construction, testing, and refining of instruments with assessment of reliability and validity.
     EPC Approval: 3/21/94

20. Established NURS 70747 Advanced Methods for Nursing Research: Application of Qualitative Methods
     Credit Hours: 03
     Prerequisite: NURS 70725 and 70730 or permission of professor
     Credit/Exam: Not Available
     Course Fee: None
     Course Description: Theory, data collection, and analysis used in qualitative nursing research with a focus on phenomenology, grounded theory, and ethnography.
     EPC Approval: 3/21/94

School of Nursing continued

21. Established NURS 70748 Advanced Methods for Nursing Research: Program Evaluation in Nursing

Credit Hours:	03
Prerequisite:	Doctoral standing or permission of professor
Credit/Exam:	Not Available
Course Fee:	None
Course Description:	Seminar and lecture: analysis of theories and models of program evaluation and their relationships to designs, processes, techniques, and outcomes in nursing-related evaluations.
EPC Approval:	3/21/94

22. Established NURS 70749 Advanced Methods for Nursing Research: Grant Development and Funding

Credit Hours:	03
Prerequisite:	Doctoral standing or permission of professor
Credit/Exam:	Not Available
Course Fee:	None
Course Description:	Advanced seminar on critical analysis of proposal and grant development, funding, peer review, and advocacy process with emphasis on the development of a grant proposal.
EPC Approval:	3/21/94

23. Established NURS 70792 Field Experience in Nursing

Credit Hours:	01-12
Prerequisite:	Doctoral standing or permission of professor
Credit/Exam:	Not Available
Course Fee:	None
Course Description:	Individual enrollment in field experience settings related to nursing.
EPC Approval:	3/21/94

24. Established NURS 70795 Special Topics in Nursing

Credit Hours:	02-06
Prerequisite:	Doctoral standing or permission of professor
Credit/Exam:	Not Available
Course Fee:	None
Course Description:	Study of important topics in nursing practice, research on the profession. Offering in response to existing interests and opportunities.
EPC Approval:	3/21/94

School of Nursing continued

25.   Established NURS 70796 Individual Investigation in Nursing
      Credit Hours: 01-03
      Prerequisite: Doctoral standing or permission of professor
      Credit/Exam: Not Available
      Course Fee: None
      Course Description: Individual enrollment for independent study in nursing carried out by
                             student under supervision of a doctoral faculty member.
      EPC Approval: 3/21/94

26.   Established NURS 70798 Research in Nursing
      Credit Hours: 01-15
      Prerequisite: Doctoral standing or permission of professor
      Credit/Exam: Not Available
      Course Fee: None
      Course Description: Research carried out by a student under faculty supervision. Indepth
                             inquiry should result in a paper or appropriate product.
      EPC Approval: 3/21/94

27.   Established NURS 86091 Variable Content Seminar in Nursing: Nursing Science I
      Credit Hours: 03
      Prerequisite: NURS 70720
      Credit/Exam: Not Available
      Course Fee: None
      Course Description: Seminar on indepth analysis, synthesis, and evaluation of one substantive
                             area within nursing and related disciplines focusing on the generation and
                             dissemination of nursing knowledge.
      EPC Approval: 3/21/94

28.   Established NURS 86191 Variable Content Seminar in Nursing: Nursing Science I: Family
      Theories and Nursing Research
      Credit Hours: 03
      Prerequisite: NURS 70720
      Credit/Exam: Not Available
      Course Fee: None
      Course Description: Seminar on indepth analysis, synthesis, and evaluation of one substantive
                             area within nursing and related disciplines focusing on the generation and
                             dissemination of nursing knowledge.

Course Description:	Seminar: analysis, synthesis and evaluation of theories and research in women's health across the lifespan as consumers and providers in nursing and health care.
EPC Approval:	3/21/94

30.   Established NURS 86391 Variable Content Seminar in Nursing: Nursing Science I: Stress, Coping and Social Support, and Nursing Research

Credit Hours:	03
Prerequisite:	NURS 70720
Credit/Exam:	Not Available
Course Fee:	None
Course Description:	Seminar on indepth analysis, synthesis, and evaluation of stress, coping, and social support literature in nursing and related disciplines, focusing on the generation and dissemination of knowledge.
EPC Approval:	3/21/94

31.   Established NURS 87091 Variable Content Seminar in Nursing: Nursing Science II

Credit Hours:	03
Prerequisite:	NURS 86091
Credit/Exam:	Not Available
Course Fee:	None
Course Description:	Indepth focused analysis and synthesis of a substantive area relevant to the student's specific research focus, culminating in a written product for dissemination.
EPC Approval:	3/21/94

32.   Established NURS 80199 Dissertation I

Credit Hours:	15
Prerequisite:	Successful completion of doctoral courses
Credit/Exam:	Not Available
Course Fee:	None
Course Description:	Independent doctoral research for the dissertation under faculty supervision. Registration of at least two semesters is required, continuing until completion of 30 credit hours.
EPC Approval:	3/21/94

School of Nursing continued

33. Established NURS 80299 Dissertation II
     Credit Hours: 01-15
     Prerequisite: Completion of 30 credit hours of Dissertation I
     Credit/Exam: Not Available
     Course Fee: None
     Course Description: Continuing registration of research, after initial 30 hours of research, until all degree requirements are met.
     EPC Approval: 3/21/94

School of Physical Education Recreation and Dance

1. Relocate the Dance program to the College of Fine and Professional Arts within the School of
    Theatre
    EPC Approval: 6/27/94

2. Change the name of the remaining unit from the School of Physical Education, Recreation and
    Dance to the School of Exercise, Leisure and Sport
    This unit will for a period of two years function as a department within the College of Arts and
    Sciences.
    EPC Approval: 6/27/94

3. Revise the Dance major [Bachelor of Science degree]
    Major Code Number: 754
    Removed requirement: PEP 45036, Athletic Training (03)
    Added requirement: DAN 27076, Dance as an Art Form (03)
    Total program hours remain the same.
    EPC Approval: 6/27/94

4. Revision to Leisure Studies major [Bachelor of Science degree]
    Major Code Number 755
    Revise requirements categories: Interdisciplinary Requirements category
                                           (courses moved to concentration level)
    EPC Approval: 01/30/95

5. Revised Leisure Services Management concentration within Leisure Studies major (Bachelor of
    Science degree]
    Major Code Number: 755 AAA
    Require all students in this concentration to complete an approved University minor as a
    component of their major.
    EPC Approval: 6/27/94

School of Physical Education, Recreation and Dance continued

6.   Revision to Leisure Services Management concentration within Leisure Studies major [Bachelor of Science degree]
     Major Code Number 755 AAA
     Add requirements to Foundation: NURS 10020, Basic Cardiac Life Support
                                            PEB   Basic Physical Education Activities
                                            PEP 25033, Lifespan Motor Development

14. Revised BMRT 21051 Fundamentals of Retailing
     Prerequisite changed to: BMRT 11000 or permission of BMRT faculty
     Course description changed to: A survey of retailing that emphasizes skills necessary for
                                        store organization, location, layout, pricing,
                                        merchandising, and inventory control.   New retail
                                        concepts are stressed.
     EPC Approval: 9/26/94

15. Revised BMRT 21052 Professional Selling Techniques
     Prerequisite changed to: BMRT 11000 or permission of full-time BMRT faculty
     Course description changed to: Study of personal selling as a promotional technique to
                                        determine and satisfy the needs of buyers, and to build
                                        a long-term relationship among all parties.
     EPC Approval: 9/26/94

16. Revised BMRT 21053 Advertising in Business
     Prerequisite changed to: BMRT 21050 or permission of BMRT faculty
     Course description changed to: A practical approach to the study of advertising.
                                        Emphasis is on the effective use of the media, creating
                                        advertising operations, and advertising management.
     EPC Approval: 9/26/94

17. Revised BMRT 21054 Insurance Principles
     Prerequisite changed to: BMRT 11000 or permission of BMRT faculty
     Course description changed to: Introduction to the types of insurance, risk management,
                                        and ethics of insurance. Other topics to be addressed are
                                        contract law and retirement planning.
     EPC Approval: 9/26/94

18. Revised BMRT 21055 Retail Merchandising
     Prerequisite changed to: BMRT 21051 or permission of BMRT faculty
     Course description changed to: Principles and procedures of retail merchandising.
                                        Problem solving for merchandising and utilization of
                                        mathematical models.   Procedures for planning and
                                        control of merchandise.
     EPC Approval: 9/26/94

School of Technology continued

19.   Revised BMRT 21056 Principles of Visual Display
      Prerequisite changed to: BMRT 21051 or permission of BMRT faculty
      Credit by Exam changed to: Not available
      Course description changed to: Basic principles of visual display. Introduction to basic
                                        equipment used in display work. Window and interior
                                        displays in department and specialty stores.
      EPC Approval: 9/26/94

20.   Revised BMRT 21092 Internship in Management Technology
      Credit hours changed to: 01-03
      Prerequisite changed to: Permission of full-time BMRT faculty
      Course description changed to: Students participate in a supervised educational
                                        experience. Each credit hour requires a minimum of 7
                                        hours work without pay or 10 hours work with pay per
                                        week for 15 weeks.
      EPC Approval: 9/26/94

21.   Revised BMRT 21095 Special Topics
      Prerequisite changed to: Permission of full-time BMRT faculty
      EPC Approval: 9/26/94

22.   Revised BMRT 21096 Individual Investigation in Business Technology
      Credit hours changed to: 01-03
      Prerequisite changed to: Permission of full-time BMRT faculty
      EPC Approval: 9/26/94

Computer Design and Animation Engineering Technology [CADT]

1.   Established CADT 22000 Advanced CAD
      Credit Hours: 02
      Prerequisite: IERT 12005
      Course Fee: None
      Credit/Exam: Available with Departmental Approval
      Course Description: The use of advanced concepts and techniques of computer-aided drafting
                           and design and related productivity improvement tools for two- and
                           three-dimensional drawings.
      EPC Approval: 9/26/94

Regional Campuses continued

School of Technology continued

2.   Established CADT 22001 CAD: Architecture
      Credit Hours: 02
      Prerequisite: IERT 12005
      Course Fee: None
      Credit/Exam: Available with Departmental Approval
      Course Description: Comprehensive study of the use of a popular computer-aided drafting
                             package for architectural design including systems management methods
                             and project planning concept.
      EPC Approval: 9/26/94

3.   Established CADT 22002 CAD: Civil Applications
      Credit Hours: 02
      Prerequisite: None
      Course Fee: None
      Credit/Exam: Available with Departmental Approval
      Course Description: A course on the use of computer-aided drafting and design for civil
                             engineering applications.
      EPC Approval: 9/26/94

4.   Established CADT 22003 Solid Modeling
      Credit Hours: 02
      Prerequisite: CADT 22000
      Course Fee: None
      Credit/Exam: Available with Departmental Approval
      Course Description: A course in solid modeling using computers. Modeling techniques using
                             regional and solid modular for two-dimensional regions and three-
                             dimensional solids.
      EPC Approval: 9/26/94

5.   Established CADT 22004 Computer Animation
      Credit Hours: 03
      Prerequisite: CADT 22000
      Course Fee: None
      Credit/Exam: Available with Departmental Approval
      Course Description: A course in 3D-modeling and computerized techniques. An introduction
                             to multimedia development and delivery of animated production.
      EPC Approval: 9/26/94

Regional Campuses continued

6.   Established CADT 22005 Multimedia and Virtual Reality
      Credit Hours: 02
      Prerequisite: CADT 22000
      Course Fee: None
      Credit/Exam: Available with Departmental Approval
      Course Description: A course covering the concepts and techniques for designing and
                             production of effective multimedia applications.   Creation of
                             presentations of graphics, text, sound, and video.
      EPC Approval: 9/26/94

Computer Technology [COMT]

1.   Revised COMT 21001 Computer Applications
      Course title changed to: Applications Programming
      Course title abbreviation changed to: Applications Programming
      Course description changed to: A laboratory course dealing with the planning and
                                               implementation of a computer system. Topics include
                                               data collection, editing, program specifications, and
                                               related ideas.
      EPC Approval: 9/26/94

2.   Established COMT 21096 Individual Investigation in Computer Technology
      Credit Hours: 01-04
      Prerequisite: Permission
      Course Fee: None
      Credit/Exam: Not Available
      Course Description: Individual study in computer field.   Open to computer technology
                             majors.
      EPC Approval: 9/26/94

Electrical/Electronic Engineering Technology [EERT]

1. Established EERT 21096 Individual Investigation in Electrical/Electronic Engineering Technology
Credit Hours:	01-04
Prerequisite:	Permission
Course Fee:	None
Credit/Exam:	Not Available
Course Description:	Independent, in-depth research of an electrical/electronic engineering technology topic supervised and coordinated by an Engineering Technology faculty member.
EPC Approval:	9/26/94

2. Revised EERT 22003 Computer Fundamentals
Course title changed to:	Technical Computing
Course title abbreviation changed to:	Technical Computing
EPC Approval:	9/26/94

Industrial Engineering and Related Technologies [IERT]

1. Established IERT 21096 Individual Investigation in Systems/Industrial Engineering Technology
Credit Hours:	01-04
Prerequisite:	Permission
Course Fee:	None
Credit/Exam:	Not Available
Course Description:	Independent, in-depth research of a systems/industrial engineering technology topic supervised and coordinated by an Engineering Technology faculty member.
EPC Approval:	9/26/94

Regional Campuses continued

School of Technology continued

Manufacturing Engineering Technology [MFGT]

1.   Established MFGT 12010 Safety in the Workplace
        Credit Hours: 02
        Prerequisite: None
        Credit/Exam: With Department Approval
        Course Fee: None .
        Course Description: Topics include Ohio general industry safety requirements.
                                   Discussion will include all workshops and factories, metal
                                   casting, steel mills, and rubber and plastic industries.
        EPC Approval: 2/21/94

2.   Established MFGT 13001 Computer Numerical Control Programming
        Credit Hours: 03
        Prerequisite: EERT 22013, and MERT 12000 and 12004
        Credit/Exam: With Department Approval
        Course Fee: None
        Course Description: Lathe and mill computer numerical control (CNC) programming:
                                   conversational, M & G codes. Manual data input and off-line
                                   programming: offsets, cutter compensation, linear, circular, and
                                   helical interpolation.
        EPC Approval: 2/21/94

3.   Established MFGT 14001 Geometric Dimensioning and Tolerancing
        Credit Hours: 03
        Prerequisite: MERT 12000 and EERT 22003
        Credit/Exam: With Department Approval
        Course Fee: None
        Course Description: Theory and application of geometric dimensioning and
                                   tolerancing (GD&T) including interpretation of GD&T symbols
                                   on blueprints and inspection of parts with coordinate measuring
                                   machine.
        EPC Approval: 2/21/94

Regional Campuses continued

School of Technology continued

4.   Established MFGT 21001 Standard Design Practice for Manufacturing Technology
      Credit Hours: 03
      Prerequisite: MFGT 14001, EERT 22002, and MERT 12001 and 12005
      Credit/Exam: With Department Approval
      Course Fee: None
      Course Description: Analysis of fundamental machine design components.
                                 Discussion will include keys, fasteners, pulleys, gears, chains,
                                 bearings, power transmission equipment and associated topics.
      EPC Approval: 2/21/94

5.   Established MFGT 22014 Advanced Industrial Electronics
      Credit Hours: 03
      Prerequisite: EERT 22013
      Credit/Exam: With Department Approval
      Course Fee: None
      Course Description: Advanced course in PLC program design and implementation.
                                 Emphasis on Boolean logic. Project definition and completion.
      EPC Approval: 2/21/94

6.   Established MFGT 23001 Computer-Aided Manufacturing
      Credit Hours: 03
      Prerequisite: MFGT 13001 and MERT 12001
      Credit/Exam: With Department Approval
      Course Fee: None
      Course Description: Theory and application of computer-aided manufacturing.
                                 Generation of CNC code using CAM applications, both from
                                 CAD drawings and directly from CAM package.
      EPC Approval: 2/21/94

7.   Established MFGT 23002 Advanced Computer-Aided Manufacturing
      Credit Hours: 03
      Prerequisite: MFGT 23001
      Credit/Exam: With Department Approval
      Course Fee: None
      Course Description: An advanced class in computer-aided manufacturing. Electrical
                                 Discharge Machining (EDM) program applications. Emphasis
                                 will be placed on industrial projects.
      EPC Approval: 2/21/94

Mechanical Engineering and Related Technologies [MERT]

1. Established MERT 21096 Individual Investigation in Mechanical Engineering Technology
    Credit Hours: 01-04
    Prerequisite: Permission
    Course Fee: None
    Credit/Exam: Not Available
    Course Description: Independent, in-depth research of a mechanical engineering technology topic supervised and coordinated by an Engineering Technology faculty member.
    EPC Approval: 9/26/94

Office Management and Related Technologies [OMRT]

1. Established OMRT 21096 Individual Investigation in Office Management Technology
    Credit Hours: 01-03
    Prerequisite: Twelve (12) credit hours of OMRT courses and permission of a full-time OMRT faculty member
    Course Fee: None
    Credit/Exam: Not Available
    Course Description: Independent, in-depth research of an OMRT topic supervised and coordinated by an OMRT faculty member.
    EPC Approval: 9/26/94
