About Kent State University

Kent State University Catalog 2010 - 2011 > [About Kent State University](#)

Kent State University is ranked among the nation's 77 public research universities demonstrating a high level of research activity by the Carnegie Foundation for the Advancement of Teaching. This places Kent State among an elite group of the nation's nearly 3,900 colleges and universities. Kent State earns national recognition for its breadth of high-quality undergraduate programs balanced with innovative research and graduate studies in selected areas.

The Kent State University eight-campus system is designed to serve both the development of a true living/learning approach at its Kent Campus, where residential living combines the resources and facilities of a large, diverse university, and regional needs on seven campuses offering the friendly, casual atmosphere of small liberal arts colleges. Regional campuses are Ashtabula, East Liverpool, Geauga, Salem, Stark, Trumbull and Tuscarawas. The Kent Campus provides baccalaureate, master's and doctoral study opportunities. At the same time, Kent State's Regional Campuses serve their specific community's needs with associate degree programs in technical and business fields, as well as selected baccalaureate and graduate work. Kent State offers 33 majors in five associate degrees, 110 majors in 12 bachelor's degrees, 95 majors in 16 master's degrees, eight majors in the educational specialist degree and 45 majors in two doctoral degrees. In addition, Kent State provides learning opportunities in 108 undergraduate minors and 72 for-credit certificate programs.

Besides boasting a distinguished and award-winning faculty in Kent State's nine colleges and 36 departments and schools, the university attracts scholars and researchers to diverse institutes, centers and research bureaus in specific areas, including the Liquid Crystal Institute®, Center for Applied Conflict Management, Center for Public Health Preparedness, Institute for the Study and Prevention of Violence, Wick Poetry Center, Child Development Center and the Ohio Employee Ownership Center. The world-renowned Kent/Blossom Arts Festivals offer a triad of artistic programs—music, theatre and art—for outstanding students in the fine arts.

Located in Kent, Ohio (population 30,000), the Kent Campus is ideally situated in northeastern Ohio, amid rolling terrain dotted by spring-fed lakes. Yet big-city enthusiasts are only a short drive from four major urban centers, with airports offering access to the nation and the world. The beautifully landscaped Kent Campus is composed of 866 acres. There are 119 buildings on the Kent Campus with a 291-acre airport and an 18-hole golf course nearby. The university's land holdings include thousands of acres of a nearby wildlife refuge, as well as marsh and bog areas preserved by the university as learning laboratories and resources for the future.

The focal point of the campus is the University Center with its spacious Risman Plaza. On one side is the 12-story, open-stack library which houses more than 2.6 million volumes, a complete learning resource center and the university executive offices. On the other side is the sprawling Kent Student Center which houses dining facilities, meeting and conference rooms, recreation areas, a ballroom and bookstore.

Other notable architectural landmarks include the Student Recreational and Wellness Center, a 153,000-square-foot world-class facility featuring a sports arena, elevated running track, natatorium, climbing wall, workout rooms and refreshment and lounge areas; the Business Administration Building, with its bronze-mirrored window-walls; and the futuristic, award-winning Art Building, with translucent panels that admit the diffused and shadowless lighting vital to art classes during the day and emit a distinctive glow of interior activity after dark. Nearby is Taylor Hall, home of the College of Architecture and Environmental Design and the College of the Arts.

The crisp modern lines of the newer areas of the campus, including comfortable residence hall complexes, the ground-hugging lines of the Ice Arena and the Child Development Center, contrast tastefully with the ivy-covered buildings of the original "North Campus," including Cartwright Hall, Rockwell Hall (home to Kent State's fashion museum), Lowery Hall and Merrill Hall, which was the first structure built at the university when it was launched as a teacher-training institution in 1910. Moulton Hall, a four-story structure built in 1917 and listed in the National Register of Historic Places, has been renovated to house the Moulton Hall Learning Technologies Center. The center provides an interactive high-performance learning environment to help faculty and students make skillful use of the latest information technologies. This includes computer-aided instructional materials, satellite uplink and downlink capabilities, interactive conferencing and multimedia classrooms and laboratories.

To help students and visitors navigate the Kent Campus and surrounding communities, Kent State works with the area Regional Transit Authority, [PARTA](#). [PARTA](#) provides transit services on campus and in the local community. The heavily used service is

available at no charge to Kent State students. Dix Stadium is only a few minutes away via bus transportation, which provides a continuous loop service during regular class hours. The campus loop helps to virtually eliminate all through traffic within the campus. For intramurals and intercollegiate athletics, the campus includes Dix Stadium (among the largest in the Mid-American Conference, with seating for more than 30,000); an ice arena with two rinks; an 18-hole golf course; the Memorial Athletic and Convocation Center, with its physical education and recreation annex; an all-weather track; lighted tennis courts; softball fields; and soccer and rugby fields. The Field House (located next to Dix Stadium) includes a full-size football field, an indoor track and a state-of-the-art weight room. Additional green areas for intramural and extramural sports are provided, as well as lighted outdoor basketball courts.

About the Catalog

Kent State University Catalog 2010 - 2011 > [About the Catalog](#)

Introduction

The *University Catalog* is the official university document that provides comprehensive information regarding degree programs and their requirements, courses, academic policies and special programs. Some fee and financial aid information can be found as well.

Rights and exclusions regarding specific degree requirements pertaining to this *Catalog* have been established for undergraduate students. For more information regarding this policy, please visit Catalog Rights and Exclusions in the Requirements to Graduate section.

All of the information regarding academic policies, degree programs and courses have been approved by the Educational Policies Council. The membership of the council includes the provost, college deans, and representatives from the Faculty Senate and each college. Meetings are held nine times per year and are open to interested parties.

While every effort is made to provide accurate and current information, Kent State University reserves the right to change without notice statements in the *University Catalog* concerning rules, policies, fees, curricula courses or other matters.

Kent State University Seal

The Official Seal of Kent State University is located on the homepage. The seal denotes that the online *University Catalog* is the official university document of record with regard to academic programs and policies. The Kent State University Seal is a registered trademark and may not be used without permission.

Course Information

Course descriptions include a synopsis of the content to be covered in the course, the course prerequisite, if the course fulfills a university requirement, applicable fees, if the course is cross-listed with another department and if the course is repeatable. The course descriptions are divided into fall and spring semesters, with each course appearing in both semester listings. Please note that there may be differences in the same course from one semester to the next. Some courses require that a fee be paid in addition to instructional and general fees. These special fees, listed with the the course description for each appropriate course, are subject to change at any time, upon approval by the Board of Trustees.

Most courses are offered in a regular sequence to meet students' programmatic needs; however, the availability of any specific course in a given semester is subject to sufficient student demand and available resources. Please check the [Schedule of Classes](#) for specific semester availability.

Students who do not meet the course prerequisites may appeal to the department for approval to register.

Previous Years' Course Descriptions

Course descriptions for academic years 1998 to 2009 can be found online in the catalog archives. For course syllabi, please contact the instructor or academic unit for copies.

To order pre-1998 course descriptions

Please contact the Office of the University Registrar at 330-672-3131 or online at www.registrars.kent.edu.

Printed Catalog

The *University Catalog* is available online only.

Contact Information

The *University Catalog* is produced and maintained in the Office of Curriculum Services under the auspices of the Office of the Provost and Senior Vice President for Academic Affairs.

Please e-mail or visit us online if you have any questions regarding the *University Catalog* or the curriculum process.

PREPARING FOR COLLEGE

Most undergraduate students find that their academic success at Kent State University will be directly related to high school preparation. A carefully chosen college preparatory curriculum should develop the basic knowledge and skills which all students, regardless of major, will need at Kent State.

Kent State University recommends the following curriculum to students planning to pursue a bachelor's degree. These courses are also endorsed by the State Board of Education and the admission offices of the other four-year state-supported universities in Ohio.

The minimum core for college preparation in Ohio:

- 4 units of English
- 3 units of mathematics
- 3 units of science
- 3 units of social studies
- 2 units of foreign language
- 1 unit of the arts

[GO TO TOP](#)

POST-SECONDARY ENROLLMENT OPTION PROGRAM (PSEOP)

The Post-Secondary Enrollment Option Program (PSEOP), offered through Undergraduate Studies, is designed for high school students wishing to take university courses prior to graduating from high school. It is offered on each Kent State campus. Upon graduation from high school, PSEOP students can apply for admission as freshmen by submitting an application and fee, high school transcript and ACT or SAT scores to the Kent State Admissions Office. Kent State University degrees earned by PSEOP students are not posted to the Kent State University academic transcript until the term subsequent to high school graduation. For more information about this program, see the Undergraduate Studies section of this catalog. [GO TO TOP](#)

UNDERGRADUATE STUDENTS

Students desiring admission to an undergraduate division of the university should submit the appropriate application materials to the [Admissions Office](#). Students should arrange to have all necessary high school and college transcripts sent directly to the Admissions Office from each institution previously attended. All credentials submitted for admission become the property of the university and are not returnable or transferable. The university reserves the right to change, without notice, any admissions procedures described in this Catalog.

Freshmen Students: Students who have not attended any other educational institution after graduating from high school should apply to be admitted as freshmen.

Application Procedures: Prospective freshman students can apply by submitting an application form, application fee and required academic credentials to the Admissions Office. Students can submit an [electronic application](#) on the Admissions Office website or call the office at 330-672-2444 for a paper form.

The Admissions Office must receive a non-refundable application fee and a high school transcript before processing the application. A personal interview is not required for admission; however, applicants are encouraged to arrange both an interview with an admissions counselor and a campus visit by contacting the Admissions Office. [GO TO TOP](#)

Required Credentials: Freshmen entering Kent State must submit a high school transcript and American College Test (ACT) or Scholastic Assessment Test (SAT) scores. Kent State requires that students take the writing section of the ACT. Students are excused from this test score requirement only if they have been graduated from high school for three or more years or if they are 21 or older at the time of their first enrollment. These test scores are essential in determining students' admission status and academic aptitudes; assisting in academic advising; and helping to determine scholarship eligibility.

ACT or SAT scores should be reported to Kent State University directly from the testing agency. Students should use the following ACT codes based on the campus to which they plan to be admitted:

- Ashtabula: 3773
- East Liverpool: 3225
- Geauga: 3224
- Kent: 3284 (SAT: 1367)
- Salem: 3354
- Stark: 3226
- Trumbull: 3343
- Tuscarawas: 3361

A final high school transcript verifying graduation or a GED certificate/score report is required for both enrollment and financial aid at Kent State University.

Admission Requirements at the Kent Campus: Kent State University's freshman admission policy differentiates among students with varying degrees of preparation for college studies. The students most likely to be admitted and succeed at the Kent Campus are those who will have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a minimum high school 2.50 grade point average, and whose composite ACT score is 21 or better (combined SAT score of 980 in critical reading and math).

Students who do not meet the above criteria but who have graduated with a cumulative grade point average of at least 2.20 (on a scale of 4.00) at a chartered or accredited high school or have passed the General Educational Development (GED) Examinations may be admitted. High school course selection, class rank, recommendations and ACT/SAT scores will be closely examined for such students in making admissions decisions.

The university affirmatively strives to provide educational opportunities and access to students with varied backgrounds, those with special talents and adult students who graduated from high school three or more years ago.

Ohio residents and other applicants not offered admission at the Kent Campus may request that the Admissions Office forward their application for consideration at one of the seven Regional Campuses of Kent State University.

Admission Requirements at the Regional Campuses: Admission to the Regional Campuses is handled through the Admissions Office at any of the seven Regional Campuses. Admission is open to anyone with a high school diploma or its equivalent. Part-time early admission opportunities are available for qualified high school students in consultation with an advisor. In programs with special admission requirements, admission decisions and judgments are made by the director of the program following normal faculty consultative procedures, and take into account factors such as life experience, level of motivation and concern for under-represented groups in the program, as well as such indicators as GPA or ACT score. Each Regional Campus has staff members available to discuss admissions, financial aid opportunities and programs with prospective students.

Registration dates, times, procedures and access methods are similar to those of the Kent Campus. Registration information at a particular campus can be obtained from that campus. Because the seven Regional Campuses and the Kent Campus comprise one university system, access and mobility among the campuses is encouraged and facilitated. Even so, there are some differences between the Kent Campus and the Regional Campuses in freshman and transfer admission requirements.

Kent Campus Referrals: Freshman admission eligibility at the Kent Campus is based upon an applicant's cumulative high school GPA and, in some cases, standardized test scores and the college preparatory curriculum. Students not meeting the freshman admission criteria for the Kent Campus who wish to enter the Kent State University system must enroll for at least one semester at a Regional Campus. Enrollment at the Regional Campuses permits students to take advantage of smaller class sizes, more individualized advising services and a wider range of developmental programs.

For the deferred freshman or transfer student who enrolls at a Regional Campus to obtain the best possible foundation for academic success, it is recommended that the student complete the following minimum academic achievements before enrolling at the Kent Campus:

1. Successfully complete any developmental coursework as prescribed by an academic advisor.
2. Successfully complete 12 semester hours of coursework.
3. Achieve a minimum 2.00 cumulative GPA.

Students are strongly encouraged to work closely with their academic advisor in planning for the transition to the Kent Campus

Special Admission Areas: Freshmen must meet specific requirements to enter several academic programs and academic units at Kent State. Such selective policies exist for students desiring admission to Aeronautics, Architecture, Communication Studies,

Education, Health, and Human Services, Fashion Design, Fashion Merchandising, Interior Design, Journalism and Mass Communication, Music, Theatre and Dance, Nursing and the Northeastern Ohio Universities College of Medicine (six-year medical program). Individual requirements for these programs are listed under the respective departments in this catalog.

Students interested in these special admission areas should apply one year prior to the date of anticipated enrollment. Even though some of these programs do not have an early application deadline for fall semester, students who apply early will receive priority consideration. Specific questions about these areas can be directed to the Admissions Office or the individual departments/schools.

Application Deadlines: Completed applications are reviewed on a rolling basis until the class is determined to be full. The following deadlines exist for some special admission areas:

- Architecture Program (fall): January 31
- Six-Year Medical Program (early action): October 1
- Six-Year Medical Program (regular notification): December 15

An admission to Kent State University is valid only for the specific term to which students are first admitted. Students who do not enroll in the term to which they were admitted must submit a new application. The Admissions Office will then determine the students' admissibility for that term.

Destination Kent State: Advising and Registration: For six weeks, beginning in June, admitted Kent Campus freshmen for the fall semester and their parents are invited to campus for a one-and-a-half day orientation to Kent State. The primary goals of [Destination Kent State: Advising and Registration](#) are to acquaint students and parents with university programs and services; provide an individual advising session for each student; and register students for fall classes. New fall-semester freshmen are invited to campus to participate in this program. New spring-semester freshmen are invited for academic advising and registration for spring classes in January. [GO TO TOP](#)

GRADUATE STUDENTS

Applicants are expected to submit evidence of scholarly accomplishment in previous undergraduate and graduate work if undertaken. This may be accomplished in part by having achieved an undergraduate grade point average (GPA) of 2.75 on a 4.0 point scale, although some departments may require a higher minimum GPA. At the graduate level, a minimum 3.0 GPA is expected. In all cases, the GPA is only one of several measures used to determine admission. Additional considerations are letters of recommendation, scores on standardized tests and other indices of ability to do graduate-level work. Students with below a 2.75 GPA will be considered for conditional admission on an individual basis. Admission in such cases will depend heavily on other indices of the student's ability to handle graduate-level work. These might include strong performance on standardized tests, GPA in the major and/or experiences subsequent to matriculation that are clearly indicative of strong academic ability. Evidence of holding a bachelor's degree or equivalent from an accredited college or university must be included.

Students who hold degrees from non-accredited institutions may be admitted under conditions that are determined in each individual case and which ordinarily include the necessity of further undergraduate work.

Grade Point Average Calculation: To be considered for admission to graduate study at Kent State University, students must have official transcripts from each college or university previously attended (8 credit hours or more) sent to the admitting office. The cumulative GPA is calculated using the final grades from all previous undergraduate and post-undergraduate academic work.

Application Procedures:

1. Consult this catalog for admission procedures for the college or independent school offering the degree program.
2. Submit either an online or paper application form, non-refundable application fee and required academic credentials to the Admissions Office. For programs in the College of Architecture and Environmental Design, the College of Arts and Sciences, the College of the Arts, the College of Communication and Information, the College of Technology, and the College of Nursing, forms may be obtained from the Division of Graduate Studies, Office of Graduate Admissions, Cartwright Hall. For programs in the College of Education, Health and Human Services, applications may be obtained from the college's Office of Student Services, 418 White Hall. Applications for programs in the College of Business Administration may be obtained from the Graduate School of Management, Room 310A, Business Administration Building.
3. Submit an application at least six weeks before the start of the semester of first coursework. Some programs may have much earlier deadlines. Check individual departments or schools in this catalog for other deadlines and further information.
4. Have official transcripts from each college or university previously attended sent to the appropriate admitting office. Please consult the instructions contained in the application for admission for submission of official transcripts. Applicants need not submit transcripts of work completed at Kent State University.
5. Consult this catalog to determine if any additional supporting materials, such as a standard examination, are needed for admission to the program. Commonly required examinations include the Graduate Record Examination (GRE), the Graduate Management Admissions Test (GMAT), and the Miller Analogies Test (MAT).

Incomplete application materials will be kept for a period of one year only. After that time materials will be destroyed. Students interested in admission after one year will need to reapply. [GO TO TOP](#)

UNDERGRADUATE TRANSFER STUDENTS

Persons who have attended any other educational institution after graduating from high school must apply as undergraduate transfer students.

Application Procedures: Prospective transfer students are encouraged to apply before their junior year in college. Students applying just prior to, or after, the junior year must declare a major and a minor (if required) and should consult with the appropriate academic division concerning the suitability of their preparation for their major.

Required Credentials: To complete their application, transfer students must submit the following to the Admissions Office:

1. A transfer application form and a non-refundable application fee.
2. An official transcript from each post-secondary institution attended. These transcripts must be sent directly from the previous institutions to the Admissions Office, Kent State University, P.O. Box 5190, Kent, OH 44242-0001.
3. A final high school transcript from the following students:
 - i. Applicants with fewer than 12 semester hours of non-remedial credit earned at other colleges or universities.
 - ii. Applicants who, for special reasons, are asked by the Admissions Office to submit a high school transcript.
4. Official results of the ACT or the SAT. Test results are not required of the following applicants:
 - i. Are 21 or older at the time of their first enrollment.
 - ii. Have successfully completed 12 or more semester credit hours of non-remedial college coursework.
 - iii. Have graduated from high school three or more years prior to application.
5. Verification of high school graduation for financial aid purposes.

An interview may, in some cases, also be required by the Admissions Office.

It is required that applicants list on the application each institution attended after high school, whether or not credit was earned, and forward separate transcripts from each of these institutions. Questions regarding these requirements should be directed to the Admissions Office prior to application. Failure to comply with these requirements represents falsification of the application and will result in appropriate disciplinary action.

Admission Requirements: Generally, transfer applicants who have taken at least 12 semester hours with a cumulative GPA of at least 2.00 as computed by Kent State University (on a scale of 4.00) may be admitted to the university. Applicants who have taken fewer than 12 semester hours will be evaluated on both their collegiate and high school records. Applicants who have been dismissed from another college or university will not be considered for admission unless the students are eligible to return to that previous institution, have been out of college at least 12 consecutive months since the dismissal, or have completed at least 12 semester hours of credit at another institution with a cumulative GPA of 2.00 or better (on a scale of 4.00).

Selective Admissions: Transfer students are not directly admitted into the following programs unless they meet specific requirements beyond those for acceptance to Kent State:

- Aeronautics
- Architecture
- Art
- General Studies
- Business
- Dance
- Education
- Fashion Design
- Fashion Merchandising
- Interior Design
- Music
- Nursing
- Speech Pathology and Audiology
- Theatre

Individual requirements for these programs are listed under the respective colleges in this Catalog. Students interested in these selective admissions areas should apply one year prior to the date of anticipated enrollment. Specific questions about these areas can be directed to the Admissions Office or the individual departments/schools.

Application Deadlines: Transfer applications are reviewed on a rolling basis. Early application helps ensure early consideration for course registration, residence hall preference and financial aid. Therefore, the best time to apply is at least six months prior to anticipated enrollment. The admissions application deadline for Architecture (for both summer and fall) is May 1. Please see the [College of Architecture and Environmental Design](#) in this catalog for further admission details.

An admission to Kent State University is valid only for the specific term to which the students were first admitted. Students who do not enroll in the term to which they were admitted must submit a new application. The Admissions Office will then determine the students' admissibility for that term.

Transfer Credit Evaluation: An official evaluation of transfer credit will not be completed until students have been admitted to the university and have submitted official transcripts from all post-secondary institutions previously attended. Generally, only those non-remedial courses in which students have earned a minimum C (2.00) grade at an accredited school (as determined by the [Transfer Center](#)) will be considered for transfer. However, transfer credit earned fall 2005 and later from a regionally accredited Ohio college or university will be awarded for all non-remedial courses in which students have earned a minimum D (1.00) grade. Effective fall 2010, upper-division and lower-division credits are awarded for transfer based upon the level of course to which they are equated at Kent State. Once the Transfer Center has determined which courses are transferable, the college office that houses the student's major determines the applicability of these courses toward the desired degree. Some majors may require students to earn higher grades in specific courses or requirements. Students transferring to these majors will be held to the required grade and GPA standards.

Students who have attended schools that are not regionally accredited or that are not candidates for such accreditation are not granted credit by the Transfer Center for work completed there. The students' college office, however, may grant such credit at its discretion. Although the evaluation of a student's performance at a non-accredited institution is considered in the admissions decision, any work completed at an accredited institution takes precedence.

Kent State accepts a maximum of 11 semester hours (or 16 quarter hours) of correspondence work from an accredited institution. This work does not count toward the final year of required work in residence. [GO TO TOP](#)

GRADUATE TRANSFER STUDENTS

A maximum of 12 semester credits hours from accredited institutions offering the master's degree may be accepted for transfer towards a master's degree. A master's degree and 12 semester credit hours (or maximum 44 semester hours of graduate credit) from accredited institutions may be accepted for transfer towards a doctoral degree.

In both instances, the following must occur:

1. Graduate credit was received from that institution.
2. The work was of B (3.0) grade or better quality
3. The work fits into the student's program at Kent State
4. Credit is less than six years old for a master's degree and less than nine years old for a doctorate at the time the degree is conferred at Kent State.
5. An official transcript with an accompanying explanatory letter is filed in the department.
6. The student's advisor, department graduate committee and college dean approve.

An "accredited" institution is one that is approved or accredited by the appropriate regional accrediting agency (e.g., North Central Association of Colleges and Schools) for graduate-level work. [GO TO TOP](#)

COMBINED BACCALAUREATE/MASTER'S DEGREE EARLY IN THE STUDENT'S UNDERGRADUATE STUDIES

A Kent State University student who has achieved either a minimum 3.5 GPA after 60 semester hours, 3.4 GPA after 75 semester hours, 3.3 GPA after 90 semester hours or 3.2 GPA after 105 semester hours may apply for early admission to a master's degree program by:

1. Completing the Application for Admission.
2. Completing the Combined Baccalaureate and Master's Program form, which includes:
 - i. Listing of courses at the undergraduate level that need to be taken for the baccalaureate.
 - ii. Beginning date for graduate study.
 - iii. Listing of graduate courses to be utilized in satisfying the undergraduate degree. (In participating departments/schools, students may apply up to 12 of their accumulated graduate hours toward the completion of their undergraduate degree requirements as well. The student's undergraduate department will determine the undergraduate coursework for which graduate credits may be substituted.) In some departments, graduate coursework may be substituted only for elective undergraduate coursework and cannot be used as substitution within the major. Please check with the departmental graduate coordinator. The selection of the graduate coursework and the number of credits to be applied toward an undergraduate degree requires the approval of the chair in the student's academic department and the appropriate undergraduate and graduate deans.
3. Providing three letters of recommendation from instructors who are familiar with the student's achievements and intended academic goals.
4. Submitting any needed test scores from standardized examinations.

[GO TO TOP](#)

TRANSIENT STUDENTS

Students pursuing a degree at another institution may apply as transient students to Kent State. Such students must be in good standing. Transient undergraduate students must possess a minimum 2.00 (on a scale of 4.00) GPA to be eligible for admission. The transient permission form must be certified in writing by the registrar or college dean of the institution where the students are enrolled. Graduate students may obtain a Transient Student Application Form on the [Graduate Studies forms website](#). Transient status is for one semester only. Students wishing to attend more than one semester must reapply. Returning transient students must be in good academic standing at Kent State. A non-refundable \$10 transient student fee will be assessed for each transient admission. An ID card may be obtained through the FLASHcard Office in the Kent Student Center.

Transient International Visiting Graduate Students: Students who are in good standing in a graduate degree program at a university abroad may be admitted as transient students at Kent State University to take coursework that may apply to their degree program.

Steps for approval:

1. Completion of the International Transient Visiting Graduate Form and processing through the Office of International Admissions Office, 106 Van Campen Hall.
2. Submission of a request letter from the advisor at the home institution certifying that the student is in good standing, and a letter of acceptance from a Kent State faculty member.
3. Approval by the department/school graduate program committee and by the college dean.

International transient students are allowed to work using Kent State facilities for maximum 12 months. Students may also register for research hours or for regular courses not to exceed a total of 12 credit hours over the visiting period. Tuition will be paid by students' home institution or by a Kent State grant. Students will be identified as full-time. [GO TO TOP](#)

GUEST STUDENTS

Admission as a guest student enables students to take a limited number of courses for credit. To be admitted in this category, undergraduate students must have graduated from high school, obtained a GED certificate or achieved the equivalent; and graduate students must have earned a bachelor's degree. Guest students typically take courses for job achievement, personal enrichment or other reasons. Students pursuing a degree at another institution may apply as a guest student.

Guest students may remain in this status until no more than 18 semester hours at the undergraduate level or 6 semester hours at the graduate level of Kent State University credit have been attempted. Students cannot earn a degree in this admission status. Guest students who wish to pursue a degree program or continue after 18 semester hours (undergraduate) or 6 semester hours (graduate) have been attempted must apply for regular admission. Credit hours taken in this status may apply to a degree program with the approval of the college dean. Guest students must meet all prerequisites for courses (or obtain permission of the instructor). Graduate guest students must also obtain approval from the corresponding program coordinator. Individuals who have been denied admission to or are under dismissal from Kent State are not eligible for guest student status. Guest students are not eligible for financial aid. [GO TO TOP](#)

FORMER KENT STATE STUDENTS

Former Kent State University students who withdrew from or left the university in good standing, or who left on academic probation and in the interim have not attended another post-secondary institution do not need to apply for readmission. These students should contact the [Office of the University Registrar](#) for current enrollment and registration procedures. Students who have attended another institution since leaving Kent State will be required to apply for admission as transfer students, submit official transcripts and pay the non-refundable application fee. For information concerning former students who have been dismissed from the university, see Dismissal and Reinstatement Policy in the [Requirements for Graduation](#) section of this Catalog.

The [Center for Adult and Veteran Services](#) provides general advising/counseling, information, referrals and assistance for all undergraduate groups of students if they meet the "adult student" criteria. [GO TO TOP](#)

ADULT STUDENTS

Adult undergraduate students are those whose primary life roles and responsibilities exist independent of the university and, in times of crises or stress, take precedence over the role of student. This will include those students who wish to take a majority of their classes after 5 p.m. and/or on weekends. Prospective and admitted students who meet this criteria should contact the [Center for Adult and Veteran Services](#) for counseling and help with procedures.

Undergraduate students who are 21 years or older and will have been graduated from high school for three or more years at the time of their first college enrollment are considered freshman adult students. Students fitting these criteria and who have earned a GED with a comprehensive score of at least 265 and whose high school class will have been graduated for three years or more at the time of the applicant's first enrollment are also classified as adult students. Adult students who have earned previous credits at any post-secondary institution are considered transfer students. Official transcripts from each school attended must be provided for admission consideration. For adult students who have completed 12 or more semester hours of transferable college credit elsewhere, a high school transcript is not required. (See required credentials in the Transfer Students section, above.) [GO TO TOP](#)

HOME-SCHOOLED STUDENTS

Kent State welcomes applications from home-schooled students. Students who are home-schooled may submit an equivalent diploma through a successful General Educational Development (GED) examination and an ACT/SAT* score, or submit the following information for admission consideration:

1. Written verification from the appropriate school district that the student has been excused from compulsory attendance for home education
2. ACT or SAT* score.
3. A portfolio of the student's work reflecting all secondary coursework completed

Students should complete a program of study that covers the material in the full college preparatory program recommended by the Ohio State Board of Education. Non-Ohio students should submit appropriate supporting documents as required by their home state. Please contact the [Office of Admissions](#) for further details.

* Since Kent State Regional Campuses do not require ACT/SAT scores for admission, this requirement may be waived by the appropriate campus. [GO TO TOP](#)

INTERNATIONAL STUDENTS

Applicants who are not citizens of the United States or currently maintaining immigration status in the United States as a Legal Permanent Resident, Refugee or Asylee must apply as international students. International students who wish to enter Kent State University should allow six months from the date of initial correspondence to the beginning date of classes to complete the application process. This will generally ensure enough time for international applicants to obtain a student visa and make international travel arrangements.

All international applicants (both undergraduate and graduate) must submit the following application materials to the [Office of International Affairs](#):

1. A special international application form and a \$60 non-refundable fee. The application may be completed [online](#) or a paper application sent to the Office of International Affairs, Kent State University, 106 Van Campen Hall, 625 Loop Road, Kent OH 44242-0001 U.S.A
2. A complete and official educational record, certificate, diplomas and degrees, either issued or attested to by the institution attended. All documents must be certified and bear the seal of the endorser; unofficial photocopies are not acceptable. In addition, all documents must be accompanied by literal English translations.
3. Evidence of English-language proficiency as described in the application for admission. Applicants whose native language is not English must take the Test of English as a Foreign Language (TOEFL) and have an official test result submitted to Kent State University. Full information concerning this test is sent with application materials. All arrangements for taking the TOEFL or having additional score reports sent to institutions should be directed to the Test of English as a Foreign Language, Educational Testing Service, Box 899, Princeton, NJ 08540, U.S.A.
4. An affidavit of support accompanied by a financial statement. This statement serves as a notification to Kent State University of the source and amount of funds available to a student during his/her period of stay in the United States, and must accompany every application for admission. The "Certificate of Eligibility" will not be issued until Kent State University has sufficient evidence of financial support for the applicant's entire period of study.
5. Information about other criteria for admission will be forwarded with the application forms.

International students wishing to attend one of the Regional Campuses must apply and be admitted through the Office of International Affairs on the Kent Campus. All enrolled international students must apply and pay for the student group accident and health insurance policy provided by the university. Information about the student group accident and health insurance policy is available from [University Health Services](#).

The Office of International Affairs provides pre-arrival information, a comprehensive orientation program and immigration services for international students admitted to Kent State University.

See the Transient Student Policy, above, for international students desiring transient status at Kent State. [GO TO TOP](#)

POST-UNDERGRADUATE STUDENTS

Those who have received a bachelor's degree from an accredited college or university other than Kent State University and who wish to take undergraduate courses at Kent State may apply as post-undergraduate students. Kent State graduates who have taken coursework elsewhere since leaving Kent State are also considered post-undergraduates. Baccalaureate graduates of Kent State University who have not attempted subsequent college work do not need to reapply to the university but do need to declare their intent to the [Office of the University Registrar](#). Typically, post-undergraduate students take undergraduate courses to pursue an additional baccalaureate, to prepare for graduate school or to enrich themselves.

A post-undergraduate application form is available online on the [Admissions website](#). Kent State requires a non-refundable application fee and an official transcript from the college or university where the baccalaureate was earned. Students seeking a second undergraduate degree must also submit official transcripts from all colleges and universities attended. [GO TO TOP](#)

EVENING AND WEEKEND STUDENTS

Students having professional or personal obligations that preclude attending Kent State during traditional weekday hours can attend classes during evenings, weekends or a combination of both. It is possible to work toward a degree by attending during the evening hours. Students should contact the academic departments/schools regarding availability of specific evening-degree programs. Students intending to enroll in evening/weekend classes should complete the admissions application, submit an official high school transcript (if they are new freshmen or transfer students with fewer than 12 hours of transfer credit) and official transcripts from all post-secondary schools previously attended. A non-refundable application fee is also required. Pre-admission advising is available through the [Center for Adult and Veteran Services](#). [GO TO TOP](#)

NON-DEGREE AND SPECIAL NON-DEGREE STUDENTS

Admission as a special non-degree student enables students to take a limited number of courses for credit (either full time or part time). Students in this category are generally not seeking a degree, but wish to take courses for job achievement, personal enrichment, intellectual curiosity or other personal reasons. Special non-degree students may apply to Kent State for any semester through the [Office of Admissions](#). Undergraduate adult students may apply through the [Center for Adult and Veteran Services](#). A non-refundable \$40 application fee is required. Admission is based on the same criteria detailed above for undergraduate, graduate or transfer students, whichever is appropriate.

Undergraduate special non-degree students may remain in this special status for one academic year or until a maximum of 45 semester hours of credit is earned. Should special non-degree students wish to pursue a degree program, they may, prior to or upon earning 45 semester hours, apply to any undergraduate division of the university. Admission to a degree program, however, is based upon the admissions requirements established by each academic department or school.

Graduate non-degree students must have official transcripts from each college or university previously attended (except Kent State University) sent to the Division of Graduate Studies, Office of Graduate Admissions, Kent State University, P.O. Box 5190, Kent, OH 44242-0001. They should submit the application a least six weeks prior to the start of the semester in which they plan to begin their work. Application deadlines vary across programs. Applicants should check individual departments or schools for deadlines and further information.

Students who are taking graduate certificate programs should apply as a non-degree student, unless they are already in a concurrent degree program. Maximum 12 semester hours of such credit may be petitioned to satisfy requirements of a degree program. Such a petition must receive approval of the department/school and the college dean. Note that only 6 semester credit hours can be transferred in some departments/schools graduate programs. Non-degree students may not transfer credit earned at another university.

Persons who have earned a graduate degree from an accredited institution may be admitted as graduate non-degree students, subject to departmental approval, after making application and filing evidence of such degree with the appropriate college or independent school.

In order to retain active status, graduate non-degree students must register for coursework within two years after the admission date. Admission of students who do not register within two years will be inactivated. Reapplication must be made if the students desire to register for coursework at this time. Once registered, graduate non-degree students may continue to take courses for six years. Six years after the first registration, non-degree students will be inactivated and must reapply for admission if continued registration in graduate coursework at Kent State University is desired. Anyone who has been denied admission to graduate studies, or is under dismissal from the University, is not eligible for graduate non-degree student status.

All fees, deadlines and performance standards for degree students apply to non-degree students. [GO TO TOP](#)

NON-TRADITIONAL MASTER'S DEGREE STUDENT

In rare instances, a person who has not completed a baccalaureate will be considered for admission to graduate school due to unusual and exemplary experiential learning. Such an applicant may apply for admission by presenting for departmental consideration a curricular plan encompassing undergraduate and graduate coursework to achieve a liberal educational background and professional graduate degree and three letters of recommendation attesting to the applicant's potential for graduate study. Upon departmental recommendation and the approval of the college dean, the applicant will be admitted to undertake graduate work. Upon successful completion of the curricular plan and the particular master's degree requirements, the student will be awarded the master's degree. [GO TO TOP](#)

VETERANS

Ohio veterans of the Armed Services who did not graduate from an accredited high school and who are 21 years of age or older will be considered by Kent State University if they have passed the General Educational Development (GED) examination. Certain training courses provided in the Armed Services may be acceptable for college credit. Certificates of completion for such courses should be submitted to the [Office of Admissions](#) for consideration. Veterans may also seek assistance with pre-admission counseling through the [Center for Adult and Veteran Services](#). [GO TO TOP](#)

GRADUATE WORKSHOPS AND INSTITUTES

The [Office of Continuing and Distance Education](#), in cooperation with academic departments, offers a variety of credit workshops. These workshops are especially designed to meet identified needs of various professions. Each workshop is set up to recognize the needs of the audience in terms of time, place, format and content.

A student holding a bachelor's degree from an accredited institution and who has been accepted by a workshop director for a specified workshop, institute or other special program offering graduate credit may be admitted as a special non-degree workshop student for the term of the workshop only. Prerequisites for admission are set by the instructional department. The temporary admission is valid for only one workshop consisting of a maximum of 12 semester hours. Students desiring to take other non-workshop graduate courses concurrently with the workshop or to do graduate work beyond the length of the workshop term must apply for admission to the appropriate college or school under regular procedures. A student may reapply for subsequent workshop participation under workshop admission regulations.

A maximum of 4 semester credit hours earned in graduate workshops may be applied to a graduate degree program. All workshops are graded S/U (satisfactory/unsatisfactory). Some departments may be more restrictive. Students are advised to consult their departments regarding application of workshop credit toward degree requirements. [GO TO TOP](#)

OVERVIEW

The Air Force ROTC (AFROTC) program provides professional preparation for students considering service as officers in the U.S. Air Force. The program offers information on Air Force career opportunities and the role of the military in the American society.

CURRICULUM

Registering: Courses normally are taken for academic credit as part of the students' electives. Entering freshmen and sophomores may register for aerospace studies courses at the same time and in the same manner as they enroll in their other college courses.

The curriculum in aerospace studies is divided into two parts: the General Military Course (usually taken during the freshman and sophomore years) and the Professional Officer Course (normally taken during the junior and senior years). Air Force officers are assigned as full-time faculty members and teach all aerospace studies courses. Freshmen may register for ASTU 10101 and 10103 for the fall term and ASTU 10102 and 10104 for the spring term; sophomores may register for ASTU 20101 and 20103 for the fall term and ASTU 20102 and 20104 for the spring term. The courses include 1 hour of academic instruction and a 2-hour leadership laboratory each week. Non-scholarship students incur no military obligation when enrolled in freshman- and sophomore-level courses. Juniors will register for ASTU 30101 and 30103 for the fall term and ASTU 30102 and 30104 for the spring term. Continuing seniors in the AFROTC program will register for ASTU 40101 and 40103 for the fall term and ASTU 40102 and 40104 for the spring term. Upon accepting a scholarship or beginning the first day of the junior-level course, students must contract with AFROTC and incur a military obligation. Students may enroll in any level AFROTC academic course (except leadership laboratory) for elective credit only and not incur a military obligation. Due to the excellent leadership and management training, as well as the hands-on experience in the POC, the students are eligible to receive additional credit for activities completed while in the program.

The General Military Course (GMC) is offered in four-part lower-division aerospace studies courses. Each course consists of 1 hour of academic instruction per week and 15 leadership laboratory contact hours per semester. Non-scholarship membership in the GMC affords students the opportunity to learn about the Air Force and its role in the American society. Students who do not want commissions may take the aerospace studies courses for academic credit only. There is no military obligation incurred by enrolling in the GMC.

The Professional Officer Course (POC) is a four-part upper-division aerospace studies course. Each course consists of 3 hours of academic instruction per week and 15 leadership laboratory contact hours per semester. Entrance into the POC is limited to qualified students desiring to compete for Air Force commissions. Enrollment in this program is based upon a cumulative GPA, physical qualifications and leadership potential. Veterans with previous honorable, active, U.S. military service who wish to enroll in the POC may be eligible for a waiver of either the GMC or its equivalent as an entrance requirement. Veterans who meet all other requirements will be enrolled at the beginning of their junior year. Uniforms and textbooks are provided at no charge to all students enrolled in AFROTC. Textbooks are returned upon completion of each academic year or upon withdrawal from the course. Uniforms are returned upon withdrawal from the course.

FINANCIAL ASSISTANCE

Students who demonstrate academic and leadership potential may be selected by the professor of aerospace studies to compete for scholarships. These scholarships are for two or three years, and are awarded in all majors. The scholarship award includes tuition, textbook allowance, some course fees and a monthly tax-free stipend.

Scholarship Program: Air Force ROTC students enrolled in the Professional Officer Course (juniors and seniors) who are not already on scholarship are eligible for a \$450-\$500-per-month stipend. Room incentive scholarships are also available.

- » FINANCIAL ASSISTANCE
- » FACULTY
- » COURSES

Scholarship Statement of Understanding: Air Force ROTC scholarship recipients must meet and maintain certain academic and military retention standards and serve in the active-duty Air Force after graduation.

Roadmaps

Program Requirements

College Requirements

University Requirements

DESCRIPTION: The Architectural Studies program is directed at three populations:

1. Students interested in environmental design seeking a basis for further study and eventual employment in cultural theory and criticism, urban planning and design, studio art and other fields where an architectural sensibility may provide a strategic advantage.
2. Students who plan to complete a terminal professional design program in a second-entry master's degree-level program and seek the broadly based education valued by such programs.
3. Students who combine architectural education with studies in other disciplines (e.g., journalism, geography, information technology, graphic design, library sciences, marketing and management) instead of a full studio and technically based professional program.

CAREER OPPORTUNITIES: Upon completion of the four-year bachelor's degree, graduates may seek employment in the construction and development industries, develop careers in cultural theory or pursue a variety of professional graduate programs including law, architecture and business.

ADMISSION REQUIREMENTS: Application deadline is January 31. All applications must include the \$40 application fee, official American College Test (ACT)/Scholastic Aptitude Test (SAT) scores and an official high school transcript which shows class rank and coursework in 9th, 10th and 11th grades, as well as the courses that are being taken or will be taken in the senior year. Transcripts that do not show class rank and senior courses cannot be considered. All completed applications received by the deadline will be reviewed.

Applicants will be considered based on the following criteria:

- High school GPA.
- High school class rank.
- ACT/SAT scores.

Applicants will be notified of their admission status by March 1. Those offered admission must notify the college of their acceptance by April 1.

High school students who have applied to the architecture professional program (B.S. in Arch.) or the interior design program and have not been accepted may qualify for admission into the Bachelor of Arts in Architectural Studies nonprofessional program.

General Admission for Transfer Students: General admissions for transfer students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the Admissions website for transfer students <http://www.kent.edu/admissions/undergraduate/transfer/index.cfm>.

Also, see transfer student admissions for selective programs:

<http://www.kent.edu/admissions/undergraduate/transfer/selective-requirements.cfm>.

GRADUATION REQUIREMENTS: Minimum 125 credit hours, including all required coursework. Minimum 2.25 GPA in the major and 2.00 cumulative GPA.

STUDY ABROAD/AWAY OPPORTUNITIES: The college offers full-semester programs abroad for qualified fourth-year Architectural Studies majors. The study abroad program is housed in the 13th-century Palazzo dei Cerchi, located in the heart of historic Florence, Italy. The program is open to all students who have made satisfactory progress toward completion of their undergraduate program

PROGRAM FEE: \$50/semester

GRADUATE PROGRAMS: Master of Urban Design

Areas of Study

Kent State University Catalog 2010 - 2011 > [Areas of Study](#)

Kent State University offers 236 bachelor's degree programs, 6 combined bachelor's/master's degree programs, 50 associate degree programs, 100 minors and 40 for-credit undergraduate certificate programs.

A bachelor's degree is an academic degree that generally requires a minimum of four years of full-time study.

A combined bachelor's/master's degree comprises a program of study available to students with outstanding undergraduate records or exemplary professional credentials. Typically, students in a combined degree program move at a more accelerated pace than students taking individual bachelor's and master's degree programs.

An associate degree is a two-year program of a technical or general nature offered at one of the university's seven Regional Campuses.

A minor is a secondary field of study represented by a set of department-determined courses, generally between 18 and 24 credit hours.

A for-credit certificate program is a course of study designed to meet a specific need. Post-secondary (i.e., undergraduate-level) certificates are completed within one to four years and consist of between 15 and 25 credit hours. Graduate certificate programs that address contemporary, topical and/or workplace issues are offered in several academic units. The graduate certificate programs are designed to deliver focused instruction and formalized guidance in a flexible manner. Graduate certificate programs are open to degree-seeking as well as graduate non-degree students. Students must meet the admission requirements for the specific graduate certificate being sought and must declare their intent to earn the certificate.

OVERVIEW

Kent State University's Army ROTC has served the university and the nation since 1947 by preparing students for service as professional officers in the United States Army. Since its inception, the department has commissioned over 1,100 officers. The military science program at Kent State offers a four-year course of study that adds practical management training and leadership experiences to students' chosen academic degrees.

Students whose career goals require leadership or managerial skills, those with an interest in the national defense structure and role of the military in society, or those students wishing to explore the financial benefits of the ROTC program and the Army are encouraged to enroll in the introductory lower-division military science courses. These courses can be applied as elective credit toward most undergraduate degrees. Enrolling in military science courses follows the same procedure as other university courses. Participation is voluntary and requires no military obligation.

CURRICULUM

The military science curriculum is unified by the study of leadership, discipline and personnel management. Students will study leadership theory and dynamics through case studies, Army doctrine, military history and practical exercises. The program is divided into two segments: the Basic Course and the Advanced Course.

Basic Course: The Basic Course introduces students to the role of the military in society, the fundamentals and dynamics of leadership and management, and the practical application of these fundamentals. There is no military obligation for enrolling in any of the Basic Course classes, and all undergraduates are eligible to enroll. Freshmen are encouraged to enroll in MSCI 10180 and MSCI 10185 with the accompanying leadership seminar MSCI 10191. Sophomores are encouraged to contact the program's enrollment officer for guidance on military science placement. Students who have prior military service through active or reserve components can receive basic course credit and are eligible for placement into the Advanced Course.

Advanced Course: The Advanced Military Science courses are open to students who have completed the Basic Course requirements and desire to commission as Army Officers. These upper-division courses involve military leadership, Army logistics, personnel management principles, ethics, military law and further will enhance the preparation of the professional officer. An additional 32-day summer practicum allows students to put into practice their learned skills while being evaluated on their leadership abilities. Students who successfully complete the Advanced Course and earn their degrees from Kent State University will serve as officers in the U.S. Army.

FINANCIAL ASSISTANCE

Scholarships: Students who demonstrate academic and leadership potential may apply for Army ROTC four-, three- and two-year scholarships. The scholarship pays tuition and fees (excluding flight fees) up to \$20,000; \$300- to \$500-per-month tax-free grant; and \$1,200-per-year book allowance. Two- and three-year scholarship applications are available only on campus and are under the immediate control of the Army ROTC program. Applications are taken year-round. Scholarship eligibility criteria include: college GPA, ACT/SAT results (three- and four-year applicants only), extracurricular activities and work, an interview and review board. Four-year scholarship applications are due by Dec. 1 of the students' senior year in high school. Those who are interested may contact the Kent State Army ROTC office, their local guidance counselor, or 800-USA-ROTC for an application or apply online at www.armyrotc.com. All scholarships are awarded based on merit rather than need, and on-campus scholarships are on a first-come basis. All academic

- » FINANCIAL ASSISTANCE
- » OTHER PROGRAMS AND INFORMATION
- » SERVICE MEMBERS OPPORTUNITY COLLEGES
- » FACULTY
- » COURSES

majors are eligible to apply.

University Incentives: For students interested in participating or who are currently enrolled, Kent State University has given its ROTC program dormitory room incentives and financial incentives to use toward discretionary scholarships. These incentive scholarships are awarded annually to scholarship and non-scholarship students in the program.

OTHER PROGRAMS AND INFORMATION

Simultaneous Membership Program: Members of the Army National Guard or Army Reserves or students who have completed the ROTC Basic Course are eligible to participate in the Simultaneous Membership Program (SMP). SMP students serve as officer trainees in a local National Guard or Reserve unit while attending Kent State University full time and taking military science classes. Upon graduation and completion of the ROTC program, SMP students either will receive a commission as a second lieutenant in the National Guard or Reserves or go on active duty. In addition to becoming officers, students will receive all eligible financial benefits of the National Guard or Reserves. All students currently participating in a National Guard or Reserve program while attending Kent State University should look into the Army ROTC program. Service time while in school counts toward military pay.

Leader's Training Course (LTC): Students who have not taken the Basic Course classes but wish to pursue a commission and receive some financial benefits of the ROTC program can attend a 28-day summer camp in lieu of the two-year Basic Course. Leader's Training Course (LTC) teaches the skills required to complete the on-campus program and offers students practical leadership experience by performing as cadet leaders throughout the camp. LTC is challenging, both mentally and physically. Upon completion, students are eligible for placement in the Advanced Course, two-year scholarship benefits and entrance into the SMP program (see above). In addition to LTC, there are other "Alternative Entry Options" to begin the ROTC Advanced Course program.

Career Opportunities: The Army has 16 branches with a variety of job descriptions for newly commissioned officers. Areas such as communications, finance, military intelligence, Corps of Engineers, military police, nursing, etc., offer the new officer a variety of career options. Whether the Army is a career aspiration or a résumé-building first job, the opportunities are limitless.

Departmental Programs: Students may elect to participate in activities beyond their course of study. Other activities such as physical conditioning, land navigation, rifle marksmanship and water survival are examples of other programs complementing the military science study. Airborne and Air Assault School training also is available to qualified students.

The ROTC Cadet Ranger team is a training-oriented student group emphasizing leadership experiences, group dynamics and advanced military skills. Team members compete in regional competitions against other university programs.

Highlights: The following are some final highlights of the Army ROTC program:

- Nursing students are encouraged to consider the ROTC Program and compete for scholarships through the Army ROTC Department. Scholarship recipients serve in the Army Nurse Corps upon graduation.
- U.S. Army specialty slots to Airborne School, Air Assault School, Northern Warfare School, Survival Training and others are available annually to enrolled student-cadets.
- The Army ROTC provides textbooks and uniforms for freshman and sophomore students. All materials needed for the courses are provided by the Department of Military Science.
- Students who enter active military service after graduation may defer payment of national direct student loans or nursing student loans for up to three years.
- The Department of Military Science also offers the Advanced Course cadets "staff rides," trips to historic sites where military campaigns and history are studied. Staff rides include the cost of transportation and lodging. Past trips included sites such as Niagara Falls, Canada and Gettysburg.

SERVICE MEMBERS OPPORTUNITY COLLEGES

Kent State University is a member of Service-Members Opportunity Colleges, a consortium of over 1300 institutions pledged to be reasonable in working with service members and veterans trying to earn degrees even while pursuing demanding, transient careers. As a SOC member, Kent State's Army ROTC is committed to easing the transfer of relevant course credits, providing flexible academic residency requirements and credit learning from appropriate military training and work experiences. SOC is sponsored by 15 national higher education associations with the military services, the National Guard bureau and the Office of the Secretary of Defense serving as cooperating agencies.

[Kent State University Catalog 2010 - 2011](#) > [About Kent](#) > [Celebrating Differences](#)

Kent State University is by its very nature an institution of intellectual, social and cultural diversity. The university is thus an ideal place to learn about the different cultures and experiences of people in the United States, as well as the rest of the world. Education at Kent State occurs through a variety of formal instructional settings, co-curricular activities and less formal opportunities to meet and get to know other students, staff and faculty. The wide variety of people of differing races, ethnic backgrounds, beliefs and values constitutes one of the greatest strengths of the university. It is important to take advantage of this resource and to learn from one another about the diversity of the human community. Such an opportunity can exist only in an environment in which each student feels a part of the university community. To this end, the university encourages an atmosphere in which the diversity of its members is understood and appreciated; an atmosphere that is free of discrimination and harassment based on race, religion, ethnic heritage, age, country of national origin, disability, gender, sexual orientation or veteran status. Thus, all members of the university are expected to join in creating a positive atmosphere in which we can learn in an environment that is sympathetic, respectful and supportive.

Within this environment, Kent State offers an opportunity to all students for an education that will prepare them to pursue successful careers and to become good citizens and productive members of an increasingly diverse society in the United States and the world at large.

The Columbus Program in Intergovernmental Issues provides students the opportunity to experience first-hand public policy making process in Ohio's state capital while earning a full semester's credit toward graduation. The program is open to students from all academic disciplines who have completed at least 45 hours of college coursework with a minimum 2.5 GPA. The program is a unique learning community and requires full-time residence in Columbus during the fall semester.

Students receive 15 credit hours of academic credit, broken down as follows:

1. 6 credit hours of credit for attending regular briefings
2. 6 credit hours for completing an internship in Columbus
3. 3 credit hours for completing the requirements for POL 30430 State Government, taken while residing in Columbus

The program is offered, in part, with the cooperation of Kent State alumni living and working in the greater Columbus area and, thus, offers students excellent career networking opportunities.

Combined Baccalaureate and Master's Programs

Kent State University Catalog 2010 - 2011 > Areas of Study > [Combined Baccalaureate and Master's Programs](#)

Persons with outstanding undergraduate records or exemplary professional credentials may be eligible for one of the following enrollments in a combined baccalaureate and master's program:

I. A Combined Baccalaureate/Master's for Degree Students Early In Their Undergraduate Studies

Students who have achieved a GPA of one of the following

- 3.50 after 60 semester hours
- 3.40 after 75 semester hours
- 3.30 after 90 semester hours
- 3.20 after 105 semester hours

may apply for early admission to a master's degree program by successfully accomplishing the following:

A. Completing the Application for Admission.

B. Completing the Combined Baccalaureate and Master's Program form, which includes:

1. Listing the courses at the undergraduate level that need to be taken for the baccalaureate degree.
2. The Beginning date for graduate study.
3. Listing of graduate courses to be utilized in satisfying the undergraduate degree. (In participating departments/schools, students may apply up to 12 of their accumulated graduate hours toward the completion of their undergraduate degree requirements as well. The students' undergraduate department will determine the undergraduate coursework for which graduate credits may be substituted). In some departments graduate coursework may be substituted only for elective undergraduate coursework and cannot be used as substitution within the major. Please check with the graduate coordinator in your individual department. The selection of the graduate coursework and the number of credits to be applied toward an undergraduate degree requires the approval of the graduate chair in the students' academic department and the appropriate undergraduate and graduate deans.

C. Providing three letters of recommendation from the instructors who are familiar with the students' achievements and intended academic goals.

D. Submitting any needed test scores from standardized examinations.

II. Combined Baccalaureate/Master's Program for Specified Professional Programs

1. Combined Baccalaureate/Master's Degree Program in Speech Pathology and Audiology Leading to Clinical Certification

Students who have earned 90 semester hours and achieved a minimum GPA of 3.00 may, with approval of the School of Speech Pathology and Audiology, apply for admission to the combined program. Admission will be based upon satisfactory GRE scores, three letters of recommendation and completion of the Application for Admission and Combined Baccalaureate and Master's Program forms.

2. Combined Baccalaureate/Master's Program in the College of Business Administration and Graduate School of Management

Students must have earned 90 semester hours to apply for the Combined Baccalaureate/Master's Program in the College of Business Administration. In addition, they must meet the GPA requirements outlined under Item I.

3. Combined Baccalaureate/Master's Program in the Center for International and Comparative Programs and the Graduate School of Management Leading to the Bachelor of Arts and Master of Business Administration Degrees

Students must be international relations majors and complete their undergraduate coursework in the first three years of study. In addition, students must pass a language proficiency exam, have a cumulative GPA of 3.30 and earn a minimum GMAT score of 525 before being admitted to the M.B.A. program. In the fourth year of this combined program, students take graduate business courses that are applicable to the undergraduate degree as electives and to the M.B.A. degree as foundation coursework. During the final year, students take advanced

graduate business coursework leading to the M.B.A. degree.

4. Combined Baccalaureate in Fashion Merchandising/Master of Business Administration in the College of Business and Graduate School of Management Fashion merchandising majors who qualify may enroll in the combined Bachelor of Science in Fashion Merchandising/Master's of Business Administration program and complete both degrees within five years. Careful planning and advising are needed in order to successfully complete the programs in a timely way. Students intending to follow this plan should work closely with their faculty advisor. In the freshman year, the math choice should be MATH 11012 or MATH 12002. When the student has achieved 90 hours or more in the merchandising program (beginning of the junior year) and has a GPA of 3.30 or higher, he or she should apply for conditional admission to the M.B.A program. This application must occur no later than April 1 of the junior year. The GMAT exam must be completed with an appropriately high score at the time application is made.
5. The Combined Bachelor of Science/Master of Arts in Visual Communication Design This is a five-year degree program with optional concentrations in 2-D graphic design, 3-D graphic design and illustration. Students who pass the junior portfolio review, complete a minimum of 90 semester hours, demonstrate excellence in formal organization, conceptual problem-solving abilities and technical skills and maintain a minimum 3.00 overall GPA and a 3.25 in the major will be invited or may petition to enter this program. An overall GPA of 3.00 and a major GPA of 3.00 in both the bachelor's and master's programs will be required for graduation.
6. The Combined Bachelor of Science/Master of Science in Nursing Program An accelerated combined degree program for undergraduate KSU nursing students who have completed 60 semester hours and meet the GPA requirements delineated in Combined Baccalaureate/Master's for Degree Students Early In Their Undergraduate Studies. Qualified students may apply by completing an application for admission to the Master of Science in Nursing (MSN) program of choice and gaining approval from the appropriate graduate faculty program director. A plan of substituting selected master's core courses for selected undergraduate courses should be carefully worked out with the faculty advisor. Following graduation and passing the state licensing examination (NCLEX-RN), students' MSN application may be activated for admission into the selected master's program.

III. A Nontraditional Master's Degree Student

In rare instances, persons who have not completed a baccalaureate degree will be considered for admission to the appropriate graduate unit due to unusual and exemplary experiential learning. Such applicants may apply for admission by presenting for

departmental consideration a curricular plan encompassing undergraduate and graduate coursework to achieve a liberal educational background and professional graduate degree and three letters of recommendation attesting to their potential for graduate

study. Upon departmental recommendation and the approval of the dean of the appropriate graduate unit, the applicants will be admitted to undertake graduate work. Upon successful completion of the curricular plan and the particular master's degree

requirements, the students will be awarded the master's degree.

[Kent State University Catalog 2010 - 2011](#) > [Course Information](#) > [Course Numbering](#)

The numbering system for courses of study at this institution is as follows:

10000-19999	Freshman level
20000-29999	Sophomore level
30000-39999	Junior level
40000-49999	Senior level
50000-59999	Graduate level
60000-69999	Graduate level
70000-79999	Doctoral level
80000-89999	Doctoral level

Undergraduate courses (10000-49999) are generally open to students of a class rank equivalent to the levels indicated. Students participating in the Honors, Early Admissions and Advanced Placement programs, as well as those who otherwise present evidence of qualifications beyond their class rank, may enroll in the appropriate undergraduate courses with the approval of their advisors and the instructors or departments offering the courses.

Most courses are offered in a regular sequence to meet students' programmatic needs; however, the availability of any specific course in a given semester is subject to sufficient student demand and available resources. Some courses require that a fee be paid in addition to instructional and general fees. These special fees, listed with the Catalog copy for each appropriate course, are subject to change at any time, upon approval by the Board of Trustees.

Undergraduate students may enroll in graduate courses only with prior written approval of their academic deans and the dean of the appropriate graduate school.

Many of the 50000-level courses are also offered at the 40000 level for undergraduates. Students who have already completed 40000-level courses may not repeat the courses at the 50000-level for credit toward a graduate degree. No more than one-half of a graduate student's coursework may be taken in 50000-level courses.

Students who do not meet the course prerequisite(s) may appeal to the department for approval to register.

Destination Kent State

Kent State University Catalog 2010 - 2011 > University Policies > [Destination Kent State](#)

Destination Kent State is a three-part orientation program designed for first-year students to familiarize them with Kent State University, and provide them with the tools necessary to enjoy a successful journey to graduation.

ADVISING AND REGISTRATION

[Advising and Registration](#): All admitted freshmen are required to attend Destination Kent State to register for their first semester courses. Students admitted for the summer and fall semester and their parents are invited to campus for a one-and-a-half day orientation to Kent State beginning in June. Freshmen admitted for the spring semester attend a one-day orientation to Kent State in November or January. The primary goals of Destination Kent State: Advising and Registration are to acquaint students and family members with university programs and services; provide an individual advising session for each student; and register students for first semester classes.

Family programming is also available to assist families in partnering with their student and Kent State to make a successful transition to college. Families are welcome to stay overnight on campus during the summer program. Special program opportunities are designed for adult students and those who will need to register in absentia.

WELCOME WEEKEND

[Welcome Weekend](#) is a required three-day orientation program that occurs the weekend prior to the start of the fall semester. All new students are required to participate in the weekend events. The weekend is designed as an opportunity for students to become familiar with their new surroundings and gain valuable information and skills to prepare them for their new academic, co-curricular and extracurricular journey. Special program opportunities are designed for transfer, adult and commuter students. Students who enroll for the spring semester are also invited to attend an orientation program offered to students prior to the beginning of the spring semester.

FIRST YEAR EXPERIENCE (FYE) COURSE

The [First Year Experience course](#) (US 10097) is designed to assist students in making a successful academic transition to the university through experiential and/or intellectually engaged discipline-based content.

Faculty and student instructors, academic advisors and professional staff assist students in understanding Kent State's expectations for a university community, as well as the academic requirements of the university and college. Students enrolled in the FYE course also have an opportunity to select from a variety of workshops offered through the Student Success Series to fulfill course requirements.

The FYE course is required of all new freshman and transfer students with 24 or fewer semester hours and who are 20 years or younger at the time of their initial Kent State University enrollment. Students who have earned a GED are encouraged to enroll in the course regardless of age or credit hours earned. Special course opportunities are available for transfer and adult students.

Diversity Course Requirement

Kent State University Catalog 2010 - 2011 > University Policies > [Diversity Course Requirement](#)

The purpose of Kent State's diversity requirement is to help educate students to live in a world of diverse communities, many of which are becoming increasingly permeated with cultural and ideological differences. The study of diversity is intended to promote awareness of local and global differences, to identify shared values, to improve understanding of one's own culture, and to encourage people to explore and respect differences.

The diversity requirement is part of the university's broader efforts to encourage, both at the university and beyond, the development of communities in which all members and their contributions are recognized and valued. Diversity courses provide opportunities for students to learn about such matters as the history, culture, values and notable achievements of people other than those of their own national origin, ethnicity, religion, sexual orientation, age, gender, physical and mental ability, and social class. Diversity courses also provide opportunities to examine problems and issues that may arise from differences, and opportunities to learn how to deal constructively with them.

Undergraduate students at Kent State are required to complete a two-course diversity requirement, consisting of one with a domestic (U.S.) focus and one with a global focus. One course must come from the [Kent Core](#). The second course may be taken as a second Kent Core, within a major or minor, or as a general elective; or, with dean's approval, by completing one semester of study in another country.

[Diversity with Domestic Focus](#)

Financial Aid Programs Administered by Kent State

Kent State University Catalog 2010 - 2011 > Fees and Financial Aid > [Financial Aid Programs Administered by Kent State](#)

Kent State University administers the financial aid programs listed below. Eligible financial aid applicants may be considered for one or more of these programs. The university is not obligated to meet the financial need of students. Awards are based on eligibility requirements, date of application and availability of funds for each program. Students attending a Regional Campus are eligible for similar financial aid packages as those attending the Kent Campus. In addition, other scholarships and/or financial aid may be available locally. For more complete information about financial aid opportunities, students should check with the particular campus

Federal Pell Grant

The Federal Pell Grant is a federal grant available to eligible undergraduates who have not completed the requirements for a baccalaureate degree and are in compliance with the Student Financial Aid Office Standards of Satisfactory Academic Progress. Eligibility is based on the federal formula for determining financial need and is available to full-time and part-time students.

Federal Supplemental Educational Opportunity Grant (FSEOG)

The FSEOG is a federal grant available to undergraduates who demonstrate exceptional financial need (must be Pell Grant eligible) and are in compliance with the Student Financial Aid Office Standards of Satisfactory Academic Progress. At Kent State University, exceptional-need students are those with low expected family contributions (as calculated using the federal formula). This award is available to students who are enrolled in at least 6 credit hours per semester and is limited by the availability of funds. Consideration is first given to those students who demonstrate financial need and who meet the priority deadline.

Federal Academic Competitiveness Grant (ACG)

The ACG is a federal grant available to undergraduates who have not yet completed the requirements for a bachelor's degree and are in compliance with the Student Financial Aid Office Standards of Academic Progress. To be eligible, a student must be a Federal Pell Grant recipient, demonstrate financial need, be enrolled at least half-time in a degree program, have completed a rigorous secondary school program (as defined by the federal government) and graduated from high school after January 1, 2005. The ACG is available only during the student's first two years of college. The award amount is based on the student's financial need.

National Science and Mathematics Access to Retain Talent (SMART) Grant

The SMART Grant is a federal grant available to undergraduates who have not yet completed the requirements for a baccalaureate degree and are in compliance with the Student Financial Aid Office Standards of Academic Progress. To be eligible, a student must be a Federal Pell Grant recipient, demonstrate financial need, be enrolled at least half-time, have junior or senior standing, have a minimum 3.00 cumulative GPA, and declare a major in mathematics, science (including physical, life and computer sciences), technology, engineering or a critical foreign language. A complete list of eligible majors is available on the [Student Financial Aid website](#). The award amount is based on the student's financial need.

Ohio College Opportunity Grant (OCOG)

The OCOG is funded by the state of Ohio. This award is available to undergraduate Ohio residents who have not completed a baccalaureate degree. Eligibility is based on the Expected Family Contribution (EFC) as determined by the Free Application for Federal Student Aid (FAFSA).

Pennsylvania Higher Education Assistance Agency (PHEAA) Grant

The Pennsylvania State Grant is awarded to undergraduate Pennsylvania residents who have not completed the requirements for a bachelor's degree. Eligibility is based on financial criteria established by PHEAA. Kent State University monitors the academic progress criteria established by PHEAA for continued grant eligibility.

Federal Work-Study

The Federal Work-Study program is financial aid funded by the federal government. This fund is not deducted from the bill. The student will receive a bi-weekly paycheck based upon hours works. Work-study may be available to students who attend the university at least half-time (6 credit hours per semester for undergraduates and 4 credit hours per semester for graduates) and who have financial need as determined by the results of the FAFSA application. Job opportunities are listed at "CampusWorks" on the [Career Services Center website](#).

University-Funded Employment Program

This program is available to students attending the university at least half-time (6 credit hours per semester for undergraduates and 4 credit hours per semester for graduates). Most departmental policies allow students to work up to 30 hours per week while enrolled. Filing the FAFSA and subsequent awarding of Federal Work-Study funds are not required for a student to hold a university-funded position. A list of available positions can be found at "CampusWorks" on the [Career Services Center website](#). For more detailed information on the loans programs, visit the [Student Financial Aid website](#) and click on "Types of Aid."

Federal Direct Loan Program (Subsidized and Unsubsidized)

The Subsidized Federal Direct Loan program is awarded to students who demonstrate financial need. For a subsidized loan, the Department of Education pays the interest while the student is enrolled in school at least half time (6 credit hours undergraduate; 4 credit hours graduate). There is a six month grace period before repayment. The Unsubsidized Federal Direct Loan program is available to students who do not demonstrate financial need. With an unsubsidized loan, the student will be charged interest from the time the loan is disbursed until it is paid in full. The loan principal is deferred for unsubsidized funds; however, the student may choose to pay the accrued interest quarterly or allow it to capitalize. A valid Master Promissory Note (MPN) must be on file with the Department of Education. Students must sign the MPN at the [Direct Loan website](#). The Department of Education Personal Identification Number (PIN) will be required to sign the MPN. If the student signed the MPN in a previous year and that MPN is still on file with the Department of Education, the student is not required to sign again.

Federal Direct Parent PLUS Loan

The Parent PLUS Loan is available for parents of dependent students. The parent borrower must be the student's mother, father or the step parent whose information is reported on the Free Application for Federal Student Aid (FAFSA). The amount is determined by the cost of attendance less other financial aid. The parent borrower must complete the PLUS Pre Application on the [Student Financial Aid website](#). The Pre Application will be forwarded to the Department of Education for a credit evaluation. If the credit decision is negative, the parent will have the option to obtain an endorser or allow the student to borrow Unsubsidized Direct Loan funds. The parent borrower will be required to sign the PLUS Master Promissory Note. The parent borrower must contact the Direct Loan Servicer to defer PLUS Loan payments while the student is enrolled half-time. The student must be enrolled at least half time (6 credit hours) before the funds will be applied to the student account.

Federal Direct Graduate PLUS Loan

The Graduate PLUS Loan is available to graduate students who have exhausted all eligibility for the Federal Direct Subsidized and Unsubsidized programs. The amount is determined by the cost of attendance less other financial aid including Federal Direct Loan. Graduate students must complete the Graduate PLUS Pre Application on the [Student Financial Aid website](#). The Pre Application will be forwarded to the Department of Education for credit evaluation. A valid Graduate PLUS Master Promissory Note (MPN) must be on file with the Department of Education. Students must sign the PLUS MPN at the [Direct Loan website](#). The Department of Education Personal Identification Number (PIN) will be required to sign the MPN. The Graduate PLUS borrower must begin repayment 60 days after the final disbursement of the loan funds.

Federal Perkins Loans/Nursing Loan

Federal Perkins Loans/Nursing Loan awards are based on financial need and the amount of funds available to the university. If awarded, Kent State's Bursar's Office will e-mail students with information on when and how to sign the Perkins/Nursing Master Promissory Note. If the promissory note was signed in a previous year, the student is not required to sign again. The student must be enrolled at least 6 credit hours per semester. Repayment begins nine months after the student graduates or ceases to be enrolled half time. No interest is charged while the student is enrolled in school or during the nine-month grace period.

Alternative Loans

Alternative loans are not federally guaranteed and, as a rule, do not require that you file the Free Application for Federal Student Aid (FAFSA). Terms, fees and borrowing limits of alternative loans differ significantly. The yearly amount cannot exceed the cost of attendance minus other financial aid. For more information regarding alternative loans and the application process, visit the Student Financial Aid [Alternative Loans website](#).

Foreign Languages

Kent State University Catalog 2010 - 2011 > Course Information > Foreign Languages

Students arrive at Kent State with varying types of foreign language experience: Some come from other countries and are fluent in their native language, others have grown up in America with a first language other than English, but most have learned a second language in a formal classroom setting. Accordingly, the term "native language" refers to the language of students who have been born, raised and educated in another culture and who can be expected to use that language not only easily but accurately as well. Similarly, "first language" refers to the language of students who may have been born and spent their early years abroad or who have been raised in a particular ethnic community in this country; while they may speak the language with some ease, a lack of consistent formal training limits the accuracy of their usage.

A student with a native language other than English may not register for or receive credit in coursework on the elementary or intermediate level in that language or a closely related one as determined by the chairperson of the appropriate department. Such students may, however, receive credit for coursework successfully completed above the Intermediate II level. Students with a first (not native) language other than English may be permitted to enroll in, and receive credit for, coursework on the elementary and/or intermediate level. Permission will be granted on a case-by-case basis by the chairperson of the appropriate department after evaluation of the student's skills in that language.

All students should begin foreign language study at the appropriate level in their first semester and continue with the appropriate sequence of courses in consecutive semesters and/or summer sessions. Those who qualify to begin at an advanced level can complete the requirement in less time and apply the remaining hours to their major, a minor or one or more electives.

Students may qualify for advanced placement with or without college credit in any of the following ways: College-Level Examination Program (CLEP), Credit-By-Examination, proficiency examination or a placement test. The CLEP and the university's Credit-By-Examination program, available in certain languages, do award credit that will count toward fulfillment of the language requirement and as hours toward graduation. Proficiency tests administered by the [Office of International Affairs](#) provide no credit and are part of the requirements for the International Relations major. Students should contact the appropriate academic department for information regarding courses designated as eligible for Credit-By-Examination. Students who wish to pursue Credit-By-Examination must complete an application (available in the [Career Services Center](#)) to gain appropriate department and college permission. Such permission will be granted only if the students present documented evidence of substantial prior preparation in the subject area.

For students who do not receive placement or credit through testing, proficiency level and placement can be established through appropriate documentation of school coursework in that language or in the home/foreign country. As a general rule, a year of high school study is roughly equivalent to a semester of college-level study of a foreign language. Whether through tests or other documentation, placement does not award academic credit; the credit hours which have been exempted by such placement are still required for graduation and may be applied to coursework in the student's major, minor or elective courses. Students should contact the Department of Modern and Classical Language Studies for assistance with placement in all foreign language coursework. The [Department of Modern and Classical Language Studies](#) is located in Room 109 Satterfield Hall and can be reached at 330-672-2150.

Arabic (ARAB)

11101 Elementary Arabic I (5)

Introduction to Modern Standard Arabic and colloquial Arabic in the context of the cultures of Arabic speakers. Prerequisite: none.

11102 Elementary Arabic II (5)

Continuation of the introduction to Modern Standard Arabic and colloquial Arabic in the context of the cultures of Arabic speakers. Prerequisite: ARAB 11101.

21201 Intermediate Arabic I (5)

Continued development of speaking, listening, reading and writing skills in Arabic, using a variety of cultural materials. Prerequisite: ARAB 11102.

21202 Intermediate Arabic II (5)

Continuation of ARAB 21201. Prerequisite: ARAB 21201.

American Sign Language (ASL)

19201 Elementary American Sign Language I (4)

(Cross-listed with SPED 19201) Introduction to American Sign Language and the culture of the American signing community, in an immersion setting. Prerequisite: none.

19202 Elementary American Sign Language II (4)
(Cross-listed with SPED 19202) A continuation of the introduction to American Sign Language and the culture of the American signing community, in an immersion setting. Prerequisite: ASL 19201 or SPED 19201.

29201 Intermediate American Sign Language I (3)
(Cross-listed with SPED 29201) Continued development of receptive and expressive skills in American Sign Language and an introduction to ASL grammar, using a bilingual-bicultural approach and interaction with deaf organizations. Prerequisite: ASL 19202 or SPED 19202.

29202 Intermediate American Sign Language II (3)
(Cross-listed with SPED 29202) Continuation of ASL 29201 with an emphasis on greater exploration of American Sign Language Sentence structure using a bilingual-bicultural approach. Students are involved in a community service project, providing a hands-on experience with using ASL within a community setting. Prerequisite: ASL 29201 or SPED 29201.

Chinese (CHIN)

15101 Elementary Chinese I (5)
An introduction to Mandarin Chinese in the context of modern Chinese-speaking cultures. Prerequisite: none.

15102 Elementary Chinese II (5)
A continuation of the introduction to Mandarin Chinese in the context of modern Chinese-speaking cultures. Prerequisite: CHIN 15101.

25201 Intermediate Chinese I (5)
Continued development of speaking, listening, reading and writing skills, using a variety of cultural materials. Prerequisite: CHIN 15102.

25202 Intermediate Chinese II (5)
Continuation of CHIN 25201. Prerequisite: CHIN 25201.

French (FR)

13201 Elementary French I (4)
An introduction to the French language in the context of Francophone cultures. Prerequisite: none.

13202 Elementary French II (4)
A continuation of the introduction to the French language in the context of Francophone cultures. Prerequisite: FR 13201.

23201 Intermediate French I (3)
Continued development of speaking, listening, reading and writing skills using a variety of cultural materials. Prerequisite: FR 13202.

23202 Intermediate French II (3)
Continuation of FR 23201. Prerequisite: FR 23201.

German (GER)

11201 Elementary German I (4)
An introduction to the German language in the context of the cultures of German-speaking lands. Prerequisite: none.

11202 Elementary German II (4)
A continuation of the introduction to the German language in the context of the cultures of German-speaking lands. Prerequisite: GER 11201.

21201 Intermediate German I (3)
Continued development of speaking, listening, reading and writing skills using a variety of cultural materials. Prerequisite: GER 11202.

21202 Intermediate German II (3)
Continuation of GER 21201. Prerequisite: GER 21201.

Greek (GRE)

14201 Elementary Classical Greek I (4)
An introduction to the classical Greek language in the context of ancient Greek culture. Prerequisite: none.

14202 Elementary Classical Greek II (4)
A continuation of the introduction to the classical Greek language in the context of ancient Greek culture. Prerequisite: GRE 14201.

14205 Elementary Modern Greek I (4)
An introduction to the modern Greek language in the context of Greek culture. Prerequisite: none.

14206 Elementary Modern Greek II (4)
A continuation of the introduction to the modern Greek language in the context of Greek culture. Prerequisite: GRE 14205.

Hebrew (HEBR)

12101 Elementary Hebrew I (4)
An introduction to the modern Hebrew language in the context of Israeli culture. Prerequisite: none.

12102 Elementary Hebrew II (4)
A continuation of the introduction to the modern Hebrew language in the context of Israeli culture. Prerequisite: HEBR 12101.

22104 Intermediate Hebrew I (3)
Continued development of speaking, listening, reading and writing skills using a variety of cultural materials. Prerequisite: HEBR 12102.

22105 Intermediate Hebrew II (3)
Continuation of HEBR 22104. Prerequisite: HEBR 22104.

Heritage Languages (HRTG)

10101 Elementary I (Variable Language) (4)
An introduction to a heritage language in the context of the culture of its speakers. Prerequisite: none.

10102 Elementary II (Variable Language) (4)
A continuation of the introduction to a heritage language in the context of the culture of its speakers. Prerequisite: HRTG 10101 and special approval.

20201 Intermediate I (Variable Language) (3)
Continued development of speaking, listening, reading and writing skills using a variety of cultural materials. Prerequisite: HRTG 10102 and special approval.

20202 Intermediate II (Variable Language) (3)
Continuation of HRTG 20201. Prerequisite: HRTG 20201 and special approval.

Italian (ITAL)

15201 Elementary Italian I (4)
An introduction to the Italian language in the context of Italian culture. Prerequisite: none.

15202 Elementary Italian II (4)
A continuation of the introduction to the Italian language in the context of Italian culture. Prerequisite: ITAL 15201.

25201 Intermediate Italian I (3)
Continued development of speaking, listening, reading and writing skills using a variety of cultural materials. Prerequisite: ITAL 15202.

25202 Intermediate Italian II (3)
Continuation of ITAL 25201. Prerequisite: ITAL 25201.

Japanese (JAPN)

15101 Elementary Japanese I (5)
Introduction to modern standard Japanese in the context of Japanese culture. Prerequisite: none.

15102 Elementary Japanese II (5)
A continuation of the introduction to modern standard Japanese in the context of Japanese culture. Prerequisite: JAPN 15101.

25201 Intermediate Japanese I (5)
Continued development of speaking, listening, reading and writing skills, using a variety of cultural materials. Prerequisite: JAPN 15102.

25202 Intermediate Japanese II (5)
Continuation of JAPN 25201. Prerequisite: JAPN 25201.

Latin (LAT)

16201 Elementary Latin I (4)
An introduction to the classical Latin language in the context of ancient Roman culture. Prerequisite: none.

16202 Elementary Latin II (4)
A continuation of the introduction to the classical Latin language in the context of ancient Roman culture. Prerequisite: LAT 16201.

26201 Intermediate Latin I: Readings (3)
Excerpts from Latin literature with emphasis on translation into English. Prerequisite: LAT 16202.

26202 Intermediate Latin II: Readings (3)
Excerpts from Latin literature with emphasis on both prose (e.g., Caesar, Cicero) and poetry (Vergil, Catullus). Prerequisite: LAT 26201.

Pan-African Studies (PAS)

10101 Elementary Kiswahili I (4)
This course is an introduction to Kiswahili in which students will learn the essentials of speaking, reading and writing the most extensively used language in

10102 Elementary Kiswahili II (4)
Continuation of PAS 10101, aimed at advancing students' knowledge and communication skills in Kiswahili by introducing Kiswahili literature—short narratives, proverbs and folktales. Prerequisite: PAS 10101.

13201 Elementary Yoruba I (4)
This course is an introduction to Yoruba in which students will learn the essentials of this West African language that is also spoken in

13202 Elementary Yoruba II (4)
Continuation of PAS 13201, with emphasis on tonal pronunciation, cultural conversation and basic reading and writing skills. Prerequisite: PAS 13201.

20101 Kiswahili III (3)

Continuation of Kiswahili II, aimed at developing knowledge, competence and recognition of Kiswahili usage in all forms of Kiswahili literature. Prerequisite: PAS 10102.

20102 Kiswahili IV (3)

Continuation of Kiswahili III, aimed at developing knowledge, competence and recognition of Kiswahili usage in all forms of Kiswahili literature. Prerequisite: PAS 2010123201 Intermediate Yoruba I (3)

Continuation of PAS 13202, aimed at developing further competency in reading, writing and speaking. Prerequisites: PAS 13201 and 13202.

23201 Intermediate Yoruba I (3)

Continuation of PAS 13202, aimed at developing further competency in reading, writing and speaking. Prerequisite: PAS 13201 and 13202

23202 Intermediate Yoruba II (3)

Continuation of PAS 23201, aimed at advanced competency speaking, writing and reading. Prerequisite: PAS 23201.

33203 Kiswahili Conversation (3)

A conversation course specifically designed to enhance oral proficiency through further practice in conversation and written Kiswahili as well as discussion of culture based-texts. Prerequisite: PAS 10102.

Portuguese (PORT)

17201 Elementary Portuguese I (4)

An introduction to the Portuguese language in the context of Luso-Brazilian cultures. Prerequisite: special approval.

17202 Elementary Portuguese II (4)

A continuation of the introduction to the Portuguese language in the context of Luso-Brazilian cultures. Prerequisite: PORT 17201.

27210 Intensive Portuguese (5)

Intensive study for students continuing beyond elementary Portuguese and for those with the equivalent of Spanish Composition and Conversation I. Course provides training through Intermediate Portuguese II. Prerequisite: PORT 17202 or SPAN 38211.

Russian (RUSS)

12201 Elementary Russian I (4)

An introduction to the Russian language in the context of Russian cultures. Corequisite: RUSS 12211.

12202 Elementary Russian II (4)

A continuation of the introduction to the Russian language in the context of Russian cultures. Prerequisite: RUSS 12201 and 12211. Corequisite: RUSS 12212.

12211 Elementary Russian I Recitation (1)

Reinforces material presented in Elementary Russian I (RUSS 12201). Must be taken together with Elementary Russian I. Corequisite: RUSS 12201.

12212 Elementary Russian II Recitation (1)

Reinforces material present in Elementary Russian II (RUSS 12202). Must be taken together with Elementary Russian II. Prerequisites: RUSS 12201 and 12211. Corequisite: RUSS 12202.

22201 Intermediate Russian I (4)

Continued development of speaking, listening, reading and writing skills using a variety of cultural materials. Prerequisite: RUSS 12202. Corequisite: RUSS 22211.

22202 Intermediate Russian II (4)

Continuation of RUSS 22201. Prerequisite: RUSS 22201. Corequisite: RUSS 22212.

22211 Intermediate Russian I Recitation (1)

Reinforces material presented in Intermediate Russian I (RUSS 22201). Must be taken together with Intermediate Russian I. Prerequisite: RUSS 12202 and 12212. Corequisite: RUSS 22201.

22212 Intermediate Russian II Recitation (1)

Reinforces material presented in Intermediate Russian II (RUSS 22202).

Must be taken together with Intermediate Russian II. Prerequisite: RUSS 22201 and 22211. Corequisite: RUSS 22202.

Spanish (SPAN)

18201 Elementary Spanish I (4)

An introduction to the Spanish language in the context of Hispanic cultures. Prerequisite: none.

18202 Elementary Spanish II (4)

A continuation of the introduction to the Spanish language in the context of Hispanic cultures. Prerequisite: SPAN 18201.

28201 Intermediate Spanish I (3)

A continuation of the development of listening, speaking, reading and writing skills using a variety of material on the Spanish language in the context of Hispanic cultures. Prerequisite: SPAN 18202.

28202 Intermediate Spanish II (3)

A continuation of the development of listening, speaking, reading and writing skills using a variety of material on the Spanish language in the context of Hispanic cultures and specific areas of study like culture, business, justice, etc. Credit may be given for SPAN 28202 or 28206, but not for both. Prerequisite: SPAN 28201.

28206 Spanish Reading for Comprehension (3)

Further develops skills and techniques for understanding written Spanish; conducted in English. Credit not applicable toward Spanish major or minor. Students may obtain credit in SPAN 28202 or 28206, but not both. Prerequisite: SPAN 28201.

CATALOG RIGHTS AND EXCLUSIONS

The university has established the following Catalog rights and exclusions relating to degree requirements. While these Catalog rights establish specific degree requirements for students, the exclusions noted ensure that the knowledge and skills acquired by students will be current with the state of knowledge in their fields of study.

Rights

1. Students' academic requirements are based on the Catalog that is in force during their first semester of enrollment at Kent State University.
2. Students may elect to complete a degree program under a more recent Catalog. When changing Catalog year, students must comply with all of the requirements relevant to their program in the newer Catalog.
3. Catalog rights may be granted through inter-institutional curricular agreements. Such rights are subject to the same exclusions noted below.

Exclusions

1. Students who transfer to another university and return to Kent State are readmitted under the Catalog-in-force at the time of readmission.
2. Undergraduate students who do not satisfactorily complete 12 semester hours at Kent State in two calendar years must satisfy the requirements of the most recent Catalog. Transient work, Credit-By-Examination and coursework receiving grades of AU, F, NF, SF, IN, NR, W, U or Z will not count toward completing the 12 hours.
3. Undergraduate students who do not complete degree requirements within six years are required to update to the current Catalog.
4. Dismissed students are reinstated under the Catalog-in-force at the time of reinstatement.
5. Changes in degree requirements will be made to keep programs in compliance with accreditation, certification or licensure standards. Implementation of these standards may require that students update to the current Catalog.
6. Program changes may be required by financial urgency, unavailability of faculty or unavailability of other instructional resources. In these instances, the dean of the students' college will identify available alternatives for the completion of degree requirements.

In rare instances an exception to the above policy may be granted by the college dean. [GO TO TOP](#)

GRADING POLICIES AND PROCEDURES

The transcript is an accurate and complete historical record of work attempted at the university. Changes to transcript entries that alter the enrollment history of a student are not to be made.

Academic Grades and Administrative Marks: Student proficiency in coursework is recorded by the following letter grades:

- A (4.00) Denotes "excellent scholarship" for undergraduate students and "superior scholarship" for graduate students
- A- (3.70)
- B+ (3.30)
- B (3.00) Denotes "good performance" for undergraduate students and "average performance" for graduate students
- B- (2.70)
- C+ (2.30)
- C (2.00) Denotes "fair or average performance" for undergraduate students and "below average performance" for graduate students
- C- (1.70)
- D+ (1.30)
- D (1.00) Denotes "poor (unsatisfactory but passing) performance" for undergraduate students and "far below average performance" for graduate students
- F (0.00) Denotes failure
- AU The mark AU denotes that students have registered to audit a course. Students may audit without credit any course subject to space availability and departmental approval. An audited course is not counted as part of the course load, but students must go through registration procedures and pay the normal registration fees. For graduate students, an audited course may not be counted as fulfilling the minimum course load requirements. An instructor may impose whatever attendance requirements deemed necessary upon the students registered for audit. The students must be informed of these requirements at the beginning of the semester. Failure to meet such attendance requirements subjects the students to being withdrawn from the course by the instructor. This will be accomplished by the instructor's insertion of the mark W for the students on the final grades list.
- IN The administrative mark of IN (Incomplete) may be given to students (undergraduates who are currently passing and graduate students who are currently earning a C or better grade) and are unable to complete the required work between the course withdrawal deadline and the end of classes due to extenuating circumstances. The time line shall be adjusted appropriate for summer sessions and flexibly scheduled courses. Appropriate documentation is generally required to support the extenuating circumstance. The student must initiate the request for the Incomplete mark from the instructor, and it is the responsibility of the student to arrange to make up the incomplete work. Incomplete grades must be made up within one semester (not including summer sessions) for undergraduate students and one calendar year for graduate students. Instructors are required to complete and submit an Incomplete Mark Form to the department chair at the time grades are assigned. This form includes justification for awarding the Incomplete, describes the work to be completed for the course and specifies the grade to be assigned if the work is not completed (default grade). A copy of the Incomplete Mark Form is provided to the student. Incomplete grades will not be counted in the computation of grade point averages until the work is completed, at which time an appropriate grade will be assigned based on the instructor's evaluation of the work submitted and a new grade point average computed. Unless the course is completed or an extension is granted, Incomplete grades will automatically lapse to the grade designated on the Incomplete Mark Form at the end of one semester for undergraduate students and at the end of one year for graduate students.
- IP The grade IP (In Progress) may be given to students to indicate that research, individual investigation or similar efforts are in progress and that a final grade will be given when the work is completed. The IP grade can be utilized only in designated courses and is not used in computing grade point averages. For graduate students, an IP grade is used for thesis (6xx99) or dissertation (8xx99) courses during those semesters in which a student is in the process of completing a thesis or dissertation. For courses required for the degree, a final grade must be given before a degree can be granted. The IP grade when given for thesis registration remains a terminal grade if the student changes from a thesis option in the master's degree to another degree option.
- NF The NF (Never Attended F) grade denotes that students never attended one class session nor did the students formally withdraw from the course. The NF grade will count as an F (zero quality points) in computing grade point averages. In the case of undergraduate courses taken pass/fail, the NF grade will be changed to a Z grade.
- NR A mark of NR indicates the instructor did not submit a grade.
- S The grade S denotes satisfactory completion of a course in which a regular letter grade is inappropriate. Satisfactory work is interpreted as average or superior attainment. The credit hours are awarded but are not considered in computing grade point averages, but work earning an S grade may be applied toward meeting degree requirements. For graduate students, the S grade, along with the U grade (see below) are the only grades to be used for thesis (6xx99), dissertation (8xx99), workshops and courses involving internships. The instructor intending to use the S and U grades in a course other than these must do so exclusively and only where permitted. The instructor will announce this intent to the particular class at the beginning of the course and note it on the course syllabus.
- SF The SF (Stopped Attending F) grade denotes that students stopped attending the course and did not formally withdraw. The SF grade will count as an F (zero quality points) in computing grade point averages and must be accompanied by a date of last attendance in the course. Faculty who cannot determine the exact date of last attendance may use the date of the last academic activity in which students participated. SF grades are not appropriate for students who stop attending after the course withdrawal deadline. After that time, grades should be based on student performance in the completion of course requirements. In the case of undergraduate courses taken pass/fail, the SF grade will be changed to a Z grade.

- U The grade U denotes unsatisfactory performance in a course for which a regular grade is inappropriate. Credit hours are recorded as credit hours attempted, and the grade will be counted as an F in computing grade point averages. For graduate students, the U grade, along with the S grade (see above) are the only grades to be used for thesis (6xx99), dissertation (8xx99), workshops and courses involving internships. The instructor intending to use the S and U grades in a course other than these must do so exclusively and only where permitted. The instructor will announce this intent to the particular class at the beginning of the course and note it on the course syllabus.
- W The mark W denotes that a student has withdrawn from the university or from any individual course without evaluation. This mark is not used in computing grade point averages.
- Y The grade Y denotes a passing grade in undergraduate pass/fail courses or in undergraduate courses in which students have elected the pass/fail grading option. The credit hours are not considered in computing grade point averages.
- Z The grade Z denotes failing performance in undergraduate pass/fail courses or in undergraduate courses in which students have elected the pass/fail grading option. The credit hours are not considered in computing grade point averages.

Grade-to-Grade Change Policy: Once grades are submitted, they are final and will not be changed except in cases of administrative error. Grades will not be changed by allowing the students to do additional work (e.g., retaking exams; redoing papers; submitting extra credit papers, reports, etc.) or by using criteria other than those applied to all students in the class. In the event of a possible administrative error, the students must contact the instructor as soon as possible following the awarding of the grade. If the instructor is not available, the department/school chair should be contacted. Grade appeals for reasons other than administrative error must follow established procedures for student academic complaints. See the Student Academic Complaints (Kent Campus) procedure in the [Digest of Rules and Regulations](#) published annually on the [Enrollment Management and Student Affairs website](#), or contact the Office of Enrollment Management and Student Affairs on the Kent Campus or the campus dean's office for the Regional Campuses.

Grade Point Average: Quality points are awarded on the following scale:

- Each hour of A equals 4 points
- Each hour of A- equals 3.7 points
- Each hour of B+ equals 3.3 points
- Each hour of B equals 3 points
- Each hour of B- equals 2.7 points
- Each hour of C+ equals 2.3 points
- Each hour of C equals 2 points
- Each hour of C- equals 1.7 points
- Each hour of D+ equals 1.3 points
- Each hour of D equals 1 point
- Each hour of F equals 0 points
- Each hour of NF equals 0 points
- Each hour of SF equals 0 points
- Each hour of U equals 0 points

A grade point average is determined by dividing the total number of points earned by the number of quality hours taken. Totals are extended to two decimal points and is rounded up.

As an example, assume a student has completed 30 hours with a grade distribution of 3 hours of A, 3 hours of B, 3 hours of B-, 15 hours of C, 4 hours of D, and 2 hours of F.

	<u>Points</u>
3 hours of A at 4 points per hour	12.0
3 hours of B at 3 points per hour	9.0
3 hours of B- at 2.7 points per hour	8.1
15 hours of C at 2 points per hour	30.0
4 hours of D at 1 point per hour	4.0
2 hours of F at 0 points per hour	0.0
Total	63.1

Dividing 63.1 by 30, a grade point average of 2.103 is obtained, which is slightly above a C average. Cumulative averages are computed by dividing the total quality points by the total quality hours. Grades of S, Y and Z are not included in grade point average.

Pass/Fail Grade: Undergraduate students may elect to take certain courses on a pass/fail basis. The purpose of this option is to provide an opportunity for the exploration of a broader range of coursework than is normally included in specific and distributive degree requirements. Students considering this option should be aware that some institutions of higher education do not accept transfer credit taken on a pass/fail basis. In addition, most graduate and professional schools prefer that pass/fail credit be kept to a minimum.

Students electing to take courses under the pass/fail option should consult their advisor for specific instructions and registration procedures. Conditions governing the acceptability of coursework that pertains to all students are:

1. The students must be in good standing. Transfer students admitted on probation and students on academic probation with less than a 2.00 GPA may not elect the pass/fail option.
2. Only one course per semester may be taken under the pass/fail option.
3. The pass/fail option may be used only for non-specific electives; this option is designed to allow students to explore coursework outside their required courses.
4. Courses listed as available to meet the Kent Core may not be taken pass/fail.

5. Courses that may be prescribed or recommended through placement testing may not be taken on a pass/fail basis. Those courses are ENG 11001, MATH 10020, MATH 10021, MATH 10022, MATH 10023, MATH 10024, US 10003 and US 10006.
6. Excluded from the pass/fail option are the following:
 - i. All courses in students' major department or school
 - ii. All courses used to meet requirements in students' major, minor, field of concentration, supporting area or certification program
 - iii. All courses used to meet the Kent Core and college general requirements
7. A maximum of 12 hours of pass/fail credit (combined Y-Pass and Z-Fail grades) may be attempted. Courses regularly graded satisfactory/unsatisfactory (S/U) are not counted in this 12-hour maximum; experimental courses that are Y/Z graded are included in the 12-hour limit.
8. Instructors will not be informed of students' election of the pass/fail option. Regular letter grades of A, B, C and D that are reported by the instructor will be converted to a Pass (Y); letter grades of F, NF (Never Attended-Fail) and SF (Stopped Attending-Fail) will be converted to a Fail (Z) grade.
9. Pass/fail grades will not be used in computing grade point averages.
10. Students changing majors will not have "pass" grades changed to regular grades if they have pass/fail credit in that area. The "pass" grades will stand, but all further courses in the program must be for regular grading.
11. No change of pass/fail enrollment status is permitted after the final day of formal registration.

Students should contact their college, department, school or Regional Campuses office for clarification of the pass/fail option and for application of that option to their particular programs.

Grade Reports: Final grades are reported at the close of each academic term and become a part of the students' permanent records. Grades are available on FlashFAST.

Midterm Evaluation: A midterm (seventh week) evaluation is completed for all undergraduate freshmen. Midterm results are available to advisors and college/school/campus deans and will be used for counseling purposes when achievement is considered unsatisfactory (i.e., D or F quality). This evaluation will not be included as part of the students' academic transcripts. The midterm evaluation is available to freshmen on FlashFAST. [GO TO TOP](#)

CLASSIFICATION OF STUDENTS

An undergraduate student is classified as follows:

- FRESHMAN — 0 to 29 hours of earned credit
- SOPHOMORE — 30 to 59 hours of earned credit
- JUNIOR — 60 to 89 hours of earned credit
- SENIOR — 90 hours to graduation [GO TO TOP](#)

KENT STATE PLACEMENT TESTING

All entering freshman students participate in the Destination Kent State: Advising and Registration program designed to familiarize newly admitted freshmen and their families with the Kent Campus. During these sessions, the COMPASS computerized placement test is administered to assess students' basic skills in reading, writing and mathematics.

Upon completion of the assessment, students meet with an academic advisor. If students are required to enroll in one or more academic skills courses, the advisor explains how the COMPASS scores are used in combination with the ACT or SAT subscores and high school preparation as reliable measures of the basic skills needed for success in college.

English Composition

All programs require successful completion of the basic College English sequence, which consists of ENG 11011 and 21011 College Writing I and II. Placement into the appropriate starting course in the sequence is determined by proficiency as established by ACT English or SAT verbal scores.

Foreign Languages

Students arrive at Kent State with varying types of foreign language experience: some come from other countries and are fluent in their native language, others have grown up in America with a first language other than English, but most have learned a second language in a formal classroom setting. Accordingly, the term "native language" refers to the language of students who have been born, raised and educated in another culture and who can be expected to use that language not only easily but accurately as well. Similarly, "first language" refers to the language of students who may have been born and spent their early years abroad or who have been raised in a particular ethnic community in this country; while they may speak the language with some ease, a lack of consistent formal training limits the accuracy of their usage.

A student with a native language other than English may not register for or receive credit in coursework on the elementary or intermediate level in that language or a closely related one as determined by the chairperson of the appropriate department. Such students may, however, receive credit for coursework successfully completed above the Intermediate II level.

Students with a first (not native) language other than English may be permitted to enroll in, and receive credit for, coursework on the elementary and/or intermediate level. Permission will be granted on a case-by-case basis by the chairperson of the appropriate department after evaluation of the student's skills in that language.

All students should begin foreign language study at the appropriate level of proficiency, which may be established in one of several ways: [CLEP examination](#), Kent State University's [Credit-By-Examination](#) program, proficiency examination or a placement test. In cases of languages for which no examiner or examination is available, proficiency can be established (no credit awarded) through appropriate documentation of school coursework in the native land and language. Credit hours exempted by any of these means still are required for graduation but may be applied toward coursework in the student's major or minor or as electives.

Students should contact the [Department of Modern and Classical Language Studies](#) for assistance with placement in all foreign language coursework. The Department of Modern and Classical Language Studies is located in Room 109 Satterfield Hall and can be reached at 330-672-2150.

Mathematics

Mathematics placement for all new freshmen is normally made during the Destination Kent State: Advising and Registration program. Questions concerning mathematics placement should be directed to [Undergraduate Studies](#). [GO TO TOP](#)

ADVANCED PLACEMENT PROGRAM

The State of Ohio, working through the University System of Ohio, has initiated policies to facilitate the ease of transition from high school to college as well as between and among Ohio's public colleges and universities.

Beginning in the Fall term 2009:

1. Students obtaining an Advanced Placement (AP) exam score of 3 or above will be awarded the aligned course(s) and credits for the AP exam area(s) successfully completed.
2. General Education courses and credits received will be applied towards graduation and will satisfy a general education requirement if the course(s) to which the AP area is equivalent fulfill a requirements.
3. If an equivalent course is not available for the AP exam area completed, elective or area credit will be awarded in the appropriate academic discipline and will be applied towards graduation where such elective credit options exist within the academic major.
4. Additional courses or credits may be available when a score of 4 or 5 is obtained. Award of credit for higher score values varies depending on the institution and academic discipline.
5. In academic disciplines containing highly dependent sequences (Sciences, Technology, Engineering and Mathematics—STEM) students are strongly advised to confer with the college/university advising staff to ensure they have the appropriate foundation to be successful in advanced coursework within the sequence.

The awarding of credit through the College Board Advanced Placement (AP) program is coordinated by the [Honors College](#); this credit is based on college-level high school courses and tests administered through the high schools. (Further information on APP may be obtained from the dean of the [Honors College](#), 330-672-2312). [GO TO TOP](#)

CREDIT BY EXAMINATION (CBE)

Students with demonstrable ability and knowledge in a particular subject area may earn credit in selected courses through Credit-By-Examination (CBE), coordinated by Academic Testing Services in the Career Services Center. Students who wish to pursue CBE must complete the CBE application to gain appropriate college and departmental permission. The appropriate academic department administers the exam which may include the completion of additional assignments. The minimum passing standard for CBE is the equivalent of a "C" grade. However, no letter grade, only credit hours, are posted to the academic transcript for CBE.

For the CBE application, per credit hour fee, and a list of available courses, visit the [Academic Testing Services](#) website.

See [Credit Testing Eligibility](#), below, for more regulations on awarding credit through testing. [GO TO TOP](#)

COLLEGE LEVEL EXAMINATION PROGRAM (CLEP)

Students may earn academic credit through the College Board College Level Examination Program (CLEP) administered by Academic Testing Services in the Career Services Center. CLEP allows a student to earn college credit for prior knowledge and move on to more advanced coursework sooner. Credit, but no letter grade, is granted for scores meeting the minimum required score of 50, equivalent to a "C" grade.

For additional CLEP information including available tests, KSU course equivalents, and test dates, visit the [Academic Testing Services](#) website.

See [Credit Testing Eligibility](#), below, for more regulations on awarding credit through testing. [GO TO TOP](#)

CREDIT TESTING ELIGIBILITY

The student's college determines eligibility for testing. The following regulations govern credit through testing:

1. Students may be tested for CBE only once for any given course. Students may not attempt a course CBE for which they have previously attempted through CLEP.
2. New students may take CLEP before beginning work at Kent State University. Students who have begun college work are allowed to take CBE only if they are in good standing (i.e., not on probation).
3. Students may not take CLEP or CBE for any course:
 - i. In which they have audited
 - ii. In which they are currently enrolled
 - iii. In which they have previously enrolled and earned a grade, including withdrawal (A-F, AU, IN, IP, NF, NR, S, SF, U, W, Y or Z)
4. In subject fields in which knowledge is sequential or accumulative, students may receive academic credit through CBE only for the single course commensurate with their level of proficiency as established by the examination. Students who already have received credit for one level in such a sequence of courses may not receive academic credit by means of CBE or CLEP for a

prior course in that sequence or for a course in a lower sequence.

5. Students pursuing a baccalaureate may attempt a maximum of 30 hours CLEP, AP and CBE combined. Students who wish to take more than 30 hours may petition their college dean for a waiver of this limitation. Students who have earned more than 30 hours of AP and/or CLEP credit before attending Kent State University will be granted that credit, provided such credit meets normal Kent State standards.
6. CBE normally is given only during the third through eighth week of each semester. Students approaching graduation must complete all CBE and CLEP credit by at least the semester preceding the semester in which they plan to graduate.
7. Students who sign up for CBE must take the exam within one calendar year of the date of application. If they do not, they forfeit any fees paid and must reapply to take the exam.

[GO TO TOP](#)

MILITARY CREDIT

Defense Activity For Non-Traditional Educational Support (DANTES) and Service Examinations—Advanced-standing credit is awarded for DANTES courses and for some armed forces service experiences on the basis of recommendations provided by the Commission on Accreditation of Services of the American Council of Education.

Basic Training

Advanced-standing credit is awarded for some experiences in basic training which are equivalent to some beginning physical education courses at Kent State University. Credit is awarded on the basis of recommendations from the School of Health Sciences.

In order for credit to be granted in any of the above areas, a transcript or certificate of completion or a veterans DD 214 form is required. In addition, Kent State reserves the right to set the percentile score that is necessary for satisfactory performance in a course and for granting of credit. Credit will not be given for duplicate work taken through any of these agencies. Information regarding the standards for satisfactory performance may be obtained upon request from Kent State University, Transfer Center, P.O. Box 5190, Kent, OH 44242-0001. [GO TO TOP](#)

CORRESPONDENCE COURSES

Kent State University does not offer correspondence courses. However, the university will accept up to 11 semester hours of correspondence work from an accredited institution, provided each course is completed with a grade of at least C and is applicable to the students' degree program. Correspondence credit does not count toward the final year of required work in-residence. [GO TO TOP](#)

RESIDENCE REQUIREMENT

Undergraduate: Residence is defined as academic credit earned at Kent State University. In this context, residence does not refer to whether a student lives on campus; it refers to the hours required to earn an undergraduate degree from Kent State University. Students must complete a minimum of 30 passed hours in residence for a baccalaureate (of which 9 passed hours must be at the upper division [30000-40000] level in the major); a minimum of 15 passed hours in residence for an associate degree. Passed hours comprise graded coursework, including those receiving an S (satisfactory) or X (pass) grade. Information on specific degree requirements may be obtained in the college section of this catalog. Kent State study-abroad and study-away programs that count toward a student's Kent State University hours may be taken as part of the residence requirement.

Credit earned by means of transfer courses does not count toward residence. Transient study will not count toward the hours of residence, but it will not invalidate residence requirements in progress. Students eligible to take transient coursework are discouraged from taking these credits during their last semester because of the time necessary to receive and process transcripts, which may delay clearing the student for graduation. Under unusual circumstances, students may request a minor modification of this requirement by contacting their college prior to registration elsewhere.

Graduate: Residence requirements are determined by the graduate departments. Please consult the appropriate department as to its residence requirement for the degree. [GO TO TOP](#)

THE SEMESTER SYSTEM

The academic year at Kent State University consists of two semesters—fall and spring—each approximately 15 weeks in length. The normal undergraduate program is designed to be completed in four academic years, or eight semesters. In addition, the university conducts four sessions during the summer term: one three-week intersession, two five-week sessions and one eight-week session.

Each hour of coursework is called a "semester hour," as distinguished from the quarter system used at some other universities and colleges. An academic year under that system consists of three 10-week quarters, and one hour of coursework is called a "quarter-hour."

One quarter-hour of work equals two-thirds of a semester hour; one semester hour equals one and one-half quarter-hours. A transfer student with a number of quarter-hour credits would multiply that number by two-thirds to determine the equivalent semester hour credits at Kent State University. For example, a student with 48 quarter-hours would receive 32 semester hours of transfer credit, providing the previous work meets university academic standards. [GO TO TOP](#)

REGISTRATION

Only students who have been formally admitted to Kent State University may register for coursework and pay the appropriate fees. An official registration is a record of the students' approved schedule of classes maintained online in the university's student information system, Banner. Students who are not officially registered for a course by published university deadlines should not attend classes and will not receive credit or a grade for the course.

Students register for courses online through FlashFAST (log onto [FlashLine](#) and click on the Student Tools tab). New freshmen register through the Destination Kent State: Advising and Registration program. Refer to the [Office of the University Registrar](#) website

for registration information, instructions, dates, deadlines and procedures.

Kent State University reserves the right to change the time of a course if it is deemed necessary, and it reserves the right to drop any course from the Schedule of Classes if there is insufficient student demand or if resources are unavailable to offer the course. Students interested in registering at a Regional Campus should check with the campus in which they are interested for specific dates, times and procedures involving registration transactions (initial registrations, schedule adjustments, course withdrawals, etc.) must be completed by the published deadlines found on the appropriate term calendar on the [University Registrar website](#).

Flexibly Scheduled Course Sections: Some courses are offered as flexibly scheduled sections, that is, the section does not meet for the full semester. Eligibility for processing registration transactions for these courses (adding, dropping or withdrawing) is determined by the beginning and ending dates of the section. See the [University Registrar website](#) for deadlines.

Late Registration: Students who are not officially enrolled for any coursework (i.e., registered and have paid fees) as of the first day of classes for the semester will have to process a late registration using FlashFAST. All late registrations must be completed prior to the beginning of the third week of classes for fall and spring semesters.* If class beginning and/or ending dates are other than the regular session dates for a full term, deadlines may be different than noted above. For determining deadlines for these flexibly scheduled classes, visit the [University Registrar website](#). Late registrations will not be accepted after the second week of classes for fall and spring semesters.*

A late registration fee will be assessed for any registration processed after the first week of classes for fall and spring semesters.* A non-payment fee will be assessed for registrations not paid by the end of the second week of classes. Visit the [Office of the Bursar website](#) for information on students' fees.

Schedule Adjustments: In addition to the schedule adjustments during the registration periods, the following schedule adjustments may be permitted through the first two weeks of the semester.*

1. Adding a course/section.
2. Dropping a course/section.
3. Changing a section (same course but different time or credit hours).
4. Changing from graded to pass/fail or audit status.
5. Changing from pass/fail or audit to graded status.

Schedule adjustments are permitted as outlined on the [University Registrar website](#). There are no processing fees required for schedule adjustments.

- Course adding is permitted through the second week of the semester, on a space-available basis, using FlashFAST.
- Withdrawal from any or all courses is permitted through the 10th week of the semester (or the prorated deadline for flexibly scheduled sections). After that time, students are considered to be committed to all remaining courses and must complete them. If students are unable to complete the semester because of extreme circumstances that first occur after the deadline, students should consult their college or campus dean's office. Any course withdrawal(s) processed after the second week of the semester will appear on the students' academic record with a grade of W.*
- If class beginning and/or ending dates are other than the regular session dates for a full term, deadlines may be different than noted above. See the [University Registrar website](#) for deadlines.
- Any applicable refund (published on the [Bursar's website](#)) is determined by the date the transaction is processed on FlashFAST.

Registration Cancellation: To receive a full refund of tuition, students who register and decide not to attend the university must cancel their registration as early as possible and no later than the end of the first week of classes.* This may be accomplished by the student dropping all courses via FlashFAST during registration periods. Any paid registration not canceled by the end of the first week of classes will be subject to the refund schedule published on the [Bursar's website](#). Any applicable refund is determined by the date the transaction is processed on FlashFAST.

* Please refer to the Registrar's [summer term calendar](#) for summer deadlines. [GO TO TOP](#)

CLASS ATTENDANCE

Classes are conducted on the premise that regular attendance is expected. The individual instructor has both the responsibility and the prerogative for managing student attendance. If students anticipate an absence, they should consult with the instructor individually. In the event the absence was due to illness or injury, verification from the medical professional treating the illness or injury should be presented to the instructor. [GO TO TOP](#)

STUDENT CONDUCT

The Kent State University Code of Student Conduct applies to both graduate and undergraduate students. Students are subject to dismissal or suspension for violations of the code.

Violations that may result in academic dismissal include furnishing false or incomplete information to the university with intent to deceive or forge, alter or misuse university documents or other official documents that serve as the basis for admission and graduation. Forgery or alteration of these documents may result in the revocation of a graduate degree or certificate.

It is the policy of Kent State University that:

1. Students are to perform their own academic work according to the standards set by faculty members, departments, schools and colleges of the university.
2. Cheating and plagiarism constitute a fraudulent misrepresentation for which no credit can be given and for which appropriate sanctions are warranted and will be applied.

For additional information, please visit the Office of Judicial Affairs website. [GO TO TOP](#)

STUDENT RECORDS

Kent State University policy #3342-5-08.101 (for administering and maintaining student education records) is in compliance with the Family Educational Rights and Privacy Act of 1974. The general principles of Kent State University's policy, subject to some exceptions, are as follows:

1. Educational records are defined as those records, files, documents and other materials that contain information directly related to the students and are maintained by a college, school, department, office or other university organizational subdivision or by a person acting for the university or any of its subdivisions. Other "educational records" include the official academic record (Office of the University Registrar), advisement records (college or school office), discipline records (Judicial Affairs), and placement bureau records (Career Services Center).
2. Students have certain rights of access to this information.
3. After reviewing their individual file, students may challenge a perceived inaccuracy, misleading statement or other perceived violation of their privacy or other rights.
4. The university has certain responsibilities to protect this information with the exception of directory information. Directory information includes the student's name; local and permanent address; telephone listing; e-mail address; class standing; enrollment status; major field of study; dates of attendance; degrees and awards received; high school graduated from; most recent previous educational agency or institution attended; participation in officially recognized activities and sports; weight and height (if a member of an athletic team).
5. Students may restrict the publication and release of directory information by filing a written request with the Office of the University Registrar or by completing the online form on FlashLine.
6. The complete policy regarding the collection, retention and dissemination of information about students is available in the Office of the University Registrar.

[GO TO TOP](#)

TRANSCRIPTS

Copies of a student's academic transcript are available, at no charge, by requesting them in one of the following ways:

1. Appearing in person with photo ID at the Office of the University Registrar Service Counter, Room 108, Schwartz Center
2. Mailing a request to Office of the University Registrar, Kent State University, P.O. Box 5190, Kent, OH 44242-0001
 - i. Provide the following information: current name and address, any former name(s), student ID number, dates of attendance, campus(es) attended, address(es) where the transcripts are to be mailed and written signature.
3. Logging onto [FlashLine](#) and click on the Student Tools tab. Current students can view an unofficial version of their transcripts in the Academic Profile box on the Student Tools tab.

Transcripts will be processed upon receipt and will be mailed within two business days. Please allow extra processing time at the beginning and ending of each semester. For additional information on ordering transcripts, please refer to the [University Registrar website](#). All financial obligations to Kent State University must be satisfied before a transcript is released. [GO TO TOP](#)

SELECTIVE SERVICE REQUIREMENT

Pursuant to Ohio Law, House Bill 845, all Ohio resident male students between the ages of 18 and 26 not registered with [Selective Service](#) must file a statement of Selective Service registration with the Office of the University Registrar. If students have not already registered with Selective Service, they will be contacted regarding their non-compliant status. Failure to comply will result in the assessment of nonresident tuition fees to their account and the cancellation of all state-based financial aid. Further questions may be directed to the Office of the University Registrar. [GO TO TOP](#)

GRADUATION AND COMMENCEMENT

Each of the 10 colleges of Kent State University award one or more undergraduate and graduate degrees at commencement exercises in December, May and August. The graduation requirements for these degrees are outlined in the various college sections of this Catalog.

Undergraduate and graduate students applying for graduation should complete the online graduation application available in their Graduation Planning Tools channel (Student Tools tab) in [FlashLine](#) by the published deadlines. The online graduate application is used for all degrees and certificate programs. If students fail to carry out the proper application procedures by the published deadlines (see [Academic Calendar](#)), the degree will not be granted until the next graduation date. Associate degrees are conferred at each Regional Campus at the end of the academic term in which all requirements are successfully completed. Application deadlines may be obtained from the [Office of the University Registrar](#) as well as from the various college and campus offices.

For commencement dates for each campus, see the [Academic Calendar](#) in this Catalog.

Application For Undergraduate Graduation: Prospective graduates for bachelor's degrees and undergraduate certificates must complete the online application for graduation (available in [FlashLine](#)) by the following deadlines:

- December Graduation: The application for graduation must be submitted by the 15th day of the preceding March.
- May Graduation: The application for graduation must be submitted by the 15th day of the preceding September.
- August Graduation: The application for graduation must be submitted by the 15th day of the preceding December.

Exceptions to the policies above shall be made only by the respective collegial deans or their appointed representative, based upon unusual circumstances.

Graduation with Institutional Honors—Bachelor's Degrees: Candidates for bachelor's degrees who demonstrate high

levels of scholarship throughout their undergraduate years graduate with institutional honors. Graduation with institutional honors is conferred on students who earn a baccalaureate with a GPA of at least:

- 3.30 *cum laude*
- 3.60 *magna cum laude*
- 3.80 *summa cum laude*

Institutional honors are based solely on the GPA earned in all coursework taken at Kent State University, including original grades forgiven and/or recalculated under other policies. A minimum of 60 semester hours must be earned at Kent State University to qualify. For the purposes of computing the final GPA and determining honors awards, the GPA is extended to two decimal places and is rounded up. Honor citations are inscribed on diplomas as follows: *cum laude*, *magna cum laude* and *summa cum laude*. Honors candidates will be distinguished at the Commencement ceremony based on all their institutional academic work completed prior to those courses taken during their final term of enrollment.

Graduation with Distinction—Associate Degrees: Candidates for associate degrees who demonstrate high levels of scholarship through their coursework will graduate "with distinction." "With distinction" is awarded when students achieve a minimum 3.50 GPA for all undergraduate coursework at Kent State University. In order for students to be considered for graduation "with distinction" and have it inscribed on their diploma, a minimum 32 credit hours must be completed at Kent State University. The students' unadjusted GPA at the time the associate degree is conferred (which should be unadjusted by the application of the Academic Forgiveness Policy, Course Repeat Policy or Rule for Recalculation of First-Year Grade Point Average) will be used in determining "with distinction."

Posting of Degrees: The integrity of academic transcripts is fundamental to the validity of coursework and degrees certified by the university. Therefore, all student transcript entries (grades and other notations) are finalized when the degree is officially posted to the permanent academic record. Degrees are posted to students' permanent academic records approximately 30 days following the effective date of graduation. [GO TO TOP](#)

ENROLLMENT CERTIFICATION

The enrollment certification for loan deferments, insurance coverage or any other official certification of enrollment is processed by the Office of the University Registrar. An audited course is not counted for enrollment certification purposes.

Undergraduate Students:

- Full-time enrollment: 12+ credit hours
- Three-quarter-time enrollment: 9-11 credit hours
- Half-time enrollment: 6-8 credit hours
- Less-than-half-time enrollment: 1-5 credit hours

Graduate Students:

- Full-time enrollment: 8+ credit hours
- Three-quarter-time enrollment: 6-7 credit hours
- Half-time enrollment: 4-5 credit hours
- Less-than-half-time enrollment: 1-3 credit hours

Please note: For summer, this definition may be fulfilled by enrollment in one or more sessions within the summer semester. [GO TO TOP](#)

PERSONAL DATA CHANGES

Any of the following constitute personal data changes and may be completed at the Office of the University Registrar:

1. Change of address—all students must maintain a permanent address in Kent State's student information system. Residence halls may not be used as a permanent address. Address changes are processed using FlashLine.
2. Change of name for currently enrolled students requires legal documentation.
3. Change of residency status. Approval is in accordance with the policy mandated by the state of Ohio. See [policy regarding Ohio student residency](#).
 - i. New students appealing their non-resident status at the time of their admission should apply for residency at their admitting office.
 - ii. Current and former students should apply for residency at the Office of the University Registrar or their Regional Campus office.

Change of college, major, minor or degree program requires approval of the students' college office. Forms may be obtained at the college office or Regional Campus office. [GO TO TOP](#)

DISCLOSURE OF SOCIAL SECURITY NUMBER

University Rule 3342-5-091 requires that all students having a Social Security number provide it to the university. A system-assigned student ID number will be used within the university to link all of the student's academic and financial records kept by the university. [GO TO TOP](#)

SECURITY AND PRIVACY OF KENT STATE E-MAIL AND NETWORKS

Kent State University employs various measures to protect the security of its computing resources and its users' accounts. Users should be aware, however, that the university cannot guarantee the absolute security and privacy of data stored on university computing facilities. Users should therefore engage in "safe computing" practices by establishing appropriate access restrictions for their accounts, guarding their passwords, changing them regularly and backing up critical files when appropriate.

Users also should be aware that the use of university computing resources is not completely private. While the university does not

routinely monitor individual usage of its computing resources, the normal operation and maintenance of the university's computing resources require the backup and caching of data and communications, the logging of activity, the monitoring of general usage patterns and other such activities that are necessary for the normal operation of service. Communications made by means of university computing resources are generally subject to Ohio's Public Records Statute to the same extent as they would be if made on paper. Companies who are recognized to be operating as agents of the university, like Google Gmail and spam filtering services, are also subject to university policies and relevant laws.

Connections to the university's wireless network may be unsecured, and data such as passwords, e-mail and instant messages could be intercepted by other users. The use of secure websites (https), virtual private network (VPN) or wireless encryption via the FLASHZONE-WPA network are strongly recommended if any sensitive data is involved. [GO TO TOP](#)

RESPONSIBLE USE OF TECHNOLOGY RESOURCES

Access to technology is essential to the university's mission. However, access to technology is a privilege that requires faculty, staff, students and all users of university computing resources to use technology resources responsibly. See [Chapter 9 of the University Policy Register website](#) for Kent State's policies on information technology and security. These policies provide general standards and may be supplemented with additional policies from units that operate their own computers or networks, provided such policies are consistent with this policy. [GO TO TOP](#)

ILLEGAL DOWNLOADING OF COPYRIGHTED MATERIAL

Responsible use includes avoiding illegal downloading or sharing of music, video and other copyrighted works, and the use of software and peer-to-peer (P2P) file sharing networks that support those activities. If caught downloading copyrighted material, individuals may be subject to statutory damages up to \$30,000 for each work infringed and, if willful infringement is proven by the copyright owner, that amount may be increased up to \$150,000 for each work infringed. The penalty for movie infringements can be up to \$250,000 per movie file. In addition, an infringer of a work may also be liable for the attorney's fees incurred by the copyright owner to enforce his or her rights, and university sanctions ranging from losing network usage rights to dismissal from the university. See the Kent State Information Services [copyright information website](#). [GO TO TOP](#)

UNIVERSITY USE OF ELECTRONIC MAIL (E-MAIL)

A university-assigned student e-mail account shall be an official university means of communication with all students at Kent State University. Students are responsible for all information sent to them via their university-assigned e-mail account. If a student chooses to forward information in their university e-mail account, he or she is responsible for all information, including attachments, sent to any other e-mail account. To stay current with university information, students are expected to check their official university e-mail account and other electronic communications on a frequent and consistent basis. Recognizing that some communications may be time-critical, the university recommends that electronic communications be checked minimally twice a week. [GO TO TOP](#)

A

Academic Advising

Advising helps students clarify their life/career goals, reach their maximum educational potential and achieve academic success. It promotes academic success by addressing student needs related to learning, personal development and career aspirations; recognizes and responds to diverse individual needs and differences among students; and helps students plan and implement academic programs of study in a manner that will ensure timely progress toward graduation.

Academic Forgiveness Policy

Pertains only to former Kent State students returning to the university as undergraduate students after a significant absence. It provides them an opportunity to have their academic standing reflect the increased maturity and improved level of academic performance gained since the interruption of studies at Kent State.

Academic Standing

Students with a cumulative 2.00 GPA or above are in good academic standing. Students with a cumulative grade point average below 2.00 are placed on academic probation.

Academic Year

The academic year consisting of two 16-week semesters – fall and spring.

Accreditation

An external review process by which experts authorize or give credentials indicating that standards and expectations have been met by academic programs or institutions.

Admissions Office

Undergraduate admissions applications are available from this office, as is official acceptance to the university.

Adult Student

A student who is 21 years old or older and who has been out of high school for three years or more at the time of his/her first college enrollment. Further defined as any student whose primary life roles and responsibilities exist independent of the university and which, at times, may take precedence over the role of student.

Advanced Placement

Credit granted by Kent State for satisfactory scores attained through high school participation in this nationally standardized program. Contact the Honors College for information.

Advisor

Professional advising staff member or a faculty member who provides students with information concerning courses, programs of study and other aspects of academic life.

Attempted Hours

Students' total credit-hour registration, either for a specific term or cumulative for all terms. Attempted hours include courses for which students have received either a letter grade or other administrative mark (AU, IN, IP, NA, NF, NR, SF, W, etc.)

Audit

Audit is enrollment in a class where no grade or credit is received.

B

Board of Trustees

The board is made up of 11 trustees, two of whom are students at Kent State University. Trustees are appointed by the governor to provide for the proper maintenance and successful, continuous operation of the university (as specified by the Ohio Revised Code).

Board Plan

Food service plan operated by the university. Participation is mandatory for freshmen and sophomores living in residence halls.

Bursar's Office

The university office where payments of tuition and fees are made.

C

Career Services Center

The university office providing assistance with career employment, career counseling, student employment and academic testing.

Catalog Year

A term identifying the catalog that contains the requirements defining a student's degree program. Initially, it is the Catalog in force during the student's first semester at Kent State University.

Certificate Programs

Certificates are awarded to students who successfully complete a course of study designed to meet a specific need and that has been designated a Certificate Program and properly approved as such. These programs consist of no less than 15 credit hours and no more than 30.

[Undergraduate Certificates](#)

[Graduate Certificates](#)

Certification

Formal "licensing" of a professional program according to the standards of an external professional body.

Center for Student Involvement

The Center for Student Involvement (CSI) offers an array of resources that provide opportunities for leadership and participation in student-initiated projects and organizations.

CLEP

College Level Examination Program -- A testing program administered by Academic Testing Services. The completion of these exams may result in college-level credit.

College

Academic organizational division of the university offering curricular programs leading to baccalaureate and advanced degrees.

Colloquium

An academic seminar on a broad topic usually led by a different lecturer at each meeting.

Commuter Student

Unless you live in a residence hall, you are a commuter student. More than 75 percent of students commute to school every day.

Complete Term Withdrawal

Withdrawal from all courses is permitted through the published deadlines found on the [University Registrar's website](#).

Concentration

An area of focus within a major usually encompassing several allied disciplines.

Co-requisite

Course(s) requiring simultaneous enrollment in another course. Example: PHY 13001 is a co-requisite for PHY 13021.

Course Load

Total number of semester credit hours for which a student is registered during any semester.

Course Withdrawal

Process by which a student removes a course(s) from his/her schedule, subject to the deadlines published in the Schedule of Classes. A mark of W will be recorded on the student's transcripts if the withdrawal is after the second week of the fall and spring semesters. Refer to the schedule of classes for the summer deadlines.

Credit-by-Examination

Credit earned in selected approved courses by taking a departmental examination to test knowledge already possessed without previous course enrollment. Contact Academic Testing Services.

Credit Hours

Units, acquired for completed coursework that are applied toward a degree.

D

Dean

The head of a division, faculty, college or school of a university.

Dean's List

In recognition of academic excellence, a Dean's List is compiled each academic semester. To qualify, students must have a grade

point average in the semester of 3.40 or greater and must have completed 12 or more regular letter-graded credit hours by the end of that semester. This notation will be printed on the students' official transcript.

Degree

- *Associate Degree*: Two-year degree of a technical or general nature offered only through the Regional Campuses.
- *Baccalaureate Degree*: Academic degree conferred by a university or college.
- *Combined Baccalaureate and Master's Degree Programs*: Programs of study available to students with outstanding undergraduate records or exemplary professional credentials.
- *Master's Degree*: Academic degree conferred by a university for completion of an integrated program of study at the graduate level beyond the bachelor's degree; usually involved one or more years of work and completion of a research project or thesis.
- *Educational Specialist*: Post-master's practitioner program. This is not an interim step between the master's and doctoral degrees, but provides preparation for a specialty position within the field of professional education.
- *Doctoral Degree*: Highest degree conferred by a university following advanced graduate study and research.

Department

Academic unit within a college or school.

Destination Kent State

Is a three-part orientation program designed for first-year students to familiarize them with Kent State University, and provide them with the tools necessary to enjoy a successful journey to graduation.

Discipline

Specific area of study; formally organized body of knowledge.

Dismissal

Students who fail to make adequate progress toward completion of a program of study or whose academic performance indicates little chance of obtaining the minimum grades required for graduation is no longer allowed to enroll at the university.

Distance Learning

Distance learning is any type of interactive education in which students work on their own at home or at the office and communicate with faculty and other students via e-mail, electronic forums, video conferencing or another form of computer-based communication.

Diversity Course Requirement

Coursework required of all undergraduate students. Normally students must complete two courses from the list of approved diversity courses, including at least one from the diversity list within the Kent Core program.

Double Major

The pursuit of two or more programs of academic study for a single degree within the same college.

Dual Degree

The pursuit of programs of study in two different colleges within the university leading to degrees in both colleges. Students may also pursue two separate degrees, as available, within the same college.

E

Elective

Classes pursued in addition to the collegial, departmental, major and liberal education degree requirements.

F

Faculty Senate

Faculty governing body that is primarily concerned with matters of university educational policies, curriculum, academic and professional standards, and the establishment, discontinuance and major alteration of academic programs. Possesses shared responsibilities and advisory responsibilities. May consider other matters pertaining to the welfare and mission of the university.

Financial Aid

Financial assistance for an eligible student; available in the form of grants, loans, scholarships and federal work-study employment.

FLASHcard (Identification Card)

Identification card issued to all registered students. It is used for admittance to athletic, cultural and social events; borrowing of library materials; and purchasing goods and services on the Golden Flash debit plan or the Food Services board plan.

FLASHcash

FLASHcash is a prepaid purchase plan for students, faculty, staff or anyone who frequently visits Kent State University. It works like a credit card in reverse. You make an initial deposit to your account and charges are deducted as you make purchases. For more information visit

FlashLine

FlashLine is the web-based portal (entryway) for Kent State students, faculty, staff and alumni. For help with FlashLine, contact the university Helpdesk at 330-672-HELP or visit the FlashLine information website.

First-Year Experience Course

Program designed to familiarize new students with the university, their college and university policies and procedures.

Free Application for Federal Student Aid (FAFSA)

Financial information document submitted by an applicant for student financial aid; supplies information concerning income, assets, expenses and liabilities.

Freshman

An undergraduate student who has earned fewer than 30 semester hours.

Full-Time Student

Any undergraduate student enrolled in the university who is carrying a course load of 12 or more hours per semester.

G

General Requirements

General requirements address a broad range of matters such as degree requirements, requirements for graduation, residency requirements and academic standing.

GPA (Grade Point Average)

Grade point average is determined by the number of hours attempted at Kent State University and the grades received.

Graduate Student Senate

Represents the concerns of the graduate student community of Kent State University and serves as an allocation body by providing funding to graduate students and graduate organizations for speakers, workshops, social events and professional travel.

Graduation Planning System (GPS)

A program that provides students with a roadmap to degree completion which includes a real-time degree audit and an individualized educational plan.

Grant (Financial Aid)

A nonrepayable award to an eligible student based upon determined financial needs and program criteria.

I

Incomplete (IN grade)

An administrative mark that may be given to students who are unable to complete the last three weeks of a semester because of factors beyond their control.

In Progress (IP grade)

A grade given to indicate that research, individual investigation or similar efforts are in progress and that a final grade will be given when all the work is completed.

Individual Investigation

A method of independent study that, if approved by the appropriate university authorities, allows the student to pursue topics of interest in a flexible time frame.

Individualized Major

Individually designed program of study developed in consultation with the dean of the college and with faculty recommendations.

Intercollegiate

Activities involving two or more colleges or universities.

Interdisciplinary

Course or program of study involving two or more major areas and departments of study.

International Student

A student who is not a citizen of the United States and who has entered the United States on a temporary basis for the purpose of enrolling in an educational institution.

Internship

A work experience in a position related to the academic field of preparation.

J

Junior

An undergraduate student who has earned between 60-89 semester hours.

K

Kent Academic Progress System (KAPS)

An automated degree audit system to monitor students' progress toward completion of degree requirements.

Kent Core

The Kent Core is the foundation of the university's mission to prepare students to live in today's complex, global society. It broadens intellectual perspectives, fosters ethical and humanitarian values and prepares students for responsible citizenship and productive careers. Through this learning experience, students develop the intellectual flexibility they need to adapt to an ever-changing world.

Kent Core Coursework

- " Composition
- " Mathematics and Critical Reasoning
- " Humanities and Fine Arts
- " Social Sciences
- " Basic Sciences
- " Additional Courses

L

Late Registration

Process of initial class enrollment for a given term once the term has begun. A late registration fee is assessed beginning the second week of classes.

Liberal Education Requirements (LER) (Replaced by Kent Core fall 2010)

In five areas to be completed during the first two years of study, the LER are designed to provide a common nucleus and an appropriate breadth of inquiry, understanding and perspective to the Kent State undergraduate education experience. It is essential, therefore, that students consult the Catalog descriptions for their college degree program.

Licensure

Formal "permission" of a professional program according to the standards of an external professional body—for example, the certification of graduates in approved curricula of the College of Education, Health, and Human Services.

Lower Division

A student with freshman or sophomore standing; also may refer to a course whose number begins with 1 or a 2.

M

Major

A subject of focus for academic study in which a student pursues a prescribed curriculum and is a formal degree candidate.

Matriculation

The process of being admitted into a group, especially a college or university.

Minor

Subject of focus for academic study in which a student pursues a prescribed curriculum and is a formal degree candidate.

N

Noncredit

Courses or programs for which no academic credit is given.

Nonresident

Student who has not established status as a resident of Ohio as defined by Ohio Board of Regents. Refer to the policy on Ohio Student Residency in the Fees and Financial Aid section of this Catalog.

O

Office of Student Conduct

Responsible for addressing the adjudication of students who are accused of violating campus rules or policies, state laws, federal laws, and/or municipality disputes.

OIG (Financial Aid)

Ohio Instructional Grant; a nonrepayable award made by the Ohio Board of Regents to an eligible undergraduate student who is an Ohio resident. The OIG is applied to the cost of tuition and fees.

Ombuds

Swedish term meaning "representative." Person appointed by the university to assist students in resolving concerns, complaints and grievances through established channels.

Overload

Enrollment for classes hour in excess of 18 during fall or spring semester, in excess of 6 hours during Summer I or III, or 10 hours during Summer II.

P

Part-Time Student

Any undergraduate student enrolled in the university who is carrying a course load of fewer than 12 hours per semester.

Pass-Fail

System by which undergraduate students can take elective courses for a grade of pass or fail in lieu of a letter grade.

Pell Grant

A nonrepayable financial aid award provided by the federal government directly to an undergraduate student.

Postundergraduate

A student with a baccalaureate degree who is enrolling in additional undergraduate-level classes.

Practicum

A school or college course, especially one in a specialized field, designed to give the students supervised practical experience.

Preprofessional

Preparation for professional training through undergraduate programs of study.

Prerequisite

Course(s) or condition(s) required before enrollment in a more advanced class. Example: Biology 10181 is a prerequisite for Biology 10182.

President's List

In recognition of an extremely high level of academic excellence, a President's List is compiled each academic semester. To qualify, students must have a grade point average in the semester of 4.00 and must have completed 15 or more credit hours (all of which have regular grades) by the end of that semester. This notation will be printed on the students' official transcripts.

Probation (Academic)

A warning to students who fail to maintain a semester and/or overall grade point average of 2.00 or better. Failure to improve the academic record within a specific time may result in academic dismissal.

Program

Plan of academic study.

Provost

Vice President of Academic Affairs; chief academic officer of the university.

Q

Quality Points

The number of points assigned per credit hour for each letter grade.

R

Registrar's Office

The university office that plans and oversees registration activities, record maintenance, transcript preparation.

Registration

Process of initial class enrollment for a given term.

Reinstatement

Process by which a student may gain reentry to the university after a dismissal.

Repeat for Recalculation

Students may repeat lower-division (10000-20000 level) courses, and the university will use only the highest grade in the calculation of the cumulative grade point average.

Requirement

Course or condition that must be fulfilled as part of a particular program.

Roadmap

A roadmap is a list of course requirements that must be met for you to graduate with a specific major. It is presented in a semester-by-semester layout for easy understanding. Roadmaps also identify courses and other milestones that are critical (they are in boldface and shaded) for students to complete in a particular semester to be on track for timely graduation.

ROTC

Reserve Officers Training Corps—program leading to commission as officer in military service in either the [Air Force](#) or [Army](#).

S

Schedule Adjustment

A change to a class schedule for a student who has already enrolled in at least one course for the term. Deadlines for schedule adjustments are published in the Schedule of Classes.

School

Term applied to academic units within a particular college or to a single academic unit offering curricular programs leading to a baccalaureate or advanced degree.

Scholarship

A nonrepayable award to an eligible student based upon academic achievement and determined financial need or, in some cases, based upon academic achievement alone.

Semester

School term (about 16 weeks long) that is one-half of the academic year.

Semester Hour

Each unit of academic credit assigned to a course as the credit value for that course under the semester system is known as the semester hour. Generally, semester hours of credit for a course are directly equivalent to the number of classroom contact hours per week.

Senior

An undergraduate student who has earned 90+ semester hours.

Sequence

Courses that must be taken in a definite order.

Sophomore

An undergraduate student who has earned 31-59 semester hours.

Student Legal Services

Is a non-profit law firm whose purpose is to explain and assist in resolving legal issues that a student may face.

Syllabus

An outline or a summary of the main points of text, lecture or course of study.

Symposium

A meeting or conference for discussion of topic, especially one in which the participants form an audience and make presentations.

T

Transcript

The accurate and complete record of a student's academic coursework attempted at an institution, presented in either electronic format or paper format.

Transfer Module

Developed by the Ohio Board of Regents, a specific subset or the entire set of a college or university's general education requirements (Kent Core). A Transfer module completed at one Ohio college or university will automatically meet the requirements of the Transfer Module at the receiving Ohio institution, once the student is accepted. Students may be required, however, to meet additional general education requirements that are not included in the Transfer Module.

Transfer Student

Any student applying to Kent State University who has attended any institution of higher learning since leaving high school.

Transient Coursework

Coursework approved for Kent State University students who attended another accredited institution.

Transient Student

Any student enrolled in another college or university who will attend Kent State University for one term.

Tuition

A fee for instruction, especially at a formal institution of learning.

Tutor

Person providing special study skills and assistance in a particular subject or academic program.

U

Undergraduate

A term applied to freshmen, sophomores, juniors and seniors who are pursuing a baccalaureate degree.

Undergraduate Student Government

Primary vehicle by which the undergraduate student body provides its input into the university community.

Upper Division

Upper-division courses are numbered 30000-49999 and expect both greater familiarity with the subject matter and greater intellectual sophistication. Students must complete the appropriate prerequisites in specified lower-division courses before entering upper-division courses. In general, baccalaureate degree programs require the successful completion of at least 39 upper-division semester hours of coursework.

W

Withdraw

See Course Withdrawal

Workshop

A credit or noncredit activity that focuses on a participant's professional tasks. Instructional emphasis is given to mastery and applications of knowledge, skills and attitudes that address a narrowly defined range of problems or issues related to practice. All credit workshops are graded satisfactory/unsatisfactory (S/U).

Work-Study (Financial Aid)

An employment program based upon determined financial need. An eligible student may be employed on campus for not more than an average of 20 hours per week to earn money to help pay for educational costs.

Writing-Intensive Course Requirement

A graduation requirement for all undergraduate students requiring completion of at least one upper-division course designed as "writing-intensive" with a grade of C (2.0) or better.

■ Kent Core (general education requirements)

Kent State University Catalog 2010 - 2011 > University Policies > [Kent Core](#)

The Kent Core is the foundation of the university's mission to prepare students to live in today's complex, global society. It broadens intellectual perspectives, fosters ethical and humanitarian values and prepares students for responsible citizenship and productive careers. Through this learning experience, students develop the intellectual flexibility they need to adapt to an ever-changing world. Kent Core courses enable students to:

- Acquire critical-thinking and problem-solving skills
- Apply principles of effective written and oral communication
- Broaden their imagination and develop their creativity
- Cultivate their natural curiosity and begin a lifelong pursuit of knowledge
- Develop competencies and values vital to responsible uses of information and technology
- Engage in independent thinking, develop their own voice and vision and become informed, responsible citizens
- Improve their understanding of issues and behaviors concerning inclusion, community and tolerance
- Increase their awareness of ethical implications of their own and others' actions
- Integrate their major studies into the broader context of a liberal education
- Strengthen quantitative reasoning skills
- Understand basic concepts of the academic disciplines

Although not every Kent Core course will address all these goals, learning within the Kent Core as a whole enables students to acquire the tools for living rich and meaningful lives in a diverse society.

Kent Core Coursework (36-37 credit hours)

- I. Composition (6 credit hours)
- II. Mathematics and Critical Reasoning (3 credit hours)
- III. Humanities and Fine Arts (9 credit hours)
- IV. Social Sciences (6 credit hours)
- V. Basic Sciences (6-7 credit hours)
- VI. Additional Courses (6 credit hours)

[Guidelines, transfer credit, proficiency testing and other options in meeting the Kent Core](#)

[Kent Core course listing in PDF format](#)

Courses marked TM are in the [Ohio Transfer Module](#). Courses marked G (global) or D (domestic/U.S.) fulfill the [diversity course requirement](#). Laboratory courses are marked LAB. Students majoring in a program in the College of Arts and Sciences must adhere also to that college's general requirements. None of the courses on the Kent Core list may be taken with a pass/fail grade.

V. BASIC SCIENCES (6-7 credit hours)

At least one laboratory course (marked "LAB") must be selected. Beginning "major sequences" courses in biological sciences (BSCI 10110, 10120), chemistry (CHEM 10060, 10061, 10062, 10063, 10960, 10961) and physics (PHY 23101, 23102) may be substituted for those courses listed below.

- Anthropology (ANTH)
- TM 18630 Human Evolution (3)
- LAB TM 18631 Issues in Human Evolution (1) (Pre/corequisite 18630)
- Biological Sciences (BSCI)
- TM 10001 Human Biology (3)
- TM 10002 Life on Planet Earth (3)
- LAB TM 10003 Laboratory Experience in Biology (1)
- LAB TM 20020 Biological Structure and Function (5)
- Chemistry (CHEM)
- TM 10030 Chemistry in Our World (3)
- LAB TM 10031 Chemistry in Our World Laboratory (1) (Pre/corequisite 10030)
- TM 10050 Fundamentals of Chemistry (3)
- TM 10052 Introduction to Organic Chemistry (2)
- LAB TM 10053 Inorganic and Organic Laboratory (1) (Corequisite 10052)
- TM 10054 General and Elementary Organic Chemistry (5)
- Geography (GEOG)
- TM 21062 Physical Geography (3)
- LAB TM 21063 Physical Geography Laboratory (1)
- Geology (GEOL)
- TM 11040 Earth Dynamics (3)
- LAB TM 11041 Earth Dynamics Laboratory (1) (Pre/corequisite 11040)
- TM 11042 Earth History (3)
- LAB TM 11043 Earth History Laboratory (1) (Pre/corequisite 11042)

- TM 11660 Physical Science (3)
- TM 13001 General College Physics I (4)
- TM 13002 General College Physics II (4)
- TM 13011 College Physics I (2)
- TM 13012 College Physics II (2)
- LAB TM 13021 General College Physics Laboratory I (1)
- LAB TM 13022 General College Physics Laboratory II (1)
- TM 21040 Physics in Entertainment and the Arts (3)
- LAB TM 21041 Physics in Entertainment and the Arts Laboratory (1) (Pre/corequisite 21040)
- TM 21430 Frontiers in Astronomy (3) or
- TM 24001 Astronomy (3)

VI. ADDITIONAL COURSES (6 credit hours)

Select courses from above (no more than one course per category). One or both of the following courses may also be selected:

- Communication Studies (COMM)

TM 15000 Introduction to Human Communication (3)

Philosophy (PHIL)

11009 Principles of Thinking (3)

DIVERSITY

All students must complete a two-course diversity requirement, consisting of one with a domestic focus and one with a global focus. At least one course must be taken from the Kent Core, marked above as "G" (global) or "D" (domestic/U.S.). This course may count both for the diversity requirement and for the Kent Core category in which it is listed. Visit the [diversity requirement page](#) for a complete course listing.

Kent Institutional Characteristics

Kent State University Catalog 2010 - 2011 > About Kent > [Kent Institutional Characteristics](#)

The categories and paragraphs below emanate from and elaborate upon the Role and Mission of Kent State University. Taken as a whole, these categories and the information contained therein detail Kent State institutional characteristics embodied within the university's role and mission statement. The university's annual and multiyear planning efforts are thus guided by the values and goals explicitly and implicitly described by the Kent Institutional Characteristics that follow.

STUDENTS

Kent State University recruits an academically talented and culturally diverse student body. The university affirmatively strives to provide educational opportunities to students from varied backgrounds, including those persons who have been historically underrepresented in higher education. While admission to the Kent Campus is selective, the seven Regional Campuses offer open admissions. Through its Honors College, Kent State makes a particular effort to attract students who have already demonstrated their capacity to achieve outstanding academic success. For more than three decades the university has played a leading role nationally in providing opportunities to students with disabilities. The university also provides special programs that address the needs of students who for socioeconomic reasons are underprepared but who have the ability to achieve academic success.

While undergraduate students from every region of the nation and many foreign countries attend Kent State, the majority of its undergraduate students are from Northeast Ohio and reflect the rich diversity of the region's ethnic and cultural communities. A significant proportion of Kent State's graduate students come from beyond the boundaries of Ohio and the nation, and their presence on campus contributes significantly to the variety of experiences available to the student body as a whole. The university is placing increased emphasis on serving nontraditional students through programming at all of its campuses and through selected continuing education programs that complement and logically extend its academic degree programs.

FACULTY

To promote learning and foster the intellectual life of the university, Kent State seeks to attract and retain an active, culturally and academically diverse faculty of the highest caliber, skilled in the scholarship of teaching, discovery, application and integration. The university affords its faculty the fullest possible academic and artistic freedom, including varied opportunities for professional development, collaboration among academic disciplines and outreach to local, national and international communities. At Kent State University, faculty play an integral role in university-wide planning and governance.

CURRICULUM

Kent State University is accredited by The Higher Learning Commission and is a member of the North Central Association. The university offers a wide array of associate, baccalaureate, master's and doctoral degrees. Its programs provide a balance of academic and professional preparation in accordance with the highest national standards. Kent State fosters collaboration and articulation with community colleges and four-year institutions, as well as cooperative efforts with secondary and elementary schools to further facilitate successful transition to and within higher education. The university is committed to providing a living-learning environment that encourages individual growth and promotes the successful and timely completion of degrees.

Undergraduate. All undergraduate programs reflect the university's commitment to a liberal education foundation, which is intended to broaden intellectual and aesthetic perspectives, explore ethical and humane values, and prepare students for lifelong learning and responsible participation in a complex, changing society. The specialized major provides study in depth, which leads to knowledge and understanding in academic and professional fields of study. Undergraduate students are also offered varied opportunities to participate in research, take graduate-level coursework and engage in work outside the classroom.

Graduate. Kent State University, Northeast Ohio's senior public institution of higher education, offers an extensive range of advanced academic programs leading to the master's degree and selected programs leading to the doctoral degree. Kent State is committed to providing graduate-level programs that complement and enhance undergraduate education and meet the highest national standards. These programs provide advanced training and knowledge essential to the economic development and general welfare of Ohio and the nation, as well as lead to research with a global impact. The university recruits and retains high-quality students from across the nation and abroad to engage in study under the direction of a distinguished graduate faculty.

SPECIAL FEATURES

Kent State University was established in 1910 as Kent Normal School. Since its inception, Kent State has maintained its commitment to provide national leadership in what have been historical strengths of the university, professional education and the liberal arts. Kent State has a rich tradition in the preparation of teachers and is among the leaders nationwide in research related to teaching and learning. The university stresses the importance of a strong liberal arts base through its Liberal Education Requirements and maintains distinguished doctoral programs in selected areas of the humanities. From the events of May 4, 1970, Kent State University inherits a unique leadership role in promoting the peaceful resolution of conflict through education.

Northeast Ohio is a region with a population of more than 4.5 million, in a geographical area that is both urban and rural. With its Kent Campus and seven Regional Campuses, located at Ashtabula, East Liverpool, Geauga, Salem, Stark, Trumbull and Tuscarawas, the Kent State University system makes a university education accessible to all segments of Northeast Ohio.

Because it is home to many corporations and the NASA Glenn Research Center, Northeast Ohio is noted for research and development activities in science and engineering. Its location gives the university a special mission in the applied and basic sciences exemplified by the internationally renowned research conducted at Kent State's Glenn H. Brown Liquid Crystal Institute®.

The broad metropolitan area encompassing Cleveland, Akron, Canton, Youngstown and Warren has superb medical and health-related research facilities. Kent State builds upon these geographical advantages to offer nationally recognized programs of study and research in the health and behavioral sciences.

Kent State University has long been devoted to improving the quality of life in the region by emphasizing community development and design, illustrated by the leadership role its College of Architecture and Environmental Design plays in the Northeastern Ohio Urban Design Center.

As a major cultural resource for Northeast Ohio and prominent player in fine arts activities at nearby Blossom Music Center and Porthouse Theatre, Kent State is committed to maintaining excellent programs in the visual and performing arts.

Telecommunications, information sciences and other communication activities abound in the region, and Kent State offers well-recognized programs in several fields of communication, including established programs in print and electronic journalism and information sciences.

Northeast Ohio is a major business and commerce center. Kent State's programs in business and commerce are designed to serve area executives and business professionals, as well as prepare students for productive careers in a global economy.

Kent State University stresses internationally related activities and participates in a number of study-abroad programs and exchanges of students and faculty. Kent State students may explore the history, languages, cultures and religions of other countries and ethnic groups by taking courses and programs offered by many academic units.

TEACHING

Kent State University views learning in all its forms as central to its mission. University faculty provide instruction that reflects current knowledge gained through ongoing scholarship and adheres to the highest professional and ethical standards. Faculty members are readily accessible to students, who are encouraged to take an active role in the learning process. The university promotes excellence in teaching by offering faculty members opportunities for development in the areas of curriculum and instruction; by providing high-quality equipment, materials and facilities; and by maintaining a system of rewards and recognition based on the premise that teaching, research and creative activity are mutually supportive. Because teaching and learning are not confined to the classroom experience, a high value is placed on such related activities as individual instruction, thesis and dissertation direction, and academic advising.

RESEARCH AND CREATIVE ACTIVITY

A fundamental mission of the university is to enhance the quality of life through research and creative activity. Therefore, Kent State University has among its goals the generation, dissemination and application of knowledge in all its forms. Moreover, it considers research and creative activity necessary for teaching excellence. Faculty are expected to be actively engaged in a broad spectrum of scholarly activity conducted in accordance with the highest professional and ethical standards. Much of this activity relies upon cooperative efforts with students and staff. The university supports these efforts by fostering an environment of free inquiry; by offering opportunities for research-assigned time; and by providing the material and personnel resources required for high-quality scholarship, including an excellent library with Association of Research Libraries status. Kent State University is committed to strengthening selected research and creative programs that have attained, or hold the promise of achieving, national and international prominence, as well as those that fulfill key societal goals.<

OUTREACH AND COMMUNITY SERVICE

Kent State University is committed to being a catalyst in finding solutions to the social, economic and cultural challenges facing society. By means of the dissemination of results from basic and applied research conducted by its faculty and graduate students, as well as through programs offered through continuing education and at the Regional Campuses, Kent State contributes significantly to the social and economic vitality of Northeast Ohio. The many activities fostered by the university in areas such as art, music, fashion design, theatre, dance, recreation and intercollegiate athletics enrich the life of the community. Its national public radio station, university press and museum are important regional and national assets.

CAMPUS ENVIRONMENT AND CO-CURRICULAR ACTIVITIES

Dedicated to creating an atmosphere in which each individual within its diverse student body can achieve, Kent State University provides a holistic learning environment conducive to the academic and personal growth of each student. Kent State's dynamic campus life affords students the opportunity to participate in a wide range of cocurricular activities that promote intellectual, cultural, ethical, physical, aesthetic and interpersonal development. Facilitated by an able support staff involved in the university's planning and operation, Kent State provides strong support services to help ensure the achievement of students and faculty, as well as provide for their physical, emotional and social well-being. Kent State University has attained notable success in providing accessibility for persons with disabilities. Student life at the Kent Campus is further enhanced by the university's distinctive and attractive residential setting with all of the advantages of major urban centers nearby.

DIVERSITY

Kent State University is committed to an environment in which the faculty, staff and student body are representative of the cultural and ethnic variety found locally, nationally and even globally. [Diversity](#) at Kent State connotes the encouragement, celebration and support of a rich mixture of people on campus. In an effort to foster an understanding of the strengths and challenges of diversity, the university provides opportunities for the open exchange of ideas and experiences among people diverse in national origin, gender, age, sexual orientation, ethnicity, disability, religion and veteran status.

ALUMNI

Kent State University recognizes that the many significant contributions of [alumni](#) to their professions and to society as a whole represent the practical embodiment of the university's educational philosophy and are a measure of its success. The university takes

great pride in the achievements of its alumni and seeks to maintain close working ties with its graduates. The human and financial resources of alumni also provide essential assistance in assuring that the university will be able to continue to serve future generations.

EVALUATION

Kent State University is committed to self-assessment as a tool to evaluate and enhance institutional effectiveness. The foregoing categories provide major areas for assessment, which at Kent State involve both internal and external measures of evaluation. Through periodic program review, preparation for external [accreditations](#), special studies and annual planning activities, academic and support units of the university are involved in an ongoing process of self-examination and improvement. Planning at Kent State guides future directions and priority-setting to which decision-making and resource allocation are linked. Outcomes assessment plays a major role at the university in facilitating academic program improvement and change.

- » [May 4, 1970](#)

Kent State University Catalog 2010 - 2011 > About Kent > [May 4, 1970](#)

Kent State University was placed in an international spotlight after a tragic end to a student demonstration against the Vietnam War and the National Guard on [May 4, 1970](#). Shortly after noon on that Monday, 13 seconds of rifle fire by a contingent of 28 Ohio National Guardsmen left four students dead, one permanently paralyzed, and eight others wounded. Not every student was a demonstration participant or an observer. Some students were walking to and from classes. The closest wounded student was 30 yards away from the Guard, while the farthest was nearly 250 yards away.

The divisive effect of the Vietnam War on American society was especially evident on campuses throughout the country. At Kent State, the day after the announcement to send U.S. troops into Cambodia marked the start of a weekend of antiwar protests that began on campus and spilled into the city of Kent's downtown. Broken windows and other damage to a number of downtown businesses prompted fear, rumors and eventually a call by the city's mayor to the governor for assistance.

The National Guard arrived Saturday night. That day some students assisted with the downtown cleanup. That night the campus headquarters of the Army Reserve Officers' Training Corps (ROTC) was burned. Sunday morning the governor came to Kent and in the city's firehouse held a press conference saying the university would remain open. After a Sunday of relative calm, an antiwar rally at noon on Monday brought 2,000 to 3,000 people to the University Commons area. When the Guard gave the order to disperse, some in the crowd responded with verbal epithets and stones. The Guard answered first with tear gas, but when spring winds altered its effect, the Guard attempted to enforce the Ohio Riot Act with raised bayonets, forcing demonstrators to retreat. The Guard then changed line formation. As the Guard approached the crest of Blanket Hill, some guardsmen turned toward the Taylor Hall parking lot, and between 61 and 67 shots were fired. Four students were killed and nine wounded. That afternoon University President Robert I. White ordered the university closed.

History, sorrow and healing remain a part of Kent State University. The university Library has dedicated a Memorial Room containing books, papers, studies and other materials relating to the events. In addition, the university has established an academic program designed to help students and others employ peaceful conflict resolution to resolve disputes. On May 4, 1990, the university community dedicated a permanent memorial. Each year, an annual vigil, candlelight service and commemoration enable the university, the Kent community and others to privately and publicly express their feelings. In 1999 as a result of requests from the May 4 Task Force, the university authorized the installation of markers locating the sites in the Prentice Hall parking lot where four students were killed during the tragic events of May 4, 1970. Visitors to the campus will be able to walk the steps of history when the May 4 Walking Tour is dedicated on May 4, 2010, for the 40th commemoration. The Walking Tour features historic site trail markers and narration by notable civil rights activist Julian Bond. Visitors also will be able to view the design of the future May 4 Visitors Center and can follow its progress at www.kent.edu/may4/visitorscenter.

In 2007, a state historical marker was erected near the memorial site. In 2010, the May 4 Site was listed on the National Register of Historic Places.

The university will continue to remember the four students who died—Allison Krause, Jeffrey Miller, Sandra Scheuer and William Schroeder—through scholarships in their names and in the words inscribed on the May 4 Memorial: "Inquire, Learn, Reflect."

Ohio Transfer Module

Kent State University Catalog 2010 - 2011 > Course Information > [Ohio Transfer Module](#)

The Ohio Board of Regents, following the directive of the 119th Ohio General Assembly, developed the Ohio Articulation and Transfer Policy to facilitate students' ability to transfer credits from one Ohio public college or university to another in order to avoid duplication of course requirements. A subsequent policy review and recommendations produced by the Articulation and Transfer Advisory Council in 2004, together with mandates from the 125th Ohio General Assembly in the form of Amended Substitute House Bill 95, have prompted improvements of the original policy. While all state-assisted colleges and universities are required to follow the Ohio Articulation and Transfer Policy, independent colleges and universities in Ohio may or may not participate in the transfer policy. Therefore, students interested in transferring to independent institutions are encouraged to check with the college or university of their choice regarding transfer agreements. In support of improved articulation and transfer processes, the Ohio Board of Regents will establish a transfer clearinghouse to receive, annotate, and convey transcripts among state-assisted colleges and universities. This system is designed to provide standardized information and help colleges and universities reduce undesirable variability in the transfer credit evaluation process.

- [Search TAG-approved courses at Kent State and other institutions](#)
- [Transfer Module courses in the Kent Core are marked with TM](#)

Transfer Module

The new Ohio Board of Regents' Transfer and Articulation Policy established the Transfer Module, which is a subset or entire set of a college or university's general education curriculum in A.A., A.S. and baccalaureate degree programs. Students in applied associate degree programs may complete some individual transfer module courses within their degree program or continue beyond the degree program to complete the entire transfer module.

The Transfer Module contains 54-60 quarter hours or 36-40 semester hours of course credit.

- English composition (minimum 5-6 quarter hours or 3 semester hours)
- Mathematics, statistics and formal/symbolic logic (minimum of 3 quarter hours or 3 semester hours)
- Arts/humanities (minimum 9 quarter hours or 6 semester hours)
- Social and behavioral sciences (minimum of 9 quarter hours or 6 semester hours)
- Natural sciences (minimum 9 quarter hours or 6 semester hours)
- Oral communication and interdisciplinary areas may be included as additional options. Additional elective hours from among these areas make up the total hours for a completed Transfer Module.

Courses for the Transfer Module should be 100- and 200-level general education courses commonly completed in the first two years of a student's course of study. Each state-assisted university, technical and community college is required to establish and maintain an approved Transfer Module.

Transfer Module course(s) or the full module completed at one college or university will automatically meet the requirements of individual Transfer Module course(s) or the full Transfer Module at another college or university once the student is admitted. Students may be required, however, to meet additional general education requirements at the institution to which they transfer. For example, a student who completes the Transfer Module at Institution S (sending institution) and then transfers to institution R (receiving institution) is said to have completed the Transfer Module portion of Institution R's general education program. Institution R, however, may have general education courses that go beyond its Transfer Module. State policy initially required that all courses in the Transfer Module be completed to receive its benefit in transfer. However, subsequent policy revisions have extended this benefit to the completion of individual Transfer Module courses on a course-by-course basis.

Transfer Assurance Guides

Transfer Assurance Guides (TAGs) comprise Transfer Module courses and additional courses required for an academic major. A TAG is an advising tool to assist Ohio university and community and technical college students planning specific majors to make course selections that will ensure comparable, compatible, and equivalent learning experiences across the state's higher-education system. A number of area-specific TAG pathways in the arts, humanities, business, communication, education, health, mathematics, science, engineering, engineering technologies, and the social sciences have been developed by faculty teams.

TAGs empower students to make informed course selection decisions and plans for their future transfer. Advisors at the institution to

which a student wishes to transfer should also be consulted during the transfer process. Students may elect to complete the full TAG or any subset of course from the TAG. Because of specific major requirements, early identification of a student's intended major is encouraged.

Conditions for Transfer Admission

1. Ohio residents with associate degrees from state-assisted institutions and a completed, approved Transfer Module shall be admitted to a state institution of higher education in Ohio, provided their cumulative grade point average is at least 2.0 for all previous college-level courses. Further, these students shall have admission priority over out-of-state associate degree graduates and transfer students.
2. When students have earned associate degrees but have not completed a Transfer Module, they will be eligible for preferential consideration for admission as transfer students if they have grade point averages of at least a 2.00 for all previous college-level courses.
3. In order to encourage completion of the baccalaureate degree, students who are not enrolled in an A.A. or A.S. degree program but have earned 60 semester or 90 quarter hours or more of credit toward a baccalaureate degree with a grade point average of at least 2.00 for all previous college-level courses will be eligible for preferential consideration for admission as transfer students.
4. Students who have not earned an A.A. or A.S. degree or who have not earned 60 semester hours or 90 quarter hours of credit with a grade point average of at least a 2.00 for all previous college-level courses are eligible for admission as transfer students on a competitive basis.
5. Incoming transfer students admitted to a college or university shall compete for admission to selective programs, majors and units on an equal basis with students native to the receiving institution.

Admission to a given institution, however, does not guarantee that transfer students will be automatically admitted to all majors, minors or fields of concentration at that institution. Once admitted, transfer students shall be subject to the same regulations governing applicability of Catalog requirements as native students. Furthermore, transfer students shall be accorded the same class standing and other privileges as native students on the basis of the number of credits earned. All residency requirements must be completed at the receiving institution.

Acceptance of Transfer Credit

To recognize courses appropriately and provide equity in the treatment of incoming transfer students and students native to the receiving institution, transfer credit will be accepted for all successfully completed college-level courses completed in and after fall 2005 from Ohio state-assisted institutions of higher education. Students who successfully completed A.A. or A.S. degrees prior to fall 2005 with a 2.00 or better overall grade point average would also receive credit for all college-level course they have passed. (See Ohio Articulation and Transfer Policy, Definition of Passing Grade and Appendix D.) While this reflects the baseline policy requirement, individual institutions may set equitable institutional policies that are more accepting.

Pass/fail courses, credit by examination courses, experiential learning courses and other nontraditional credit courses that meet these conditions will also be accepted and posted to the student record.

Responsibilities of Students

In order to facilitate transfer with maximum applicability of transfer credit, prospective transfer students should plan a course of study that will meet the requirements of a degree program at the receiving institution. Students should use the Transfer Module, Transfer Assurance Guides and Course Applicability System for guidance in planning the transfer process. Specifically, students should identify early in their collegiate studies and institution and major to which they desire to transfer. Furthermore, students should determine if there are language requirements or any special course requirements that can be met during the freshman or sophomore year. This will enable students to plan and pursue a course of study that will articulate with the receiving institution's major. Students are encouraged to seek further information regarding transfer from both their advisor and the college or university which they plan to transfer.

Appeals Process

Following the evaluation of a student transcript from another institution, the receiving institution shall provide the student with a statement of transfer credit applicability. At the same time, the institution must inform the student of the institution's appeals process. The process should be multi-level and responses should be issued within 30 days of the receipt of the appeal.

Transfer Credit, Proficiency Testing and Other Options in Meeting the Transfer Module

Certain alternatives to formal Kent State coursework may be recognized in the fulfilling of the 36-37-hour Transfer Module requirements.

1. Credits earned for specified courses within the Transfer Module course list through external credit conferring testing programs, such as the CEEB Advanced Placement and CLEP subject examinations, will be applied toward the fulfillment of the Transfer Module requirements as appropriate for the specific courses for which credit is received.
2. Courses transferred from accredited postsecondary institutions will be applied toward fulfillment of the Transfer Module requirements as appropriate for the specific courses for which credit is awarded.
3. The university's Credit-By-Examination (CBE) program may be utilized in fulfillment of Transfer Module requirements within the conditions, guidelines and policies established for that program and for the course(s) for which credit is sought.
4. Proficiency, as established by placement examinations or other recognized procedures and mechanisms for this purpose, can be used to fulfill Area I and II of the Transfer Module requirements. For example,

students who are placed into ENG 21011 and complete it with a passing grade will have met the Area I Transfer Module requirement. It is assumed that students who are placed at and pass the higher level of one of these sequenced courses have also mastered the content of the prerequisite course. While students may meet the requirements of Area I and II through proficiency, minimum hours must be met in Areas III, IV and V. Students meeting Area I and II requirements through proficiency must substitute other courses, which shall be elective, to earn a minimum of 121 hours of appropriate coursework toward a baccalaureate degree.

To fulfill the purposes of general education, any of the above alternatives to the fulfillment of the Transfer Module requirements by 36-37 hours of formal coursework at Kent State University must be exercised by the students within the first 60 hours of academic credits earned at and/or transferred to Kent State University.

Students who transfer to the university with more than 45 semester hours of applicable credits (including students with associate's degrees in technology from the Kent State University Regional Campuses or those who transfer to bachelor-level programs from associate-level technology programs) must exercise such option(s) within the first calendar year of their Kent State University enrollment.

Questions concerning, and requests for application of, these alternatives to formal Kent State University coursework as a means of fulfilling the Transfer Module requirements shall be addressed to, and will be determined by, the dean of the college or independent school in which the degree program that the students are pursuing is located.

QUALITY ASSURANCE PROGRAM

Participation in this program, which is sponsored by the U.S. Department of Education, provides the opportunity for the Student Financial Aid Office to focus on improvements in monitoring federal compliance while enhancing service delivery. The program is an implementation of the Total Quality Management philosophy which, in part, emphasizes service delivery and consumer satisfaction. The goal of the project is to improve the equality and fairness in awarding federal aid.

SHORT-TERM LOANS

Short-term loans, administered by the Bursar's Office, provide enrolled students with loans up to a maximum of \$500. Short-term loans must be repaid (usually within 30 days). Specific enrollment, grade point average and student account status criteria are required in order to qualify for a short-term loan.

VETERANS

Veterans/reservists enrolling at the Kent Campus and planning to apply for Veterans Administration (VA) educational benefits must submit a copy of their DD 214 Form, Certificate of Release or Discharge From Active Duty, or DD 2384 Form, Notice of Basic Eligibility, to the Veterans Certifying Official in the Student Financial Aid Office. All veterans/reservists are required to complete the necessary Veterans Administration forms to obtain educational benefits and must complete an enrollment certification at the beginning of each semester. The administrative marks AU, NR and Z are not accepted by the VA for educational benefits. Veterans must be enrolled in a degree program in order to receive benefits.

Philosophy of a Kent State University Undergraduate Education

Kent State University Catalog 2010 - 2011 > University Policies > [Philosophy of a Kent State University Undergraduate Education](#)

Kent State University, a public research university, brings scholarly and creative activity and innovation to undergraduate and graduate education. A community that joins diverse students and faculty together as discoverers, creators and learners, Kent State University recognizes its responsibility to preserve and enhance its historic legacy through civil discourse and a respect for diverse viewpoints. The University strives to serve and benefit the people of Ohio and to be a national leader in the creation, dissemination and application of knowledge and in the formation of effective, responsible, and productive citizens in our increasingly complex, interconnected and diverse global community.

Kent State University has built its philosophy of undergraduate education on the dynamic relationship of knowledge, insight, engagement and responsibility. The University embraces the vision that a liberal arts education is foundational for peaceful coexistence, unity, goodwill, respect and justice between and among the citizens and institutions of this nation and other sovereign nations and peoples. Kent State graduates have developed specialized and general knowledge and skills that they are prepared to apply responsibly in new and complex settings and thereby contribute substantially to the public good.

A Kent State University undergraduate education is:

Knowledge. Study in the arts, humanities, interdisciplinary studies, languages, mathematics, sciences and social sciences provides our graduates with knowledge of human cultures and the physical and natural worlds. Our graduates develop the general knowledge that is the foundation of informed judgment and life-long learning; they develop specialized understanding and appreciation for the key concepts and skills of their chosen fields.

Insight. Learning based in inquiry, evidence analysis, critical and creative thought and collaborative problem-solving provides our graduates with the intellectual and practical skills fundamental to 21st-century literacies. Information literacy, quantitative literacy, digital literacy, interpersonal skills, and aural, oral, visual and written communication skills enable our graduates to bring critical and creative insight to the construction, articulation and application of new knowledge.

Engagement. Kent State emphasizes civic, intercultural knowledge and competencies through students' direct involvement in research, creative activity, community outreach and through progressively more challenging problems, projects and standards of performance across the disciplines. Involved in scholarly and creative activity and in outreach, our students combine the intellectual and practical benefits of education for lifelong learning and engagement in our local and global communities.

Responsibility. The undergraduate education at Kent State University emphasizes critical thinking, ethical reasoning and moral judgment in conjunction with the acquisition of expertise. Kent State graduates are involved astutely and practically in diverse communities and real-world challenges and grow to become reflective, responsible and productive citizens.

Kent State University Catalog 2010 - 2011 > Fees and Financial Aid > [Policy Regarding Ohio Student Residency](#)

3333-1-10 Ohio Student Residency for State Subsidy and Tuition Surcharge Purposes

(A) Intent and authority

- (1) It is the intent of the chancellor of the Ohio board of regents in promulgating this rule to exclude from treatment as residents, as that term is applied here, those persons who are present in the state of Ohio primarily for the purpose of receiving the benefit of a state-supported education.
- (2) This rule is adopted pursuant to Chapter 119. of the Revised Code, and under the authority conferred upon the chancellor of the Ohio board of regents by section 3333.31 of the Revised Code.

(B) Definitions. For purposes of this rule:

- (1) "Resident" shall mean any person who maintains a twelve-month place or places of residence in Ohio, who is qualified as a resident to vote in Ohio and receive state public assistance, and who may be subjected to tax liability under section 5747.02 of the Revised Code, provided such person has not, within the time prescribed by this rule, declared himself or herself to be or allowed himself or herself to remain a resident of any other state or nation for any of these or other purposes.
- (2) "Financial support," as used in this rule, shall not include grants, scholarships and awards from persons or entities that are not related to the recipient.
- (3) An "institution of higher education" shall have the same meaning as "state institution of higher education" as that term is defined in section 3345.011 of the Revised Code, and shall also include private medical and dental colleges which receive direct subsidy from the state of Ohio.
- (4) "Domicile" as used in this rule is a person's permanent place of abode, so long as the person has the legal ability under federal and state law to reside permanently at that abode. For the purpose of this rule, only one domicile may be maintained at a given time.
- (5) "Dependent" shall mean a student who was claimed by at least one parent or guardian as a dependent on that person's internal revenue service tax filing for the previous tax year.
- (6) "Residency Officer" means the person or persons at an institution of higher education that has the responsibility for determining residency of students under this rule.
- (7) "Community Service Position" shall mean a position volunteering or working for:
 - (a) VISTA, AmeriCorps, City Year, the Peace Corps or any similar program as determined by the chancellor of the Ohio Board of Regents; or
 - (b) An elected or appointed public official for a period of time not exceeding twenty-four consecutive months.

(C) Residency for subsidy and tuition surcharge purposes. The following persons shall be classified as residents of the state of Ohio for subsidy and tuition surcharge purposes:

- (1) A student whose spouse, or a dependent student, at least one of whose parents or legal guardian, has been a resident of the state of Ohio for all other legal purposes for twelve consecutive months or more immediately preceding the enrollment of such student in an institution of higher education.
- (2) A person who has been a resident of Ohio for the purpose of this rule for at least twelve consecutive months immediately preceding his or her enrollment in an institution of higher education and who is not receiving, and has not directly or indirectly received in the preceding twelve consecutive months, financial support from persons or entities who are not residents of Ohio for all other legal purposes.
- (3) A dependent student of a parent or legal guardian, or the spouse of a person who, as of the first day of a term of enrollment, has accepted full-time, self-sustaining employment and established domicile in the state of Ohio for reasons other than gaining the benefit of favorable tuition rates. Documentation of full-time employment and domicile shall include both of the following documents:
 - (a) A sworn statement from the employer or the employer's representative on the letterhead of the employer or the employer's representative certifying that the parent, legal guardian or spouse of the student is employed full-time in Ohio.
 - (b) A copy of the lease under which the parent, legal guardian or spouse is the lessee and occupant of rented residential property in the state; a copy of the closing statement on residential real property located in Ohio of which the parent, legal guardian or spouse is the owner and occupant; or if the parent, legal guardian or spouse is not the lessee or owner of the residence in which he or she has established domicile, a letter from the owner of the residence certifying that the parent, legal guardian or spouse resides at that residence.

- (4) A veteran, and the veteran's spouse and any dependent of the veteran, who meets both of the following conditions:
 - (a) The veteran either (i) served one or more years on active military duty and was honorably discharged or received a medical discharge that was related to the military service or (ii) was killed while serving on active military duty or has been declared to be missing in action or a prisoner of war.
 - (b) If the veteran seeks residency status for tuition surcharge purposes, the veteran has established domicile in this state as of the first day of term of enrollment in an institution of higher education. If the spouse or a dependent of the veteran seeks residency status for tuition surcharge purposes, the veteran and the spouse or dependent seeking residency status have established domicile in this state as of the first day of a term of enrollment in an institution of higher education, except that if the veteran was killed while serving on active military duty or has been declared to be missing in action or a prisoner of war, only the spouse or dependent seeking residency status shall be required to have established domicile in accordance with this division. Domicile as used in division (C)(4)(b) of this rule shall have the same meaning as used in division (C)(3)(b) of this rule.
- (D) Additional criteria that may be considered by residency officers in determining residency may include but are not limited to the following:
 - (1) Criteria evidencing residency:
 - (a) If a person is subject to tax liability under section 5747.02 of the Revised Code;
 - (b) If a person qualifies to vote in Ohio;
 - (c) If a person is eligible to receive Ohio public assistance;
 - (d) If a person has an Ohio's driver's license and/or motor vehicle registration.
 - (2) Criteria evidencing lack of residency:
 - (a) If a person is a resident of or intends to be a resident of another state or nation for the purpose of tax liability, voting, receipt of public assistance, or student loan benefits (if the student qualified for that loan program by being a resident of that state or nation);
 - (b) If a person is a resident or intends to be a resident of another state or nation for any purpose other than tax liability, voting, or receipt of public assistance (see paragraph (D)(2)(a) of this rule).
 - (3) For the purpose of determining residency for tuition surcharge purposes at Ohio's state-assisted colleges and universities, an individual's immigration status will not preclude an individual from obtaining resident status if that individual has the current legal status to remain permanently in the United States.
- (E) Exceptions to the general rule of residency for subsidy and tuition surcharge purposes:
 - (1) A person who is living and is gainfully employed on a full-time or part-time and self-sustaining basis in Ohio and who is pursuing a part-time program of instruction at an institution of higher education shall be considered a resident of Ohio for these purposes.
 - (2) A person who enters and currently remains upon active duty status in the United States military service while a resident of Ohio for all other legal purposes and his or her dependents shall be considered residents of Ohio for these purposes as long as Ohio remains the state of such person's domicile.
 - (3) A person on active duty status in the United States military service who is stationed and resides in Ohio and his or her dependents shall be considered residents of Ohio for these purposes.
 - (4) A person who is transferred by his employer beyond the territorial limits of the fifty states of the United States and the District of Columbia while a resident of Ohio for all other legal purposes and his or her dependents shall be considered residents of Ohio for these purposes as long as Ohio remains the state of such person's domicile as long as such person has fulfilled his or her tax liability to the state of Ohio for at least the tax year preceding enrollment.
 - (5) A person who has been employed as a migrant worker in the state of Ohio and his or her dependents shall be considered a resident for these purposes provided such person has worked in Ohio at least four months during each of the three years preceding the proposed enrollment.
 - (6) A person who was considered a resident under this rule at the time the person started a community service position as defined under this rule, and his or her spouse and dependents, shall be considered as residents of Ohio while in service and upon completion of service in the community service position.
 - (7) A person who returns to the state of Ohio due to marital hardship, takes or has taken legal steps to end a marriage, and reestablishes financial dependence upon a parent or legal guardian (receives greater than 50% of his or her support from the parent or legal guardian), and his or her dependents shall be considered residents of Ohio.
 - (8) A person who is a member of the Ohio National Guard and who is domiciled in Ohio, and his or her spouse and dependents, shall be considered residents of Ohio while the person is in Ohio National Guard service.
- (F) Procedures:
 - (1) A dependent person classified as a resident of Ohio for these purposes under the provisions of paragraph (C)(1) of this rule and who is enrolled in an institution of higher education when his or her parents or legal guardian removes their residency from the state of Ohio shall continue to be considered a resident during continuous full-time enrollment and until his or her completion of any one academic degree program.
 - (2) In considering residency, removal of the student or the student's parents or legal guardian from Ohio shall not, during a period of twelve months following such removal, constitute relinquishment of Ohio residency status otherwise established under paragraph (C)(1) or (C)(2) of this rule.
 - (3) For students who qualify for residency status under paragraph (C)(3) of this rule, residency status is lost immediately if the employed person upon whom resident student status was based accepts employment and establishes domicile outside Ohio less than twelve months after accepting employment and establishing domicile in Ohio.
 - (4) Any person once classified as a nonresident, upon the completion of twelve consecutive months of residency, must apply to the institution he or she attends for reclassification as a resident of Ohio for these purposes if such person in fact wants to be reclassified as a resident. Should such person present clear and convincing proof that no part of his or her financial support is or in the preceding twelve consecutive months has been provided directly or indirectly by persons or entities who are not residents of Ohio for all other legal purposes, such person shall be reclassified as a resident. Evidentiary determinations under this rule shall be made by the institution which may require, among other things, the submission of documentation regarding the sources of a student's actual financial support.

- (5) Any reclassification of a person who was once classified as a nonresident for these purposes shall have prospective application only from the date of such reclassification.
- (6) Any institution of higher education charged with reporting student enrollment to the chancellor of the Ohio Board of Regents for state subsidy purposes and assessing the tuition surcharge shall provide individual students with a fair and adequate opportunity to present proof of his or her Ohio residency for purposes of this rule. Such an institution may require the submission of affidavits and other documentary evidence which it may deem necessary to a full and complete determination under this rule.
- (7) Students who wish to appeal or change their reclassification as a nonresident must complete and file a Request for Resident Classification for Tuition Purposes. Because requests for Ohio residency must be approved prior to the first day of classes of the academic term reclassification is desired, this form and all required documentation must be submitted by the following deadline dates. Retroactive residency determinations cannot be made for tuition surcharge purposes.
 - (a) July 15: fall semester
 - (b) December 15: spring semester
 - (c) May 1: summer semester
- (8) Students classified as nonresident students at the time of their admission to Kent State University and qualify as residents may appeal the classification to the Director of Admissions or appropriate admitting officer. Matriculated students classified as nonresident students and who qualify as residents may appeal the classification to the Office of the University Registrar. Regional Campus students should contact their Regional Campus.
- (9) Any student denied classification or reclassification may appeal the denial to the Residency Appeals Committee by submitting a written request to the office that reviewed their Request for Resident Classification for Tuition Purposes within fourteen calendar days of their denial notification.

Revised: 4/27/2009

Prior Effective Dates: 11/4/1977, 4/30/1978, 10/5/1979, 9/16/1988, 7/11/1989

- Doctoral Candidacy
- Doctoral Dissertation
- Doctoral Privileges
- Deadlines for Filing Theses, Dissertations and for Graduation
- Reproduction of Theses and Dissertations

GRADE POINT AVERAGE REQUIREMENT

To be considered "in good standing," a 3.0 average or better in all graduate and required undergraduate work undertaken at Kent State University should be maintained by graduate students. In order to qualify for graduation, the student must have a 3.0 average in all graduate courses attempted. The grade point average of a student who enlists in the military service after work is begun toward a graduate degree may, at the student's request upon return from military service, exclude the grades earned in the last semester in which that student is in residence prior to induction. [GO TO TOP](#)

QUALITATIVE REQUIREMENTS

Only work of high quality is approved for graduate credit. Graduate students are expected to maintain a 3.0 average in all work attempted at Kent State. A student who fails to maintain a 3.0 average is subject to dismissal. In addition, in order to qualify for graduation, a 3.0 average must be maintained for all graduate coursework. Grades below C (2.0) are not counted toward completion of requirements for any advanced degree, but are counted in evaluating a student's grade point average. Only graduate course credits count toward a graduate degree.

A graduate student who receives a combination of more than 8 credit hours of B- (2.7) or lower grades, or more than 4 credit hours of grades lower than C (2.0) is subject to dismissal. Dismissal may be recommended by the chair (or director) of the student's department to the college dean, or the college dean may request the action of the department chair, or action may be recommended by the college dean's designee.

When a department has determined that the number of in-progress (IP) or incomplete (IN) grades on a student's record indicates poor progress toward completion of a degree, it may recommend to the college dean dismissal of the student. In certain programs in which professional success depends upon factors other than those measured by normal evaluations in coursework, a department has the right to separate from the program a student who, in the opinion of a duly constituted departmental committee, is not likely to succeed professionally despite earning acceptable grades. Such programs, along with the factors involved, are listed with the college dean. Administrators of these programs will inform the student upon admission of the nature of the assessment and the process by which it is made. A student separated from such a program has the right to appeal the decision. Information on the process of appeal is available in the office of the college dean, appropriate academic offices and student services offices upon request.

In determining a graduate student's grade point average, all graduate courses required regularly by the program or specially by the student's advisor and attempted by the student while in a Kent State University graduate program are included in the computation. A change by a graduate student from one department or program to another does not eliminate the grades received under the first enrollment, which are computed in the student's grade point average. Graduate (but not undergraduate) courses taken by the student over and above those required for the student's program are included in the grade point average. [GO TO TOP](#)

MINIMUM HOUR REQUIREMENT

All master's students must satisfactorily complete a minimum 30 semester credit hours applicable toward a master's degree in order to graduate. Some master's degree programs require more hours.

While the well-prepared doctoral candidate may expect to meet formal course requirements (exclusive of dissertation) for the doctoral program by completing a minimum of two years of full-time work beyond the baccalaureate, departments may require more extensive preparation where needed. In order to qualify for a doctoral degree, students must present a minimum of 90 semester hours beyond the bachelor's degree, or 60 hours beyond the master's degree. These hours may include registration for coursework, individual investigation or research courses and dissertation. Only work of high quality is approved for doctoral credit. [GO TO TOP](#)

REINSTATEMENT AND READMISSION

A graduate student who has been dismissed from a graduate program normally may not be reinstated for work in the student's former program, or readmitted in any other program or coursework. However, after one year as a dismissed student, application for reinstatement or readmission may be made based upon evidence that former academic weaknesses have been appropriately addressed. If the pertinent department and the college dean agree that another opportunity should be provided, conditional admission will be granted. [GO TO TOP](#)

LANGUAGE REQUIREMENTS

All students must demonstrate proficiency in both oral and written English, which is the language of graduate study at Kent State. Judgment of such competence rests with the appropriate major department. Deficiency in English is cause for dismissal from any graduate program.

There is no universal foreign language or research tool requirement. Individual departments or discipline areas may have specific requirements. Students should consult their individual departments. The appropriate languages are determined by the student's major department. Language requirements (if any) must be completed before doctoral students are admitted to candidacy. Special arrangements for examinations in other languages must be made by the student's major department in consultation with the chair of the Department of Modern and Classical Language Studies. Where required, the language examination used to establish a student's language proficiency is determined by the student's department. The examination may be a departmentally designed and administered test. Dates for departmentally administered tests are set by the department.

A series of courses has been instituted in French and German to develop "reading" proficiency in these languages. "Reading" proficiency in a foreign language is demonstrated when the student completes one of the following sequences with a minimum B (3.0) grade in each course of the sequence. Credit hours earned in this language sequence are not applicable toward the completion of the hour requirement in a student's graduate program and do not count toward the minimum 8-credit-hour semester load required.

- FR 63201 Reading French for Graduate Students and FR 63202 Reading French for Graduate Students (Humanities/Social Sciences)
- GER 61901 Reading German for Graduate Students and GER 61902 Reading German for Graduate Students

[GO TO TOP](#)

GRADUATE STUDENT ORIENTATION

All new graduate students holding graduate appointments will be required to attend and participate in an orientation program prior to the beginning of fall semester classes. Departments may also require attendance at departmental orientation meetings. [GO TO TOP](#)

TIME LIMITS

Graduate students must register for courses at Kent State University within two years after the students' admission date to retain active status. Failing to do so, students must reapply, and all requirements in effect at the time of reapplication must be met. If students are unable to begin formal coursework during the term for which admission was originally granted, they must maintain current demographic information and academic transcripts at the admitting office at Kent State University and indicate the term in which they will register.

Master's degree students will normally complete work within six calendar years after the students' first graduate registration at Kent State University. Any credit being transferred for meeting degree requirements should also have been earned within the six-year period. Departments with time limits that vary from these norms will notify their students in writing.

It is expected that the doctoral degree students entering Kent State with a baccalaureate will complete the degree in no more than 10 years. Normally, doctoral degree students entering with a master's degree will complete the degree in no more than nine years. Students proceeding from the baccalaureate will normally pass the candidacy examination within five years, and students already possessing a master's degree will pass the candidacy examination within four calendar years of the first graduate registration at Kent State University. A doctoral candidate is expected to satisfactorily complete the dissertation and pass the final oral examination within five calendar years after having passed the candidacy examination. Individual disciplines may have shorter time limits, and specific program descriptions should be consulted.

When an extension of any of these time limits seems to be necessary and proper, the student and advisor will petition the student's department for an extension. The extension may be denied, in which case the student will be dismissed, or it may be granted with qualification. The student, advisor and college dean must be informed of the decision in writing. If the extension exceeds one year, the approval of the college dean is required. Requests for time extensions exceeding one year must be submitted to the college dean with evidence that the degree candidate is current in his/her field of study.

Upon receiving their graduate degree, students are inactivated and are no longer eligible to register for courses at Kent State University. If students wish to continue their studies at Kent State, they will need to reapply to the appropriate academic unit and be accepted for another graduate degree program or as a special non-degree student. [GO TO TOP](#)

MULTIPLE DEGREES

A student may work simultaneously or sequentially on any of the following if the departments involved believe there is good reason for so doing and will admit the student to both programs:

- Master's degrees of two designations in one discipline
- Master's degrees of one or two designations in two disciplines
- A master's degree and a baccalaureate in two different disciplines
- Doctorates in two different disciplines
- Doctorate in one discipline and a master's or baccalaureate in another discipline

Persons having a doctorate will not be permitted to work on a second degree from the same department with a different emphasis.

Courses to be double counted shall be determined by the department(s), but in no case may the number of credits exceed 12 credits for the master's degree (except for the special cases listed below) or equivalent of a master's degree plus 12 credits for the doctorate. The appropriate college dean(s) involved shall be notified of these decisions.

Exceptions:

- When one of the degrees is the Master of Fine Arts, a two-year degree, the courses to be double counted shall not exceed 26 credits.
- Students pursuing the Master of Business Administration and the Master of Science in Nursing degrees may double count a maximum of 28 credits.
- Students pursuing the Master of Business Administration and the Master of Library and Information Science degrees may double count a maximum of 28 credits.
- Students pursuing the Master of Science degree in Information Architecture and Knowledge Management and the Master of Arts degree in Journalism and Mass Communication may double count a maximum of 28 credits.
- Students pursuing the Master of Science degree in Information Architecture and Knowledge Management and the Master of Library and Information Science degree may double count a maximum of 28 credits.

[GO TO TOP](#)

MASTER'S QUALIFYING EXAMINATION

In some departments all graduate students are required to take a qualifying examination. Each student should inquire of the major department whether such an examination is required and when it should be taken. The student is responsible for making the arrangements for taking the examination. Students working for a degree requiring a thesis may have their thesis topic approved as soon as they pass the qualifying examination. [GO TO TOP](#)

MASTER'S ORAL EXAMINATION

In some departments, an oral examination, open to the university community, may be required of candidates writing a thesis. When the thesis has been accepted by a student's advisor, the department will arrange for the oral examination. The college dean will be kept informed of the time and place of the examination and the composition of the examining committee. The results of the examination will be sent to the college dean for approval. This examination is directed primarily toward the thesis but may contain other topics with which the committee feels the candidate should be familiar. The committee usually consists of three to five graduate faculty members, the majority of whom must be associated with the student's program. [GO TO TOP](#)

MASTER'S THESIS

The writing of an acceptable thesis is mandatory in certain master's degree programs. The thesis topic must be approved by the department and filed with the college dean no later than the semester preceding that in which the candidate expects to receive the degree. The thesis topic should be one that will further the student's educational development by developing research or other skills that will help the student keep abreast of the field and enable the student to pursue independent work. The thesis topic is formulated by the student in consultation with the advisor and submitted to the department for approval according to normal departmental procedures.

The thesis must be completed and in the hands of the examining committee no later than eight weeks before commencement. Some departments may demand an earlier deadline. After the thesis has been accepted by the examining committee and after the candidate has passed the oral examination (if required by the major department), two copies of the final, letter-perfect thesis are prepared and submitted to the appropriate college office. Two copies of an abstract of not more than 400 words are included with the copies of the thesis. Students should consult guidelines for preparation of theses and dissertations, which are available in the college offices.

Master's candidates have the option of submitting their thesis in electronic form instead of the paper format. Guidelines for creating electronic theses are found at the Kent State University Libraries [electronic thesis or dissertation \(ETD\) website](#). Theses are submitted electronically through the [OhioLINK ETD Center](#), where they are made publicly available. If this option is exercised, no paper copies are required for the University Libraries. Individual units may still require submission of a paper copy for their archives. It is the responsibility of the master's student to fulfill this requirement.

Each student writing a thesis is required to register continuously for Thesis I (6xx99) for a total of 6 credits. A student who has completed the required 6 hours of Thesis I is expected thereafter to register continuously for Thesis II (6xx99) each semester, including summer, until all degree requirements are met. No more than 6 hours of Thesis I credit may be counted toward completion of degree requirements.

The student should make certain that the topic has been approved and must register for thesis writing no later than the last semester the student is in residence. Grades of S (satisfactory) or U (unsatisfactory) are used. [GO TO TOP](#)

PROCEDURE FOR THE ELIGIBILITY FOR A DOCTORAL DEGREE

The student will ordinarily observe the following procedure in order to be eligible for the doctoral degree:

- Indicate the intention to meet specifications of the departments concerned by applying for admission. The college or

independent school and the department together will determine acceptability.

- Fulfill the credit requirements of the department in which the major work is done.
- Fulfill the residence requirements (if any).
- Satisfy the language or research tool requirements of the department.
- Pass the candidacy examinations in the major field (if any).
- Carry out a suitable scholarly research or creative program.
- Write a dissertation that shows high attainment and creativity
- Successfully defend the findings of the dissertation in public before a committee of the graduate faculty.
- Have registered for a minimum of 90 semester credits beyond the bachelor's degree, or 60 credits beyond the master's degree (registration for thesis, dissertation and research may be included in this total).

[GO TO TOP](#)

APPLICATION FOR AND AWARD OF A MASTER'S DEGREE TO A DOCTORAL STUDENT

A student who has been admitted to and is currently pursuing a doctoral degree may apply for a master's degree in the same department in which the doctorate is to be taken. Upon certification that the student has met the requirements for the master's degree in that department, the degree may be awarded. The total number of graduate hours required for the Ph.D. shall not be altered thereby. [GO TO TOP](#)

DOCTORAL CANDIDACY

To become a candidate for the doctorate, a student must pass a candidacy (comprehensive) examination in the field of the major subject. This examination will be taken when departmental requirements have been met, but it should not be taken later than nine months before the student expects to receive the degree. The content and scope of the examination are determined by the department concerned. The examination may be either written or oral or both. The student is not permitted to continue with the dissertation unless this requirement is satisfied. Failure on the candidacy examination and a subsequent prescription and reexamination are subject to departmental policy. When opportunities for such reexamination are exhausted without success, the student will be dismissed from graduate study. [GO TO TOP](#)

DOCTORAL DISSERTATION

A dissertation is required of each doctoral candidate in any department offering the doctoral degree. The dissertation topic must be approved by the department and filed with the college dean no later than one semester preceding that in which the candidate expects to receive the degree. Each graduate unit has adopted a procedure for the preparation of a dissertation prospectus. This document will normally include an outline of the parameters of the projected dissertation topic with a statement of the problem to be undertaken, the procedure or methodology to be used in the research, a preliminary review of the literature substantiating the need for the study, and the principle sources of information for the dissertation. The prospectus must be in writing, but an oral presentation may also be required.

Each doctoral candidate, upon admission to candidacy, must register for Dissertation (8xx99) for a total of 30 hours. It is expected that a doctoral candidate will continuously register for Dissertation I, and thereafter Dissertation II, each semester, including summer, until all requirements for the degree have been met. The IP (in progress) grade is used until the student completes the dissertation at which time all IP grades in dissertation are changed to S (satisfactory) grades. The dissertation must demonstrate that the student has acquired the ability to conduct research in a discriminating and original manner. The dissertation should make a significant enough contribution to the field in which it is written that at least one scholarly article suitable for publication in a professional journal may be derived from it or that the findings of the dissertation would be otherwise publishable.

After the dissertation, typed in legible form, is accepted by the dissertation advisor, it will be read by the student's dissertation committee, and any recommended revisions will be communicated to the student. Upon completion of the revisions, if any, the student will be required to defend the findings before a committee of graduate faculty members, including the dissertation committee and others chosen by the department and college dean. The responsibility for conducting the examination itself will be that of an impartial moderator selected from a department other than that of the student's major or minor. The defense of the dissertation is open to the university community. Questioning is restricted to members of the graduate faculty, and the vote of the examining committee will be conducted in private.

After the candidate has passed the oral examination, the doctoral candidates will submit their dissertation in electronic form. The dissertation will also include an abstract of no more than 350 words. Information on the process may be found on the University Libraries' [Guidelines for the Preparation of Electronic Theses and Dissertations website](#). Theses and dissertations must be prepared according to established guidelines. Guidelines for preparation and typing of theses and dissertations are available in the college office.

Dissertations submitted electronically are available through the [OhioLINK ETD Center](#). Individual units may still require submission of a paper copy for their archives. It is the responsibility of the doctoral student to fulfill this requirement.

All dissertations must be published according to a plan provided by ProQuest Information and Learning, Ann Arbor, Michigan, for the purposes of archiving, indexing, and dissemination. All communications and relations between faculty or students and ProQuest shall be carried out only through the Kent State University librarian. Publication of the complete dissertation or significant parts of it through other avenues is expected, but this is not to be used in lieu of the requirement stated herein. [GO TO TOP](#)

DOCTORAL PRIVILEGES

A doctoral student will be allowed, with the consent of the advisor and of the instructor concerned, to enroll in any course offered at Kent State University. [GO TO TOP](#)

DEADLINES FOR FILING THESES, DISSERTATIONS AND FOR GRADUATION

Deadlines are established for filing theses, dissertations, applications for graduation and similar actions initiated by graduate students. Exact dates of the various deadlines will vary somewhat from year to year and are published on the [Office of the University Registrar website](#) and in the colleges' web pages as well as the University's Catalog [Academic Calendar website](#). It is the responsibility of each graduate student to be familiar with the deadlines. [GO TO TOP](#)

REPRODUCTION OF THESES AND DISSERTATIONS

For the reproduction of theses and dissertations, a student must submit two suitable copies in partial fulfillment of degree requirements. Suitable copies are described in the guidelines and instructions for typing theses and dissertations. Guidelines may be obtained at the office of the student's graduate dean. Students should consult this document for typing instructions. This requirement is waived for doctoral and master's students choosing the option of electronic submission of their dissertation. DESTINATION KENT STATE: FIRST YEAR EXPERIENCE

The First Year Experience course is required of all undergraduate students who attend Kent State University campuses with the following exceptions:

1. Students attending the Kent Campus who are 21 years of age or older at the time of their initial college-level enrollment are not required to take the course. However, these students are encouraged to contact the [Center for Adults and Veteran Services](#) for information about special orientation programs for adult students.
2. Students who transfer 25 or more semester hour credits from another institution are not required to take the course.

Full-time students are expected to complete the First Year Experience course during their first semester of enrollment. Part-time students are expected to complete the course before they attain sophomore standing (30 semester hours). [GO TO TOP](#)

KENT CORE

Students in bachelor's, the Associate of Arts and the Associate of Science degree programs must complete a minimum 36 credit hours of the [Kent Core](#) in six categories: Composition (6 credits), Mathematics and Critical Reasoning (3 credits), Humanities and Fine Arts (9 credits), Social Sciences (6 credits), Basic Sciences (6-7 credits) and Additional (6 credits). Students in the Associate of Applied Science and Associate of Applied Business degree programs are expected to choose their general studies courses from the Kent Core. All exceptions must be approved by the students' academic advisor. Students in other associate degree programs who intend to earn a bachelor's degree also will be expected to fulfill this requirements. Individual programs and colleges may have modified these requirements, so it is necessary to review the specific Kent Core hour and course expectations described in the college and major requirements section of this Catalog. The availability of specific Kent Core courses varies by campus. No Kent Core course may be taken pass/fail. [GO TO TOP](#)

DIVERSITY REQUIREMENT

Students in bachelor's degree programs must complete two [diversity](#) courses, one with a domestic (U.S.) focus and one with a global focus. One course must come from the Kent Core; the second may be taken as a second Kent Core, within the major or minor or as a general elective; or, with dean's approval, by completing one semester of study in another country. [GO TO TOP](#)

WRITING-INTENSIVE COURSE REQUIREMENT

Students in bachelor's degree programs must complete at least one upper-division course designated as "[writing-intensive](#)" with a minimum C (2.00) grade. While the intent is that the requirement be fulfilled within the major, students may use a writing-intensive course in another discipline to fulfill the requirement if permitted by the department/school of their major. [GO TO TOP](#)

UPPER-DIVISION REQUIREMENT

Most specialization in bachelor's degree programs is pursued through upper-division coursework. Upper-division courses are numbered 30000-49999 and expect both greater familiarity with the subject matter and greater intellectual sophistication. Students must complete the appropriate prerequisites in specified lower-division courses before entering upper-division courses. In general,

baccalaureate programs require the successful completion of minimum 39 upper-division semester hours of coursework. [GO TO TOP](#)

MINIMUM CUMULATIVE GRADE POINT AVERAGE

All undergraduate students graduating from Kent State University must attain a minimum 2.00 cumulative grade point average (GPA) for all coursework taken at Kent State University. Candidates for the Associate of Applied Business and Associate of Applied Science degrees must attain a minimum 2.00 cumulative GPA in the technical courses. If students are required to take additional coursework to raise the GPA in the technical courses to 2.00, the course(s) must be in the technical area and will be selected in consultation with the program advisor and approved prior to registration. Additionally, some degree programs have higher minimum GPA requirements. [GO TO TOP](#)

MINIMUM HOUR REQUIREMENT

All students in bachelor's degree programs must satisfactorily earn (with passing grades) a minimum of 121 semester credit hours of coursework to graduate. As part of this requirement, all students must complete minimum 36 semester hours of the Kent Core.

Associate degrees are awarded for the successful completion of a minimum of 61 semester credit hours of coursework. They are designed to fulfill two major purposes: to permit students to complete the freshman and sophomore years of a baccalaureate program; or to prepare graduates for immediate employment in a technology field.

Some bachelor's and associate degree programs require more hours than the 121 and 61, respectively, as stated above. Associate degree students who are studying part time should expect to take more than two years to complete their programs. [GO TO TOP](#)

EXPLORATORY AND GENERAL MAJORS

Kent State offers the non-degree Exploratory major and generalist majors within each college and on all campuses to enable baccalaureate-seeking students to explore academic areas and/or meet minimum program requirements. Bachelor's degree students in these non-degree majors must declare a degree major by the time they have earned 45 semester credit hours. Students needing assistance with selecting a major must consult with their academic advisor. [GO TO TOP](#)

NO-CREDIT COURSES

Five courses that may be prescribed or recommended through placement testing—MATH 10020, MATH 10021, MATH 10022, US 10003 and US 10006—do not generate credit toward graduation. Although these courses will count toward the courseload for financial aid and other purposes, hours taken in these courses will be subtracted from the students' total before graduation. Other prescribed courses—including ENG 11001, MATH 10023 and MATH 10024—do count as credit toward graduation, but toward general elective hours only. None of the prescribed courses may be taken pass/fail. [GO TO TOP](#)

TRANSIENT WORK AT ANOTHER UNIVERSITY

Kent State University students who wish to take coursework at another accredited institution of higher education must receive the prior approval of the academic dean of the appropriate unit if the student intends to apply this coursework toward the Kent State University degree program. Transient work by students who are on probation, dismissed or in the last 30 hours of a degree program may be restricted by the students' college. All credits granted for transient work will be translated into semester hours. Grades received for transient work are not transferred; only credit hours are transferred. Generally, credit for non-remedial courses in which students have earned a minimum C (2.0) at an accredited school (as determined by the Transfer Center) will be considered for transfer. However, transfer credit earned fall 2005 and later from a regionally accredited Ohio college or university will be awarded for all non-remedial courses in which students have earned a minimum D (1.00) grade.

Students are reminded that no more than 18 semester hours of transient work may be approved. Approvals for transient attendance are valid for one term only (quarter, semester, etc.) at other institutions and are subject to all restrictions of the dean of their college. [GO TO TOP](#)

DUAL DEGREE / DOUBLE MAJOR REQUIREMENTS

In certain cases students may be able to complete the requirements for more than one academic major through either a double major or a dual degree program of study. A double major program of study combines two major fields of study within the same degree program. Students completing a double major program of study are awarded a single degree with two majors. Students pursuing a double major program for a bachelor's degree must complete a minimum 121 semester hours.

A dual degree program of study combines two majors from distinct degree programs. Any combination of major fields of study involving degree programs in more than one college is a dual degree program even if both degrees bear the same title. Students completing a dual degree program are awarded two distinct degrees. Students pursuing a dual degree program at the baccalaureate level must complete a minimum of 140 total semester hours. Students pursuing concurrent associate degrees must successfully complete all the requirements for both and a minimum of 15 credit hours beyond those required for the primary degree. Because of the similarity in program requirements, the Associate of Arts and the Associate of Science degrees may not be earned concurrently; nor may either be awarded as an additional degree when one or the other has been previously conferred.

Certain major combinations are not appropriate and are not permitted by the colleges. Students interested in a double major or dual degree program of study must consult the offices of the appropriate colleges and/or campus to determine whether the desired combination of majors is permitted. Students seeking concurrent associate degrees must be in good academic standing and enrolled officially for a first, or primary, associate degree. If the combination is permitted, the college offices will assist the students in formally declaring the degrees/majors and will provide the students with major sheets for both of the degrees/majors showing the course requirements to be satisfied for both majors. The students must complete all requirements for both degrees/majors.

Students who hold an associate, bachelor's or graduate degree and wish to pursue an associate degree may do so by successfully completing all program and residency requirements, in addition to a minimum 15 semester hours.

Students are required to file a graduation application for each degree/major program of study. Students must officially declare any

degree/major in time to meet the graduation application deadline for the semester in which they expect to complete the program of study. [GO TO TOP](#)

COURSE OVERLOAD

Eligible students who meet the Kent State GPA guidelines may register for a course overload through an automated process. A course overload is considered as:

1. More than 18 credit hours in fall or spring semester.
2. More than 6 credit hours in a single five-week summer session; more than 10 hours in an eight-week summer session; more than 10 hours in overlapping summer sessions; or more than 12 hours for all summer sessions combined.

Kent State GPA guidelines for an automatic overload:

Student GPA	Permitted hours over 18 for fall and spring semesters
2.500 - 2.749	1
2.750 - 2.999	1 -2
3.000 - 4.000	1 - 3

Criteria for eligibility:

- First-semester transfer students and freshmen without a Kent State GPA are excluded from qualifying for an automatic overload. They must seek approval from their advising office.
- First-semester freshmen with a Kent State GPA are eligible for an automatic overload given the criteria above.
- Students not meeting the above criteria or requesting more than 21 semester hours in the fall or spring semester (more than 12 hours in all summer terms) will be blocked from registering for an overload unless approval is granted from their advising office.
- Students on academic probation may not register for more than 15 hours and may receive a prescription from the dean of the college that they further reduce the hours carried until removed from probation.

Exceptions to this rule must be approved by the appropriate college dean. [GO TO TOP](#)

COURSE REPEAT POLICIES

Students may repeat courses taken at Kent State University subject to the following provisions:

1. Students may repeat a course already passed for additional credit if it is identified as repeatable in the course description. Some academic units place a limit on the total number of credits that may be earned in a given repeatable course. For credit limits on specific courses, students should read the course descriptions or consult their advisor.
2. Students may repeat for credit any upper-division (30000- and 40000-level) courses they have failed. All grades earned are counted in the cumulative grade point average.
3. Students may repeat upper-division (30000- and 40000-level) courses already passed with the approval of the academic dean in order to meet specific graduation requirements; however, the hours earned the second time do not, under any circumstances, count toward graduation. All grades earned are counted in the cumulative grade point average.
4. Students may repeat lower-division (10000- and 20000-level) courses, and the university will use only the highest grade in the calculation of the cumulative grade point average. Lower-division course repeat with recalculation is subject to the following provisions:
 - i. The course must be repeated at Kent State University.
 - ii. The course must be repeated for a letter grade, including satisfactory/unsatisfactory (S/U), but not pass/fail.
 - iii. All grades will appear on the official transcript.
 - iv. Only the highest grade received for the course will be used in the calculation of the cumulative grade point average.
 - v. Recalculation of the students' cumulative grade point average will occur automatically at the end of the semester in which students complete the repeated course.
 - vi. All eligible courses will be included in the recalculation.
 - vii. Courses taken as part of a completed associate degree may be repeated under this policy.
 - viii. All course repeats for recalculation must be completed before conferral of the student's first bachelor's degree from any college or university.
 - ix. All grades will be counted in determining grade point average for graduation with institutional honors and may also be counted for admission to or progression in specific programs, for admission to graduate programs or for admission to other institutions. These computations are independent of the cumulative grade point average as it appears on the transcript or student grade report.
 - x. Credit for a repeated course will apply only once toward meeting degree requirements.
 - xi. The university is not obligated to offer courses so that students can repeat them.
 - xii. This policy does not apply to variable content courses that are repeatable for credit, such as special topics courses, individual investigations, practicums, internships, etc.
 - xiii. This policy was effective with the spring 2008 semester. [GO TO TOP](#)

SCHOLASTIC STANDING

Because students must earn a minimum 2.00 cumulative (counting all work) grade point average (GPA) to graduate from the university, they must maintain that average throughout the undergraduate years. Students whose GPA falls below 2.00 should make a positive effort to improve their academic performance. Such students should devote their entire attention and energies to their studies by improving study habits and concentrating on such basic skills as composition, reading and mathematics.

1. **President's List:** In recognition of an extremely high level of academic excellence, a President's List is compiled each academic semester. To qualify, students must have a 4.00 GPA in the semester and must have completed 15 or more credit hours (all of which must have regular letter grades) by the end of that semester. This notation will be printed on students' official transcripts.
2. **Dean's List for Full-Time Students:** In recognition of academic excellence, a Dean's List is compiled each academic semester. To qualify, students must have a minimum 3.40 GPA in the semester and must have completed 12 or more regular letter-graded credit hours by the end of that semester. This notation will be printed on students' official transcripts.
3. **Dean's List for Part-Time Students:** A Dean's List for Part-Time Students is compiled after spring semester grades are issued. To qualify, students must have a minimum 3.40 GPA in 12 or more regular letter-graded hours taken during the previous summer, fall and spring semesters. Such students must have registered for fewer than 12 hours in each of the semesters under consideration. This notation will be printed on students' official transcripts.
4. **In Good Academic Standing:** Students with a minimum 2.00 GPA are in good academic standing. Students with a cumulative GPA below 2.00 are placed on academic probation. Good academic standing is not the same as eligibility for financial aid or for participation in other activities of the university such as athletics, student organization leadership, extracurricular activities, etc. For information about eligibility standards, students should contact the appropriate office or organization.
5. **Midterm Warning:** Students who earn a midterm GPA of less than 2.00 will be placed on "Midterm Warning."
6. **Semester Warning:** Students with a minimum 2.00 cumulative GPA who earn a semester GPA of less than 2.00 in any given semester will be placed on "Semester Warning."
7. **Selected Academic Program Warning:** If a student's GPA does not meet the standards required for a selective program, the dean may place the student on "Selective Academic Program Warning." The student would be allowed to remain enrolled in the selective major while attempting to improve academic performance.
8. **Not Permitted to Continue:** If a student's GPA does not meet the standards required for a selective program, the dean may decide that the student is "Not Permitted to Continue" in that academic program. Unless the student's cumulative GPA also is below the dismissal standard, the student may continue at the university, but may either be asked to change to a "general" category in the college of the student's major (for exploration of other majors in the college) or be referred to another program (including those on the Regional Campuses) that does not have a graduation standard above the university minimum 2.00 cumulative GPA.
9. **Academic Probation:** Students who fail to maintain a cumulative grade point average of 2.00 will be placed on academic probation. This probation signifies that the cumulative performance is below the minimum university requirement for graduation. Students on probation will be notified by their dean's office. In addition, the following students will be placed on probation:
 - i. Students reinstated to the university after being dismissed because of poor scholarship.
 - ii. Transfer students whose cumulative records at all previous institutions do not meet the minimum grade point average requirements of Kent State University.

Probation is an emphatic warning to the students that the quality of their academic performance must improve if they are to obtain the minimum grades required for graduation. Students on probation must show considerable improvement in their academic work or they will be dismissed from the university. Students on probation must reduce their course load as prescribed by the dean. The students also should reduce participation in social and extracurricular activities. Students are removed from probation only when they have achieved a minimum 2.00 cumulative GPA. [GO TO TOP](#)

DISMISSAL AND REINSTATEMENT

Dismissal: Students whose academic performance indicates a limited chance of obtaining the minimum grades required for graduation will be subject to dismissal from the university.

The provost may dismiss:

1. Students on probation if the student's cumulative grade point average (GPA) is within the following ranges*:
 - i. 16-29 GPA hours: below 1.50 cumulative GPA
 - ii. 30-59 GPA hours: below 1.70 cumulative GPA
 - iii. 60-89 GPA hours: below 1.80 cumulative GPA
 - iv. 90 or more GPA hours: below 1.90 cumulative GPA
2. A student who fails to make adequate progress toward completion of the program of study (including, but not limited to, excessive complete term withdrawals, course withdrawals or NF/SF grades).

* The provost may choose not to dismiss a student within the stated ranges if circumstances warrant.

The provost will not dismiss a student on probation if any of the following conditions apply to that student:

1. It is the student's first semester of enrollment at Kent State University (including first-semester freshman or first-semester transfer student).
2. The student has 15 or less GPA hours at Kent State University.
3. The student was in good academic standing at the end of the preceding term of enrollment.
4. The student earned a minimum 2.00 term GPA (unadjusted for recalculation provisions in the course repeat policy).

A student who is dismissed should expect to be away from the university for a minimum 12 consecutive months. A dismissed student may not register for any coursework at any campus of Kent State University. The notation of academic dismissal will be printed on the student's official transcript.

For further information concerning the conditions of probation and dismissal, students should contact their college or campus advising office.

Guidelines for Appeals of Dismissal: A student who is dismissed has the right to appeal the decision. Appeals must be made in writing to the college or campus at which the student was enrolled at the time of the dismissal.

The appeal letter must be composed, typed and signed by the student. The appeal letter may be delivered personally or sent by mail, and must include original documentation. Appeal letters also may be sent by fax or as an e-mail attachment from the student's Kent State e-mail address, but must be supplemented by submitting original documentation. Appeal letters for a dismissal made at the end of the falls semester must be received by the Friday before spring semester begins. Appeal letters for a dismissal made at the end of the spring semester must be received by June 15.

Appeals must be based on recent circumstances that were beyond the control of the student. Appeal letters must include the following:

1. An explanation of the extenuating circumstances, such as personal illness/injury, critical family illness or other situations of sufficient severity that they may have adversely affected academic performance. These circumstances must be documented by providing physician statements or other appropriate official documents.
2. Proof of consistent satisfactory academic performance prior to the occurrence of the circumstances believed to be the cause of the dismissal. These efforts must be documented by course instructors, and their statements must be submitted on university letterhead or sent from each instructor's Kent State e-mail address. If errors have occurred for one or more reported grades, the course instructor must verify that a grade change has been submitted.
3. An explanation of why action such as course withdrawal, complete term withdrawal, request for an incomplete grade, etc., was not taken before the end of the semester.
4. A detailed plan of action for achieving academic success for any future enrollment at Kent State University.
5. The student's full name, Banner ID number, current and permanent mailing addresses, current and permanent telephone numbers and Kent State e-mail address.

Appeals that do meet these guidelines will not be reviewed.

Reinstatement: Reinstatement after dismissal from Kent State University is neither automatic nor guaranteed. A student may be reinstated only if the student provides convincing evidence of probable academic success if permitted to return to the university. A dismissed student who has previously accumulated a substantial number of credit hours and/or an excessively low GPA should expect that reinstatement is not likely to be approved. For programs with selective admission requirements, specified certification standards or additional program and graduation requirements, reinstatement may be impossible.

Application for reinstatement after the required period of time away from the university should be to the dean of the college or Regional Campus that houses the major program the student wishes to enter. The application should include convincing evidence of the student's motivation to continue and of the student's specific efforts during the period of dismissal to eliminate previous weaknesses. After evaluating the application for reinstatement and all supporting materials, the dean will inform the student of the reinstatement decision.

A student who is reinstated is automatically placed on probation until good academic standing (minimum 2.00 cumulative GPA) is attained. Academic requirements will be determined by the Catalog-in-force at the time the student re-enrolls at the university. If a student under dismissal intends to enroll in coursework elsewhere before applying for reinstatement to Kent State University, advising should first be obtained from the appropriate college or campus advising office. Coursework taken elsewhere may not be applicable to specified Kent State University degree programs, and enrollment may affect the student's potential use of the Academic Forgiveness Policy or limit the advantages of recalculation provisions in the university's Course Repeat Policy. For further information concerning reinstatement, students should consult their college or campus advising office. [GO TO TOP](#)

ACADEMIC FORGIVENESS POLICY

Purpose: The Academic Forgiveness Policy pertains only to former Kent students returning to the university as undergraduate students after a significant absence. It provides them an opportunity to have their academic standing reflect the increased maturity and improved level of academic performance gained since the interruption of studies at Kent State. Specifically, once the returning students have demonstrated the ability to sustain a satisfactory level of academic performance following their return, all grades of C-, D+, D, F, NF, SF, M and U earned during the previous Kent State enrollment will be disregarded in the cumulative calculations of hours attempted, quality points earned and grade point average.

Eligibility: The Academic Forgiveness Policy is available to returning students who meet one or more of the following criteria:

1. Former students who have not been enrolled at Kent State University for a period of at least two calendar years during which time the students have been enlisted in the U.S. Armed Services, as documented by a copy of DD 214 (available to students returning fall 1974 or later).
2. Former students who have not been enrolled at Kent State University or any other accredited institution of higher education for a period of at least three calendar years (available to students returning spring 1975 or later).
3. Former students who have not been enrolled at Kent State University for more than three calendar years who may have taken credit coursework at another institution of higher education, but for whom there are at least three consecutive calendar years during which the students were not engaged in study at an institution of higher education (available to students returning fall 1979 or later).

Procedure: The established university and collegiate procedures and criteria for readmission or reinstatement apply to all students, including those who may be eligible for the application of the Academic Forgiveness Policy. Prior to the completion of 15 hours of graded academic coursework since their return to Kent State, former students who meet one of the three eligibility criteria indicated above may request the application of the Academic Forgiveness Policy to their academic record by submitting a written petition to the dean of the college or independent school in which the students enrolled upon returning to Kent State. The records of the students will then be reviewed by the appropriate dean at the conclusion of each term following the students' return.

If the students maintain a GPA of at least 2.00 through the term that encompasses the 15th hour of graded coursework after returning to the university, the Academic Forgiveness Policy shall be implemented and the following steps taken with regard to the students' academic record:

1. All courses in which grades of C-, D+, D, F, NF, SF, M or U were received in the previous period of Kent State enrollment will

be retained on the academic transcript with the notation of an "E" in the repeat column, which denotes courses excluded from GPA calculation, and the official grade will be changed to X* (e.g., XC-, XD, etc.), which denotes academic forgiveness.

2. All cumulative calculations of hours attempted, quality points earned and cumulative GPA also will be adjusted.

If the students fail to maintain a 2.00 average for the first 15 semester hours of graded coursework following return to the university, the eligibility period shall be extended to the term which encompasses the 30th semester hour of graded academic coursework after the students' resumption of study at Kent State. If, at this point, the students' GPA since their return has attained the 2.00 level, the Academic Forgiveness Policy will be implemented; if not, eligibility for the Academic Forgiveness Policy shall have expired.

Exceptions/Explanations: The Academic Forgiveness Policy is non-selective. It applies to all grades below C (2.00), with the exception of courses taken on a pass/fail basis, that were earned in the previous period of Kent State University enrollment, or to none. In the event that a course for which the students previously had received a "passing" grade of C-, D+ or D is required for the degree program the students are pursuing, the students must retake this course unless the dean of the college in which the students are enrolled approves a suitable substitution. The original GPA (unadjusted by the application of the Academic Forgiveness Policy) will be used in determining eligibility for university, collegial, departmental or professional honors or other recognition based upon the entirety of students' undergraduate academic career and record of academic performance. Former students returning to the university may request the application of the Academic Forgiveness Policy to their record only once in their career at Kent State and within only one of the criteria of eligibility.

The Academic Forgiveness Policy applies only to coursework formerly taken at Kent State University and only to the students' Kent State transcript. It is available only to undergraduate students and applies only to a student's standing toward an undergraduate degree program of the university. The dean of the college, independent school or Regional Campus in which the students are enrolled at the time of initial eligibility for application of the Academic Forgiveness Policy (the term which encompasses the 15th hour of graded coursework since returning to Kent State) shall determine all questions as to eligibility for, and application of, the Academic Forgiveness Policy. Scholarships and Awards

Kent State University Catalog 2010 - 2011 > Fees and Financial Aid > [Scholarships and Awards](#)

Kent State University offers a variety of scholarship opportunities for students enrolled at the Kent Campus and the Regional Campuses. Scholarship awards are based upon a variety of criteria. Selection is typically based on academic merit (GPA and/or test scores); demonstrated financial need; leadership experience; field of study; participation in a specific program, organization or activity; or any combination of the above.

Freshmen on the Kent Campus who wish to apply for a scholarship must be admitted to the university by January 15. Freshmen applying after this date will be considered for these scholarships if funds are available. Regional Campus students should contact the their admissions representative regarding scholarship opportunities and application procedures. Additional information regarding Kent State University scholarships and/or applications are available on the [Student Financial Aid website](#).

There are more than 600 scholarships available to Kent State University students. The [Scholarship Search Qualifier](#) is a database that contains information regarding each of these programs. Students who visit the website will have the opportunity to submit their personal information to determine which departmental scholarships they may be eligible to receive. The database provides eligibility criteria, application deadlines and contact information.

ENDOWED SCHOLARSHIPS AND AWARDS

An endowed scholarship is one of the most significant and meaningful gifts alumni, friends, corporations and foundations can provide to benefit Kent State University. Kent State is fortunate to have hundreds of scholarships established by thoughtful and generous benefactors. The following is a list of scholarships and awards that have been endowed at a level of \$25,000 or more. Students are considered for these scholarships and awards through the normal procedures involved in requesting university financial aid or through selection by department committees. Additional information regarding scholarships can be found on the the [Student Financial Aid website](#).

INTRODUCTION

The goal of Undergraduate Studies is to help students achieve academic success at Kent State University. It fosters student academic success by advising undecided students on degree and career planning; assessing the basic skills of all first-year students; providing tutoring services that promote student learning; and supporting low-income, first-generation and pre-college students.

ACADEMIC SUCCESS CENTER

The Academic Success Center consists of programs designed to foster the academic success of college students. Program areas include the Academic Skills courses, Student Support Services project, University Tutoring programs and Supplemental Instruction services.

Academic Skills courses include: US 10003 Reading Strategies for College Success and US 10006 Study Strategies for College Success. The focus of both courses is the development and application of reading, learning and study strategies that will enable students to maximize their learning potential and achieve their learning goals, thereby promoting student retention. Placement in one or both courses is contingent upon basic skills assessment.

The Student Services project is a TRIO program funded by a grant from the U.S. Department of Education to provide academic support to first-generation college students, low-income students and students with disabilities. Services include tutoring in mathematics, writing and selected courses; study groups; individual peer mentor; and a laptop computer-lending program.

University Tutoring supports the educational development of student through tutoring in selected courses; writing and mathematics tutoring in certain residence halls and in the Library Information Commons; and test review sessions and workshops.

Supplemental Instruction services are available to students enrolled in specific large lecture classes. Small-group supplementation instruction study sessions are designed to help student improve their academic performance.

DUAL ENROLLMENT PROGRAMS

Kent State University's Dual Enrollment Programs are designed to provide qualified high school students with the opportunity to enhance their high school education by earning college credits while they are still completing their high school degree. The most common forms of dual enrollment are the Post-Secondary Enrollment Options Program (PSEOP) and college courses taught at the high school by qualified high school faculty members who have been approved by Kent State University.

Kent State's Post-Secondary Enrollment Options Program (PSEOP) provides qualified high school students with access to college-level coursework on the college campus. College courses taken under PSEOP may also fulfill high school graduation requirements if approved by the students' local school districts. Participation in PSEOP at any Kent State campus is not intended to replace coursework available at high school, but rather to enhance the educational opportunities available to students while in high school. In recognition of the fact that high school-level college preparatory coursework forms the foundation for success at the college

- » EXCELRESIDENTIAL
- » NATIONAL STUDENT EXCHANGE

level, the Ohio Department of Education and the admission offices of the state universities in Ohio have endorsed a minimum core of 16 units of high school college preparatory courses.

To participate in PSEOP at any Kent State campus, high school students must have completed at least 9 units of this minimum core to be considered for admission as a first-semester high school junior or at least 13 units to be considered for admission as a first-semester high school senior. In general, those students seeking admission to college courses should rank in the top 15 percent of their class, have a cumulative minimum 3.50 high school GPA and minimum ACT 26 composite score. Students who do not meet these criteria are eligible to apply for admission and will be evaluated for acceptance to the program based on their high school curriculum, cumulative high school GPA, ACT or SAT scores and letters of recommendation. Students also may be asked to complete a basic skills assessment in reading, composition and mathematics. A personal interview may be required.

Senate Bill 140 provides for tuition payment of PSEOP students enrolling under Option B. High school students wishing to take advantage of this financial opportunity must contact their local school district for specific details. Applications for participation in PSEOP must be completed in sufficient time for them to be evaluated before the appropriate registration period. Students should contact the campus to which they are applying for specific program details and deadlines. PSEOP students are eligible for admission into Kent State University degree programs when they submit and meet all admission criteria (e.g., proof of high school graduation, admission test scores, high school rank, grade point average, etc.). Kent State University degrees earned by PSEOP students are not posted to the Kent State University academic transcript until the term subsequent to high school graduation.

Dual Enrollment Programs also includes The Ohio College Access Network (OCAN). OCAN offers a pre-college partnership with local school districts and community agencies in planning and implementing early college awareness activities and events. The focus of this partnership is to increase the recruitment and retention of first generation students at Kent State University.

EXCEL RESIDENTIAL COLLEGE

The EXploratory Community Engaged in Learning (EXCEL) Residential College is a living/learning experience offered to new freshman exploratory students who have chosen to explore the numerous majors at Kent State University prior to declaring a major. EXCEL focuses on academic and personal success and offers students special resources in choosing a degree-granting college major.

EXCEL students reside on the fourth floor of Lake Hall in the central part of campus. This hall is connected to the Exploratory Advising Center, which houses the professional academic advisors for all exploratory students. The students enroll in common courses resulting in the formation of an interdependent community where students share responsibility for living and learning together.

NATIONAL STUDENT EXCHANGE

The National Student Exchange program offers a one-year or one-semester study-away educational opportunity to Kent State students while they earn course credit toward graduation. There are more than 170 colleges and universities in the United States, U.S. Territories and Canada from which to choose. Students pay Kent State University tuition or use their tuition waiver; financial aid applies and scholarships also can apply; there are no out-of-state fees. Students experience personal growth, explore graduate school programs and investigate employment opportunities while being exposed to a new culture.

- SUNDET, DANNA (2002) Assistant Professor, M.M., Kent State University, 2002
- WALKER, LINDA B. (1990) Associate Professor, Ph.D., University of Kansas, 1983
- WILEY, FRANK E. (1979) Professor, D.M.A., Cleveland Institute of Music, 1977
- WONG, JERRY T. (2003) Associate Professor, Ph.D., The Manhattan School of Music, 2002

School of Theatre and Dance

- BANK, ROSEMARIE K. (1984) Professor, Ph.D., The University of Iowa, 1972
- BEDNERIK, MARYA (1984) Professor, Ph.D., The University of Iowa, 1968
- CAMPBELL, SHARON S. (1989) Associate Professor, master's degree, The Ohio State University, 1982
- CRAWFORD, JOHN R. (1988) Professor, Ed.D., Temple University, 1989
- CRICK, STEVE (2007) Assistant Professor, M.A., University of Missouri, 1991
- HUVA, NATALIE J. (2003) Instructor, Regional Campuses, M.A., Villanova University, 2001
- KARPANTY, KIMBERLY (1995) Associate Professor, M.A., New York University, 1987
- KENT, THERESE J. (1991) Professor, M.F.A., Michigan State University, 1987
- KURAHASHI, YUKO (2001) Associate Professor, Ph.D., Indiana University, 1996
- LaSALA, ERIN P. (2009) Assistant Professor, M.F.A., University of North Carolina (Greensboro), 2009
- MEGGITT, JOAN (2005) Assistant Professor
- MONDAY, MARK T. (2007) Assistant Professor, M.F.A., West Virginia University, 1993

- NADON, DANIEL R. (1993) Associate Professor, Regional Campuses, Ph.D., University of Colorado, 1993
- RICHIE, CHARLES J. (1994) Associate Professor, B.A., Denison University, 1970
- ROBB, PHILLIP L. (1971) Assistant Professor, Regional Campuses, M.A., Kent State University, 1969
- SEO, JAKYUNG (2009) Assistant Professor, M.F.A., University of Illinois (Urbana), 2004
- SHEARER, ANDREA TECZA (1980) Associate Professor, M.A., The University of Michigan, 1975
- SIMONSEN, MARTIN E. (2000) Assistant Professor, M.F.A., University of Wisconsin (Madison), 1987
- SMITH, RAYNETTE HALVORSEN (1991) Associate Professor, M.F.A., Carnegie Mellon University, 1976
- STILLINGS, CYNTHIA R. (1996) Associate Professor, M.F.A., University of Wisconsin (Madison), 1988
- VAN BAARS, FRANS E. (1993) Associate Professor, M.F.A., Kent State University, 2002
- VERLEZZA, BARBARA A. (2002) Associate Professor, M.F.A., The University of Michigan, 1978
- ZAPYTOWSKI, STEPHEN M. (1988) Professor, M.F.A., Indiana University, 1979

COLLEGE OF ARTS AND SCIENCES

Department of Anthropology

- CHIU GROFF, CHI-HUA (2009) Assistant Professor, Ph.D., Wayne State University, 1997
- FEINBERG, RICHARD (1974) Professor, Ph.D., University of Chicago, 1974
- LOVEJOY, C. OWEN (1968) University Professor, Ph.D., University of Massachusetts (Amherst), 1970
- MANAHAN, THOMAS K. (2006) Assistant Professor, Ph.D., Vanderbilt University, 2003
- MEINDL, RICHARD S. (1978) Professor, Ph.D., University of Massachusetts, 1979
- NORCONK, MARILYN A. (1992) Associate Professor, Ph.D., University of California (Los Angeles), 1986
- PERUSEK, DAVID J. (1998) Assistant Professor, Regional Campuses, M.L.S., Kent State University, 1989
- SEEMAN, MARK F. (1976) Professor, Ph.D., Indiana University, 1977
- STUMPF-CAROME, JEANNE (2009) Instructor, Regional Campuses, Ph.D., University of California, 1992

College of Arts and Sciences

- BARTOLO, LAURA M. (1992) Professor, M.L.S., State University of New York (Buffalo), 1979

Department of Biological Sciences

- ANDREAS, BARBARA K. (1988) Professor
- BADE, DARREN L. (2006) Assistant Professor, Ph.D., University of Wisconsin, 2004
- BAGAVANDOSS, PAULRAJ (1993) Associate Professor, Regional Campuses, Ph.D., The University of Michigan, 1986
- BARKLEY, GRANT M. (1973) Professor, Regional Campuses Ph.D., Purdue University, 1973
- BELTZ, LISA A. (2009) Assistant Professor, Regional Campuses, Ph.D., Michigan State University, 1988
- BERNSTEIN, PENNY L. (1994) Associate Professor, Regional Campuses, Ph.D., University of Pennsylvania, 1978
- BLACKWOOD, CHRISTOPHER B. (2006) Assistant Professor, Ph.D., Michigan State University, 2001
- BLANK, JAMES L. (1986) Professor, Ph.D., Indiana University, 1982
- BRENNEN, MICHAEL J. (2004) Instructor, Regional Campuses, M.Ed., Edinboro University of Pennsylvania, 1985
- BRUOT, BRENT C. (1982) Professor, Ph.D., Oklahoma State University, 1978
- BURNS, ROXANNE H. (1992) Associate Professor, Regional Campuses, Ph.D., University of Pittsburgh, 1992
- CALDWELL, HEATHER (2007) Assistant Professor, Ph.D. Georgia State University, 2004
- CASE, ANDREA L. (2005) Assistant Professor, Ph.D., University of Toronto, 2000
- CHEN, YIJING (2006) Assistant Professor, Ph.D., University of Wisconsin, 1997
- COLE, THOMAS B., JR. (1986) Assistant Professor, Regional Campuses, Ph.D., The Ohio State University, 1976
- CONNER, SUZANNE W. (1980) Adjunct Assistant Professor, M.A., Central Michigan University, 1977
- DELORME, THIERRY A. (2004) Associate Professor, Regional Campuses, Ph.D., University of Lyon I, Claude Bernard University, 1997
- DE SZALAY, FERENC A. (1997) Associate Professor, Ph.D., University of California (Berkeley), 1995
- DING, QUNXING Assistant Professor
- DORMAN, ROBERT V. (1983) Professor, Ph.D., The Ohio State University, 1976
- DVORNYK, VOLODYMR (2005) Assistant Professor
- EBERLE, JAMES R. (2009) Instructor, Regional Campuses
- FINER, KIM R. (1993) Professor, Regional Campuses, Ph.D., Texas A & M University, 1984
- FRAIZER, GAIL C. (2001) Associate Professor, Ph.D., University of California (Berkeley), 1983
- FREER-PROKOP, MARGOT C. (2006) Assistant Professor, Regional Campuses, Ph.D., Cleveland State University, 2005
- GERBIG, DONALD G. (1996) Associate Professor, Regional Campuses, Ph.D., The University of Tennessee (Knoxville), 1991
- GLASS, J. DAVID (1984) Professor, Ph.D., Wesleyan University, 1983
- GRAFTON, BRIAN W. (1994) Instructor, M.A., Kent State University, 1996
- HALBROOKS, MARY C. (1999) Associate Professor, Regional Campuses, Ph.D., University of Wisconsin, 1983

- HAMILTON, IV, ROBERT (2005) Assistant Professor, Ph.D., Rutgers The State University, 2006
- HANOUSEK, CHRIS A. (1992) Assistant Professor, Regional Campuses, Ph.D., Kent State University, 1991
- HEATH, ROBERT T. (1970) Professor, Ph.D., University of California (Los Angeles), 1968
- HOEH, WALTER R. (1998) Associate Professor, Ph.D., The University of Michigan, 1991
- JOHNSON, JOHN D. (2007) Assistant Professor, Ph.D., University of Colorado (Boulder), 2002
- KERSHNER, MARK W. (1999) Assistant Professor, Ph.D., The Ohio State University, 1998
- KLINE, DOUGLAS W. (1990) Professor, Ph.D., University of California (Davis), 1985
- LEFF, ADAM A. (1995) Associate Professor, D.V.M., The University of Georgia, 1991
- LEFF, LAURA G. (1993) Professor, Ph.D., University of Georgia, 1992
- LORCH, PATRICK D. (2007) Assistant Professor, Ph.D., University of Toronto, 2000
- LOVELL, JOHN A. (1995) Associate Professor, Regional Campuses, Ph.D., Kent State University, 1993
- MACLAREN, RONALD D. JR. (2004) Assistant Professor, Regional Campuses, Ph.D., Indiana University, 2004
- McDONOUGH, JENNIFER A. (2009) Instructor
- MARCINKIEWICZ, JENNIFER L. (1995) Associate Professor, Ph.D., University of Illinois (Urbana-Champaign), 1991
- MEEK, LEAH M. (1995) Instructor, Regional Campuses, M.A., Youngstown State University, 1994
- MINTZ, ERIC M. (2002) Assistant Professor, Ph.D., University of California (Santa Cruz), 1995
- NAJI, JOSEPHINE W. (1988) Assistant Professor, Regional Campuses
- NASR, PAYMAN (2004) Associate Professor, Regional Campuses, Ph.D., University of Kentucky, 2003
- NOVAK, COLLEEN M. (2009) Assistant Professor, Ph.D., Michigan State University, 1999
- NUSSBAUM, FRANCIS E. (1986) Associate Professor, Regional Campuses, Ph.D., Michigan State University, 1971
- PIONTKIVSKA, OLENA (2005) Assistant Professor, Ph.D., Pennsylvania State University, 2003
- PROFFER, TYRE J. (1991) Associate Professor, Regional Campuses, Ph.D., Michigan State University, 1985
- ROCHA, OSCAR J. (2004) Associate Professor, Ph.D., Pennsylvania State University, 1990
- RUSSELL, MARY A. (2003) Associate Professor, Regional Campuses, Ph.D., The Ohio State University, 1996
- SIKUT, ROBIN M. (2009) Instructor, Regional Campuses, master's degree, The University of Akron, 1995
- SORIANO, AUGUSTO H. (2001) Assistant Professor, Regional Campuses, A.A.B., Kent State University, 2007
- STALVEY, JOHN R.D. (1987) Professor, Ph.D., University of Southern California (Los Angeles), 1981
- VASH, SARAH R. (2004) Instructor, M.S., Kent State University, 2003
- VENEY, SEAN L. (2004) Associate Professor, Ph.D., University of Virginia, 2000
- VIJAYARAGHAVAN, SRINIVASAN (1997) Professor, Ph.D., All India Institute of Medical Sciences, 1979

Chemical Physics Program

- BOS, PHILIP J. (1994) Professor Ph.D., Kent State University, 1978 (Physics)
- CHIEN, LIANG-CHY (1988) Professor Ph.D., University of Southern Mississippi, 1988 (Chemistry)
- JAKLI, ANTAL I. (1989) Associate Professor
- KELLY, JACK R. (1988) Professor Ph.D., Clarkson University, 1979 (Physics)
- LAVRETOVICH, OLEG D. (1992) Professor, D.Sc., Ukrainian Academy of Sciences, 1990 (Physics and Mathematics)
- PALFFY-MUHORAY, PETER (1987) Professor Ph.D., University of British Columbia, 1977 (Physics)
- SELINGER, JONATHAN V. (2005) Professor (Ohio Eminent Scholar) Ph.D., Harvard University, 1989
- SELINGER, ROBIN L.B. (2005) Professor Ph.D., Harvard University, 1989
- SHIYANOVSKII, SERGIJ V. (1997) Professor Ph.D., Kiev State University, 1994
- WEI, QI-HUO (2006) Assistant Professor
- YANG, DENG-KE (1989) Professor Ph.D., University of Hawaii, 1989 (Physics)

Department of Chemistry and Biochemistry

- ABRAHAM, ANN C. (2004) Associate Professor, Regional Campuses, Ph.D., University of Pittsburgh, 1993
- BASU, SOUMITRA (2005) Assistant Professor Ph.D., Thomas Jefferson University, 1997
- BLAIH, SALAH M. (1997) Associate Professor, Regional Campuses, Ph.D., The Ohio State University, 1988
- BRASCH, NICOLA E. (2003) Assistant Professor Ph.D., University of Otago (New Zealand), 1994
- BUNGE, SCOTT D. (2004) Associate Professor Ph.D., Georgia Institute of Technology, 2001
- BURNS, ANDREW (1994) Associate Professor, Regional Campuses, Ph.D., Brown University, 1990
- DATTA, BANSIDHAR (2000) Associate Professor Ph.D., University of Nebraska, 1989
- DING, TANG (2006) Assistant Professor, Regional Campuses
- EARLEY, CLARKE W. (1995) Assistant Professor, Regional Campuses, Ph.D., University of Illinois (Urbana-Champaign), 1987
- FENK, CHRISTOPHER J. (1990) Associate Professor, Regional Campuses, Ph.D., University of Pittsburgh, 1987
- GERICKE, ARNE (2000) Associate Professor, Ph.D., University of Hamburg (Germany), 1994
- GOULD, EDWIN S. (1967) University Professor, Ph.D., University of California (Los Angeles), 1950
- GREGORY, ROGER B. (1984) Professor, Ph.D., University of Sheffield (England), 1980
- HUANG, SONGPING D. (1998) Associate Professor, Ph.D., Michigan State University, 1993

- JARONIEC, MIECZYSLAW (1988) Professor, Ph.D., University of Lublin (Poland), 1976
- KHITRIN, ANATOLY K. (2002) Associate Professor, Ph.D., The Union of Soviet Socialists Republics Academy of Sciences, 1985
- LESLIE, MARGARET R. (2007) Assistant Professor, Ph.D., Rhodes University, 1995
- LI, SHANHU (2005) Associate Professor, Ph.D., University of Japan, 1997
- MAO, HANBIN (2005) Assistant Professor, Ph.D., Texas A&M University, 2003
- MOTRY, DOUGLAS H. (1996) Associate Professor, Regional Campuses, Ph.D., Michigan State University, 1996
- MWONGELA, SIMON M. (2007) Assistant Professor, Ph.D., Louisiana State University, 2005
- PENDERY, JOHN J. (2002) Assistant Professor, Ph.D., University of Michigan, 1979
- SAMPSON, PAUL (1985) Professor, Ph.D., University of Birmingham (England), 1983
- SEED, ALEXANDER J. (1997) Associate Professor, Ph.D., University of Hull (England), 1995
- STROUP, DIANE (2000) Associate Professor, Ph.D., The Ohio State University, 1992
- TANDON, SANTOKH S. (2004) Associate Professor, Regional Campuses
- TOLMACHEV, YURIY V. (2003) Assistant Professor, Ph.D., Case Western Reserve University, 1999
- TSAI, CHUN-CHE (1976) Professor, Ph.D., Indiana University, 1968
- TUBERGEN, MICHAEL J. (1995) Professor, Ph.D., The University of Chicago, 1991
- TWIEG, ROBERT J. (1997) Professor, Ph.D., University of California (Berkeley), 1976
- WANG, ZHIQIANG (2007) Assistant Professor, Regional Campuses
- WEST, JOHN L. (1986) Professor, Ph.D., Carnegie Mellon University, 1980
- YOKOYAMA, HIROSHI (2009) Professor, Ph.D., Tokyo International University, 1997

Department of Computer Science

- BAKER, JOHNNIE W. (1973) Professor, Ph.D., University of Texas, 1968
- BANSAL, ARVIND K. (1988) Professor, Ph.D., Case Western Reserve University, 1988
- BREITBART, YURI (2002) Professor, Ph.D., Israel Technological Institute, 1973
- DRAGAN, FEODOR F. (2000) Professor, Ph.D., Institute of Mathematics of the Belorussian Academy of Sciences, 1990
- FARRELL, PAUL A. (1985) Professor, Ph.D., University of Dublin, 1984
- GUERCIO, ANGELA (2005) Assistant Professor, Regional Campuses, Ph.D., Kent State University, 2004
- JIN, RUOMING (2005) Assistant Professor, Ph.D., The Ohio State University, 2005
- KHAN, JAVED I. (1997) Professor, Ph.D., University of Hawaii (Manoa), 1995
- LU, CHENG-CHANG (1988) Professor, Ph.D., Southern Methodist University, 1988
- MALETIC, JONATHAN I. (2001) Professor, Ph.D., Wayne State University, 1995
- MELTON, AUSTIN C. JR. (1996) Professor, Ph.D., Kansas State University, 1980
- NESTERENKO, MIKHAIL (1998) Professor, Ph.D., Kansas State University, 1998
- PEYRAVI, HASSAN M. (1985) Professor, Ph.D., University of Oklahoma, 1985
- ROTHSTEIN, MICHAEL (1979) Associate Professor, Ph.D., University of Wisconsin, 1976
- RUTTAN, ARDEN G. (1983) Professor, Ph.D., Kent State University, 1977
- VOLKERT, L. GWENN (2001) Associate Professor, Ph.D., Wayne State University, 2001
- WALKER, ROBERT A. (1996) Professor, Ph.D., Carnegie Mellon University, 1988
- WANG, PAUL S. (1977) Professor, Ph.D., Massachusetts Institute of Technology, 1971
- ZHAO, YE (2006) Assistant Professor Ph.D., State University of New York (Stony Brook), 2006

Department of English

- ADOLPH, ANDREA E. (2002) Assistant Professor, Regional Campuses, Ph.D., Louisiana State University, 2002
- ANDERSON, MARGARET A. (1989) Professor and Director of Wick Poetry Center, M.S.W., West Virginia University, 1977
- BAKER, CHARLES R. (2002) Assistant Professor, Regional Campuses, Ph.D., Indiana University of Pennsylvania, 1997
- BANNING, MARLIA E. (2000) Assistant Professor, Ph.D., University of Utah, 1998
- BERARDINELLI, DANIEL J. (1985) Associate Professor, Ph.D., Kent State University, 1990
- BICE, DEBORAH M. (1998) Associate Professor, Regional Collgee, Ph.D., Case Western Reserve University, 1995
- BLACKBIRD, KATHERINE SNIDER (1990) Instructor, M.A., Kent State University, 1992
- BOWLES, NOELLE K. (2001) Associate Professor, Regional Campuses, Ph.D., University of Miami, 1996
- BOYLE, KAREN E. (1985) Assistant Professor, Regional Campuses, Ph.D., Kent State University, 2001
- BRACHER, MARK F. (1985) Professor, Ph.D., Vanderbilt University, 1981
- BRANDT, PAUL R. (1976) Associate Professor, Ph.D., Kent State University, 1986
- CAMDEN, VERA J. (1984) Professor, Ph.D., University of Virginia, 1986
- CANACCI, JAMES E. (1995) Instructor, Regional Campuses, M.A., Youngstown State University, 1995
- CIUBA, GARY M. (1986) Professor, Regional Campuses, Ph.D., Fordham University, 1986
- CLEWELL, TAMMY (2000) Associate Professor, Ph.D., The Florida State University, 2000
- CORTHELL, RONALD J. (1981) Professor, Ph.D., Cornell University, 1976

- CRAIG, RAYMOND A. (1989) Professor, Ph.D., University of California (Davis), 1989
- CRAIK, ROGER J. (1993) Associate Professor, Regional Campuses, Ph.D., Southampton University, 1984
- CULLETON, CLAIRE A. (1990) Professor, Ph.D., University of Miami, 1989
- CUTTING, SARA G. (1990) Instructor, L.S.M., Kent State University, 1990
- DAUTERICH, EDWARD IV (1997) Assistant Professor, Ph.D., Kent State University, 2006
- DAVIS, KATHE D. (1976) Associate Professor, Ph.D., Brown University, 1977
- DAVIS, LAURA L. (1989) Professor, Ph.D., Kent State University, 1987
- DELANEY, LAURIE E. (1995) Assistant Professor, Regional Campuses, M.A., Youngstown State University, 1991
- DIXON, MARGARET V. (1985) Assistant Professor, M.A., Kent State University, 1988
- DORE, FLORENCE W. (1999) Associate Professor, Ph.D., University of California (Berkeley), 1999
- DUGAS, DONALD JOHN (2005) Associate Professor, Ph.D., Pennsylvania State University, 1999
- DRUESEDOW, DEBRA L. (1984) Instructor, M.A., Kent State University, 1993
- DUNMIRE, PATRICIA L. (1995) Associate Professor, Ph.D., Carnegie Mellon University, 1995
- EAGLEN, SANDRA L. (1983) Lecturer, Regional Campuses, M.A., Kent State University, 1985
- ELLIS, MARNIE K. (2003) Instructor, Regional Campuses, M.F.A., Bowling Green State University, 1999
- ERRITOUNI, ALI (2005) Assistant Professor, Ph.D., University of Miami, 2004
- FEIN, SUSANNA G. (1985) Professor, Ph.D., Harvard University, 1985
- FIGG, KRISTEN M. (1989) Professor, Regional Campuses, Ph.D., Kent State University, 1988
- FLOYD, KEVIN R. (1998) Associate Professor, Ph.D., University of Iowa, 1998
- FRIED, LEWIS F. (1969) Professor, Ph.D., University of Massachusetts, 1969
- FULLER, DANIEL J. (1969) Associate Professor, Regional Campuses, M.A., University of South Dakota, 1964
- GASTON, PAUL L. (1999) Trustees Professor, Ph.D., University of Virginia, 1970
- GOMMLICH, KLAUS (1991) Associate Professor, Ph.D., Karl-Marx Universität Leipzig, 1980, 1987
- HAAS, CHRISTINA (1996) Associate Professor, Ph.D., Carnegie Mellon University, 1987
- HAKUTANI, YOSHINOBU (1968) Professor, Ph.D., The Pennsylvania State University, 1965
- HARRELL, WILLIE J. JR. (2003) Associate Professor, Ph.D., Wayne State University, 2003
- HASSLER, DONALD M. II (1965) Professor, Ph.D., Columbia University, 1967
- HORVATH, BROOKE K. (1988) Professor, Regional Campuses, Ph.D., Purdue University, 1986
- HOWARD, ELIZABETH A. (2000) Associate Professor B.A., Kent State University, 1987
- HUBBELL, GARY V. (1978) Instructor, M.A., Kent State University, 1981
- HUOT, BRIAN A. (2004) Professor Ph.D., Indiana University of Pennsylvania, 1988
- JEWELL, JOHN R. (1984) Associate Professor, Regional Campuses, Ph.D., Kent State University, 1985
- KARMAN, BARBARA A. (1995) Instructor, M.A., Youngstown State University, 1998
- KING, ROBERT J. (1998) Assistant Professor, Regional Campuses, M.F.A., Indiana University, 1998
- KRISHNAN, UMA S. (2001) Instructor
- LAZAR, MARY D. (1996) Associate Professor, Regional Campuses, Ph.D., Kent State University, 1996
- LIESKE, PAMELA J. (1997) Associate Professor, Regional Campuses, Ph.D., University of Massachusetts (Amherst), 1996
- LLOYD, KEITH S. (2002) Assistant Professor, Regional Campuses, Ph.D., University of Louisville, 1996
- LYNCH, MICHAEL F. (1990) Associate Professor, Regional Campuses, Ph.D., Kent State University, 1985
- LYONS, JO-LEIGH (1991) Instructor, M.A., Kent State University, 1996
- M'BAYE, BABACAR (2006) Associate Professor
- McVAY, CHRISTINA M. (1981) Lecturer, M.A., Kent State University, 1984
- MILLER, SALLY G. (1990) Instructor, Regional Campuses, M.A., Kent State University, 1969
- MILTNER, ROBERT F. (1987) Associate Professor, Regional Campuses, Ph.D., Kent State University, 1998
- MIZICKO BELER, BERNADETTE S. (1989) Lecturer, M.A., Kent State University, 1995
- MONEYSMITH, JAYNE A. (1996) Associate Professor, Regional Campuses, Ph.D., Florida State University, 1993
- NEADERHISER, STEPHEN E. (2009) Assistant Professor, Regional Campuses, M.A., University of Kansas, 2004
- NEIDERMAN, BEVERLY A. (1990) Instructor, M.A., Bowling Green State University, 1980
- NEWMAN, SARA J. (1998) Associate Professor, Ph.D., University of Minnesota, 1998
- O CONNOR, VARLEY Assistant Professor, M.F.A. University of California (Irvine), 1989
- PATTERSON, KATHY DAVIS (2000) Associate Professor, Regional Campuses, Ph.D., The Ohio State University, 1999
- PAULENICH, CRAIG F. (1989) Associate Professor, Regional Campuses, Ph.D., Bowling Green State University, 1989
- PICCIRILLO-SMITH, LINDA A. (1983) Lecturer, M.A., Kent State University, 1980
- POWERS-STUBBS, MARSHA KAREN (2006) Assistant Professor, Ph.D., Miami University, 1999
- PRECHT, KRISTEN (2000) Assistant Professor, Ph.D., Northern Arizona University, 2000
- PRESCOTT, RENATE W. (1993) Associate Professor, Regional Campuses, Ph.D., Bowling Green State University, 1990
- REMLEY, R. DIRK (1990) Lecturer, Regional Campuses, M.A., Bowling Green State University, 1988
- RILLING, SARAH E. (2002) Associate Professor, Ph.D., Northern Arizona University, 1998

- ROBINSON, CAROL L. (2000) Associate Professor, Regional Campuses, Ph.D., The University of Georgia, 1994
- ROMAN, CHRISTOPHER M. (1997) Associate Professor, Regional Campuses, Ph.D., University of Alabama, 2004
- ROOKS, MARY ANN (2005) Assistant Professor, Ph.D., University of New Mexico, 2004
- SAINATO, SUSAN M. (1987) Assistant Professor, Ph.D., Kent State University, 2002
- SALZER, KENNETH J. (2003) Assistant Professor, Regional Campuses, Ph.D., University of Rochester, 2002
- SANDERS, MICHAEL T. (1995) Instructor, M.A., University of Maine, 1995
- SANDUSKY, MARY L. (1987) Assistant Professor, Regional Campuses, Ph.D., Kent State University, 2000
- SCHAUFFLER, CHARLENE B. (1991) Instructor, M.A., Kent State University, 1994
- SCHMITZER, THOMAS C. (1989) Lecturer, M.A., Youngstown State University, 1985
- SEGUIN, MARILYN J. (1987) Assistant Professor, M.A., The University of Akron, 1977
- SHANK, MATTHEW A. (1983) Instructor, M.A., The University of Akron, 1982
- SHAW, MARGARET L. (1993) Associate Professor, Ph.D., University of Pittsburgh, 1988
- SLOAN, JAY D. (2000) Assistant Professor, Regional Campuses, Ph.D., Marquette University, 1999
- SMITH, BRENDA R. (2004) Associate Professor, Regional Campuses, Ph.D., Case Western Reserve University, 2003
- SMITH, JEANNE R. (1985) Instructor, M.A., University of New York (Binghamton), 1985
- STARZYK, LAWRENCE J. (1968) Professor, Ph.D., University of Chicago, 1968
- STEWART, MATTHEW R. (1998) Instructor, Regional Campuses, M.A., Kent State University, 1980

<http://www.library.kent.edu>

A strong and responsive library system is at the center of a university's academic environment. Probably no single feature of Kent State shows more clearly the university's commitment to excellence in teaching and research. Kent State University Libraries constitute the largest state-assisted university library system in Northeastern Ohio. They also rank 91st in size of collections among all major academic libraries in the United States.

The Kent State library system comprises a 12-story main library building on the Kent Campus and six specialized branch libraries (architecture, map, music, fashion, chemistry/physics and mathematics and computer science). Each of the seven Regional Campuses has its own library with a professional library director and a collection backed up by access to system-wide resources. Collections total more than 2.9 million volumes, and almost all book stack areas are open to students and other users. Kent State students also have quick access to the collections of 88 Ohio academic libraries through the university's membership in OhioLINK. The combined collections offered through OhioLINK total more than 46 million library items. In the Kent Campus Library, study seating for 1,100 is available at small tables and carrels adjacent to or amid the book stacks. Study facilities also include nine study rooms and 58 private studies for faculty and doctoral students. A presentation practice room is also available for students. The library is open approximately 100 hours per week while classes are in session.

The Kent and Regional Campus libraries are united by the library system's online public catalog, [KentLINK](#), which allows users at any campus to view holdings and initiate online requests for books throughout the campus system. Nearly 300,000 items per year are circulated on the KentLINK system. It also serves as a gateway to the OhioLINK Central Catalog. Among the special features offered is the capability to request an item from another Kent State or OhioLINK library. Remote access to library services and resources, including over 140 research databases, is available through the [library's website](#). To guide students in the use of the extensive collections, reference librarians are available on a schedule exceeding 70 hours per week, as well as by appointment, e-mail or instant messaging. All Regional Campus students have full user privileges at the Kent Campus libraries. Both Kent and Regional Campus libraries offer [special orientation programs](#) intended to help students learn effective use of the library as an informational and intellectual resource. Reference and instructional services include point-of-need assistance via in-person, instance messaging, telephone and e-mail services; orientation sessions; discipline-specific instruction; tutorials on the use of information resources, including research databases; advice for developing search strategies; assistance in identifying previous research relevant to a specific topic; and referrals to other services or collections when appropriate. In-depth research needs can be met through appointments with subject librarians. The University Libraries also provide select course offerings on information literacy.

The University Libraries are members of the Association of Research Libraries, the Center for Research Libraries and OhioLINK. OhioLINK members include 84 Ohio academic libraries, the State Library of Ohio, and several public libraries. The collections and resources of these libraries are available to students and faculty from across the state. Kent State users obtain 60,000 items per year through the direct, user-initiated OhioLINK borrowing. OhioLINK also offers research databases in most subject areas, as well as electronic full text. Additional information resources are available via the Internet. Remote access to KentLINK, OhioLINK and other resources is available.

Kent State maintains strong programs for the development of its library collections, adding approximately 50,000 volumes annually, in addition to extensive acquisitions of microforms and other media. Of particular importance for graduate work are the more than 12,000 periodical and serial titles currently received, many of which are available online. There are also continuing comprehensive depository arrangements that annually bring into the University Libraries' collections documents from the U.S. federal and Ohio state governments, including almost 5,000 document serials. The documents of several major international agencies are acquired comprehensively while more selective programs cover the publications of other state and foreign governments.

The University Libraries possess a strong Department of Special Collections and Archives, which provides access to rich holdings of true crime, contemporary American poetry, the theatre and other performing arts and the history of printing and publishing. Among the archival collections are papers and publications that document Kent State University's history, the May 4 collection of letters, flyers, photographs, court records, artifacts and other primary resources that document the shootings at Kent State on May 4, 1970, and valuable materials relating to the history of Northeast Ohio. The Institute for Bibliography and Editing, a closely related research facility,

Kent Campus Library

- » VALUE-ADDED SERVICES
- » THE FACULTY

is located in the main library.

In order to provide strong support for the needs of the students and faculty, the University Libraries have also established a number of other special resource arrangements to create a diversified international network of academic research services.

- The University Libraries provide networked access to many bibliographic, statistical and full-text databases. Most of these databases, plus many other resources and services, are available through the University Libraries' website.
- Reciprocal arrangements with many other Ohio college and university libraries allow Kent State students and faculty to use and borrow materials directly from those libraries.
- Researchers whose needs go beyond the holdings of the University Libraries can directly access more than 31 million items in the OhioLINK central database. Scholars can also utilize Interlibrary Loan. Interlibrary Loan uses OCLC, an international bibliographic utility whose database contains the holdings of more than 57,000 libraries in 112 countries and territories, along with other bibliographic sources, to locate and obtain materials from other libraries throughout the world. Each year Interlibrary Loan obtains approximately 14,000 items for Kent State researchers from other sources.
- Through the university's membership in the Center for Research Libraries in Chicago, Interlibrary Loan obtains materials from a collection of over 3.5 million books and journals not available in most other libraries.

VALUE-ADDED SERVICES

University Libraries continues to support students in the use of different kinds of media. Kent State University students will likely use one or more of these services during their years here. All of the following services are located in the Main Library on the Kent Campus.

Audio Visual Services, located on the third floor, provides students with audio visual equipment and materials that can be checked out at no cost to them (must be for class related activity). This includes video cameras/tripods, projectors and other audio visual equipment, as well as videos in DVD or VHS format and music compact discs. A preview room provides students with viewing equipment that can be used to watch assigned programming. Audio Visual Services also provides access to modern language lessons stored locally on computers in the preview room.

Campus Copy Connection, located on the third floor, is a third-party provider offering printing, copying and other services. Color and black-and-white copies can be printed to specification at reasonable prices. The Campus Copy Connection also sells course packets for specific courses (not all course packets are sold at the Campus Copy Connection).

Design Solutions, located on the third floor, provides high-quality graphic design and production services. These include graphic design, studio photography (ideal for 3-D projects such as architecture models), print layout and production, picture and poster production, graphic mounting and lamination and other related services.

Photocopy Services ensures that students have access to high-quality and cost-efficient copiers and printers. Public copiers are located on the first, second and third floors. Select copiers provide the option to scan material to save as a computer file or e-mail attachment.

Statistical and Qualitative Software Support Services offers one-on-one consulting services for the use of Kent State licensed statistical and qualitative software packages and databases. The service is available to individual Kent State faculty, and both undergraduate and graduate students needing to use these resources in their coursework. These sessions include assisting students and faculty with choosing software, data manipulation, choosing and running statistical analysis within software packages, and assisting in interpreting output.

Student Multimedia Studio, located on the first floor, is the university's primary multimedia lab, containing the equipment and expertise to help students complete any type of multimedia project. The Student Multimedia Studio helps thousands of students each year with projects such as digital video, web pages, PowerPoint, and computer animations. The staff is trained in the use of many different types of software and is able to help students with almost any type of project. The studio supports both PC and Mac computers.

The Washington Program in National Issues was established in 1973 through the initiative of Washington-based alumni who sought to provide Kent State University undergraduates with a unique living and learning experience in the nation's capital. Open to junior and senior students from all academic disciplines, the full 15-week spring semester program is administered through the Department of Political Science.

The purposes of the program are to accomplish the following:

- Facilitate learning about the U.S. political system through briefings with government officials and other working professionals in Washington, DC
- Develop a personal understanding of the demands and rewards of the professional work world through an internship experience
- Encourage initiative through individualized research, which may involve resources at the Library of Congress, among other sites

Students participate in internships—in places such as Capitol Hill, in a governmental agency or with an interest group—and attend seminars. The program requires a semester-long residence in the Washington, DC, area. Alumni in the nation's capital continue to support the program by introducing students to the culture and serving as consultants and mentors.

■ Writing-Intensive Course Requirement

Kent State University Catalog 2010 - 2011 > University Policies > [Writing-Intensive Course Requirement](#)

The purpose of the writing-intensive course (WIC) requirement is to assist undergraduates in becoming effective writers within their major discipline. Building on earlier writing courses, the WIC focuses on writing forms and standards used in the professional life of the discipline. Through these courses, students should understand and experience the ways in which writing shapes and enhances the acquisition and communication of knowledge.

All writing-intensive courses must meet the following criteria:

- Be designed, at least in part, to help students become effective writers in a specific discipline
- Involve a substantial amount of writing
- Provide at least one writing assignment where there is an opportunity for guided revision before grading occurs

Guidelines

1. As part of the requirements for any baccalaureate, all students must satisfy the writing-intensive course requirement.
2. At least one upper-division course from the Writing-Intensive Course list must be completed with a minimum C (2.00) grade.
3. Students should fulfill the requirement by taking a course in the major. In rare instances, a student may use a writing-intensive course from another discipline if approved by the student's major department or school.

INTRODUCTION

The programs of the College of Architecture and Environmental Design focus on disciplines within the building profession that impact the built environment. They are linked by a common studio pedagogy that ensures that each student participates in an intensive, creative and interactive learning experience.

The college brings together students and faculty who share a common interest in making our natural, built and social-political environment meaningful, sustainable and accessible to everyone. Degrees are offered in architecture, interior design, urban design and architectural studies. The college encourages cross-disciplinary study and collaborative relationships both inside and outside the profession. International learning and community outreach opportunities are offered through the [Cleveland Urban Design Collaborative](#) (CUDC).

- The Architecture program stresses design innovation and excellence through a combination of theoretical explorations, practical applications and comprehensive consideration of programmatic requirements, aesthetics and technical concerns.
- The Interior Design program emphasizes the quality of interior spaces through the inquiry and synthesis of design theory and the application of functional and aesthetic requirements of the built environment while stressing the health, safety and welfare of the public.
- The Urban Design program emphasizes the relationship between buildings and the urban landscape as fundamental to the enhancement of neighborhoods, districts, recreational areas and the development of the public realm. Collaborative learning and design activities among students, faculty members and practitioners are promoted through frequent studio-based community and neighborhood outreach efforts organized by the Urban Design Center of Northeast Ohio, located in Cleveland, Ohio.
- The Architectural Studies program allows for a broad and inclusive non-professional program in environmental design and allied disciplines.

A variety of graduate degrees build upon the College's undergraduate curriculum and include the professional Master of Architecture degree, the Master of Urban Design and dual degree alternatives.

MISSION

The College of Architecture and Environmental Design at Kent State University is dedicated to the education of responsible professionals who are committed to the improvement of the quality of life, enhancement of the physical environment and the protection of the public welfare. The college also promotes research in the various fields of environmental design, development of faculty scholarship, broadening of students' exposure to advanced theory and techniques and dissemination of knowledge. It contributes to the public welfare through its outreach programs to assist communities in their effort of improving the physical environment

THE CLEVELAND URBAN DESIGN COLLABORATIVE (CUDC)

The [Cleveland Urban Design Collaborative](#) (CUDC) is comprised of the Urban Design Center (UDC) of Northeast Ohio and the college's graduate program in urban design. The CUDC is located in downtown Cleveland. The UDC assists communities and neighborhoods in their planning and design efforts, sponsors educational forums and disseminates information on urban design. Students in the architecture program and urban design programs at Kent State University may participate in appropriate aspects of the work of the UDC as a way of gaining experience in urban design problem solving.

Undergraduate Programs

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of Architecture and Environmental Design > [Undergraduate Programs](#)

The College of Architecture and Environmental Design offers a two-degree program for students who plan to become registered architects. When earned sequentially, both the Bachelor of Science in Architecture and Master of Architecture comprise an accredited professional education.

The Bachelor of Arts in Architectural Studies is a non-professional program linked to the environmental design disciplines; however, it allows the flexibility for the student to define a course of study that may investigate the relationships between architecture/design and knowledge of urbanism, environmentalism, literature, media, cultural theory, art, science and technology, as well as philosophy, economics and political science.

The Bachelor of Arts in Interior Design is a CIDA-accredited program, comprising a course of study directed toward those student planning on becoming certified interior design professionals.

AED-General [AEDG].

Because Kent State University is an "open admissions" university, students who meet the university standards are admitted to both the university and the college of their choice. This does not mean that the student has been directly admitted into the architecture, interior design or architectural studies programs unless specifically stated in the letter of acceptance. These students are designated AED-General [AEDG].

AED-Gs are assigned to freshman orientation classes with all College of Architecture and Environmental Design majors. These classes aid in understanding the broad range of career options within the environmental design professions. Students should take regular coursework in preparation to attempt entry into one of the College of Architecture and Environmental Design majors or may consider alternative degree program options. Students should meet with their advisor to aid in making a decision regarding their degree program and major. In order to move forward with a minimum loss of credit hours, it is strongly recommended that AED-G students, who were not accepted into a degree program, choose an alternate degree program within or outside the College prior to completing 45 credit hours.

Architecture

Students not admitted to the B.S. program may qualify for admission to the College of Architecture and Environmental Design as a General (AED-G) major. These students may apply for admission to the architecture summer studio program. They must complete their first year with a minimum 2.75 GPA (3.0 GPA or higher are the most competitive), complete first year non-studio requirements, and apply for the summer studio program. Students who are accepted will complete First Year Design Studio I and II during the summer between their first and second years. A personal interview with the Associate Dean for Architecture is recommended during the first week of the spring semester of their first year.

Interior Design

Students who do not qualify for admission as a result of GPA below 2.50 are placed as AEDG majors until the required GPA is achieved.

[Roadmaps](#)

[Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: The Architectural Studies program is directed at three populations:

1. Students interested in environmental design seeking a basis for further study and eventual employment in cultural theory and criticism, urban planning and design, studio art and other fields where an architectural sensibility may provide a strategic advantage.
2. Students who plan to complete a terminal professional design program in a second-entry master's degree-level program and seek the broadly based education valued by such programs.
3. Students who combine architectural education with studies in other disciplines (e.g., journalism, geography, information technology, graphic design, library sciences, marketing and management) instead of a full studio and technically based professional program.

CAREER OPPORTUNITIES: Upon completion of the four-year bachelor's degree, graduates may seek employment in the construction and development industries, develop careers in cultural theory or pursue a variety of professional graduate programs including law, architecture and business.

ADMISSION REQUIREMENTS: Application deadline is January 31. All applications must include the \$40 application fee, official American College Test (ACT)/Scholastic Aptitude Test (SAT) scores and an official high school transcript which shows class rank and coursework in 9th, 10th and 11th grades, as well as the courses that are being taken or will be taken in the senior year. Transcripts that do not show class rank and senior courses cannot be considered. All completed applications received by the deadline will be reviewed.

Applicants will be considered based on the following criteria:

- High school GPA.
- High school class rank.
- ACT/SAT scores.

Applicants will be notified of their admission status by March 1. Those offered admission must notify the college of their acceptance by April 1.

High school students who have applied to the architecture professional program (B.S. in Arch.) or the interior design program and have not been accepted may qualify for admission into the Bachelor of Arts in Architectural Studies nonprofessional program.

General Admission for Transfer Students: General admissions for transfer students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the Admissions website for transfer students <http://www.kent.edu/admissions/undergraduate/transfer/index.cfm>.

Also, see transfer student admissions for selective programs:

<http://www.kent.edu/admissions/undergraduate/transfer/selective-requirements.cfm>.

GRADUATION REQUIREMENTS: Minimum 125 credit hours, including all required coursework. Minimum 2.25 GPA in the major and 2.00 cumulative GPA.

STUDY ABROAD/AWAY OPPORTUNITIES: The college offers full-semester programs abroad for qualified fourth-year Architectural Studies majors. The study abroad program is housed in the 13th-century Palazzo dei Cerchi, located in the heart of historic Florence, Italy. The program is open to all students who have made satisfactory progress toward completion of their undergraduate program

PROGRAM FEE: \$50/semester

Roadmaps

Program Requirements

College Requirements

University Requirements

DESCRIPTION: Kent State's architecture program enables students to acquire and apply knowledge that contributes to the betterment of our physical environments. The balanced curriculum of technology, visualization, history, theory and design studio coursework offers a platform for scholarship, constructive discourse and debate. Northeast Ohio's rich history and dynamic urban landscape serve as a setting for academic learning and the study of "real world" conditions. By placing equal emphasis on the poetics and pragmatics of construction and design, the curriculum inspires experimentation, collaboration, discovery, critical thinking and innovation. The program fosters academic excellence and prepares students to be responsible and accomplished architectural professionals.

CAREER OPPORTUNITIES: Architects held about 132,000 jobs in 2006. Approximately 7 out of 10 jobs were in the architectural, engineering, and related services industry—mostly in architectural firms with fewer than five workers. A small number worked for residential and nonresidential building construction firms and for government agencies responsible for housing, community planning, or construction of government buildings, such as the U.S. Departments of Defense and Interior, and the General Services Administration. About 1 in 5 architects are self-employed. (Source: Bureau of Labor Statistics)

ADMISSION REQUIREMENTS: Application deadline is Jan. 31. All applications must include the \$40 application fee, official American College Test (ACT)/Scholastic Aptitude Test (SAT) scores and an official high school transcript which shows class rank and coursework in 9th, 10th and 11th grades, as well as the courses that are being taken or will be taken in the senior year. Transcripts that do not show class rank and senior courses cannot be considered. All completed applications received by the deadline will be reviewed. Applicants will be considered based on the following criteria:

- High school GPA.
- High school class rank.
- ACT/SAT scores.

While Kent State University is an open admissions university that offers admission to students who are graduates of accredited high schools, admission to the architecture program is highly selective. Of the students who apply each year to architecture, approximately 100 are enrolled in the program. Of the remaining applicants, approximately 50 are selected as alternates. Should additional space become available prior to the beginning of fall semester, spaces will be filled from the roster of alternates.

To be considered, freshmen need at least a 3.0 cumulative high school grade point average (on a 4.0 scale), a minimum ACT composite score of 25 (1140 combined critical reading and math SAT score), minimum ACT sub scores of 25 in both English and math, AND a rank in the top 20 percent of their graduating class.

Applicants will be notified of their admission status by March 1. Those offered admission to the architecture program must notify the College of their decision by April 1. Admission not confirmed by this

date will be offered to alternates.

GRADUATION REQUIREMENTS: Minimum 127 credit hours, including all required coursework. Minimum 2.25 GPA in the major and 2.00 cumulative GPA.

LANGUAGE REQUIREMENT: None

STUDY ABROAD/AWAY OPPORTUNITIES: The college offers full-semester programs abroad for qualified third-year Architecture students. The study abroad program is housed in the 13th-century Palazzo dei Cerchi, located in the heart of historic Florence, Italy. Requirements for Advancement to Third Year—Professional Level

Advancement review for the Bachelor of Science in Architecture occurs at the end of the second year. Upon completion of 60 semester hours, students are required to contact the Office of Advising and Academic Services in Taylor Hall to obtain a requirement sheet bearing a current evaluation of all progress toward completion of the students' chosen degree program. Requirement evaluations are not a substitute for meeting with a faculty advisor. To advance, students must accomplish the following:

1. Comply with all specific course prerequisites.
2. Complete the following courses:
ARCH 10101, 10102, 10111, 20101, 20102, 20112, 20113, 20201, 20301, 20601, 20602
ARTH 22006
MATH 12002 (or MATH 12011 and 12012)
PHY 13001, 13012, 13021
3. Earn a minimum 2.25 GPA in architecture courses.
4. Earn minimum 2.50 cumulative GPA.

Notes:

1. Architecture majors may not use the following courses to satisfy the architectural elective requirement:
 - i. ARCH 10001 Understanding Architecture
 - ii. ARCH 10011 Survey of Architectural History I
 - iii. ARCH 10012 Survey of Architectural History II
2. Architecture majors may not use the following course combinations for credit toward fulfilling the Kent Core Basic Sciences category:
 - i. PHY 11660 and the CHEM 10050 series, the CHEM 10060 series and/or the PHY 13001 series
 - ii. Both the CHEM 10050 series and the CHEM 10060 series
 - iii. Both the PHY 13001 series and the PHY 23101 series
3. No more than 4 credit hours of PEB activities courses may apply to required semester hours for graduation.
4. No more than the first 16 credit hours of ROTC courses may apply to required semester hours for graduation. Veterans who have completed a minimum one year of active duty may receive PEB credit for military basic training according to branch of service, as follows:
 - i. Army and Marine Corps: 3 credit hours
 - ii. Navy and Coast Guard: 2 credit hours
 - iii. Air Force: 1 credit hour

[Roadmaps](#)

[Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: The Interior Design program focuses on human needs that can be fulfilled by the design of one's surroundings. This program teaches interior designers to identify, research and creatively solve problems relating to the environment and quality of one's near environment. Competencies achieved in the program include fundamental design; design analysis; space planning and programming; and the design of all interior spaces, with an understanding of health, safety and welfare of the public as they relate to all aspects of environmental design.

CAREER OPPORTUNITIES: Interior designers held about 72,000 jobs in 2006. Approximately 26 percent were self-employed. About 26 percent of interior designers worked in specialized design services. The rest of the interior designers provided design services in architectural and landscape architectural services, furniture and home-furnishing stores, building material and supplies dealers, and residential building construction companies. Many interior designers also performed freelance work in addition to holding a salaried job in interior design or another occupation. (Source: Bureau of Labor Statistics)

ADMISSION REQUIREMENTS: Direct admission to the Interior Design program is based on a combination of high school GPA and ACT/SAT scores.

There are open admissions to this program, but early application is advised. Students are admitted to interior design based on a cumulative high school grade point average of at least 2.75 (on a 4.0 scale) AND a minimum ACT composite score of 22 (1020 SAT combined critical reading and math score).

General Admissions for New Freshmen: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 22 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the Admissions website for new freshmen <http://www.kent.edu/admissions/undergraduate/newfreshmen/index.cfm>.

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the Admissions website for transfer students <http://www.kent.edu/admissions/undergraduate/transfer/index.cfm>.

GRADUATION REQUIREMENTS: Minimum 130 credit hours, including all required coursework. Minimum 39 upper-division credit hours. Minimum 2.50 GPA in major, including interior design, art, architecture, visual communication design and technology courses. Minimum 2.00 cumulative GPA.

STUDY ABROAD/AWAY OPPORTUNITIES: The college offers full-semester programs abroad for qualified third-year Interior Design students. The study abroad program is housed in the 13th-century Palazzo dei Cerchi, located in the heart of historic Florence, Italy. The program is open to all students who have made satisfactory progress toward

completion of their undergraduate program.

Requirements for Advancement to Second Year

Advancement review for the Bachelor of Arts in Interior Design occurs at the end of the first year. To advance, students must accomplish the following:

1. Comply with all specific course prerequisites.
2. Complete the following courses:
ARCH 10011, 10012 (or ARTH 22006, 22007)
ENG 11011 (or HONR 10297)
ID 14501, 14512
MATH 11010, 11022
TECH 11071
VCD 17000
Art or crafts elective
3. Earn minimum 2.50 cumulative GPA.

After the final exam week of spring semester, and if all the requirements have been met, the candidates for admission to the second year must submit a portfolio of creative accomplishments. The portfolio must include representative work from the courses listed above. Selection of candidates by the interior design faculty and review committee will take place at the end of spring semester. Candidates will receive notification within four weeks after the last day of exams. Candidates will be notified by letter from the interior design program regarding admission to the second year of the major. After successful completion of the portfolio process and admission to the second year of interior design coursework, students can expect a minimum of three years to complete the program.

This professional program is based on both lecture and studio work. Because of this, the coursework requires the use of expendable materials. Interior Design majors will be expected to purchase art supplies and materials beyond the regular textbooks.

Notes:

1. Interior Design majors may not use the following course combinations for credit toward fulfilling the Kent Core Basic Sciences category:
 - i. PHY 11660 and the CHEM 10050 series, the CHEM 10060 series and/or the PHY 13001 series
 - ii. Both the CHEM 10050 series and the CHEM 10060 series
 - iii. Both the PHY 13001 series and the PHY 23101 series
2. No more than 4 credit hours of PEB activities courses may apply to required semester hours for graduation.
3. No more than the first 16 credit hours of ROTC courses may apply to required semester hours for graduation. Veterans who have completed a minimum one year of active duty may receive PEB credit for military basic training according to branch of service, as follows:
 - i. Army and Marine Corps: 3 credit hours
 - ii. Navy and Coast Guard: 2 credit hours
 - iii. Air Force: 1 credit hour

DESCRIPTION: The Master of Architecture, accredited by the National Architectural Accrediting Board, prepares graduates to enter the profession by stimulating the growth of technical knowledge and design creativity, and the refinement of design skills acquired in undergraduate programs, as well as by offering a broad exposure to professional issues and knowledge. The program has an emphasis in building design and professional practice and offers students the opportunity of selecting elective courses in specialized areas, such as building technology, building preservation, architectural history and theory, urban studies and design.

The Master of Architecture also offers a Post Professional Study concentration and a Dual degree program with the Master of Business Administration and the Master of Urban Design.

Post Professional Studies is for those holding a professional B.Arch. or M.Arch. degree and interested in continuing their education by focusing on one of the various areas: design theory, preservation, urban design, building technology, green architecture and building management. This research-based program allows students to shape a course of study according to their cultural and professional interests. It particularly suits the needs of those professionals who cannot enroll full-time as each curriculum may be taken in a flexible way. This program is suitable for international students.

Dual Degree with the Master of Business Administration is for architects or undergraduate architectural students who aspire to middle or executive management positions in architectural practices, or who are interested in starting their own business along with the preparation to enter the profession of architecture by stimulating the growth of technical knowledge and design creativity. It fosters the refinement of design skills acquired in undergraduate programs, also by offering a broad exposure to professional issues and knowledge.

Dual Degree with the Master of Urban Design is for graduate students interested in advanced preparation in architecture with a specialization in urban design along with the preparation to enter the profession of architecture by stimulating the growth of technical knowledge and design creativity. It fosters the refinement of design skills acquired in undergraduate programs, also by offering a broad exposure to professional issues and knowledge.

ADMISSION REQUIREMENTS: Official transcript(s); GRE (or GMAT for the Dual Degree with MBA concentration); goal statement (include intent and background information); three letters of recommendation (one letter should be from a non-academic source); portfolio (design work should clearly indicate role in group projects; and pre-professional degree in architecture (B.A. or B.Arch.). Applicant must have undergraduate coursework equivalent to Kent State B.S. degree. Conditional admission may be granted with specific additional coursework, such as the Comprehensive Building Design and Technology Studio (ARCH 40102), currently offered in the fourth year of the B.S. in Architecture.

GRADUATION REQUIREMENTS: M.Arch.: Minimum 44 total credit hours, 35 from core courses and 9 from elective courses.

Post Professional: Minimum of 32 credit hours with two alternative culminating experiences.

M.Arch./M.B.A.: Minimum of 74 credit hours, 35 from the M.Arch. program and 39 from the M.B.A. program.

M.Arch/M.U.D.: Minimum of 67 credit hours, 35 from the M.Arch. program and 32 from the M.U.D program.

CULMINATING EXPERIENCE:

Post Professional: Thesis/Capstone Project

PROGRAM FEE:

None

ACCREDITATION:

The Master of Architecture degree is accredited by the National Architectural Accrediting Board (NAAB). In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board, which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted a six-year, three-year or two-year term of accreditation, depending on the extent of its conformance with established educational standards.

Master's degree programs may consist of a preprofessional undergraduate degree and a professional graduate degree, that, when earned sequentially, constitute an accredited professional education. However, the preprofessional degree is not by itself, recognized as an accredited degree.

Dual Degree Program Requirements

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of Business Administration > Graduate Programs > [Dual Degree Program Requirements](#)

- [Master of Science in Nursing/Master of Business Administration](#)
- [Master of Library and Information Science/Master of Business Administration](#)
- [Master of Architecture/Master of Business Administration](#)
- [Master of Arts in Translation/Master of Business Administration](#)

Master of Science in Nursing/Master of Business Administration

At 63 credit hours for the dual degree, students save 33 credit hours from master's requirements by not pursuing the two degrees independently. There are 18-34 credit hours in the M.S.N. (normally 36-40) and 39-45 credit hours in the M.B.A. (normally 54). This program includes 34 credit hours of core courses, 6-10 hours of practicum experience, 5-11 hours of theory and research, 9 hours of executive and international courses, and 9 hours of integration and capstone courses. By taking three courses per semester, the dual-degree program can be completed within two years full-time, or at two courses per semester, within three and one-half years on a part-time basis. Student learning needs and previous coursework may create individual variation in the dual-degree curriculum.

Master of Library and Information Science/Master of Business Administration

At 69 credit hours for the dual degree, students save 26-27 credit hours by not taking the two master's degrees independently.

The M.L.I.S.-M.B.A. dual-degree curriculum includes 30 hours of M.B.A. coursework, 27 hours of Library Science courses and 12 hours from either business or library science.

Master of Architecture/Master of Business Administration

Students in the M.Arch./M.B.A. dual degree program must earn at least a total of 74 credit hours, 35 from the M.Arch. program and 39 from the M.B.A. program.

* ST course in Professional Practice

Actual offerings and schedules vary from year to year and CAED and GSM will jointly provide a pre-approved recommended course of study. Students who wish to take a different course of study need to obtain separate approvals from CAED and GSM graduate coordinators. Contact the CAED graduate secretary for details on coursework registration.

Master of Arts in Translation/Master of Business Administration

Students in the M.A. Translation and M.B.A. dual degree program must earn a total of 70-73 credit hours. There is a minimum requirement of 33 credit hours from the M.B.A. program and the M.A. in Translation requires from 25-28 credit hours. An additional 12 hours may be chosen from Business Administration or Translation. A minimum GPA of 3.0 must be maintained.

Preservation Architecture Certificate (Post Bachelor's)

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of Architecture and Environmental Design > Certificates > Preservation Architecture (Post Bachelor's)

The program leading to the graduate Certificate in Preservation Architecture (C.P.A. 16) is an opportunity for architecture students and graduates, as well as professionals interested in continuing education, to acquire specialized knowledge and skills in the area of Preservation Architecture. The curriculum focuses on specific foundation knowledge in preservation, with particular regard to methodology, assessment criteria, preservation techniques and legislation.

The program is normally offered entirely in Florence, Italy, through the college's International Studies Program during one semester (fall or spring) or an intensive summer term. Being based in Florence and required to take various field trips, the students have an opportunity of being exposed to important examples of building and urban preservation in Italy and in other European countries.

CERTIFICATE REQUIREMENTS (11-18 credits)

Urban Design Certificate (Post Bachelor's)

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of Architecture and Environmental Design > Certificates > Urban Design (Post Bachelor's)

The college offers a graduate Certificate in Urban Design (C.U.D.) as an opportunity for architecture students and graduates, as well as professionals interested in continuing education, to acquire specialized knowledge and skills in the area of urban design. Consistent with the mission of the Cleveland Urban Design Collaborative, whose facility in downtown Cleveland hosts the program, the thrust of the program lies primarily in the "participatory approach" to design and planning. Lecture courses and seminars focus on urban social and cultural issues, while the design workshops and studios develop strategies and solutions for specific urban areas and neighborhoods. Interaction with local communities is also part of the program. Due to its flexibility, short duration and broad range of elective courses, the program is particularly suitable for part-time students with work experience and clearly defined professional interests.

Student must fulfill the following requirements to obtain a graduate certificate in Urban Design:

- Cumulative GPA of 2.75 on a 4.0 scale
- GRE score
- Goal statement which includes intent and background information
- Official transcripts from each college or university previously attended
- 3 letters of recommendation; one must be from a non-academic source
- Curriculum Vitae
- Portfolio

CERTIFICATE REQUIREMENTS (16 credits)

Course	Title	Credits
UD 55705	Forces That Shape Cities	3
55710	Design Methodology and Methods	1
55711	Case Studies in Urban Design	1
60702	Urban Design Studio II	3
60703	Urban Design Studio III (3-6)	3
Electives*		5
TOTAL		16

*These credits may be taken from the CAED offerings, or from other KSU department or from the offerings at the Levin College of Urban Affairs at Cleveland State University.

To register for either studio, students enrolled in this program need to have successfully completed the required coursework for UD 55705 and UD 55710 or UD 55711. Actual offerings and schedules may vary from year to year, and students are encouraged to register in the college's preapproved Recommended Course of Study. Alternative courses of study are permitted, with approval from the college's Graduate Studies Committee, before registration. Students should contact the college's graduate secretary for details on registration for coursework.

<http://www.kent.edu/artscollege>

Introduction

The College of the Arts is built on the belief that the arts are central to contemporary culture. They offer unique ways of knowing, forms of knowledge, areas of experience and means of communication. Our students gain breadth in understanding human experience through an exploration of the history and meaning of the arts. In addition, they gain depth by creating and conducting research and promoting art, music, theatre, dance and fashion. Intensive interactions in studio settings characterize much of their learning environment as does regular outreach to the larger community through exhibition, performance and other forms of presentation of student and faculty work.

The college comprises four schools: Art; Fashion Design and Merchandising; Music; and Theatre and Dance. The college also administers the Kent/Blossom festivals offering advanced summer study in art, music and theatre in cooperation with Blossom Music Center, summer home of The Cleveland Orchestra. The university owns and operates [Porthouse Theatre](#) and [Fells Art Gallery](#) at [Blossom Music Center](#), located 20 minutes from the Kent Campus.

The [Kent State University Museum](#) in Rockwell Hall maintains an extraordinary collection of 10,000 costumes and accessories, 1,000 pieces of decorative art and a 5,000-volume reference library. Closely allied with the Shannon Rodgers and Jerry Silverman School of Fashion Design and Merchandising, the museum provides students first-hand experience with historic and contemporary fashions and costumes from many world cultures.

Degrees

The college awards four undergraduate degrees: Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Music and Bachelor of Science. Master's degree programs are available in three disciplines, including the Master of Arts, Master of Fine Arts and Master of Music: Art (M.A.; M.F.A.), Music (M.A.; M.M.) and Theatre (M.A.; M.F.A.). The Doctor of Philosophy is offered in one discipline: Music (Ph.D.).

Students who wish to support their specialized and professional studies with an extensive foundation in the liberal arts are encouraged to earn the Bachelor of Arts (B.A.). This degree is available to students in art, fashion design and merchandising, music and theatre. For a description of programs leading to this degree see the individual school sections of this Catalog.

Students specializing in art, theatre or dance may earn the Bachelor of Fine Arts (B.F.A.). Programs leading to this degree provide a more intensive specialization than those for the Bachelor of Arts while still providing a solid foundation in the liberal arts. For a description of programs leading to this degree see School of Art and School of Theatre and Dance sections of this Catalog.

The Bachelor of Music (B.M.) curriculum in performance, composition and theory provides the most intensive specialization for music students while still providing a solid foundation in the liberal arts. Those interested in college or conservatory teaching are specifically advised to pursue this degree.

The curriculum for the B.M. in music education leads to Ohio licensure in music. Students expecting to teach music in the public schools, grades one to 12, pursue this degree in music education. See the Bachelor of Music program requirements of this Catalog.

The college offers the Bachelor of Science (B.S.) in Fashion Design and Merchandising. In general, programs for the Bachelor of Science provide for more specialization than those for the Bachelor of Arts, while still providing a solid foundation in the liberal arts. For the complete curriculum, see the the individual school section of this Catalog.

Information regarding individual graduate programs is provided on the degree pages. Prospective students may obtain more

information and admission applications by contacting the individual schools. Application for admission is made online at <http://www.kent.edu/academics/graduatestudies/>. General admission requirements are listed in the "policy" section of this Catalog. There also may be additional requirements for certain programs; please consult individual school sections in this catalog. Persons seeking information on graduate non-degree status or graduate certificate programs should consult the Division of Graduate Studies, Office of Graduate Program Services, 330-672-2661.

Teacher Preparation

Students who wish to teach in the public schools may be licensed in the state of Ohio by enrolling in certain programs in the College of the Arts and declaring a minor in education. Art education, dance education and music education are areas in which students may seek licensure to teach students ages three to 21.

SPECIAL NOTICE

In order to enroll in upper-division professional education coursework, students seeking licensure must be admitted to the education minor in the College of Education, Health, and Human Services. Refer to the College of Education, Health, and Human Services section of this Catalog for specific information about this process.

School of Art

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of the Arts > [School of Art](#)

The mission of the School of Art is to provide comprehensive, superior, professionally oriented education in the study and practice of the visual arts that will complement university studies in the liberal arts, humanities and sciences. In support of this mission, the School of Art is committed to liberal education as a necessary ground and complement to the development of perception, intellect, imagination and skill in the visual arts; to knowledge of the history of the visual arts as a basis for aesthetic sensibility and personal expression; to the development of skill in the use of traditional and experimental media; to the practice and communication of the unity of form, meaning and value in art, craft and design; and to excellence in curricula and instruction.

The School of Art is composed of four undergraduate divisions: art education, art history, crafts and fine arts. Graduate degree programs are offered in those same divisions.

The Admissions Office will process all applications with respect to the general qualifications for admission to the university for new freshmen and transfer students.

The School of Art recognizes that competence in the visual arts as well as intellectual capacity are necessary qualities in students who plan to prepare for a career in one of the art fields. Therefore, it may require evidence of achievement in art and related areas from any students endeavoring to enroll for the first time as majors in the school. To receive a baccalaureate degree from the School of Art, a student must, in addition to other requirements, satisfy the 36-hour minimum stipulated in the [Kent Core](#).

Transfer Students

Transfer students with more than two fine art or crafts courses should submit a portfolio of work for proper placement. The director of the School of Art may impose additional requirements considered reasonable and necessary. Transfer credits are evaluated consistent with the state Transfer Articulation Guidelines (TAGs), although each student will be evaluated individually in terms of his or her ability to perform within the program. Transfer students should make every effort to complete admission requirements before the deadlines listed under Entering the University within the front section of this Catalog, and to see an advisor in the School of Art for an evaluation of the portfolio and for schedule planning before registration.

Students are permitted to double major in more than one division of the School of Art or complete more than one concentration in the same division.

1. Students enrolling in more than one major within the school must complete all course requirements in each major. If the two majors represent different degree programs, a minimum of 140 hours must be completed.
2. Students enrolling in a double concentration within a B.F.A. program must complete at least 12 upper-division hours in each concentration within the fine arts program and at least 12 upper-division hours in each concentration within the crafts program. In addition, all reviews must be passed and a senior project must be completed in each concentration.
3. B.F.A. Fine Arts students pursuing the interdisciplinary concentration must take nine hours in each of two disciplines within the program plus nine other hours chosen as desired within the fine arts.

The School of Art does not offer a double major in the B.A. programs in crafts or in fine arts. A student taking a second major in art history must complete the language requirement. The program requirements for a double major must be approved in advance in writing by either the director or the division coordinator and become a part of the student's permanent file.

Exhibitions

Students enrolled in a B.F.A. or B.A. program in fine arts, and in the B.A. in art education, must receive a rating of "satisfactory" on selected works exhibited during their portfolio review.

The Kent State University School of Art is an accredited institutional member of the [National Association of Schools of Art and Design](#).

Writing-Intensive Course Requirement

Refer to this Catalog for specific information on the [writing-intensive course](#) requirement.

Graduate Study

The School of Art offers graduate study leading to the Master of Arts and Master of Fine Arts degrees. Master of Arts programs are offered in art education, art history, and the studio areas of ceramics, drawing/painting, glass, jewelry/metals/enamels, printmaking, sculpture, and textile arts. These programs vary from 32 to 35 hours in length. The Master of Fine Arts degree program is offered in the studio areas listed above and requires 60 hours of coursework. The School of Art is accredited by the National Association of

Schools of Art and Design.

Special Programs

Each year, the School of Art conducts special programs that are available for graduate credit. The special programs include the Kent/Blossom Art Program in crafts and fine arts, as well as varied travel study programs in studio, art history, and art education. Visit the School of Art's [website](#) for more information.

■ [The Shannon Rodgers and Jerry Silverman School of Fashion Design and Merchandising](#)

[Kent State University Catalog 2010 - 2011](#) > [Colleges and Programs](#) > [College of the Arts](#) > [The Shannon Rodgers and Jerry Silverman School of Fashion Design and Merchandising](#)

Founded in 1983, the Shannon Rodgers and Jerry Silverman School of Fashion Design and Merchandising has received widespread support from the fashion industry, corporations and the public. Kent State initiated baccalaureate studies in fashion merchandising in 1971 and in fashion design in 1982.

The school offers four-year baccalaureate programs leading to Bachelor of Arts and Bachelor of Science degrees. The curricula combine professional preparation in fashion design and merchandising with a foundation in the liberal arts and business. Course offerings are regularly supplemented by lectures and seminars, visiting fashion professionals, study tours throughout the United States and abroad and internships in the fashion industry.

Students are encouraged to participate in school governance and develop leadership skills through involvement in student organizations.

Admission to the Fashion Merchandising Program

Admission to the major is selective. Freshman applicants must have a minimum high school GPA of 2.75 in a college preparatory curriculum and a composite ACT score of no less than 21 or SAT combined score of no less than 980. Students with a 3.0 or higher GPA whose ACT or combined SAT score does not meet the minimum may be considered for admission.

Postundergraduate students or transfer students with a cumulative GPA of 2.50 based on 24 or more semester hours from an accredited institution may be considered for admittance to the program. Transfer students meeting the GPA requirements with less than 24 semester hours will be evaluated as new freshmen. Transfer and postundergraduate students should contact the school office once they receive a credit evaluation from the Admissions Office.

Those applying to fashion merchandising and fashion design who do not have the appropriate academic credentials or fashion design applicants who have not yet had their skills assessment evaluated are admitted to the Fashion Design and Merchandising Preparatory category (PFDM) and may remain in that category for two semesters.

Students currently enrolled at Kent State University may be considered for change of major. Approval is based on a minimum of 12 credit hours completed with a 2.50 cumulative GPA excluding developmental courses. Students should schedule an appointment with the school before applying. Freshmen and transfer students who do not meet minimum requirements for admission to the school may be admitted to the fashion preparatory category (PFDM) and should remain in that category for no more than two semesters.

Admission to the Fashion Design Program

All students wishing to be admitted to fashion design must submit a skills assessment, described on the school Web site (www.fashionschool.kent.edu).

Minimum Requirements:

Incoming freshmen minimum criteria for acceptance:

- High School GPA of 2.75
- ACT 21 or SAT 980

Transfer students minimum criteria for acceptance:

- 24 nonremedial semester hours of coursework with a cumulative GPA of 2.50
- Change of major students minimum criteria for acceptance.
- 12 nonremedial semester hours of coursework at Kent State University with a GPA of 2.50
- Students with a 3.0 or higher GPA whose ACT or combined SAT score does not meet the minimum may be considered for admission.

Admissions Procedure:

The school admits students on a rolling basis corresponding with the University's Admission calendar. Concurrently with the submission of the application for admission to the University, students interested in the fashion design major should submit the skills

assessment as indicated in the instructions accompanying the assignment (see the school Web site www.fashionschool.kent.edu). Do not send any information other than what is required in the skills assessment. To keep the review process fair, letters of recommendation or additional artwork submitted will not be considered as a basis for admission to the fashion design program.

Based upon academic criteria and skills assessment evaluation, 90 students are selected for admission to the program in the fall semester.

Notes:

- Students who do not meet the academic criteria will not be accepted to the fashion design major; however, they may be admitted to the University as fashion preparatory majors (PFDM). They may submit the skills assessment at any time, and it will be held for one year.
- Students who do not meet the academic criteria may initiate the process for declaring the fashion design major after completing at least 12 hours of nondevelopmental coursework at Kent State University with a minimum cumulative GPA of 2.50.
- Students who are not admitted based on evaluation of the skills assessment may be admitted to Kent State University as fashion preparatory majors (PFDM) and may resubmit the skills assessment the following year for consideration.
- Courses for fashion design begin in the fall of each academic year, and the curriculum requires eight semesters of study; therefore, students admitted to the fashion design program can expect at least four years of study from the time they begin the coursework in their major.

Selection of a Concentration

- Upon acceptance into the Fashion Design Program, students will be admitted under the classification of "Fashion Design," with no selection of a concentration.
- First-year fashion design majors must enroll in FDM 10140 Foundations of Fashion Drawing during the spring semester.
- During the spring semester, the fashion design faculty teaching FDM 10140 Foundations of Fashion Drawing will meet with students to advise them on which concentration they should pursue in the subsequent fall semester. This meeting will be completed in a time frame that allows students sufficient time to register for the appropriate courses in the fall semester.

Combined Baccalaureate/Master's program

Fashion merchandising majors who qualify may enroll in the combined Bachelor of Science in Fashion Merchandising/Master's of Business Administration program and complete both degrees within five years. Careful planning and advising are needed in order to successfully complete the programs in a timely way. Students should work closely with their faculty advisor if they intend to follow this plan.

In the freshman year, the math choice should be MATH 11012 or MATH 12002. When the student has achieved 90 hours or more in the merchandising program (beginning of the junior year) and has a GPA of 3.30 or higher, he or she should apply for conditional admission to the M.B.A. program. This application must occur no later than April 1 of the junior year. The GMAT exam must be completed with an appropriately high score at the time application is made. Students accepted into the program may use 12 hours chosen from the following courses to meet both support core requirements in their undergraduate program and program requirements within the M.B.A.:

BAD 63037 Financial Accounting (in lieu of ACCT 23020)
BAD 63038 Accounting for Managerial Action and Evaluation
BAD 64042 Management Information Systems

Two of the following (the one not taken will be taken later):

- BAD 66061 Financial Management I
- BAD 64271 Human Resource Management
- BAD 64005 Statistics for Management

The international elective required in the M.B.A. program may be waived if the FDM student has participated in the Hong Kong or Florence fashion experiences. The M.B.A. internship may be waived if the FDM student has done a business-related fashion internship. Thirty-three hours of M.B.A. coursework is required after the completion of the undergraduate degree in fashion merchandising.

■ The Hugh A. Glauser School of Music

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of the Arts > [The Hugh A. Glauser School of Music](#)

The purpose of the Kent State University Hugh A. Glauser School of Music is to provide quality music instruction for students who wish to pursue music as a career and for those who wish to enrich their lives through noncareer-oriented study and/or performance. The School of Music is committed to conducting and promoting scholarly research and creative musical inquiry and activity. The school contributes to the cultural vitality of the university and community through the presentation of diverse musical programs.

The following undergraduate degrees are available to students who wish to major in music: Bachelor of Music as a music major (concentrations in performance, theory, composition), a music education major (concentrations in choral/general music or instrumental music), Bachelor of Arts and Bachelor of Science in Music Technology. The following graduate degrees are available to graduate students who wish to major in music: Master of Arts, Master of Music and Doctor of Philosophy. See the graduate study section below.

In addition to meeting all general university admissions requirements, students who wish to major in music must meet specific School of Music entrance requirements. Information is available from the School of Music Office, E-101 Music and Speech Building, 330-672-2172.

The School of Music is also the home of [Kent/Blossom Music](#), a summer professional training festival, co-sponsored by Kent State University and The Cleveland Orchestra. Each summer students are selected by national audition to engage in intensive study on the Kent Campus with some of the world's most famous performers and teachers.

The Hugh A. Glauser School of Music is accredited by the National Association of Schools of Music.

Financial Assistance Available to Music Students

Music majors are eligible for scholarships and other forms of financial assistance from a variety of sources. Specific information may be obtained by contacting the School of Music.

Dual Degree/Double Major

For general policies governing dual degree see the [Dual Degree/Double Major Requirements](#) page of this Catalog. The double major is available within the Bachelor of Music under certain circumstances.

Music majors may elect a double major within the Bachelor of Music requirements from the following: performance in piano, voice, instrumental; music education; theory; composition. Special approval of the second major must be granted by the faculty of the chosen area and the director of the School of Music.

The choice of dual degrees, Bachelor of Arts in Music and the Bachelor of Music, is not permitted. However, either degree in music may be combined with any other bachelor's degree program at Kent State University.

School of Music Undergraduate Professional Standards

I. **Ensemble Requirements**

Ensemble participation is an integral part of every music major's program. All music majors must enroll for credit and participate in a major ensemble appropriate to their major performance area each semester the students are registered full time. (Music education majors are exempt during the semester in which student teaching is elected.) NOTE: Guitar and keyboard majors should consider vocal ensembles as their major performance area except as noted below.

Major Instrumental Ensembles: MUS 45212 Orchestra, MUS 45221 Concert Band and MUS 45223 Wind Ensemble.

Major Vocal Ensembles: MUS 45111 University Choir, MUS 45121 Kent Chorus, MUS 45141 Kent State University Chorale, MUS 45142 Men's Chorus and MUS 45143 Women's Chorus.

The above applies to all majors except students enrolled in either the B.M. in piano performance or the B.A. with guitar as the principal instrument. Piano performance majors satisfy the eight-semester ensemble requirement as follows: 4 credit hours of MUS 45321 Accompanying, 2 credit hours of MUS 45311 Chamber Music and minimum 2 credit hours selected from chamber music or a major vocal or instrumental ensemble. B.A. guitar majors satisfy the eight-semester ensemble requirement as follows: 6 credit hours of MUS 45311 Chamber Music and minimum 2 credit hours selected from a major vocal or instrumental ensemble. B.S. in music technology majors satisfy the eight-semester ensemble requirement as follows: 2 credit hours

selected from a major vocal or instrumental ensemble; 6 credit hours of MUS 35213 Studio Ensemble or 4 credit hours of MUS 35213 Studio Ensemble and 2 credit hours of ensembles chosen from MUS 45231 Jazz Ensemble, MUS 45311 Chamber Music (guitar majors only), or major ensembles.

Wind and percussion majors in music education must elect one semester of MUS 45222 Marching Band, normally during the freshman year, in addition to the requirements above. Students who plan to teach music at the junior/senior high school level are encouraged to elect more than one semester of marching band.

Music minors in the College of the Arts must participate in a major ensemble for a minimum of two semesters.

II. **Recital Attendance**

Required recital attendance is intended to enhance the musical perspective of all music majors and to give them exposure to a sampling of various genres and performing media. Each undergraduate music major is required to attend a minimum four-year total of 84 concerts or recitals. Attendance at an average of 10-12 School of Music concerts per semester is recommended. Students will be notified of their status in regard to this policy once per semester. Appropriate information for all students will be sent to the college office prior to graduation. Further information is available in the School of Music Office. Transfer students must attend a minimum of 10 recitals per semester.

III. **Applied Music Requirement**

- i. *36000-Level Requirements:* All freshmen enter at the 36000 level of applied study. Four semesters of enrollment are required in the number of applied credit hours as prescribed by the declared major. A jury is performed at the end of each semester. At entrance all students are informed of the performance standards necessary to advance to the 46000 level as determined by the faculty of each applied area. Transfer students with a minimum of four semesters of applied study (or equivalent) may enter at the 46000 level as determined by the entrance audition.
- ii. *46000-Level Evaluation:* At the end of the fourth semester of applied music study at the 36000 level, students in the Bachelor of Music degree program will be evaluated during juries to determine if they meet the 46000-level entrance standard. The results of the 46000-level entry evaluation are:
 - i. Pass to the 46000 level.
 - ii. *Probation for one semester:* The students will register at the 46000 level and retake the upper-level entrance jury at the end of the probationary semester. If the 46000 entrance standard is not achieved, the students return to the 36000 level, repeating as needed.
 - iii. *Failure to pass the entry-level evaluation:* The students remain at the 36000 level of applied study until the 46000 entry standard is met.
- iv. Required Accumulation of 46000-Level Applied Credits
 - i. *Performance Majors:* four semesters (16 credit hours)
 - ii. *Education Majors:* three semesters (6 credit hours)
 - iii. All other music majors must pass the 46000-level entry evaluation prior to graduation. All students must play a jury every semester except the semester of the senior recital and any other major solo performance deemed appropriate by the area.
- vi. 46000-Level Outcome Assessment/Recital
 - i. *Performance Requirement:* All Bachelor of Music performance degree candidates (piano, voice, instrumental) must perform both a one-half junior and a full senior recital; all other Bachelor of Music majors (music theory, composition, music education) must perform a half recital. Students who do not pass the recital must repeat 46000-level lessons until the recital is acceptable. Music theory and composition students may fulfill the one-half recital requirement in several ways: applied performance, performance/lecture, performance of original compositions or any combination of these. Although not required, Bachelor of Arts-Music degree candidates may perform a half or full senior recital based on the recommendation of the prehearing panel. Specific procedures and requirements are available in the School of Music Office.
- viii. Applied Music Requirements for the B.S. in Music Technology
 - i. Music technology majors are required to complete a total of six semesters (12 credit hours) of applied music. A jury is performed at the end of each semester of study. For the first two semesters (4 credit hours) students are required to register for the 36000-level of applied music on the major instrument or voice. The faculty of each applied area will inform the students of the performance standards expected as an outcome of the first two semesters of study. Having completed these 4 credit hours of 36000-level applied music with a grade of C or above, and having met the performance standards through successfully performed juries at the end of both semesters, music technology majors may take MUS 36913 Applied Studio Musicianship to complete the remaining 4 semesters (8 credit hours) of applied study. At the end of the last required semester of applied study, performance level will be evaluated through jury performance. Although not required, Bachelor of Science in music technology degree candidates may perform a half or full recital, or performance of original compositions, on the recommendation of a prehearing panel. Students who choose to complete all required six semesters of applied music through the 36000/46000 Applied Music series in place of MUS 36913 will be required to follow the performance standards guidelines and requirements for applied music established for the Bachelor of Arts-Music degree.

V. **Advanced Standing Admission Requirements**

All music majors must fulfill certain requirements to enter appropriate advanced standing (upper-division coursework) in the School of Music. These requirements are as follows:

- i. *Performance Concentration:* All students must meet the requirements for admission to 46000-level applied study as stated above.
- ii. *Composition Concentration:* Students interested in the concentration are initially enrolled in the Bachelor of Arts degree program after passing an audition on their main instrument. The composition faculty will evaluate each student's work during the semester in which MUS 21122 Music Theory is taken to determine if the student should continue to pursue the concentration. A 3.00 GPA is required in music theory classes. A skills test and composition portfolio are required. Specific information may be obtained from the coordinator of theory and composition. Composition majors fulfill general requirements in music during the first two years of study.
- iii. *Music Education Concentration:* Music education majors must apply for admission into the education minor program in the College of Education, Health, and Human Services during the first year. Music education majors must also pass the sophomore achievement examination in the music education division. Specific information may be obtained from the coordinator of music education.
- iv. *Music Technology Majors:* Acceptance into music technology courses at the 30000 level and above is based on the evaluation of the student's personal portfolio containing their projects from MUS 21113, 21114, 21221 and 21222. The portfolio will be evaluated by the music technology faculty.

VII. **Writing-Intensive Course Requirements**

Information on the [writing-intensive](#) course requirement.

VIII. **Diversity Requirement**

All students must complete a two-course [diversity requirement](#) as described in this Catalog.

IX. **Grade Standard**

Music majors and minors must earn the grade of C- minus (1.70) or better in all music courses in order to count them toward graduation and to meet prerequisites for subsequent courses. Music courses required to meet the Writing Intensive Course requirement or within the education minor must be passed with a C (2.0) or better.

X. **Outcomes Assessment**

To graduate from Kent State University with the degree B.M. or B.A. in music, it is required that students take a major field achievement test in music history and music theory during the spring semester of their senior year. Specific score level achievement is not required. Music minors are not required to take this music exam. Specific information regarding test dates may be obtained from the Music Office, E101 Music and Speech Center. The Praxis II exam is required of all music education students.

To graduate from Kent State University with the B.S. in music technology, students must have successfully completed a music technology internship through an evaluation by the supervisor and music technology faculty advisor, and students must have completed a senior portfolio for music production and audio production at the completion of all required music technology courses. The portfolio must pass an evaluation by the music technology faculty, and by external experts.

Graduate Study

Graduate programs in music lead to the degrees Master of Arts, Master of Music or Doctor of Philosophy, all of which are accredited by the National Association of Schools of Music. Master of Arts degree majors are available in music composition, ethnomusicology, musicology and music theory. Master of Music majors are available in performance, conducting and music education. Doctor of Philosophy majors are available in music education, musicology-ethnomusicology and music theory-composition.

Entrance (Diagnostic) Examinations

All entering master's and doctoral students take entrance(diagnostic) examinations in music theory and in music history prior to first enrollment. Based upon the examination results, the student may be required to take certain courses as a part of his/her program if shown to be deficient in a particular area. Students with an extensive background in a specific area may not be required to take any courses. Students with a generally good background may be required to take one or two graduate courses in one area. Students who are not fully prepared for graduate-level work in any area may be required to take the appropriate undergraduate practicum course (MUS41111 or 42211) in addition to one or two graduate courses. Graduate courses required as a result of the diagnostic examinations will be considered electives within the degree program except where required as part of the major program. If the number of hours required exceeds the number of elective hours in the program, this will result in a larger number of required hours than the minimum numbers listed below.

Master of Arts and Master of Music

Program Requirements

Each student will be accepted as a major in a specific curricular area. It may be necessary for the student to complete Kent State University requirements for the appropriate undergraduate degree. A program of study leading to the master's degree should be planned in consultation with the advisor. Students pursuing the Master of Music may select one of the following options: a thesis option, an essay and recital option, a two-recital option, or a coursework option depending on their major. The Master of Arts program requires a thesis.

Secondary Applied Music

Election of secondary instruments or secondary voice requires an audition and approval of the appropriate applied division.

Ensemble

A maximum of two ensemble credit hours may be applied toward degree requirements. Students must petition the Graduate Studies Committee to count additional ensemble hours toward degree requirements. Piano performance majors may satisfy the ensemble requirement with MUS 55311 and/or MUS 55321. Music ensembles are open to all qualified university students upon satisfactory audition. Membership in music organizations is not limited to music majors and minors. All master's students are required to participate in an ensemble for two semesters. One summer session is considered equivalent to one semester.

Research Tool Requirement

Candidates for the Master of Arts degree program in musicology or ethnomusicology must demonstrate a reading knowledge of one foreign language, normally German or French. With the approval of the advisor and the graduate studies committee, other languages may be substituted, especially for the student in ethnomusicology. Credit hours earned in meeting this requirement are not applicable toward the credit-hour requirement in the degree program.

Final Oral Examination

All students writing a thesis or essay must pass a final oral examination covering the thesis or essay and the student's major area of study. A student electing the two-recital option must pass a final oral examination covering literature performed in recitals and the student's areas of performance and study in the degree. Those completing a coursework option must pass a final oral examination covering all of the coursework in the master's degree program. The final oral examination may be attempted two times.

Workshop Credit

A maximum of 4 semester hours of workshop credit may be applied to certain graduate degrees. The hours must pertain to the degree emphasis. Workshop credit with grades of A or B may be transferred into a degree program.

As one of Ohio's top universities, Kent State offers the resources and facilities of a large university with the friendly, casual atmosphere of a liberal arts college. School of Theatre and Dance

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of the Arts > [School of Theatre and Dance](#)

The School of Theatre and Dance provides students with liberal and professional education preparing them for careers in the performing arts as artists, scholars and educators. The school's production season serves as the primary laboratory for the development of student artistic expression and technique. As performing arts, theatre and dance reflect and communicate cultural values and identities intrinsic to human existence. As such, the study of theatre and dance is central to the humanities curriculum.

To achieve these objectives, the School of Theatre and Dance offers comprehensive programs leading to the Bachelor of Arts (theatre), Bachelor of Fine Arts in Dance (performance and dance education), Bachelor of Fine Arts in Theatre (design and technology and musical theatre), Master of Arts and Master of Fine Arts degrees. The MA and MFA programs are described in the Graduate Schools Catalog. Minors also are offered in theatre and in dance. These programs are designed to provide basic and advanced training for teachers, scholars, directors, actors, dancers, choreographers, technicians and designers; managers in professional, educational and community theatre; and in allied fields of the performing arts (cinema, dance, music, etc.).

The B.A. in theatre studies is designed for students who seek a liberal arts approach to their undergraduate theatre education and does not require an audition for admittance. The curriculum emphasizes all aspects of theatre and their interactions with other areas of study. Students in both the B.A. and B.F.A. in theatre studies are expected both to develop theatre skills and to analyze the relationship of these skills to theatre and theatre to the world.

The B.F.A. degree is designed for students who wish to specialize in a specific area of theatre or dance (design and technology, musical theatre, dance performance or dance education) and requires successful completion of auditions. Students declaring a theatre major who have not successfully passed the audition(s) will be enrolled in the B.A. program. This program requires the demonstration of competency in the chosen specialty, both in auditions or portfolio reviews and via yearly evaluations. The B.F.A. candidate is expected to develop theatre and/or dance and performance skills equal to entry-level positions in the profession or as expected for admission into M.F.A. programs.

Entrance to the B.F.A. program is based on rigorous auditions or theatre design portfolio. Students who pass this audition or portfolio review will be invited to enroll in the B.F.A. program upon beginning classes at Kent State. All B.F.A. students are required to be evaluated on a yearly basis through performances, portfolio reviews, contributions to the production season and academic achievement. The B.F.A. in musical theatre is an interdisciplinary program offered with the Dance Division of the School of Theatre and Dance and the School of Music. Application to the B.F.A. in musical theatre requires an audition in each of the three performance areas: dance, music and theatre. The students must display talent and training potential in all areas to be admitted to the program. Students who pass the musical theatre audition will be admitted directly into the B.F.A. program at the beginning of their freshman year. Students who pass the Dance Division auditions are also admitted directly into the B.F.A. program at the beginning of their freshman year.

Students in all B.F.A. program areas may be dropped from the program for failure to maintain a 2.50 GPA (B.F.A. students should strive to maintain a 3.00 overall GPA).

B.F.A. musical theatre students must pass yearly auditions; B.F.A. design/technology students must pass yearly portfolio reviews. Students will be dropped from the B.F.A. program for failure of audition or portfolio review. Students on academic probation may not participate in any School of Theatre and Dance productions. All B.F.A. musical theatre majors are expected to audition for all mainstage theatre productions and accept roles if cast. All B.F.A. design/technology majors are expected to participate in at least one mainstage production per semester (this may be in addition to any production design assignment).

Scholarship and Awards

Scholarships and awards available through the School of Theatre and Dance include the L. LeRoy Cowperthwaite Fund, Eugenia V. Erdmann Award, G. Harry Wright Scholarship Award, the Marsha Levinson Award, the School of Theatre and Dance Award, and the Michael Mould Scholarship Award. Faculty nominate students for these awards each spring.

Incoming freshmen may also compete for Creative Artist Awards (CAA) that are given through the Honors College and are renewable for four years. Requirements include a high school GPA of at least 3.30 and either an ACT score of 23 or higher or SAT scores of at least 1060. Successful completion of an audition in the students' chosen area is also required.

Graduate Study

The School of Theatre and Dance offers programs of graduate study leading to the Master of Arts degree or the Master of Fine Arts

degree. It also provides graduate coursework in theatre for graduate students in other disciplines of the university when it is required or elected as part of their programs.

The Master of Arts program offers the student advanced work in theatre that will represent mastery of the field in general and of a specific area of theatre as well. In addition, the research writing skills stressed in this track are intended to prepare the student, who so elects, to define and pursue a terminal degree.

The Master of Fine Arts, normally a three-year course of study, is offered in acting and in design/technology (with concentrations in costume design, scenic design, lighting design and in costume technology and technical direction). The acting concentration includes a returning professional's track in which students can receive credit for professional work previously completed as fulfillment of Kent State University course requirements (substitutions require course enrollment for credit). The M.F.A. is a terminal degree designed for those who intend to pursue a career in the profession as a creative artist or theatre technologist.

The School of Theatre and Dance offers a limited number of graduate assistantships for both full-time Master of Arts and Master of Fine Arts students. Graduate assistantships usually provide a tuition waiver and a stipend and require a minimum of 20 hours of service to the School of Theatre and Dance in the form of instruction, supervision of labs or work in a specific area (management, scene shop, costume shop). Students interested in a graduate assistantship must apply to the School of Theatre and Dance in writing. To be continued on a graduate assistantship, students must maintain a minimum 3.0 GPA, pass periodic review by the Graduate Studies Committee and (if M.F.A. students) regular performance or portfolio review, and show satisfactory progress toward the degree. Students are notified at the time of these reviews of the awarding or continuation of a graduate assistantship. An M.A. student may hold an assistantship for a maximum of two academic years (excluding summers) and an M.F.A. student may hold an assistantship for a maximum of three academic years (excluding summers and off-campus internships).

For further information on either the Master of Arts degree or the Master of Fine Arts degree, please contact the School of Theatre and Dance or visit the school's Web site at <http://www.theatre.kent.edu/>.

Master of Arts

Admission

All Master of Arts applicants for graduate study should comply with the conditions for admission as set forth in the general section of this catalog. Of the three letters of recommendation required in the application for graduate study, at least two should come from former professors or others competent to evaluate research or scholarly writing skills. The application must be accompanied by a brief statement (no more than two double-spaced pages) summarizing the student's background and career goals. Students are required to submit an example of historical or critical writing (such as a documented research paper). Applicants for the Master of Arts must achieve and submit appropriate scores on the Graduate Record Examination.

Students are expected to have the equivalent of an undergraduate curriculum in theatre consisting of at least 12 semester hours in theatre history and dramatic literature and basic courses in acting, directing, design and technical theatre. An idea of the level of background expected may be derived from the Kent State University undergraduate catalog and from course syllabi in these areas of theatre. Applicants who do not possess the equivalent of this curriculum may be required to complete specified undergraduate coursework for no credit in addition to the master's degree curricular requirements.

Program Requirements

Curricular advising will be provided by the coordinator of graduate studies or area head prior to first enrollment. Unless they have successfully completed an equivalent course, Master of Arts students must take Introduction to Graduate Study (THEA 61000) during their first semester. Program requirements for the two-year program may be completed via one of the following options, which the student will elect in consultation with an advisor, chosen during the first semester in residence:

- Option 1. Thesis. Requires a minimum of 32 hours of graduate coursework, consisting of THEA 61000, at least five courses from among our graduate offerings in theatre history, drama, theory and criticism (to include THEA 51110, 51133, 51134, 61110 and 61111), courses in other departments that support and enrich the area of specialty, and 6 hours of Thesis I (THEA 61199). Continuous enrollment in Thesis II (THEA 61299), including summer, is required until the thesis is successfully defended (maximum time: six calendar years from first enrollment). A description of the thesis process may be obtained from the school. The thesis is deposited in the college office and archived, and follows regulations described in the College of The Arts Style Guide.
- Option 2. Non-thesis Paper. Requires a minimum of 36 hours of graduate coursework consisting of THEA 61000, at least five courses from among our graduate offerings in theatre history, drama, theory and criticism (to include THEA 51133, 51134, 61001, 61110 and 61111), courses in other departments that support and enrich the area of specialty, 9 hours in a specified research area (at least 3 hours of these courses must be at the 60000 level), and 3 hours of Research (THEA 61098). A description of the nonthesis paper process may be obtained from the school.

Master of Fine Arts

Admission

All Master of Fine Arts applicants for graduate study should comply with the conditions for admission as set forth in the general section of this bulletin and in the application form. Applicants whose undergraduate grade point average is below 3.0 are not normally accepted for graduate study. Those seeking exception to this rule must submit scores on the Graduate Record Examination and other evidence of high academic potential. Of the three letters of recommendation required in the application for graduate study, at least two should come from former professors or others competent to evaluate productions and academic skills.

In addition to meeting the general university requirements for admission to graduate study, the applicant must meet one of the following two requirements in undergraduate preparation: a baccalaureate degree in theatre that includes a core curriculum consisting of 12 semester hours in theatre history and dramatic literature, plus basic courses in acting, directing, technical theatre and design; or

a baccalaureate degree in a discipline other than theatre, when there is a record of equivalent professional training or experience in theatre, or demonstrable potential for work at the Master of Fine Arts level in theatre.

Applicants to the Master of Fine Arts program are required to submit a resume of all theatrical experience and a brief statement — no more than two double-spaced pages — summarizing background and career goals.

Admission to the Master of Fine Arts concentrations in design/technology or acting requires an audition or portfolio review with the graduate faculty in the area of concentration. On campus interviews, auditions and portfolio reviews are by appointment only and are scheduled each semester, typically during the November or March preceding the first enrollment for a fall semester. M.F.A. classes are admitted once every three years, beginning with the fall of 2003. Students may also schedule an appointment at conferences and conventions where graduate faculty are in attendance. During the first and second years of study, students are regularly reviewed by the graduate faculty in their area of concentration (design/technology faculty or acting faculty) and advised of the outcome of those reviews. Reviews concern whether the student will be allowed to continue in the program and may involve warning, probation or dismissal, as well as retention. Design/technology students must present a portfolio of their work for these reviews and acting students the performance of a significant role. All students are expected to be able to demonstrate significant contributions to the productions of the School of Theatre and Dance.

Program Requirements

The Master of Fine Arts program is an intensive, three-year, professional training program requiring the completion of 60-73 hours of graduate credit depending on the area of concentration. All M.F.A. students are required to take THEA 61000 during their first semester in the program, the graduate core courses THEA 61110 and THEA 61111, 6 hours of Graduate Practicum in their area of concentration (design/technology or acting), THEA 60992, 61992 and 60199-M.F.A. Thesis Project (Design/Tech) or THEA 61309-M.F.A. Comprehensive Project in Acting. Each student will be provided a graduate faculty advisor from his/her area of concentration to assure that curricular requirements in the area of specialty are met.

THEA 60992 and THEA 61992 may be completed in one of three ways (all require the advisor's approval): (1) an internship with the Porthouse Theatre Company and an internship with another professional theatre company; or (2) internships with two professional theatre companies; or (3) two internships with the Porthouse Theatre Company.

All internships require an exit document by the on-site supervisor summarizing the duties performed, skill level attained and quality of the student's internship work. Where possible, internships should be undertaken during the summer. Absence on internship during a semester requires prior approval by the Graduate Studies Committee. M.F.A. students are required to remain in residence for the three years needed to complete the program (excluding, if appropriate, the internship). At a minimum, acting students must audition for all main stage productions and accept the roles assigned to them, and design/technology students must complete one production assignment and work on one other production per semester. Students may not undertake any work outside the School of Theatre and Dance without petitioning the appropriate area faculty and receiving written permission prior to auditioning/interviewing. (Returning professionals in acting are exempt from this requirement but need to keep the school advised of absences.)

Students in the Master of Fine Arts program must successfully complete a Comprehensive Project (Performance) or M.F.A. Thesis Project (Production) as to demonstrate mastery of skills and artistry commensurate with entrance into the profession. The scope of the project will be determined and reviewed by the area of specialty and may be fulfilled within the School of Theatre and Dance, through Porthouse and/or professional production assignments. The Comprehensive Project will consist of performance or exhibition of work, documentation of that work in a format appropriate for each area and project, and an exit interview.

M.F.A. Thesis Project/M.F.A. Comprehensive Project

Design/Technology

Students in design/technology begin the M.F.A. thesis project by presenting a two-page proposal to the advisor requesting that a specific design or project be accepted as the thesis project topic, and identifying a thesis project committee, consisting of a minimum of three graduate faculty, including the student's academic advisor. When deemed in submissible form, the advisor will present the proposed topic to the graduate faculty in the area of concentration. When approved by the graduate faculty in the area, the advisor will submit the proposal to the graduate coordinator for circulation to the Graduate Studies Committee and will present the thesis project topic to them as scheduled. The approval of this committee shall be final and a Notification of Approved M.F.A. Thesis Project Topic form will be filed with the school and the college. The student may then enroll in THEA 60199 for the semester in which the project will be undertaken.

As soon as the thesis project has been completed, the student will prepare and submit the thesis project paper or components to the advisor in accordance with regulations specified in the school's description of the M.F.A. Thesis Project Paper (available from the coordinator of graduate studies) and in the College Style Guide. When both are satisfied, the paper will be circulated to the members of the student's thesis project committee. When the committee deems the work is in appropriate form, it will be made available to members of the graduate faculty in the school and presented at a public meeting. Upon successful completion of these procedures, the Report of Completion of M.F.A. Thesis Project will be signed and the thesis project placed in the student's file and deposited in the college office.

Acting

Students in acting begin the comprehensive project during the second semester of study by identifying a graduate faculty advisor in the acting area. Each of the three roles in which the student is cast (from this point to the conclusion of the project) is presented to the area with the student's rationale that the role is challenging, significant and relevant to serve as part of the comprehensive project. The student will register for THEA 1309 M.F.A. Comprehensive Project for each role approved. The process is then documented in a format appropriate for the project and presented by the faculty advisor. After each role, the student will meet with the acting area for assessment and evaluation. Upon completion of the third role, the student will compile all appropriate documentation and create a comprehensive project summary to be approved by the acting area. After approval, the comprehensive project summary will be presented to the Graduate Studies Committee. The approval of this committee shall be final and the project summary shall be housed in the school office.

Students in the returning professional track in acting focus upon one task for the M.F.A. comprehensive project, approved according to

the topic proposal and specified area of research and creativity. The returning professional project completion process follows the process outlined above. The advisor will clarify what documentation is appropriate for each project.

ACADEMIC ADVISING

Regular consultation with an academic advisor is an essential aspect of all students' personal academic management and planning. Consultation at least once each semester for scheduling advice and assistance with registration procedures is the minimum expectation.

The Office of Advising and Academic Services, located in Taylor Hall, offers comprehensive academic advising for undergraduate students for all majors in the College of the Arts as well as students from other colleges exploring our majors. The office provides advising for transfer students and intervention and referral programs for students on academic probation that include small group and individual counseling. Academic advising is available to students who are undecided about a choice of academic major or who are contemplating general changes of academic programs. The office also treats other issues beyond the immediate purview of the school in which the students' faculty advisor is based. Students may schedule an appointment online through the Web site, www.kent.edu/oaas/.

It is the student's responsibility to seek out and use the advising resources available.

Requirement Audit

Upon completion of 60 semester hours, each student is required to contact the Office of Advising and Academic Services to obtain a current evaluation of progress toward completion of the student's chosen degree program. Requirement evaluations are not a substitute for meeting with a faculty advisor. Students may access a KAPS (Kent Academic Progress System) report through their FlashLine account which provides them with information about their academic progress. Questions about KAPS reports are answered in the Office of Advising and Academic Services.

RESPONSIBILITY FOR MEETING ALL GRADUATION REQUIREMENTS rests with students. The various advising services provided by the schools and the college are an effort to support and assist students in meeting this responsibility. Students' failure to comply with all duly publicized academic requirements, however, is not the responsibility of the university.

Transfer Advising

Students transferring into the college from another university should make an appointment in the Office of Advising and Academic Services to determine applicability of transfer credits to their program before registering for classes. In some cases, students then are referred to their school for a determination on specialized courses. Those seeking admission to the schools of Art, Music or Theatre and Dance or to programs with specialized admissions requirements should check the school's section of this Catalog for special

requirements. Students may schedule an appointment by calling 330-672-2780.

Teacher Preparation Advising

Students who wish to be licensed as teachers must be accepted by the College of Education, Health, and Human Services, and they must satisfy course requirements and meet professional standards established by the College of Education, Health, and Human Services. Students must consult an education advisor in 306 White Hall to be accepted into the education minor. It is important that students accomplish this prior to the junior year. Requirements for the [education licensure](#) are listed in the College of Education, Health, and Human Services section of this Catalog.

GENERAL ACADEMIC REQUIREMENTS

Scholastic Requirements

All candidates for a degree in the College of the Arts must meet all requirements listed under the program of their major in this Catalog. In addition, students must meet the following scholastic qualifications:

- A cumulative overall GPA of at least 2.00 (C) for all courses taken at Kent State University.
- A cumulative GPA of at least 2.25 in the major and, where applicable, the minor. Certain programs require higher GPAs. Consult the degree requirements for the major as listed in this Catalog.
- A 2.50 cumulative GPA and 2.75 major GPA when seeking licensure under the education minor program (certain programs may have a higher GPA requirement).
- Successful completion of at least 39 upper-division hours of coursework. Upper-division courses are numbered 30000-49999

No Credit Courses

Other prescribed courses, including ENG 11001, MATH 10007, 10023 and 10024 do count, but toward general elective hours only. None of the prescribed courses may be taken pass/fail.

Some courses do not generate credit within particular programs. For instance, ARTH 12001 Art Survey does not generate credit for majors within the School of Art. Check course descriptions carefully for more information.

Course Substitutions

Students who desire to substitute a course for one required in their program must secure written approval from the Office of Advising and Academic Services prior to enrolling in the substitute course.

PEB—ROTC

No more than 4 credit hours of PEB activities courses or the first 16 credit hours of ROTC courses may apply to the 121 semester hours required for graduation.

Veterans who have completed a minimum of one year of active duty may receive PEB credit for military basic training according to branch of service, as follows: Army and Marine Corps, 3 credit hours; Navy and Coast Guard, 2 credit hours; Air Force, 1 credit hour.

Kent Core Basic Sciences

Credit toward fulfilling the Kent Core basic sciences requirements are not given for the following combinations:

- CHEM 10050 series, the CHEM 10060 series and/or the PHY 13001 series;
- Both the CHEM 10050 series and the CHEM 10060 series;
- Both the PHY 13001 series and the PHY 23101 series

- Resources:
- [Roadmaps](#)
 - [Program Requirements](#)
 - [College Requirements](#)
 - [University Requirements](#)

DESCRIPTION: Completion of the Bachelor in Arts in Art Education certifies students for pre-K–12 licensure. The program graduates teachers who apply learner-centered pedagogy through the use of expressive, technical and organizational skills with a basic understanding of the philosophical and social foundations underlying art in education. Graduates understand child development and the creative needs of learners; use traditional and newer technological processes; incorporate art history and aesthetic concepts to studio practices; employ instructional strategies based on reflective practice; and create learning environments that help students build on prior knowledge and meet success.

In order to enroll in upper-division professional education coursework, students seeking licensure must be admitted to the education minor in the College of Education, Health, and Human Services. Refer to the College of Education, Health, and Human Services section of this Catalog for specific information about this process.

Students must meet College of Education, Health, and Human Services professional requirements for admission to advanced study.

Upon entry to this program, student must make an appointment to see a program counselor in 306 White Hall (330-672-2862) to discuss the education minor.

CAREER OPPORTUNITIES: Teachers of self-enrichment education held about 253,600 jobs in 2008. The largest numbers of teachers were employed by public and private educational institutions and providers of social assistance.

Public school teachers must be licensed, which typically requires a bachelor's degree and the completion of an approved teacher education program; private school teachers do not have to be licensed but may still need a bachelor's degree.
 (Source: Bureau of Labor Statistics)

ADMISSION REQUIREMENTS: General Admissions for New Freshman: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the [admissions website for transfer students](#).

GRADUATION REQUIREMENTS: A 2.75 cumulative GPA and a 2.75 GPA in the major are necessary for admission to advanced study, student teaching and graduation in this program. Minimum C (2.00) grade is required in all courses specified as requirements and in education courses required as part of the minor.

The following Praxis II Examinations are required for licensure. Principles of Learning and Teaching (K-6 or 5-9 or 7-12) and the specialty area test, Art (content knowledge.)

LANGUAGE REQUIREMENT: None

STUDY ABROAD/AWAY OPPORTUNITIES: Travel to London and Paris
Art and Design Education in Florence, Italy
New York City Study/Travel

PROGRAM FEE: \$100/semester

ACCREDITATION: National Association of Schools of Art and Design

MINIMUM TOTAL	128

*Student must complete all courses in the major requirement with a minimum C (2.0) grade. A minimum C (2.0) grade must be earned in ARTH 41003 to fulfill the writing-intensive requirement.

****SPECIAL NOTICE**

In order to enroll in upper-division professional education coursework, students seeking licensure must be admitted to the education minor in the College of Education, Health, and Human Services. Refer to the College of Education, Health, and Human Services section of this Catalog for specific information about this process.

Students must meet College of Education, Health, and Human Services professional requirements for admission to advanced study.

Upon entry to this program, student must make an appointment to see a program counselor in 306 White Hall (330-672-2862) to discuss the education minor.

Please note:

1. A 2.75 cumulative GPA and a 2.75 GPA in the major are necessary for admission to advanced study, student teaching and graduation in this program.
2. Minimum C (2.00) grade is required in all courses specified as requirements and in education courses required as part of the minor.
3. The following Praxis II Examinations are required for licensure. Principles of Learning and Teaching (K-6 or 5-9 or 7-12) and the specialty area test, Art (content knowledge.)

Program Requirements

College Requirements

University Requirements

DESCRIPTION: The Bachelor of Arts in Art History provides students with a substantive and comprehensive foundation of knowledge and an understanding of the major achievements in the history of art. It fosters visual analytical skills, critical thinking, creative problem-solving and research development and writing competencies, which prepare students for further graduate study as well as lifelong appreciation of and advocacy for the arts.

CAREER OPPORTUNITIES: Most worked in museums, historical sites, and similar venues; in educational institutions and as librarians; or in Federal, State, or local government. A graduate degree and related work experience are required for most positions; museum technicians may enter with a bachelor's degree.

Archivists, curators, and museum technicians held about 29,100 jobs in 2008. About 39 percent were employed in museums, historical sites, and similar institutions and 18 percent worked for public and private educational services. Around 30 percent of archivists, curators, and museum technicians worked in Federal, State, and local government, excluding educational institutions. Most Federal archivists work for the National Archives and Records Administration; others manage military archives in the U.S. Department of Defense. Most Federal Government curators work at the Smithsonian Institution, in the military museums of the U.S. Department of Defense, and in archaeological and other museums and historic sites managed by the U.S. Department of the Interior. All State governments have archival or historical record sections employing archivists. State and local governments also have numerous historical museums, parks, libraries, and zoos employing curators.
(Source: Bureau of Labor Statistics)

ADMISSION REQUIREMENTS: General Admission Information for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website](#) for new freshmen.

General Admission Information for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the [Admissions website for transfer students](#).

GRADUATION REQUIREMENTS: Minimum 123 total credit hours, minimum 39 upper-division hours. Minimum 2.00 cumulative GPA and a 2.50 GPA in the major.

Roadmaps

Program Requirements

College Requirements

University Requirements

DESCRIPTION: The Bachelor of Fine Arts in Crafts requires concentration in one of the following areas: ceramics, glass, jewelry and metals or textile arts.

Ceramics affords students an intensive, pre-professional experience in the study of ceramic arts. This program explores the range of techniques, as well as design, pottery forms, sculptural ceramics, glazes and firing methods. The history of ceramics is the history of humankind, so both historical uses of clay and contemporary expression are studied. The degree prepares students for further study in graduate school as well as practical applications in the field and for the challenges of a creative professional practice.

Glass offers intensive, pre-professional experience in glass-blowing and casting techniques, history and design concepts, and use of specialized materials, equipment and processes. The degree prepares students for further (graduate) study in the field and for the challenges of a professional practice.

Jewelry/metals affords intensive, pre-professional experience in jewelry, metalsmithing and enameling techniques, including development of sophisticated design concepts, mastery of skills and technologies, and critical analysis of historical and contemporary issues in the disciplines. The degree prepares students for further (graduate) study in the field and for the challenges of a professional practice.

Textile Arts offers intensive, pre-professional experience in concepts, materials and techniques in the textile media. Two- and three-dimensional processes, including digital designing and weaving, historical perspectives, and critical analysis of design and concept, are developed in the course of the program. The degree prepares students for further (graduate) study in the field and for the challenges of a professional practice.

CAREER OPPORTUNITIES: Artists held about 221,900 jobs in 2008. About 60 percent were self-employed. Employment was distributed as follows:

Art directors 84,200
Multimedia artists and animators 79,000
Fine artists, including painters, sculptors and illustrators 23,600
Craft artists 13,600
Artists and related workers, all other 21,500

Of the artists who were not self-employed, many worked for advertising and related services; newspaper, periodical, book, and software publishers; motion picture and video industries; specialized design services; and computer systems design and related services. Some self-employed artists offered their services to advertising agencies, design firms, publishing houses, and other businesses.

Jewelers and precious stone and metal workers held about 52,100 jobs in 2008. About 21 percent of salaried jobs for jewelers and precious stone and metal workers were in retail trade, primarily in jewelry, luggage, and leather goods stores. Another 15 percent of jobs were in jewelry and silverware

manufacturing. A small number of jobs were with merchant wholesalers of miscellaneous durable goods and in repair shops providing repair and maintenance of personal and household goods. Although jewelry stores and repair shops were found in every city and in many small towns, most jobs were in larger metropolitan areas.

Textile, apparel, and furnishings workers held 787,500 jobs in 2008.

Many manufacturing jobs can be found in California, New York, North Carolina, Texas, and Pennsylvania. Jobs in reupholstering, shoe repair and custom leatherwork, and laundry and dry-cleaning establishments are found in cities and towns throughout the Nation. Overall, about 11 percent of all workers in textile, apparel, and furnishings occupations were self-employed; however, about 43 percent of all tailors, dressmakers, and sewers and about 29 percent of all upholsterers were self-employed.

(Source: Bureau of Labor Statistics)

ADMISSION REQUIREMENTS:	General Admission for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the Admissions website for new freshmen .
	Transfer Student: Applicants meeting the general transfer requirement for admission (2.0 cumulative GPA) will receive an art application from the School of Art. A portfolio must be submitted for review.
GRADUATION REQUIREMENTS:	Minimum 126 total credit hours, minimum 39 upper-division hours. Minimum 2.50 GPA in the major and 2.50 GPA overall required for graduation. Minimum 2.50 GPA overall required for internship. Courses with an FDM prefix must be passed with minimum C (2.00) grade. Students are deregistered from FDM classes when minimum C (2.00) grade has not been attained in the course prerequisite.
LANGUAGE REQUIREMENT:	None

DESCRIPTION: The Bachelor of Arts in crafts or fine arts is for students who do not necessarily wish to pursue art as a profession but desire a solid foundation and breadth in the visual arts within a liberal arts curriculum.

Students electing the Fine Arts concentration may range broadly among painting, drawing, sculpture and printmaking courses, with additional art electives, rounding out this general degree program.

Students electing a crafts emphasis may range broadly among glass, jewelry/metals, textile arts and ceramics courses, with additional art electives rounding out this general degree program.

CAREER OPPORTUNITIES: Artists held about 221,900 jobs in 2008. About 60 percent were self-employed.

Of the artists who were not self-employed, many worked for advertising and related services; newspaper, periodical, book, and software publishers; motion picture and video industries; specialized design services; and computer systems design and related services. Some self-employed artists offered their services to advertising agencies, design firms, publishing houses, and other businesses.

About 21 percent of salaried jobs for jewelers and precious stone and metal workers were in retail trade, primarily in jewelry, luggage, and leather goods stores. Another 15 percent of jobs were in jewelry and silverware manufacturing. A small number of jobs were with merchant wholesalers of miscellaneous durable goods and in repair shops providing repair and maintenance of personal and household goods. Although jewelry stores and repair shops were found in every city and in many small towns, most jobs were in larger metropolitan areas.

[Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: The Bachelor of Fine Arts in Dance offers concentrations in dance education and dance performance.

Dance Education major focuses on developing dancers who have a clear understanding of both dance as an art form and dance as creative arts education. The degree has a multi-age focus and is designed for students interested in receiving an Ohio certificate for teaching dance in the public schools. The dance education concentration prepares students for teacher licensure in grades pre-K–12.

Dance Performance develops technically sound, intellectually diverse and creatively expressive dance artists and educators who can contribute significantly to the art form and society. The curriculum provides students with opportunities for strong and varied technical preparation in modern dance forms, classical ballet, jazz styles, improvisation and composition as well as opportunities for performance and the presentation of original choreography. The program also provides students with experiences in other art forms and disciplines, with required courses in acting, music and anatomy.

CAREER OPPORTUNITIES: Professional dancers and choreographers held about 29,200 jobs in 2008. Many others were between engagements; as a result, the total number of people available for work as dancers over the course of the year was greater. Dancers and choreographers worked in a variety of industries, such as public and private educational services, which includes dance studios and schools, as well as colleges and universities; food services and drinking establishments; performing arts companies, which include dance, theater, and opera companies; and amusement and recreation venues, such as casinos and theme parks. About 14 percent of dancers and choreographers were self-employed.

Most major cities serve as home to major dance companies; however, many smaller communities across the Nation also support home-grown, full-time professional dance companies.
(Source: Bureau of Labor Statistics)

Related areas of employment include fitness facilities and therapeutic modalities such as dance science and medicine, physical and occupational therapy, dance therapy, massage therapy. Concert dance performance supports careers in theatre: stage management, designing for costumes, lights, sets and sound, and in arts administration.

ADMISSION REQUIREMENTS: Freshman Students: Students must audition before being admitted to the dance program. Inquiries can be directed to the Dance Division Director, D-101C Music and Speech, Kent State University, P.O.Box 5190, Kent, OH 44242-0001 (or call 330-672-2069).

Dance Education concentration: Minimum 2.50 GPA overall and 2.75 GPA in major are required in this concentration for admission to advanced study, student teaching, licensure and graduation. Please refer to the professional requirements for admission to advanced study. These requirements must be satisfied before taking upper-division professional education coursework.

Transfer Student: In addition to meeting the general transfer admission requirement (2.0 cumulative GPA), students must audition before being admitted to the dance program. Inquiries can be directed to the

Dance Division Director, D-101C Music and Speech, Kent State University, P.O.Box 5190, Kent, OH 44242-0001 (or call 330-672-2069).

**GRADUATION
REQUIREMENTS:**

Minimum 129 total credit hours, minimum 39 upper-division hours. Minimum 2.00 cumulative GPA and a 2.50 GPA in the major. Minimum eight semesters of modern dance, eight semesters of ballet and successful completion of the III-B level in each are required for graduation as a dance performance major. Promotion to the next level is at the discretion of the dance faculty. Students must be enrolled in daily dance technique classes each semester until graduation.

For Dance Education: Minimum 2.50 GPA overall and 2.75 GPA in major are required in this concentration for admission to advanced study, student teaching, licensure and graduation. Please refer to the professional requirements for admission to advanced study. These requirements must be satisfied before taking upper-division professional education coursework. The Praxis II Examination is required for licensure for those graduating in 1991 and beyond. (Professional coursework or licensure in another teaching area is recommended. Also, students must have 39 credit hours in upper-division courses to graduate.)

DD	SPED 23000	Introduction to Exceptionalities*	3
MINIMUM TOTAL			48

*All courses in the Education Minor must be completed with a minimum C (2.0) grade.

Two supervised placements are required—one in pre-kindergarten, elementary or early-middle school, and one in late-middle or high school or adult settings. Duration of placement is equal in most cases. If this is not possible, slightly longer placement (one to two weeks) is in the area of student teacher's greatest need.

Minimum 2.50 GPA overall and 2.75 GPA in major are required in this concentration for admission to advanced study, student teaching, licensure and graduation. Please refer to the professional requirements for admission to advanced study. These requirements must be satisfied before taking upper-division professional education coursework.

The Praxis II Examination is required for licensure for those graduating in 1991 and beyond. (Professional coursework or licensure in another teaching area is recommended. Also, students must have 39 credit hours in upper-division courses to graduate.)

Special Notice: In order to enroll in upper-division professional education coursework, students seeking licensure must be admitted to the education minor in the College of Education, Health, and Human Services. Refer to the College of Education, Health, and Human Services section in this Catalog for specific information about this process

[Roadmaps](#)

[Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: The Bachelor of Arts in fashion design consists of two concentration, conceptual concentration and technical design and production concentration.

Conceptual Design provides an understanding of the design process, from concept to creation, including research, illustration, flat sketches and garment construction appropriate to a specific market. Conceptual designers' responsibilities are most directly related to the preliminary design concepts and ideas for any given season. This includes an understanding and mastery of research, color and story boards, the creation of original designs and the presentation of designs

Technical Design and production provides an understanding of garment construction, including the ability to analyze a garment and communicate to a factory how to construct it using the industry finishes appropriate to a specific market. This includes an understanding and mastery of tech packs, the creation of spec sheets and correcting fit.

Technical designers' responsibilities are to communicate to factories the process required to perfect a design into a style and make the style producible so that the quality is appropriate for a specific market. Technical designers are extremely proficient in solving problems and paying attention to detail.

CAREER OPPORTUNITIES: Fashion designers held about 22,700 jobs in 2008. About 31 percent of fashion designers worked for apparel, piece goods, and notions merchant wholesalers; and 13 percent worked for apparel manufacturers. Many others were self employed.

Employment of fashion designers tends to be concentrated in regional fashion centers. In 2008, the highest numbers of fashion designers were employed in New York and California.

(Source: Bureau of Labor Statistics)

ADMISSION REQUIREMENTS: Freshman Students: Applicants must have at least a 2.75 cumulative grade point average (on a 4.0 scale) and a minimum ACT composite score of 21 (or an SAT combined critical reading+math score of 980).

Transfer Students: To be considered for admission, transfer applicants need at least a 2.50 cumulative GPA based on 24 or more semester hours of college-level coursework at an accredited institution. Those students meeting this GPA requirement but with less than 24 semester hours will be evaluated as new freshmen.

GRADUATION REQUIREMENTS: Minimum 126 total credit hours, minimum 39 upper-division hours. Minimum 2.50 GPA in the major and 2.50 GPA overall required for graduation. Minimum 2.50 GPA overall required for internship. Courses with an FDM prefix must be passed with minimum C (2.00) grade. Students are deregistered from FDM classes when minimum C (2.00) grade has not been attained in the course prerequisite.

[University Requirements](#)

DESCRIPTION: Students in fashion merchandising acquire a thorough background in both the business and creative aspects of the industry, developing competencies in fashion theory; development and marketing of fashion goods; merchandising for apparel manufacturing; retail operations, management and buying; fashion forecasting and promotion; and visual merchandising and display.

Combined Baccalaureate in Fashion Merchandising/Master of Business Administration in the College of Business and Graduate School Management

Fashion merchandising majors who qualify may enroll in the combined Bachelor of Science in Fashion Merchandising/Master's of Business Administration program and complete both degrees within five years. Careful planning and advising are needed in order to successfully complete the programs in timely way. Student's intending to follow this plan should work closely with their faculty advisor. In the freshman year, the math choice should be Math 11012 or Math 12002. When the student has achieved 90 hours or more in the merchandising program (beginning of the junior year) and has a GPA of 3.30 or higher, her or she should apply for conditional admission to the M.B.A program. This application must occur no later than April 1 of the junior year. The GMAT exam must be completed with an appropriately high score at the time application is made.

CAREER OPPORTUNITIES: Retail salespersons held about 4.5 million jobs in 2008. The largest employers were clothing and clothing accessories stores, department stores, building material and supplies dealers, motor vehicle and parts dealers, and general merchandise stores such as warehouse clubs and supercenters. In addition, about 156,500 retail salespersons were self-employed.

Because retail stores are found in every city and town, employment is distributed geographically in much the same way as the population.

(Source: Bureau of Labor Statistics)

ADMISSION REQUIREMENTS: Freshman Students: Applicants must have at least a 2.75 cumulative grade point average (on a 4.0 scale) AND a minimum ACT composite score of 21 (or an SAT combined critical reading and math score of 980).

Transfer Students: To be considered for admission, transfer applicants need at least a 2.50 cumulative GPA based on 24 or more semester hours of college-level coursework at an accredited institution. Those students meeting this GPA requirement but with less than 24 semester hours will be evaluated as new freshmen.

GRADUATION REQUIREMENTS: Minimum 2.50 GPA overall and 2.50 GPA in major required for graduation. Minimum 2.50 GPA overall required for internship. Courses with an FDM prefix must be passed with minimum C (2.00) grade. Students are deregistered from FDM classes when minimum C (2.00) grade has not been attained in the course prerequisite.

LANGUAGE REQUIREMENT: Yes

STUDY ABROAD/AWAY OPPORTUNITIES: There are many study abroad/away opportunities, for more information contact the [Office of International Affairs](#).

PROGRAM FEE: \$100/semester

ACCREDITATION: National Association of Schools of Art and Design

STUDENT ORGANIZATIONS: Fashion Student Organization (FSO); Modista: Minority Fashion Group

GRADUATE PROGRAMS: Master of Business Administration

DESCRIPTION: The Bachelor of Fine Arts in Fine Arts prepares students for professional careers in the visual arts by developing their conceptual understanding, technical competency and independent problem solving at a professional entry level in their chosen specialization. Through the study of art history and studio critiques, students learn to analyze and evaluate visual art and employ this knowledge in their own creative practice. Graduating students must demonstrate their competence by producing a body of work for evaluation presented in their senior project exhibition. The program comprises concentrations in Drawing, Painting, Printmaking, Sculpture and Interdisciplinary, the latter of which allows students to choose two mediums in which to specialize.

CAREER OPPORTUNITIES: Artists held about 221,900 jobs in 2008. About 60 percent were self-employed. Employment was distributed as follows:
 Art directors 84,200
 Multimedia artists and animators 79,000
 Fine artists, including painters, sculptors and illustrators 23,600
 Craft artists 13,600
 Artists and related workers, all other 21,500

Of the artists who were not self-employed, many worked for advertising and related services; newspaper, periodical, book, and software publishers; motion picture and video industries; specialized design services; and computer systems design and related services. Some self-employed artists offered their services to advertising agencies, design firms, publishing houses, and other businesses.

(Source: Bureau of Labor Statistics)

ADMISSION REQUIREMENTS: General Admissions for New Freshman: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [admissions website for new freshmen](#).

Transfer Student: Applicants meeting the general transfer requirement for admission (2.0 cumulative GPA) will receive an art application from the School of Art. A portfolio must be submitted for review.

GRADUATION REQUIREMENTS: Minimum 125 total credit hours, minimum 39 upper-division hours. Minimum 2.00 cumulative GPA and a 2.50 GPA in the major. Students are required to plan and execute independently a senior project exhibition that is presented for review to a fine arts faculty committee. The senior project includes a written proposal and an artist's statement. Students should work closely with their fine arts faculty advisor on all aspects of the senior project.

LANGUAGE REQUIREMENT: No

STUDY ABROAD/AWAY OPPORTUNITIES: Travel to: New York, London and Paris, and Tunisia
Study Abroad in Florence, Italy; Semester in Italy or the Summer Art and Culture trip

PROGRAM FEE: \$100/semester

ACCREDITATION: National Association of Schools of Art and Design

		MINIMUM TOTAL	125

*A minimum C (2.0) grade must be earned with to fulfill the writing-intensive requirement.

**No upper-division ARTF courses may be taken without successfully completing ARTF 24005. At the completion of the foundation sequence (ARTF 14000, 14001, 14022, 14055, 14060, 24010, 24040, ARTH 22006, 22007), Students register for ARTF 24005 and submit a portfolio of representative studio work selected from these courses to a fine arts faculty committee for review. An examination of knowledge of art history also will be included. Incoming transfer students are expected to provide examples of foundational coursework equivalent to School of Art requirements for sophomore review. The review is a proficiency examination and is diagnostic in nature. Action by the committee may include the assignment of additional studio work over the normal graduation requirements in areas of apparent deficiencies, or a recommendation that a student not continue in the BFA curriculum.

***Maximum 6 credit hours of ARTF 44092 Field Experience Travel Study Fine Art may be applied toward the 9 credit hours of upper-division ARTF electives. This course may not be applied toward the concentration hours. Students may apply this course toward fulfilling general electives, with no maximum credit hours required.

Students are required to plan and execute independently a senior project exhibition that is presented for review to a fine arts faculty committee. The senior project includes a written proposal and an artist's statement. Students should work closely with a fine arts faculty advisor on all aspects of the senior project.

[B.M. Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: The Bachelor of Arts (B.A.) degree gives music majors an opportunity to study music and liberal arts with an optional minor, available in most academic areas of the university, or as a dual degree program with a major in another field. Although not as music intensive as the Bachelor of Music degree programs, this degree includes study on a main instrument and ensemble participation throughout the program.

The Bachelor of Music (B.M.) is a professional degree and provides intensive specialization in one of the following areas: music composition, music education and instrumental, piano or vocal performance. The primary emphasis is on the development of the skills, concepts and sensitivity essential for those wishing to pursue music as a profession.

The degree in instrumental performance is available on the following instruments: violin, viola, violoncello, double bass, flute, oboe, clarinet, bassoon, saxophone, trumpet, horn, trombone, euphonium, tuba and percussion. Applied music offerings are subject to the availability of performance faculty members.

The composition concentration leads to a professional degree and includes intensive specialization in music composition. Students with an interest in this concentration audition on their main instrument for acceptance into the Bachelor of Arts degree program as music majors. Following the completion of the second year of music theory, students can request acceptance into this program. This degree program provides preparation for graduate study in the field, a credential for private instruction, and the ability to compose and use technology in a variety of musical styles.

The instrumental concentration leads to a professional degree and includes intensive specialization in instrumental performance. This degree program provides preparation for graduate study in the field, a credential for private instruction, and the ability to perform as a soloist, in chamber music and in large ensembles.

The piano performance concentration leads to a professional degree and includes intensive specialization in piano performance. This degree program provides preparation for graduate study in the field, a credential for private instruction and the ability to perform as a soloist, as an accompanist, in chamber music and in large ensembles.

The voice performance concentration leads to a professional degree and includes intensive specialization in voice performance. This degree program provides preparation for graduate study in the field, a credential for private instruction and the ability to perform as a soloist, in opera, in chamber music and in large ensembles.

CAREER OPPORTUNITIES: Musicians, singers, and related workers are employed in a variety of settings. Of those who earn a wage or salary, 33 percent were employed by religious, grantmaking, civic, professional, and similar organizations and 12 percent by performing arts companies, such as professional orchestras, small chamber music groups, opera companies, musical theater companies, and ballet troupes. Musicians and singers also perform in nightclubs and restaurants and for weddings and other events. Well-known

musicians and groups may perform in concerts, appear on radio and television broadcasts, and make recordings and music videos. The U.S. Armed Forces also offer careers in their bands and smaller musical groups.

Teachers of self-enrichment education held about 253,600 jobs in 2008. The largest numbers of teachers were employed by public and private educational institutions and providers of social assistance. (Source: Bureau of Labor Statistics)

ADMISSION REQUIREMENTS:	<p>Freshman Students: Students must audition before being admitted to the School of Music. Inquiries can be directed to the Coordinator of Admissions and Scholarships, School of Music, E-101 Music and Speech, Kent State University, P.O. Box 5190, Kent, OH 44242-0001 (or call 330-672-2172).</p> <p>Transfer Students: In addition to meeting the general transfer admission requirement (2.0 cumulative GPA), students must audition before being admitted to the School of Music. Additional information is available from the School of Music Office, E-101 Music and Speech Center, Kent State University, P.O. Box 5190, Kent, OH 44242-0001 (or call 330-672-2172).</p>
GRADUATION REQUIREMENTS:	<p>The Bachelor of Arts in Music requires a minimum 121 total credit hours and 39 upper-division hours for graduation.</p> <p>The Bachelor of Music in Music: In addition to completing the required courses, student must meet the individual concentration requirements to graduate.</p> <p>The Music Composition concentration students must do the following: (1) pass a theory/composition piano proficiency exam as a prerequisite for required courses MUS 41131, 41151 and 48251; and (2) present a senior applied recital. The applied recital may be performed concurrently with the composition recital required as a part of the senior composition project.</p> <p>The Instrumental Performance concentration students are required to complete one-half junior and one full senior recital.</p> <p>The Piano Performance concentration students are required to complete one-half junior and one full senior recital. Their 8-credit-hour major ensemble requirement should comprise 2 credits of major ensemble and 6 credits of MUS 45321 Accompanying and MUS 45311 Chamber Music.</p> <p>The Vocal Performance concentration students are required to complete one-half junior and one full senior recital.</p>
CULMINATING REQUIREMENT:	Major field achievement test in music history and music theory. Recitals in Bachelor of Music programs.
LANGUAGE REQUIREMENT:	None
STUDY ABROAD/AWAY OPPORTUNITIES:	Contact the School of Music (330-672-2172).
PROGRAM FEE:	\$100/semester
ACCREDITATION:	National Association of Schools of Music
STUDENT ORGANIZATIONS:	Kappa Kappa Si, Delta Omicron, American Choral Directors Association (ACDA), Ohio Collegiate Music Education Association (OCMEA).
GRADUATE PROGRAMS:	<p>M.A. in Ethnomusicology</p> <p>M.A. in Music Composition</p> <p>M.A. in Music Theory</p> <p>M.A. in Musicology</p> <p>M.M. in Conducting</p> <p>M.M. in Music Education</p> <p>M.M. in Performance, Chamber Music</p>

	27112	Piano Class (2)	
	36111	Applied Music-Piano (2)	
	46111	Applied Music-Piano (2)	
III. ADDITIONAL PROGRAM REQUIREMENTS (64 credits)			
Type	Title		Credits
	Kent Core Additional (must be from two categories)		6
	Kent Core Basic Sciences (must include one laboratory)		6-7
	Kent Core Composition		6-8
	Kent Core Humanities		3
	Kent Core Mathematics and Critical Reasoning		3-5
	Kent Core Social Sciences (must be from two disciplines)		6
	General Electives (minimum 7 upper-division credit hours)		34
	MINIMUM TOTAL		121

Important Notes:

- Minimum C- (1.70) grade required in all music courses.
- Students who begin their music or music education major program as first semester freshmen are required to attend a minimum of 84 concerts or recitals. Music or music education majors who transfer from a non-music program or university must attend an average of 10 music recitals or concerts for semesters of full time enrollment.
- To graduate from Kent State University with the degree B.M. or B.A. in music, it is required that students take a major field achievement test in music history and music theory during their senior year. Specific score level achievement is not required.
- Applied music courses are available in the summer on selected instruments. Composition may also be taken in the summer.

* A minimum C (2.0) grade must be earned in MUS 32212 to fulfill the writing-intensive requirement.

** Instrumental principals take MUS 41341; Voice principals take MUS 45131.

*** Applied Music (8 semesters and 16 credit hours): Based on instrument of music degree acceptance. the 46000 level may be taken following a successful 46000-level barrier exam. Students must meet the 46000 entry level prior to graduation.

**** Major ensemble (8 semesters and 8 credit hours): Students must enroll in a major ensemble appropriate to their major performance area each semester they are registered full time as music majors. The first 4 credit hours of major ensemble apply as lower-division hours; the remaining hours of major ensemble apply as upper-division hours.

***** Applied Music-Piano or Piano Class (2 credit hours): placement test required. MUS 17111 and 17112 do not count toward graduation. Students who have piano as the primary instrument replace these hours with electives.

IV. CONCENTRATION REQUIREMENTS (56-57 credits)			

Composition (56-57)	
Instrumental Performance (56-57)	
Piano Performance (56-57)	
Voice Performance (57)	
MINIMUM TOTAL	125

Important Notes:

- Minimum C- (1.70) grade required in all music courses.
- Composition students begin as music majors in the BA degree program. Admission into the BM Music–Composition program requires faculty approval following completion of MUS 21122. A skills test and composition portfolio are required.
- Students who begin their music or music education major program as first semester freshmen are required to attend a minimum of 84 concerts or recitals. Music or music education majors who transfer from a non-music program or university must attend an average of 10 music recitals or concerts for semesters of full time enrollment.
- To graduate from Kent State University with the degree B.M. or B.A. in music, it is required that students take a major field achievement test in music history and music theory during their senior year. Specific score level achievement is not required.

* A minimum 3.0 GPA is required in music theory courses (MUS 11121, 11122, 21121, 21122) in the Composition concentration.

** A minimum C (2.0) grade must be earned to fulfill the writing-intensive requirement.

*** Major ensemble (8 semesters and 8 credit hours): Students must enroll in a major ensemble appropriate to their major performance area each semester they are registered full time as music majors. The first 4 credit hours of major ensemble apply as lower-division hours; the remaining hours of major ensemble apply as upper-division hours. Piano performance majors satisfy the eight-semester ensemble requirement as follows: 4 credit hours of MUS 45321 Accompanying, 2 credit hours of MUS 45311 Chamber Music and minimum 2 credit hours selected from chamber music or a major vocal or instrumental ensemble.

Composition Concentration

For semester-by-semester course sequencing for this program, view the [2010-2011 Roadmap](#).

I. CONCENTRATION REQUIREMENTS (53-54 credits) Courses count in major GPA

	3/46614	Applied Music—Euphonium (2)	
	3/46615	Applied Music—Tuba (2)	
	3/46711	Applied Music—Percussion(2)	
II. ADDITIONAL CONCENTRATION REQUIREMENTS (3 credits)			
Type	Course	Title	Credits
		General Elective (lower or upper-division)	3

* In addition to completing the required courses, students in the music composition concentration must do the following: (1) pass a theory/composition piano proficiency exam for required courses MUS 41131, 41151 and 48251; and (2) present a senior applied recital. The applied recital may be performed concurrently with the composition recital required as part of the senior composition project. Composition students may fulfill the one-half recital requirement through applied performance, performance/lecture, performance of original compositions or any combination of these.

** Applied music (6 semesters and 12 credit hours): Students whose main instrument is piano may fulfill this requirement with piano only or can include one or two semesters with a different instrument. Students whose main instrument is not piano must take two semesters of Applied Music-Piano. A piano placement test or piano audition is required and additional remedial courses may be necessary. Students must meet the 46000-entry-level prior to graduation.

DESCRIPTION: The Bachelor of Music in Music Education, one of the most forward-looking curricula in the country, includes studies in jazz, folk, musical theatre and music of the entire world, while providing a strong grounding in Western art music. The program prepares students for Ohio licensure to teach music in grades K-12 and is recognized in most states. While receiving training in both areas, students specialize in the instrumental or choral/general concentrations.

CAREER OPPORTUNITIES: Graduates from the music education program hold teaching positions in Ohio and throughout the country. Teachers of self-enrichment education held about 253,600 jobs in 2008. The largest numbers of teachers were employed by public and private educational institutions and providers of social assistance. (Source: Bureau of Labor Statistics)

ADMISSION REQUIREMENTS: Freshman Students: Students must audition before being admitted to the School of Music. Inquiries can be directed to the Coordinator of Admissions and Scholarships, School of Music, E-101 Music and Speech, Kent State University, P.O. Box 5190, Kent, OH 44242-0001 (or call 330-672-2172).

Transfer Students: In addition to meeting the general transfer admission requirement (2.0 cumulative GPA), students must audition before being admitted to the School of Music. Additional information is available from the School of Music Office, E-101 Music and Speech Center, Kent State University, P.O. Box 5190, Kent, OH 44242-0001 (or call 330-672-2172).

GRADUATION REQUIREMENTS: Students in the instrumental concentration are required to complete one-half senior recital, which may not be performed during the student-teaching period. Students specializing in wind, brass and percussion instruments must enroll in marching band (MUS 45222) once during their first two years of study.

Students in the choral/general concentration are required to complete one-half senior recital, which may not be performed during the student-teaching period.

CULMINATING REQUIREMENTS: Major field achievement test in music history and music theory. Senior Recital. Student Teaching.

LANGUAGE REQUIREMENT: None

STUDY ABROAD/AWAY OPPORTUNITIES: Contact the School of Music (330-672-2172).

PROGRAM FEE: \$100/semester

ACCREDITATION: National Association of Schools of Music

STUDENT ORGANIZATIONS: Kappa Kappa Si, Delta Omicron, American Choral Directors Association (ACDA), Ohio Collegiate Music Education Association (OCMEA).

GRADUATE PROGRAMS: M.A. in Ethnomusicology
M.A. in Music Composition
M.A. in Music Theory
M.A. in Musicology
M.M. in Conducting
M.M. in Music Education
M.M. in Performance, Chamber Music

	Kent Core Social Sciences (must be from two disciplines)			3
IV. CONCENTRATION REQUIREMENTS (20 credits)				
Type	Title			Credits
	Choral General (20)			
	Instrumental (20)			
MINIMUM TOTAL				132

* A minimum C (2.0) grade must be earned to fulfill the writing-intensive requirement.

** All courses in the Education minor and in Kent Core Composition must be completed with a minimum C (2.00) grade.

*** The 46000 level can be taken following a successful 46000 level barrier exam. The Choral General Concentration is for voice and piano principals. Piano principals with significant instrumental background may elect the Instrumental Concentration with the approval of the Coordinator of Music Education. All other students use the Instrumental Concentration.

**** Major ensemble (7 semesters and 7 credit hours): Students must enroll in a major ensemble appropriate to their major performance area each semester they are registered full time as music majors.

Important Notes for Music Education:

- Minimum C- (1.70) grade required in all music courses.
- Students who begin their music or music education major program as first semester freshmen are required to attend a minimum of 84 concerts or recitals. Music or music education majors who transfer from a non-music program or university must attend an average of 10 music recitals or concerts for semesters of full time enrollment.
- All music education majors must perform a half Senior Recital.
- To graduate from Kent State University with the degree B.M. or B.A. in music, it is required that students take a major field achievement test in music history and music theory during their senior year. Specific score level achievement is not required.

Important Notes for the Education Minor:

- In addition to the School of Music professional standards listed above, each B.M. in music education candidate must meet the following requirements in order to enroll in upper-division coursework: pass an achievement examination to enter upper-division music education study; have a 2.75 major GPA; clear all College of Education, Health, and Human Services professional requirements for admission to advanced study; and declare the education minor. Students seeking teaching licensure must be admitted to advanced study. Application for advanced study should be made at the Office of Advising and Academic Services, 306 White Hall, after 45 hours are completed.
- To enroll in upper-division professional education coursework, students seeking licensure must be admitted to the education minor in the College of Education, Health, and Human Services. Refer to that college section in this Catalog for specific information about this process.
- A minimum cumulative 2.50 GPA and major 2.75 GPA are necessary for student teaching and graduation from this program. Successful achievement on the Praxis II exam is required for state of Ohio teacher licensure.

Choral/General Concentration

For semester-by-semester course sequencing for this program, view the [2010-2011 Roadmap](#).

CONCENTRATION REQUIREMENTS (20 credits) Courses count in major GPA			
Type	Course	Title	Credits
	MUS 33211	Elementary and Secondary General Music	3
	33231	Elementary and Secondary Choral Music	3
	36111	Applied Music-Piano*	3
	36311	Applied Music-Voice*

Music Technology - B.S.

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of the Arts > Undergraduate Programs > Music Technology

COLLEGE: College of the Arts

DEPARTMENT: Stark Campus
Fine Arts Building Room 118B
North Canton, OH 44720
E-mail: sbirch@kent.edu
Tel: (330) 244-3359
Fax: (330) 244-3345
Web: www.stark.kent.edu/academics/depts/mus/music-technology.cfm

DESCRIPTION: The Bachelor of Science in Music Technology is offered on the [stark campus](#) and consists of two concentrations: Audio Recording and Music Production.

Audio Recording majors learn advanced audio recording techniques.

Music Production majors learn how to use technology to realize creative work such as: original music, arranging and production.

The development of music technology has had an enormous impact on the music industry. There are many career opportunities for talented musicians in music technology. Skilled musicians can apply formal training to recording careers, studio performance, arranging or producing and live performances. Opportunities are also available in non-traditional, contemporary popular music venues, the movie industry, television, multi-media events, and music for advertising as well as traditional performing arts venues. The growth of music technology has made knowledge and experience in this area a necessity for all students preparing for a career in any area of the music industry. To compete effectively in the contemporary music world, one must possess a strong traditional music background, plus the technical expertise required to make the most of a rapidly changing and developing technology.

CAREER OPPORTUNITIES: Majors are prepared for careers in:

- Audio Production
- Studio Engineering
- Events Management/Arts Management
- Music and sound reinforcement for live performance such as theatre and dance
- Independent musical composition and performance, sound design and post-production for film, television and radio
- Music for emerging new media such as interactive games and the internet

ADMISSION REQUIREMENTS: Admission to the Stark campus is open.

To declare Music Technology as a major student must have successfully completed MUS 11121 Theory, MUS 21113 Music Production I and one semester of Applied Music (MUS 36xxx) or Applied Studio Musicianship (MUS 36913).

GRADUATION REQUIREMENTS: Minimum 122 total credit hours, minimum 39 upper-division hours. Minimum 2.00 cumulative GPA and a 2.50 GPA in the major. Minimum eight semesters of major ensemble courses and six semesters of applied studio musicianship and applied music courses. Students are required to attend a minimum four-year total of 84 concerts or recitals.

Special Notes for Degree/Major:

- Students double majoring in Audio Recording and Music Production can take the Audio Recording and Music Production III, IV, V and VI classes concurrently.
- The first 4 credit hours of ensemble apply as lower-division hours; the remaining hours of ensemble apply as upper-division hours
- Students are required to attend a minimum four-year total of 84 concerts or recitals.
- Applied music courses are available in the summer on selected instruments. Composition may also be taken in the summer
- Students must receive a minimum grade of C- in all MUS courses
- A minimum C (2.0) grade must be earned in TECH 31000 to fulfill the writing-intensive requirement.

*Major ensemble (8 semesters and 8 credit hours):

All music technology majors must enroll in an ensemble appropriate to their major performance area each semester the students are registered full time as music majors. The first 2 credit hours must be taken in a major ensemble. Students may choose to complete 6 hours in MUS 35213 Studio Ensemble, or 4 hours in MUS 35213 and 2 hours as ensemble electives (e.g., MUS 45231, MUS 25311 for guitar majors). The first 4 credit hours of ensemble apply as lower-division hours; the remaining hours apply as upper-division hours.

**Applied Studio Musicianship and Applied Music (6 semesters and 12 credit hours):

Applied music must be elected for the first 4 credit hours at 2 credits per semester. Students who meet performance requirements after the first 4 credit hours of applied music may complete the remaining 8 credit hours by taking applied studio musicianship to meet graduation requirements. Students must meet the 46000-entry-level requirement for graduation.

[Roadmaps](#)

[B.A. Program Requirements](#)

[B.F.A. Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: The Bachelor of Arts in theatre studies is to give students an opportunity for study in all aspects of theatre and its relationship to other liberal arts studies. This program serves students who seek a wider range of possibilities to fulfill individual creative goals, whether as theatre artists, scholars, educators, and/or contributors in related fields. Students receive thorough grounding in theatre history and theory and learn imaginative and critical thinking, the process of making theatre, and leadership skills. The program prepares students to apply their knowledge and learned skills to career choices in the 21st century and in the process enrich their own lives in their chosen communities.

The Bachelor of Fine Arts is designed for students who wish to specialize in a specific area of theatre or dance (dance and technology, musical theatre, dance performance or dance education) and requires successful completion of an audition or portfolio review and interview. The students must demonstrate evidence of continued growth and competency in the chosen specialty via yearly evaluations.

Design/technology fosters the artistic development of theatre designers, technicians and artisans so they can successfully enter the profession and /or its related fields. Students study both traditional theatre practices and new methods, materials and technologies in order to become flexible, dynamic and creative collaborators in theatre art. Students must demonstrate continued progress through annual portfolio reviews, course work and production responsibilities. B.F.A. design /technology students are expected to complete a significant production assignment each semester. The B.F.A. candidate is expected to develop theatre skills equal to entry-level positions in the profession or as required for admissions into Masters of Fine Arts programs.

Musical Theatre offers students interdisciplinary academic and creative experiences that prepare them to be working artists in the field of musical theatre. Students develop practical skills in music, dance and acting in conjunction with concentrated work in theory, history and liberal arts. Students must demonstrate continuing progress and are thus evaluated annually through auditions, coursework and production responsibilities. The B.F.A. candidate is expected to develop theatre, vocal and/or dance skills equal to entry-level positions in the profession or as expected for admission into Master of Fine Arts programs.

CAREER OPPORTUNITIES: Employment in the theater, and in other performing arts companies, is cyclical—higher in the fall and spring seasons—and concentrated in New York and other major cities with large commercial houses for musicals and touring productions. Also, many cities support established professional regional theaters that operate on a seasonal or year-round basis.

Many smaller, nonprofit professional companies, such as repertory companies, dinner theaters, and theaters affiliated with drama schools, acting conservatories, and universities, provide employment opportunities for local amateur talent and professional entertainers. Auditions typically are held in New York for many productions across the country and for shows that go on the road.

Design special exhibits and movie, television, and theater sets. May study scripts, confer with directors, and conduct research to determine appropriate architectural styles.

Dancers and choreographers worked in a variety of industries, such as public and private educational services, which includes dance studios and schools, as well as colleges and universities; food services and drinking establishments; performing arts companies, which include dance, theater, and opera companies; and amusement and recreation venues, such as casinos and theme parks.

(Source: Bureau of Labor Statistics)

**ADMISSION
REQUIREMENTS:**

The Bachelor of Arts in Theatre Studies: Freshman students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

Transfer Students: In addition to meeting the general transfer admission requirement (2.0 cumulative GPA), students wishing to enter the Bachelor of Fine Arts in Theatre Studies must successfully complete an audition for the B.F.A. in Musical Theatre or portfolio review and interview for the B.F.A. in Design and Technology. Students electing admission to the Bachelor of Arts in Theatre Studies are not required to present and audition, portfolio or interview. Inquire can be directed to the Undergraduate Coordinator, B-141 School of Theatre Dance, 1325 Theatre Drive, Kent State University, Kent, OH 44240-0001 (or call 330-672-2082).

The Bachelor of Fine Arts in Theatre Studies: Applicants must pass an audition or a portfolio review and interview to enter a B.F.A. degree concentration in the School of Theatre and Dance. Inquire can be directed to the Undergraduate Coordinator, 1325 Theatre Drive, Kent State University, Kent, OH 44240-0001 (or call 330-672-2082).

Entrance to the B.F.A. program is based on a rigorous audition or theatre design portfolio and interview. Students who pass the audition or portfolio review and interview will be invited to enroll in the B.F.A. program upon beginning classes at Kent State. All B.F.A. students are required to be evaluated on a yearly basis. Musical Theatre and Dance auditions are held every fall and spring for entrance the following fall. There are also Dance program auditions in August just prior to the start of the fall semester. Portfolio Reviews for Design and Technology may be scheduled at any time by appointment through the Undergraduate Coordinator.

The B.F.A. in musical theatre is an interdisciplinary program offered with the Dance Division of the School of Theatre and Dance and the School of Music. Application to the B.F.A. in musical theatre requires an audition in each of the three performance areas: dance, music and theatre. The students must display talent and training potential in all areas to be admitted to the program. Students who pass the musical theatre audition will be admitted directly into the B.F.A. program at the beginning of their freshman year. Students who pass the Dance Division auditions are also admitted directly into the B.F.A. program at the beginning of their freshman year.

**GRADUATION
REQUIREMENTS:**

The Bachelor's of Arts in Theatre Studies requires a minimum 129 total credit hours and 39 upper-division hours for graduation. As well as a minimum 2.50 GPA overall and 2.50 GPA in major required for graduation.

The Bachelor's of Fine Arts in Theatre Studies: students will be dropped from the B.F.A. program for failure of audition or portfolio review. Students on academic probation may not participate in any School of Theatre and Dance productions. Students in all the Bachelor's of Fine Arts program areas may be dropped from the program for failure to maintain a 2.50 GPA (B.F.A. students should strive to maintain a 3.00 overall GPA).

The students in the musical theatre concentration must pass yearly auditions and are expected to audition for all mainstage theatre productions and accept roles if cast.

The students in the design/technology concentration must pass yearly portfolio reviews and are expected to participate in at least one mainstage production per semester (this may be in addition to any production design assignment).

**LANGUAGE
REQUIREMENT:**

None

**STUDY
ABROAD/AWAY
OPPORTUNITIES:**

There are many study abroad/away opportunities, for more information contact the [Office of International Affairs](#).

PROGRAM FEE:

\$100/semester

ACCREDITATION:

National Association of Schools of Theatre

**STUDENT
ORGANIZATIONS:**

Black Theater Association; Musical Theatre Student Organization; Portage County Players; Theater Roundtable

GRADUATE

M.A. and M.F.A. in Theatre Studies: Acting, Design

Advanced Study in the Arts

The schools of Art, Music, and Theatre and Dance in the College of the Arts offer nationally respected programs geared to advanced professional preparation. Graduate degree programs include the Master of Arts, Master of Fine Arts, Master of Music and Doctor of Philosophy. Related workshops and other special programs add focused opportunities for advanced study directed to specific career goals.

The School of Art (<http://dept.kent.edu/art/>) maintains a high creative and scholarly profile. Student exhibition opportunities in the fine arts and crafts include the School of Art Gallery, as well as guidance in external competition and exhibition experiences. International study offerings include art history experiences in Florence, Paris and London, fine arts and crafts programs in New York and Chicago, and art education study in Mexico City and Finland, as well as field-based experiences in specialized institutional settings surrounding the campus. See also Kent/Blossom Art below.

The active performance environment of the Hugh A. Glauser School of Music (<http://dept.kent.edu/music>) regularly features graduate students in solo and chamber recitals, in major ensemble concerts and opera productions, as soloists and conductors with major university ensembles, and through presentations of the works of student composers. The graduate string quartet program offers established young quartets a two-year mentorship with the Miami String Quartet, professional artists in residence. Musicology and ethnomusicology students study with faculty members in the Center of World Musics. They explore research experiences in music education; and they explore contemporary issues in secondary and higher education. See also Kent/Blossom Music below.

Graduate students in the School of Theatre and Dance (www.theatre.kent.edu) participate in mainstage productions offered in the 500-seat E. Turner Stump Theatre and the 200-seat Wright-Curtis Theatre. Performance and design/technical internships are completed in working professional theatres and related settings throughout the region. The Kent Theatre Ensemble provides touring performances in school and community settings. Graduate workshops explore such topics as stage movement and dance, vocal technique for actors, and acting for the camera. See also Porthouse Theatre below.

Kent/Blossom Festivals

Since 1968 the university has mounted nationally recognized summer professional study opportunities in cooperation with Blossom Music Center, summer home of The Cleveland Orchestra. The university also owns and operates Eells Art Gallery and Porthouse Theatre on the scenic Blossom grounds in the midst of the Cuyahoga Valley National Park. Exhibition and performance activities showcase the work of nationally selected students and the professional mentors with whom they study. Graduate students experience central roles in these dynamic components of the cultural life of a major arts market.

Kent/Blossom Art

The two- and three- week intensive workshops of Kent/Blossom Art emphasize the exchange of creative concepts and techniques drawn from diverse visual media. Interactions among students and faculty - both resident and visiting - along with public presentations provide the means of exploring ideas and values within and beyond the student's primary medium. Some workshops may involve off-site activities or travel. Kent/Blossom Art also produces a summer exhibition series at the Eells Art Gallery located on the main ground of Blossom Music Center. For additional information contact the School of Art, 330-672-2192 (<http://dept.kent.edu/art>).

Kent/Blossom Music

Kent/Blossom Music enables string, woodwind, horn and piano students to develop professional skills through intensive study with visiting master artists, members of The Cleveland Orchestra, the Miami String Quartet and other university faculty. Experiences focus on major works of the chamber music repertoire and orchestral technique and solo master classes. Rigorous daily coaching and rehearsal schedules culminate in performances on the campus and at Blossom Music Center, where participants also attend open rehearsals and concerts of The Cleveland Orchestra. See also: <http://dept.kent.edu/blossom>.

Porthouse Theatre

The Porthouse Theatre season offers three productions each summer under industry affiliations including Actors Equity Association and the Society of Stage Directors and Choreographers. College students from across the country and a small number of high school interns are selected by audition and technical credentials to work alongside professional actors, designers and directors fulfilling the artistic, technical and management needs of the theatre. In addition to these assignments, students attend master classes led by visiting professionals in various aspects of performance technique and professional development. Porthouse Theatre, a comfortable, 400-seat, outdoor, covered pavilion, attracts more than 18,000 patrons to its scenic setting each season. More information regarding

Porthouse Theatre can be found online at <http://dept.kent.edu/theatre/porthouse>.

Program Requirements

College Requirements

University Requirements

DESCRIPTION: Licensed art education teachers who complete the Master of Arts in Art Education develop a focused competence in the visual arts as well as an intellectual understanding of the history and current issues of the field of art education.

The Master of Arts in Art Education offers a Non-Thesis Option as well.

ADMISSION REQUIREMENTS: Official transcript(s); goal statement(s); a "philosophy of art education" statement; three letters of recommendation; curriculum vitae; and portfolio.

GRADUATION REQUIREMENTS: Minimum 33 total credit hours for the Thesis Option and 35 total credit hours for the Non-Thesis option.

CANDIDACY: For graduate students in art education, ARTE 61001, 61003 and 61198, and 3 to 5 hours in other program requirements must be completed prior to scheduling the examination.

THESIS/ DISSERTATION: The thesis is a significant project or body of work done independently of other coursework. Students are expected to demonstrate the ability to conduct research or produce a significant, original project in a discriminating and disciplined manner. The thesis topic should be one that will further the student's knowledge and ability in the specialty by demonstrating skill as a researcher or studio artist. The outcome should be an effort that serves as a foundation for the pursuit of independent work when the graduate program is completed. At this stage, students are expected to work in close consultation with their thesis advisor.

PROGRAM FEE: None

ACCREDITATION: NASAD

Program Requirements

College Requirements

University Requirements

DESCRIPTION: The Master of Arts in Art History emphasizes obtaining a comprehensive view of world art and specializing in one area for the thesis.

ADMISSION REQUIREMENTS: Official transcript(s); goal statement(s); a "statement of purpose"; three letters of recommendation; and curriculum vitae.

GRADUATION REQUIREMENTS: Minimum 35 total credit hours to graduate.

CANDIDACY: A reading knowledge of either French, German or other approved foreign language is required.

Successful completion of the Candidacy Review Examination is a requirement in every School of Art graduate program. In art history the examination is given when all regular coursework is completed. Successful completion of the examination designates the student as a candidate for the degree.

THESIS/ DISSERTATION: The thesis is a significant project or body of work done independently of other coursework. Students are expected to demonstrate the ability to conduct research or produce a significant, original project in a discriminating and disciplined manner. The thesis topic should be one that will further the student's knowledge and ability in the specialty by demonstrating skill as a researcher or studio artist. The outcome should be an effort that serves as a foundation for the pursuit of independent work when the graduate program is completed. At this stage, students are expected to work in close consultation with their thesis advisor.

LANGUAGE REQUIREMENT: Yes

PROGRAM FEE: None

ACCREDITATION: NASAD

DESCRIPTION: The Master of Music in Conducting is customized toward the skills of the student who may emphasize either choral, orchestral or band conducting. Piano performance majors may satisfy the ensemble requirement with MUS 55311 and/or 53321.

ADMISSION REQUIREMENTS: Official transcript(s); 3.0 GPA; GRE if GPA is below 3.0; goal statement(s); résumé; three letters of recommendation; and audition/portfolio review.

GRADUATION REQUIREMENTS: Minimum 32 total credit hours.

ENSEMBLE: A maximum of two ensemble credit hours may be applied toward degree requirements. Students must petition the Graduate Studies Committee to count additional ensemble hours toward degree requirements.

Music ensembles are open to all qualified university students upon satisfactory audition. Membership in music organizations is not limited to music majors and minors. All master's students are required to participate in an ensemble for two semesters. One summer session is considered equivalent to one semester.

THESIS/DISSERTATION: All students writing a thesis or essay must pass a final oral examination covering the thesis or essay and the student's major area of study. A student electing the two-recital option must pass a final oral examination covering literature performed in recitals and the student's areas of performance and study in the degree. Those completing a coursework option must pass a final oral examination covering all of the coursework in the master's degree program. The final oral examination may be attempted two times.

DESCRIPTION: The Master of Arts and the Master of Fine Art in Crafts emphasizes intensive personal investigation and the development of strong aesthetic and conceptual understanding. In addition to time in their own studio, graduate students have opportunities to enhance existing skills and knowledge by observing undergraduate class demonstrations and critiques. Areas of study within the program are textiles, glass, ceramics and jewelry metals and enameling. The M.F.A. is the terminal degree in the studio arts and is a requirement for those who intend to teach crafts in higher education.

ADMISSION REQUIREMENTS: Official transcript(s); goal statement(s); three letters of recommendation; curriculum vitae; a 250-500 word "artist statement"; and portfolio.

GRADUATION REQUIREMENTS: M.A.: Minimum 32 total credit hours.

M.F.A.: Minimum 60 total credit hours.

CANDIDACY: Successful completion of the Candidacy Review Examination is a requirement in every School of Art graduate program. In the studio majors, it is scheduled after half of the program has been completed. Successful completion of the examination designates the student as a candidate for the degree.

THESIS/ DISSERTATION: The thesis is a significant project or body of work done independently of other coursework. Students are expected to demonstrate the ability to conduct research or produce a significant, original project in a discriminating and disciplined manner. The thesis topic should be one that will further the student's knowledge and ability in the specialty by demonstrating skill as a researcher or studio artist. [Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: The Master of Arts in Ethnomusicology allows for in-depth study of current and/or historical cultural research. Emphasis on a particular non-western historical period, style or continent leads to both breadth and depth of research skills.

ADMISSION REQUIREMENTS: Official transcript(s); three letters of recommendation; interview; and academic paper written in English.

GRADUATION REQUIREMENTS: Minimum 32 total credit hours.

ENSEMBLE: A maximum of two ensemble credit hours may be applied toward degree requirements. Students must petition the Graduate Studies Committee to count additional ensemble hours toward degree requirements. Piano performance majors may satisfy the ensemble requirement with MUS 55311 and/or MUS 55321.

Music ensembles are open to all qualified university students upon satisfactory audition. Membership in music organizations is not limited to music majors and minors. All master's students are required to participate in an ensemble for two semesters. One summer session is considered equivalent to one semester.

THESIS/ DISSERTATION: The Master of Arts program requires a thesis.

All students writing a thesis or essay must pass a final oral examination covering the thesis or essay and the student's major area of study. A student electing the two-recital option must pass a final oral examination covering literature performed in recitals and the student's areas of performance and study in the degree. Those completing a coursework option must pass a final oral examination covering all of the coursework in the master's degree program. The final oral examination may be attempted two times.

LANGUAGE REQUIREMENT: Candidates for the Master of Arts degree program in musicology or ethnomusicology must demonstrate a reading knowledge of one foreign language, normally German or French. With the approval of the advisor and the graduate studies committee, other languages may be substituted, especially for the student in ethnomusicology. Credit hours earned in meeting this requirement are not applicable toward the credit-hour requirement in the degree program.

- Program Requirements
- College Requirements
- University Requirements

DESCRIPTION: The Master of Music in Music Education provides licensed teachers the opportunity for research and teaching. Variable degree requirements allow for thesis, essay, recital and coursework options.

Admission into the Ph.D. is suspended until 2011. The Ph.D. in Music Education is for students seeking leadership positions in music education in schools, colleges and universities.

ADMISSION REQUIREMENTS: Official transcript(s); 3.0 GPA; GRE if GPA is below 3.0; three letters of recommendation; résumé; goal statement; interview/portfolio review; and accredited teaching certificate.

Admission requirement for Ph.D. in addition to above: minimum three years of successful teaching experience at elementary and/or secondary levels; and evidence of competence in written English, organizational skills and knowledge of basic research techniques (a master's thesis or scholarly paper will satisfy this requirement).

GRADUATION REQUIREMENTS: M.M.: Minimum of 30 total credit hours.

Ph.D.: Minimum 63-72 total credit hours. The student must complete a least 15 semester hours of study withone one calendar year in residence.

THESIS/ DISSERTATION: M.M.: Students may select one of the following options: a thesis option, an essay and recital option, a two-recital option, or a coursework option depending on their major.

All students writing a thesis or essay must pass a final oral examination covering the thesis or essay and the student's major area of study. A student electing the two-recital option must pass a final oral examination covering literature performed in recitals and the student's areas of performance and study in the degree. Those completing a coursework option must pass a final oral examination covering all of the coursework in the master's degree program. The final oral examination may be attempted two times.

Ph.D.: Each doctoral program in the School of Music has a research tool requirement. The purpose of this requirement is to assure that doctoral-level students have prerequisite skills for completing independent research activity. In all cases, students may satisfy these requirements either through satisfactory performance in coursework or by examination. Credit hours earned in acquiring these competencies are not applicable toward the credit hour requirement in the degree program. All research tool requirements must be passed before the student is permitted to attempt the candidacy examination.

In Music Education, the requirement is either a reading knowledge of one foreign language or a demonstrated competence in statistics equivalent to that which might be obtained in two graduate-level statistics courses. Demonstrated competence in other areas of research may be substituted on the recommendation of the doctoral advisory committee.

CANDIDACY: For the Ph.D., this examination will normally be taken when the student has substantially completed his/her coursework and has received the consent of the advisory committee to attempt the examination. The written portion of the examination will cover the major and supportive areas of study and will be

followed by a comprehensive oral examination. Students who fail the candidacy examination two times will be dismissed from the doctoral program.

PROGRAM FEE: None

Program Requirements
College Requirements
University Requirements

DESCRIPTION: The Ph.D. in Music Theory–Composition prepares composers, research scholars and college and university teachers in the area of music theory. This degree program is based on the premise that original composition of high quality requires a strong background in theory, and that significant scholarship in theory requires experience in original composition.

ADMISSION REQUIREMENTS: Official transcript(s); 3.0 GPA; GRE if GPA is below 3.0; three letters of recommendation; résumé; goal statement; and writing sample.

GRADUATION REQUIREMENTS: Minimum of 60 to 72 credit hours.

RESIDENCE: The student must complete at least 15 semester hours of study within one calendar year in residence.

CANDIDACY: This examination will normally be taken when the student has substantially completed his/her coursework and has received the consent of the advisory committee to attempt the examination. The written portion of the examination will cover the major and supportive areas of study and will be followed by a comprehensive oral examination. Students who fail the candidacy examination two times will be dismissed from the doctoral program.

DISSERTATION: Required to take coursework, including the writing of a thesis (if required in that area), necessary to achieve the level of competence expected of a student who does hold a master's degree in that area.

RESEARCH TOOL REQUIREMENT: Each doctoral program in the School of Music has a research tool requirement. The purpose of this requirement is to assure that doctoral-level students have prerequisite skills for completing independent research activity. Specific requirements for each of the programs are described in the following paragraphs. In all cases, students may satisfy these requirements either through satisfactory performance in coursework or by examination. Credit hours earned in acquiring these competencies are not applicable toward the credit hour requirement in the degree program. All research tool requirements must be passed before the student is permitted to attempt the candidacy examination.

In theory-composition, the requirement is either a reading knowledge of one foreign language or a demonstrated competence in an area of research specified by the doctoral advisory committee.

PROGRAM FEE: None

Program Requirements
College Requirements
University Requirements

DESCRIPTION: The Master of Arts in Music Theory allows further study of musical analysis, pedagogy, history and teaching skills. An in-depth thesis requirement emphasizes research in the student's area of theoretical interest.

ADMISSION REQUIREMENTS: Official transcript(s); three letters of recommendation; and academic paper written in English.

GRADUATION REQUIREMENTS: Minimum 32 total credit hours.

ENSEMBLE: A maximum of two ensemble credit hours may be applied toward degree requirements. Students must petition the Graduate Studies Committee to count additional ensemble hours toward degree requirements. Piano performance majors may satisfy the ensemble requirement with MUS 55311 and/or MUS 55321.

Music ensembles are open to all qualified university students upon satisfactory audition. Membership in music organizations is not limited to music majors and minors. All master's students are required to participate in an ensemble for two semesters. One summer session is considered equivalent to one semester.

THESIS/ DISSERTATION: The Master of Arts program requires a thesis.

All students writing a thesis or essay must pass a final oral examination covering the thesis or essay and the student's major area of study. A student electing the two-recital option must pass a final oral examination covering literature performed in recitals and the student's areas of performance and study in the degree. Those completing a coursework option must pass a final oral examination covering all of the coursework in the master's degree program. The final oral examination may be attempted two times.

LANGUAGE REQUIREMENT: Candidates for the Master of Arts degree program in musicology or ethnomusicology must demonstrate a reading knowledge of one foreign language, normally German or French. With the approval of the advisor and the graduate studies committee, other languages may be substituted, especially for the student in ethnomusicology. Credit hours earned in meeting this requirement are not applicable toward the credit-hour requirement in the degree program.

DESCRIPTION: The Master of Music in Performance allows for concentrated study in an applied area. Students have opportunities to perform in a variety of well-respected ensembles.

Performance—Chamber Music is for intensive coaching and performance of string quartet literature.

ADMISSION REQUIREMENTS: Official transcript(s); 3.0 GPA; GRE if GPA is below 3.0; three letters of recommendation; résumé; goal statement; and audition/portfolio review.

GRADUATION REQUIREMENTS: Minimum 32 total credit hours.

ENSEMBLE: A maximum of two ensemble credit hours may be applied toward degree requirements. Students must petition the Graduate Studies Committee to count additional ensemble hours toward degree requirements. Piano performance majors may satisfy the ensemble requirement with MUS 55311 and/or MUS 55321.

Music ensembles are open to all qualified university students upon satisfactory audition. Membership in music organizations is not limited to music majors and minors. All master's students are required to participate in an ensemble for two semesters. One summer session is considered equivalent to one semester.

THESIS/ DISSERTATION: Students may select one of the following options: a thesis option, an essay and recital option, a two-recital option, or a coursework option depending on their major.

All students writing a thesis or essay must pass a final oral examination covering the thesis or essay and the student's major area of study. A student electing the two-recital option must pass a final oral examination covering literature performed in recitals and the student's areas of performance and study in the degree. Those completing a coursework option must pass a final oral examination covering all of the coursework in the master's degree program. The final oral examination may be attempted two times.

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of the Arts > Graduate Programs > Performance - M.M. Program Requirements

PERFORMANCE PROGRAM REQUIREMENTS (32 credits)

Course	Title	Credits
MUS 62451	Introduction to Musicology	3
Applied Music Major		8
Music Electives		13
Ensemble		2
Recital		3
Essay or Recital		3
TOTAL		32

Note: For piano performance majors, the applied music major requirement may be fulfilled by taking either MUS 66111, 66112 or a combination of the two. Students who elect MUS 66112 must take MUS 66191 concurrently. The performance of works for ensemble, including accompaniments, will be acceptable as part or all of a degree recital if approved by the recital committee.

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: The Master of Arts in Theatre Studies, offers advanced work in theatre that will represent mastery of the field in general and of a specific area of theatre as well. The research and writing skills stressed in this track are intended to prepare the student, who so elects, to define and pursue a terminal degree.

The Master of Fine Arts, normally a three-year course of study, is offered in acting and in design/technology (with concentrations in costume design, scenic design, lighting design and technical direction).

The acting concentration includes a returning professional's track in which students can receive credit for professional work previously completed as fulfillment of Kent State University course requirements (substitutions require course enrollment for credit). The M.F.A. is a terminal degree designed for those who intend to pursue a career in the profession as a creative artist or theatre technologist.

Acting Concentration prepares students who demonstrate a high degree of artistic potential and intellectual ability to enter the profession as practitioners. Intense practical training and scholarly activity culminate in a thesis project designed to measure the achievement of significant competence as artists and masters of their craft.

Design/Technology(Costume Design, Lighting Design, Scene Design, Technical Direction) prepares students who are seriously interested in achieving the artistry and skills necessary to qualify as practicing professionals in the entertainment industry and/or professional theatre educators.

- Costume Design prepares students who are interested in achieving the artistry and skills necessary to qualify them to be practicing professionals in the entertainment industry and/or professional theatre educators. Graduates of the program work successfully in regional, commercial and university theatres nationwide and internationally. They also work in commercial venues such as film, television, theme parks and cruise ship entertainment.
- Lighting Design prepares students who are seriously interested in achieving the artistry and skills necessary to qualify them to be practicing professionals in the entertainment industry and/or professional theatre educators. Students have the opportunity to work with current equipment and technology including intelligent lighting with different moving lighting consoles (i.e., Grand MA, ETC Congo and Strand) and design visualization software. Students also work on design projects in four very different theatre spaces: blackbox, large proscenium, thrust, and open outdoor. Graduates of the program work successfully in regional theatres and higher education.
- Scene Design prepares students who are seriously interested in achieving the artistry and skills necessary to qualify them to be practicing professionals in the entertainment industry and/or professional theatre educators. Students have the opportunity to work with current equipment and technology including design visualization and design rendering software. Graduates of the program work successfully in regional theatres and higher education.
- Technical Direction prepares students who are seriously interested in achieving the artistry and skills necessary to qualify them to be practicing professionals in the entertainment industry and/or

professional theatre educators. Students have the opportunity to work with current equipment and technology in fully equipped laboratories and shops. Graduates of the program work successfully in regional theatres and higher education.

ADMISSION REQUIREMENTS:	<p>M.A.: Official transcript(s), three letters of recommendation, a statement of career goals, a writing sample, and GRE scores.</p> <p>M.F.A.: Official transcript(s), three letters of recommendation, a résumé, and audition (Acting) or portfolio review (Design/Technology). The M.F.A. requires a 3.0 GPA (GRE if GPA is below 3.0).</p>
GRADUATION REQUIREMENTS:	<p>M.A.: Curricular advising will be provided by the coordinator of graduate studies or area head prior to first enrollment. Unless they have successfully completed an equivalent course, Master of Arts students must take Introduction to Graduate Study (THEA 61000) during their first semester. Program requirements for the two-year program may be completed via one of the following options, which the student will elect in consultation with an advisor, chosen during the first semester in residence:</p> <ul style="list-style-type: none"> • Option 1. Thesis. Requires a minimum of 32 hours of graduate coursework, consisting of THEA 61000, at least five courses from among our graduate offerings in theatre history, drama, theory and criticism (to include THEA 51110, 51133, 51134, 61110 and 61111), courses in other departments that support and enrich the area of specialty, and 6 hours of Thesis I (THEA 61199). Continuous enrollment in Thesis II (THEA 61299), including summer, is required until the thesis is successfully defended (maximum time: six calendar years from first enrollment). A description of the thesis process may be obtained from the school. • Option 2. Non-thesis Paper. Requires a minimum of 36 hours of graduate coursework consisting of THEA 61000, at least five courses from among our graduate offerings in theatre history, drama, theory and criticism (to include THEA 51133, 51134, 61001, 61110 and 61111), courses in other departments that support and enrich the area of specialty, 9 hours in a specified research area (at least 3 hours of these courses must be at the 60000 level), and 3 hours of Research (THEA 61098). A description of the nonthesis paper process may be obtained from the school. <p>M.F.A. General Requirements (Acting and Design/Technology): The program is an intensive, three-year, professional training program requiring the completion of 60-73 hours of graduate credit depending on the area of concentration. All M.F.A. students are required to take THEA 61000 during their first semester in the program, the graduate core courses THEA 61110 and THEA 61111, 6 hours of Graduate Practicum in their area of concentration (design/technology or acting), THEA 60992, 61992 and 60199-M.F.A. Thesis Project (Design/Tech) or THEA 61309 M.F.A. Comprehensive Project (Acting). Each student will be provided a graduate faculty advisor from his/her area of concentration to assure that curricular requirements in the area of specialty are met.</p> <p>THEA 60992 and THEA 61992 may be completed in one of three ways (all require the advisor's approval): (1) an internship with the Porthouse Theatre Company and an internship with another professional theatre company; or (2) internships with two professional theatre companies; or (3) two internships with the Porthouse Theatre Company.</p> <p>All internships require an exit document by the on-site supervisor summarizing the duties performed, skill level attained and quality of the student's internship work. Where possible, internships should be undertaken during the summer. Absence on internship during a semester requires prior approval by the Graduate Studies Committee.</p> <p>M.F.A. Thesis Project (Design/Technology): Students in design/technology begin the M.F.A. thesis project by presenting a two-page proposal to the advisor requesting that a specific design or project be accepted as the thesis project topic, and identifying a thesis project committee, consisting of a minimum of three graduate faculty, including the student's academic advisor. When deemed in submissive form, the advisor will present the proposed topic to the graduate faculty in the area of concentration. When approved by the graduate faculty in the area, the advisor will submit the proposal to the graduate coordinator for circulation to the Graduate Studies Committee and will present the thesis project topic to them as scheduled. The approval of this committee shall be final and a Notification of Approved M.F.A. Thesis Project Topic form will be filed with the school and the college. The student may then enroll in THEA 60199 for the semester in which the project will be undertaken.</p> <p>As soon as the thesis project has been completed, the student will prepare and submit the thesis project paper or components to the advisor in accordance with regulations specified in the school's description of the M.F.A. Thesis Project Paper (available from the coordinator of graduate studies) and in the College Style Guide. When both are satisfied, the paper will be circulated to the members of the student's thesis project committee. When the committee deems the work is in appropriate form, it will be made available to members of the graduate faculty in the school and presented at a public meeting. Upon successful completion of these procedures, the Report of Completion of M.F.A. Thesis Project will be signed and the thesis project placed in the student's file and deposited in the college office.</p> <p>M.F.A. Comprehensive Project (Acting): Students in acting begin the comprehensive project during the second semester of study by identifying a graduate faculty advisor in the acting area. Each of the three roles in which the student is cast (from this point to the conclusion of the project) is presented to the area with the student's rationale that the role is challenging, significant and relevant to serve as part of the comprehensive project. The student will register for THEA 61309 M.F.A. Comprehensive Project for</p>

each role approved. The process is then documented in a format appropriate for the project and presented by the faculty advisor. After each role, the student will meet with the acting area for assessment and evaluation. Upon completion of the third role, the student will compile all appropriate documentation and create a comprehensive project summary to be approved by the acting area. After approval, the comprehensive project summary will be presented to the Graduate Studies Committee. The approval of this committee shall be final and the project summary shall be housed in the school office.

Students in the returning professional track in acting focus upon one task for the M.F.A. comprehensive project, approved according to the topic proposal and specified area of research and creativity. The returning professional project completion process follows the process outlined above. The advisor will clarify what documentation is appropriate for each project.

RESIDENCY:	M.F.A.: Students are required to remain in residence for the three years needed to complete the program (excluding, if appropriate, the internship). At a minimum, acting students must audition for all main stage productions and accept the roles assigned to them, and design/technology students must complete one production assignment and work on one other production per semester. Students may not undertake any work outside the School of Theatre and Dance without petitioning the appropriate area faculty and receiving written permission prior to auditioning/interviewing. (Returning professionals in acting are exempt from this requirement but need to keep the school advised of absences.)
THESIS/ NON-THESIS/ COMPREHENSIVE PROJECT:	M.A.: Students may take the Thesis option or the Non-Thesis Option. The Thesis option includes 6 hours of Thesis I (THEA 61199) and Thesis II (THEA 61299). A description of the thesis process may be obtained from the school. M.F.A.: Students in the program must successfully complete a Comprehensive Project (Performance) or M.F.A. Thesis Project (Production) to demonstrate mastery of skills and artistry commensurate with entrance into the profession. The scope of the project will be determined and reviewed by the area of specialty and may be fulfilled within the School of Theatre and Dance, through Porthouse and/or professional production assignments. The Comprehensive Project will consist of performance or exhibition of work, documentation of that work in a format appropriate for each area and project, and an exit interview.
LANGUAGE REQUIREMENT:	None
PROGRAM FEE:	None
ACCREDITATION:	National Association of Schools of Theatre (NAST)
STUDENT ORGANIZATIONS:	Graduate student theatre forum

THE MISSION OF THE COLLEGE

It is the mission of the College of Arts and Sciences to deliver a first-rate education dedicated to the traditions and values of the liberal arts. These traditions include developing the skills of critical reasoning, writing, reading and deduction and providing a firm grounding in the theories and methodologies of the humanities, social and natural sciences and mathematics. These values include a commitment to rigorous questioning of principles and practices, intellectual integrity, community responsibility and diversity of perspectives in the pursuit of truth and social justice. Fundamental to a liberal education is the acquisition, preservation and transmission of new ideas and knowledge. Study within the College of Arts and Sciences broadens and enriches students' intellectual and cultural background. The college provides a core curriculum for all students whatever their major fields or career goals. With specialized and interdisciplinary programs at the undergraduate and graduate levels, the college strives to offer a wide variety of learning and research opportunities to its students, guided by nationally and internationally renowned faculty—faculty as passionate and intent on adding to human understanding as they are to passing this understanding on to future generations. The liberal arts provide both a rich variety of fields of academic specialization and a vital base for professional, creative and technological study.

Students pursuing degrees in the College of Arts and Sciences are introduced to a variety of disciplinary and intellectual perspectives through the college's General Requirements. These requirements provide a solid foundation in essential communications skills and mathematics; a strong and varied background in the humanities, the social sciences and the natural sciences; and, for most students, study of a foreign language as a tool for approaching another culture. These requirements thus supply a broad acquaintance with the traditional liberal arts and a firm basis for more specialized study.

All students in the college select at least one area of academic specialization. This area of specialization may be within one of the traditional disciplines, it may be interdisciplinary or it may be self-designed. Students may also pursue a second major area or one or more minor areas of specialization.

In addition to general requirements and the specific requirements within the areas of specialization, students have elective hours that may be used to pursue secondary areas of specialization, to explore areas of general interest or to take additional coursework within the area of specialization or in related areas. Elective coursework in the liberal arts provides not only a sound basis for more specialized learning but also intellectual enrichment that is of lasting value to any student in the university.

Study in the liberal arts provides a basis for success in a wide variety of careers. In addition to preparing students for later professional study, it provides communication skills, analytical tools and mental flexibility necessary for success in adapting to changing careers in a changing world. Above all, study in the liberal arts prepares students for a lifetime of learning experiences and for personal and intellectual as well as professional growth.

GENERAL COLLEGE REQUIREMENTS

The university's Kent Core and diversity course requirements are included in the College of Arts and Sciences' General Requirements. Students should consult the college office if they have questions concerning the applicability of specific coursework to the general requirements. None of the courses listed as part of the college's general requirements may be taken pass/fail.

For the purposes of the general requirements, students' major departments are defined as the departments that house the major, field of concentration or interdisciplinary program. For students in double major and dual degree programs, the restrictions on the applicability of major coursework toward the general requirements are applied to only one of their majors (generally the primary major).

GENERAL REQUIREMENTS FOR THE BACHELOR OF ARTS

UNIVERSITY REQUIREMENTS (1 credit hour)

Undergraduate Studies (US)

10097 Destination Kent State: First Year Experience (1)

COMPOSITION (6 credit hours)

Placement by ACT/SAT English composition scores; students may be required to take ENG 11001 Introduction to College Writing–Stretch

English (ENG)

11011 College Writing I (3)
or 11002 College Writing I–Stretch (3)

21011 College Writing II (3)

Honors (HONR)

10197 Freshman Honors Colloquium I (4)

10297 Freshman Honors Colloquium II (4)

MATHEMATICS AND CRITICAL REASONING (3-5 credit hours)

MATH 14001 and 14002 may be used to meet the requirement provided both courses were completed while students were enrolled in another college.

Computer Science (CS)

10051 Introduction to Computer Science (4)

Mathematics (MATH)

11008 Explorations in Modern Mathematics (3)

11009 Modeling Algebra (4)

11010 Algebra for Calculus (3)

11012 Intuitive Calculus (3)

12002 Analytic Geometry and Calculus I (5)

12011 Calculus with Precalculus I (3)

12012 Calculus with Precalculus II (3)

Philosophy (PHIL)

21002 Introduction to Formal Logic (3)

HUMANITIES AND FINE ARTS (9 credit hours)

At least one course must be selected from the Humanities in Arts and Sciences/Communication Information area, and a least one course must be selected from the Fine Arts area. Any course marked with a "D" or "G" that is taken to satisfy the humanities and fine arts will also satisfy the diversity requirement.

Humanities in Arts and Sciences

 G 22778 Social Problems (3)
 Basic Sciences (9 credit hours)
 Minimum 9 credit hours must be selected from the courses listed below, or from beginning "major sequences" courses in biological anthropology (ANTH 38630); biological sciences (BSCI 10110, 10120), chemistry (CHEM 10060, 10061, 10062, 10063, 10960, 10961) and physics (PHY 23101, 23102). The total credit hours must include at least one laboratory course (marked "LAB").

Restrictions:

(1) No more than two courses from any curricular area (not counting labs) may be counted toward the basic sciences category.

(2) Credit toward the basic sciences category is not allowed for the following:

- Both PHY 11660 and either the CHEM 10050 series, the CHEM 10060 series or the PHY 13001 series
- Both the CHEM 10050 and the CHEM 10060 series
- More than one of the PHY 13001, PHY 13011 or PHY 23101 series
- Combinations of the BSCI 10001 series, the BSCI 10110 series and/or the BSCI 20020 series

 or 24001 Astronomy (3)

ADDITIONAL COURSES (6 credit hours)

Select additional courses from above (no more than one course per area). One or both of the following courses may also be selected:

Classical (CLAS)

21201 English Words from Classical Elements (3) **Course does not fulfill Kent Core**

Communication Studies (COMM)

15000 Introduction to Human Communication (3)

Philosophy (PHIL)

11009 Principles of Thinking (3)

Foreign Language

2X202 Intermediate II of any foreign language not used to meet the college B.A. language requirement

DIVERSITY

All students must complete a two-course diversity requirement, consisting of one with a domestic focus and one with a global focus. At least one course must be taken from courses that are marked above as global (G) or domestic/U.S. (D). This course may count both for the diversity requirement and for the Kent Core category in which it is listed. The second course may be from the major department; however, it might not apply toward the Humanities, Fine Arts or Social Sciences category. Visit the [Diversity page](#) for a complete course listing.

WRITING INTENSIVE

Students must complete a one-course writing-intensive requirement and earn minimum C (2.00) grade. Visit the [Writing-Intensive page](#) for a complete course listing.

FOREIGN LANGUAGES (14-15 credit hours)

Courses in one foreign language or American Sign Language or equivalent in proficiency is required. This requirement may be fulfilled by one of the following four conditions, as appropriate: (1) passing the first three or four semesters of any foreign language or American Sign Language. Students who receive advanced placement meet the requirement by passing the third or fourth semester of a language; (2) placement in courses beyond intermediate I or II level on the placement examination administered by Academic Testing Services. Consult with the Department of Modern and Classical Language Studies for further information; (3) passing a course beyond intermediate I or II level; or (4) receiving credit for intermediate I or II or beyond from CBE, CLEP or transfer. Note: The requirement may be met with fewer than 14 credit hours if students receive advanced placement. In this case, students are required to complete the remaining hours with general electives.

TOTAL CREDITS: 57-63

Select additional courses from above (no more than one course per area). One or both of the following courses may also be selected:

Communication Studies (COMM)

15000 Introduction to Human Communication (3)

Philosophy (PHIL)

11009 Principles of Thinking (3)

Foreign Language

2X202 Intermediate II of any foreign language not used to meet the college B.S.
language requirement

DIVERSITY

All students must complete a two-course diversity requirement, consisting of one with a domestic focus and one with a global focus. At least one course must be taken from courses that are marked above as global (G) or domestic/U.S. (D). This course may count both for the diversity requirement and for the Kent Core category in which it is listed. The second course may be from the major department; however, it might not apply toward the Humanities, Fine Arts or Social Sciences category. Visit the [Diversity page](#) for a complete course listing.

WRITING INTENSIVE

Students must complete a one-course writing-intensive requirement and earn minimum C (2.00) grade. Visit the [Writing-Intensive page](#) for a complete course listing.

FOREIGN LANGUAGES (8-10 credit hours)

Courses in one foreign language or American Sign Language or equivalent in proficiency is required. This requirement may be fulfilled by one of the following four conditions: (1) passing the first four semesters of any foreign language or American Sign Language (or 14 hours). Students who receive advanced placement meet the requirement by passing the fourth semester of a language; (2) placement in courses beyond intermediate II level on the placement examination administered by Academic Testing Services. Consult with the Department of Modern and Classical Language Studies for further information; (3) passing a course beyond intermediate II level; or (4) receiving credit for intermediate II or beyond from CBE, CLEP or transfer. Note: The requirement may be met with fewer than 14 credit hours if students receive advanced placement. In this case, students are required to complete the remaining hours with general electives.

TOTAL CREDITS: 45-52

- General Information
- English, Composition, Mathematics and Foreign Language
- Limitations on Applicability of Credit
- General Graduation Requirements

THE LIBERAL ARTS AS A CAREER BASE

Study in the liberal arts can provide an excellent basis for a wide range of careers. A liberal arts program acquaints students with many different areas of human thought, behavior and experience. It can provide communication skills, analytical abilities and flexibility necessary for success in many fields of endeavor. Although some careers require specialized undergraduate training (for example, nursing and accounting), many others rely on a broad base of skills and knowledge. It has been predicted that today's college graduates will change careers an average of four times during their working lives. Such changes will involve not only new jobs but also entirely new responsibilities and duties. Changes of this sort require flexibility and adaptability. One of the most important functions of a liberal arts education is to provide a broad knowledge base to make such flexibility and adaptability possible. Students with a sound background in the liberal arts will have the knowledge base required to shift directions and adapt thinking skills learned in one discipline to a variety of work fields.

Certain majors and minors provide specific preparation for particular careers. For example, a major in justice studies can prepare students for work in corrections, police administration, the court system or other related fields. The writing program (minor) provides skills of particular use in any career that requires written communication. Work in geology, geography or cartography can prepare students for certain jobs with government agencies. Most programs in the liberal arts, however, are not tied to specific, individual careers. Instead, they provide the background upon which the career is built.

The liberal arts also provide a good basis for advanced study. Students who pursue a major in the liberal arts may go on to graduate work in that or a related discipline. Many students pursue professional training through graduate programs in medicine, law, business and other areas upon completing a liberal arts degree. A liberal arts undergraduate program can provide both the preparation for such specialized advanced training and a general, broad background that supports and enhances professional work.

In addition, study in the liberal arts provides the foundation for lifelong learning. A broad knowledge base promotes intellectual curiosity and continued intellectual growth. Students with a good liberal arts education have a foundation for enriching their lives immeasurably with interests that go far beyond the demands of a particular career. [GO TO TOP](#)

ORGANIZATION OF THE COLLEGE

The college consists of 16 academic departments. The departments in the area of the humanities include English, History, Modern and Classical Language Studies, Pan-African Studies and Philosophy. Departments in the social sciences include Anthropology, Geography, Political Science, Psychology and Sociology. The natural and mathematical sciences include the Departments of Biological Sciences, Chemistry and Biochemistry, Computer Science, Geology, Mathematical Sciences and Physics.

In addition to these academic departments, the college also houses the School of Biomedical Sciences, the Chemical Physics Interdisciplinary Program and a number of centers and institutes, including the Center for Applied Conflict Management, the Lyman L. Lemnitzer Center for NATO and European Union Studies, the Water Resources Research Institute and the Center for Applied Linguistics. Numerous interdisciplinary curricular programs are also contained within the college. [GO TO TOP](#)

ACADEMIC PROGRAMS

The college offers three undergraduate degree programs: the Bachelor of Arts, the Bachelor of Science and the Bachelor of General Studies. In addition, the college offers five graduate degree programs: Master of Arts, Master of Public Administration, Master of Science, Master of Liberal Studies and Doctor of Philosophy. Information on these programs can be found in the Kent State University

Graduate Schools Catalog.

Bachelor of Arts

The Bachelor of Arts (B.A.) is the traditional liberal arts degree. It emphasizes a broad background in the liberal arts, with a focus in a major field of study. The college currently offers 32 departmental and interdisciplinary majors within the B.A. degree.

The B.A. is designed to impart intellectual breadth and educational diversity. Students who graduate with the B.A. have achieved competence in a major field of specialization within the traditional liberal arts. Such students also have become acquainted with a broad range of human ideas, cultures and institutions.

Departmental Majors

Most students pursuing the Bachelor of Arts degree select one of the traditional departmental majors as their field of specialization. These traditional majors focus on one particular discipline within the humanities, social sciences or natural and mathematical sciences. Most of the coursework required for a departmental major will be taken within the department that houses the major discipline.

Most B.A. departmental majors allow for a fairly large number of elective hours within the undergraduate program. These elective hours may be effectively used to pursue intellectual interests outside the major or for personal enrichment; study abroad can work well in such programs. Students often find it rewarding to apply their elective hours to a second major or a minor. Such combinations of programs can generally be accommodated within the 121 hours required for graduation. Students may also choose to combine a departmental major within the B.A. degree with another degree program, either the Bachelor of Science in the College of Arts and Sciences or another degree in another college.

Whether students pursue a single field of specialization or a combination of such fields, the liberal arts degree with a departmental major can provide the analytical and communications skills needed for success in a wide range of careers. Students with departmental majors enter the professions, business and industry, government and civil service, and secondary and higher education.

Departmental majors in the Bachelor of Arts program in the College of Arts and Sciences are:

- American Sign Language
- Anthropology (Cultural)
- Biology
- Chemistry
- Economics
- English
- French
- Geography
- Geology
- German
- History
- Justice Studies
- Latin
- Mathematics
- Pan-African Studies
- Philosophy
- Physics
- Political Science
- Psychology
- Russian
- Sociology
- Spanish
- Teaching English as a Second Language

Interdisciplinary Majors

B.A. interdisciplinary majors combine coursework from several traditional disciplines. Although drawn from several disciplines, the courses in any interdisciplinary major will have a common factor that reflects the focus of the program. In the interdisciplinary programs, courses in the various divisions of the college—humanities, social sciences, and natural sciences and math—and courses offered in the other colleges of this university are integrated to provide a comprehensive view of the complexities of the field of specialization. This integration of academic disciplines can provide a more coherent interpretation of certain areas of study than is possible through any one traditional field.

Like the departmental majors, the interdisciplinary majors may be combined with a second major, a minor or a separate degree. With the exception of earth science and the individualized major, the college's interdisciplinary majors require that students combine social and cultural study. For this reason, the interdisciplinary majors combine particularly well with majors or minors in the humanities, foreign languages and the social sciences.

Such interdisciplinary study provides the same liberalizing qualities as the traditional departmental majors. It also provides a background appropriate to careers in many fields, including government and education.

The interdisciplinary majors with an international focus are particularly adaptable to various forms of study abroad. Kent State University students may participate in a variety of overseas study and foreign exchange programs operated by the university; they may also, with permission, participate in similar programs offered by other colleges and universities.

Because the interdisciplinary majors are not housed within specific departments, students interested in an interdisciplinary major should consult the coordinator of that program. Interdisciplinary majors in the B.A. program in the College of Arts and Sciences are:

- American Studies*
- Applied Conflict Management
- Classics
- Earth Science
- The Individualized Major
- International Relations
- Latin American Studies*
- Paralegal Studies
- Soviet and East European Studies*

*Admissions suspended until fall 2013.

Bachelor of Science

The Bachelor of Science (B.S.) degree places emphasis on specialization in a chosen field. The college offers 18 fields of concentration as well as several preprofessional advising programs involving coursework in the natural sciences within the B.S. program.

The B.S. degree encourages intellectual breadth and educational diversity. Students who graduate with the B.S. have acquired a firm basis in the traditional liberal arts, along with substantial preparation in a field of concentration. In the process, the students have become acquainted with the content and methodology of these disciplines.

Fields of Concentration

Major areas of study within the B.S. program are referred to as fields of concentration. A field of concentration within the B.S. degree usually encompasses several allied disciplines. It is designed to provide intensive study in one area, with supplemental study in related areas.

Students who intend to pursue graduate study or advanced research in a scientific discipline often choose the B.S. degree because of its intensity of specialization. For some students, however, the B.A. degree may be preferable because of its greater flexibility.

Because of the number of hours required in a field of concentration, students cannot always combine a field of concentration with another area of specialization within the 121 hours required for graduation. In some cases, however, combining areas of specialization can be particularly rewarding. Students who wish to combine programs should seek advice early from the relevant department or college office to plan their schedules carefully.

Fields of concentration in the B.S. program in the College of Arts and Sciences are:

- Anthropology (Biological, Archaeology)
- Applied Mathematics
- Biology
- Botany
- Chemistry
- Computer Science
- Conservation
- French Translation
- Geology
- German Translation
- Mathematics
- Physics
- Russian Translation
- Spanish Translation
- Zoology

The college offers an interdisciplinary B.S. in Biotechnology.

Three-Plus-One Programs

Students who choose to pursue Three-Plus-One programs take three years of preprofessional study at Kent State University, followed by a year or more of intensive professional training at an accredited professional school or clinical facility. Upon the satisfactory completion of this professional training, the B.S. degree from the College of Arts and Sciences at Kent State University is awarded. Students must earn 97 credit hours in a university. Appropriate transfer credit from other institutions may be included in these 97 hours, but the students must complete at least 42 credit hours in-residence at Kent State University, including the last 32 credit hours of the 97-hour requirement.

Students must have a minimum 2.00 GPA in all work taken at Kent State University. They must also complete with at least a 2.00 average all off-campus work taken to fulfill fourth-year requirements. In some fields, students may also be required to present other evidence of the satisfactory completion of the off-campus professional training.

Students must satisfy all degree requirements, including the B.S. General Requirements and field of concentration requirements, by a combination of credits earned at Kent State University and the professional school. The only exception is that the college's foreign language requirement is waived for students who successfully complete a Three-Plus-One program.

Three-Plus-One programs are designed for students with a well-defined, specific, professional career goal. Currently, the College of Arts and Sciences offers a Three-Plus-One program in Medical Technology. Because of the intensive, professional focus of these programs, students pursuing them should work closely with their faculty advisors. Students who are interested in this program should consult the Department of Biological Sciences, 256 Cunningham Hall, for further information.

Please see the [program requirements](#) for the Medical Technology program offered under the College of Arts and Sciences.

Pre-medical Programs

The College of Arts and Sciences offers programs for students who wish to pursue professional careers in medicine. These pre-medical programs are designed to provide a sound basis in biology and chemistry, along with coursework in physics and mathematics. The pre-medicine/pre-osteopathy, pre-veterinary medicine, pre-dentistry and pre-pharmacy programs are intended to prepare students for advanced, professional study in the medical sciences.

These programs meet the coursework requirements for admission to most medical schools. Students who wish to pursue a pre-medical program would be well advised, however, to check carefully the admissions requirements of the professional schools they wish to enter. Students also should seek advice regularly from their faculty advisors.

Students may pursue pre-medical programs under the Bachelor of Arts degree, the Bachelor of Science degree or a carefully designed Bachelor of General Studies degree. The pre-medical programs serve as advising programs for students in the B.A., B.S. and

B.G.S. programs.

See the program for the pre-medical programs in the College of Arts and Sciences.

Minor Programs

Students pursuing a Bachelor of Arts or a Bachelor of Science in the College of Arts and Sciences may undertake, in addition to the primary major or field of concentration, a secondary area of specialization or minor program. In addition, students pursuing the Bachelor of General Studies may incorporate minors within their self-designed programs. Minors provide one way of balancing and integrating an undergraduate course of study. Other routes to the same goal include double majors, dual degrees and single majors with carefully selected electives. Because there are many ways of planning an effective undergraduate program, minors are entirely voluntary. If they wish to do so, students may elect a minor, or more than one minor.

A minor is intended to provide an area of specialization that is less detailed and less extensive than a major program. For this reason, minors require less to complete than majors. They usually provide a general introduction to the discipline or field of study, along with a few more specialized upper-division courses. Students should be aware that a minor generally will not prepare them for advanced study or research in the field without further undergraduate coursework.

Minors may be chosen to complement the major field of study; that is, they may be in a field closely related to the major. However, minors that too closely relate to a major may be prohibited for that major. Students may also choose minors that are in no way related to the major program. In such a case, the minor usually is chosen because of serious personal interest in the field. Minors allow students to pursue their own interests within a structured context.

Two types of minor programs are offered within the College of Arts and Sciences. Students may pursue minors within individual departments, or they may elect interdisciplinary minor programs that include coursework from several departments. Certificates of achievement are awarded to students who successfully complete the interdisciplinary minors; these certificates are described more fully below.

All of the minor programs offered by the College of Arts and Sciences are available to any student pursuing a baccalaureate degree at Kent State University. Students who are pursuing a major degree program outside the College of Arts and Sciences should contact their school or college for further details and to declare these minors.

Departmental Minors

In a departmental minor, coursework is taken entirely or almost entirely within a single department. Students pursuing such a minor will take many of the same courses that majors in the discipline take, but the courses will be fewer in number and may be different in their distribution. Departmental minors provide a detailed introduction to a traditional discipline, but they do not provide the depth supplied by a major program. A departmental minor may be combined with any major or field of concentration within the college except for the major and/or field of concentration that bears the same title.

Departmental minors in the College of Arts and Sciences are:

- American Sign Language
- Anthropology
- Applied Conflict Management
- Applied Mathematics
- Biological Sciences
- Business French
- Business German
- Business Russian
- Business Spanish
- Chemistry
- Computer Science
- Economics
- English
- French
- Geography
- Geology
- German
- Greek
- History
- Justice Studies
- Latin
- Mathematics
- Pan-African Studies
- Philosophy
- Physics
- Political Science
- Psychology
- Russian
- Sociology
- Spanish

Interdisciplinary Minors

Like departmental minors, interdisciplinary minors may be elected in addition to the required major or field of concentration. They may also be incorporated within a B.G.S. program. Like departmental minors, interdisciplinary minors provide a limited specialization in a particular field of study. Interdisciplinary minors require coursework drawn from several disciplines. These courses have an element in common that reflects the focus of the program. Because the interdisciplinary minors include coursework from several disciplines, they can provide a clearer view of certain areas of study than is possible through any one traditional field. The interdisciplinary minors may be combined with any major or field of concentration within the college.

A certificate is awarded upon completion of an interdisciplinary minor indicating that the students have completed a focused course of study in the area. The certificate does not indicate the equivalent of preprofessional training, nor does it imply that the students have met the standards for professional certification of an external professional body.

Interdisciplinary minors in the College of Arts and Sciences are:

- African Studies
- American Studies
- Ancient, Medieval and Renaissance Studies
- Asian Studies
- Jewish Studies
- Latin American Studies
- Lesbian, Gay, Bisexual and Transgendered Studies
- Lithuanian Studies
-
-

British Studies

- Cartography
- Classics
- Climatology
- Comparative Literature
- Geographic Information Science
- German Studies
- Health Care Ethics
- Hellenic Studies

North Atlantic Security Studies

- Paralegal Studies
- Pre-Law
- Religion Studies
- Russian Studies
- Urban Studies and Planning
- Web Design and Programming
- Women's Studies
- The Writing Minor

Minors in Other Colleges

In addition to the minors available within the college, arts and sciences students may also select from a large number of minor programs offered by the other colleges and independent schools at Kent State University. Please see the information concerning the [minors](#) available to arts and sciences students in the College of the Arts, the College of Business Administration, the College of Communication and Information and the College of Education, Health, and Human Services in this catalog. It is essential that students interested in these programs seek advice from both the office of the College of Arts and Sciences and the office of the college responsible for the minor. To successfully complete a minor in another college, arts and sciences students must meet the cumulative GPA requirement for that minor or that college.

Nondegree Programs

Those who wish to take coursework for personal enrichment or to enhance professional skills but do not seek a degree may be admitted to the university as a special "nondegree student." Nondegree students may enroll for one year or 32 hours. If nondegree students wish to become candidates for a degree in the College of Arts and Sciences, they must formally declare their intended major and promptly begin to complete requirements omitted from the previous coursework. [GO TO TOP](#)

ACADEMIC ADVISING

The College of Arts and Sciences provides a comprehensive advising system that is designed not only to help students reach their academic goals but also to assist them in achieving the greatest benefit from their academic programs. Appropriate academic advice can make a major contribution to students' academic success. Students should actively seek out and use the advising resources available.

Student Success

The Undergraduate Catalog is the authoritative advising document for academic programs at Kent State University. In addition to being familiar with this chapter that focuses on arts and sciences programs, students in the College of Arts and Sciences are expected to familiarize themselves with the general university regulations and procedures described in the chapter titled General Information. Further general information about all programs offered through the College of Arts and Sciences is available in the college office (105 Bowman Hall). Students who do not complete their requirements in a timely fashion may find their graduation delayed. For these reasons, students are urged to check their progress regularly with their major faculty advisors and with the college office. The initiative for checking requirements and the responsibility for meeting them rests with the students.

Advising for Transfer Students

Students transferring into the college from another university should consult with the college office for information on the applicability of their transfer coursework to the general requirements of the college and the program requirements of their major and minor programs of study.

Advising for General Requirements

Each of the undergraduate degree programs in the College of Arts and Sciences requires the completion of both general and program-specific requirements. Students with questions regarding the general requirements of the College of Arts and Sciences should visit the college office in 105 Bowman Hall to meet with an advisor.

Advising for Majors

General information about programs and college degree requirements is available to all students in the college office, along with help in planning class schedules, advising for students on probation and help in developing appropriate study skills and habits. Students may also seek advice from the advising coordinators in the various departments and from the coordinators in the interdisciplinary programs. These coordinators can provide information about requirements, programs and other matters pertaining to the academic departments.

Students who have chosen a major in the College of Arts and Sciences must visit the college office to formally declare that major. All students in the College of Arts and Sciences are expected to formally declare a major no later than the beginning of their junior year (60 semester hours). Students are encouraged to declare a major as early as possible. After this formal declaration, students are assigned faculty advisors by their major departments. In addition to their assigned faculty advisors, students may also seek academic advice from departmental chairpersons, departmental advising coordinators and the coordinators of the various interdisciplinary programs.

Students who select the individualized major within the B.A. or the B.G.S. are advised exclusively in the college office. Both of these programs require that students design their own courses of study; students who wish to pursue these programs must work closely with the college office in preparing to apply for admission to the programs.

Major advisors are members of the faculty. They can provide a wide range of information and help for undergraduate students.

Students are urged to see their faculty advisors regularly, not only for schedule planning but also for advice about the discipline in general and for help in preparing for graduate study and eventual career advice. Students should contact their faculty advisors at least once each semester to ensure that they are making adequate progress, to learn about changes in programs and to discuss their ongoing education with an interested and knowledgeable person in the field.

Advising for Minors

Although minors are not required in the College of Arts and Sciences, undergraduate students may include one or more minors in their academic program. All of the [minor](#) programs available to Arts and Sciences students are listed in this catalog. Some of these programs also award certificates of completion. Information about these programs is available from the college office. Minors as well as majors must be formally declared in the college office.

Students who elect an interdisciplinary minor should seek advice from the coordinator of that interdisciplinary program. Students who choose a departmental minor should seek advice from the advising coordinator of that department. Students pursuing a degree in Arts and Sciences who choose a minor in another college of the university (see the section Minors in Other Colleges) should first visit the office of the College of Arts and Sciences for information; they then will be referred to the appropriate college for further advice. In any case, students who elect minors should consult with their major advisors to select courses that will best complement their major programs. [GO TO TOP](#)

GENERAL INFORMATION

Lower-Division/Upper-Division Coursework

Students are required to take a certain number of courses in specific categories to meet University and College General Requirements. These requirements vary according to the degree sought; they are described in the section titled General Requirements for each degree. During the freshman and sophomore years, most of the courses students take will be at the lower-division level. Lower-division courses are numbered 10000-29999 and generally presume that the students have little or no specific background in the discipline. The principle purpose of the lower-division coursework is to lay the foundation of the students' general education and to introduce students to the field of specialization. Transfer students admitted to the college with 64 or more semester hours of credit should complete all remaining freshman and sophomore requirements within one academic year following their first registration.

Most undergraduate specialization is pursued through upper-division coursework. Upper-division courses are numbered 30000-49999. These courses require both greater familiarity with the subject matter and greater intellectual sophistication. Students are required to have completed the appropriate prerequisites in specified lower-division courses before entering upper-division courses. All degree programs in the College of Arts and Sciences require the successful completion of at least 42 upper-division hours of coursework.

Double Majors/Dual Degrees

A program that combines two major fields of study in the same degree program is referred to as a double major program. An example of a double major program would be the combination of the English and history majors in the B.A. program in arts and sciences. Completion of a double major requires that students complete a minimum of 121 hours.

A program combining two majors in distinct degree programs is referred to as a dual degree program. An example of a dual degree program would be the combination of a philosophy major in the B.A. program with a chemistry major in the B.S. program in arts and sciences. Any combination involving degree programs in more than one college is considered to be a dual degree program even if both degrees bear the same title. For example, the combination of an English major in the B.A. program in arts and sciences with an art history major in the B.A. program in the arts is considered a dual degree program. Completion of a dual degree program requires that students complete a minimum of 140 total hours.

The College of Arts and Sciences generally will approve double majors and dual degrees within the college as long as there are at least 21 hours of coursework exclusively applied to each major or field of concentration. Certain major and degree combinations are specifically prohibited based upon departmental recommendations.

The option to pursue double majors and dual degrees continues subsequent to earning a B.A. or B.S. degree in the College of Arts and Sciences. For example, students who have earned a B.A. degree with an English major at Kent State University can have the completion of a second major such as sociology added to their transcript at a later time.

Requests for dual degrees between arts and sciences programs and programs in other colleges are considered on a case-by-case basis by the college office in consultation with the departmental units involved. Combinations involving programs in arts and sciences with related programs in the College of Education, Health, and Human Services generally are restricted.

Elective Credits

For most programs in the College of Arts and Sciences, general requirements plus field of specialization requirements will not exhaust the 121 hours required for graduation. The remaining hours are elective credits and may be chosen at will, including courses in other colleges of the university, provided students possess the necessary prerequisites for the courses selected. Students may, of course, elect to take more than the minimum 121 hours required.

Electives should be carefully chosen to satisfy the students' intellectual interests or to complement and enhance the field or fields of specialization. Students are urged to seek faculty advice in selecting elective courses.

Sequential Coursework

In certain subject fields, such as mathematical sciences, foreign languages, English composition and some of the basic natural sciences, knowledge is sequential or cumulative at the lower levels of study, and courses are structured in clear sequences. Students who already have received credit for, or established proficiency at, one level in such a sequence of courses may not receive academic credit counting toward graduation for a prior course in the sequence or for a course in a lower sequence.

[GO TO TOP](#)

ENGLISH COMPOSITION, MATHEMATICS AND CRITICAL REASONING, FOREIGN LANGUAGE*

The following sections contain specific information concerning the English composition, mathematics and critical reasoning, and foreign language requirements in the College of Arts and Sciences. Students who are uncertain as to the applicability of sequential coursework in these or other areas should consult the office of the College of Arts and Sciences, 105 Bowman Hall.

*Throughout this website, the term *foreign language* includes American Sign Language. [GO TO TOP](#)

English Composition

All programs in the College of Arts and Sciences require the successful completion of the basic College English sequence. The College English sequence consists of ENG 11001 Introduction to College Writing Stretch, followed by ENG 11011, College Writing I and ENG 21011 College Writing II. The initial placement in the college writing sequence is determined by proficiency as established by ACT English or SAT verbal scores. Students must begin the sequence with the course into which they are placed. Students may not receive credit for a course prior in the sequence to the one into which they are placed, nor may students receive credit for a course prior in the sequence to one that already has been completed satisfactorily.

Alternative Means of Fulfillment

Students admitted into the Honors College are required to take the 8-credit hour Freshman Honors Colloquium, regardless of ACT/SAT placement scores. Satisfactory completion of this 8-credit hour sequence also constitutes fulfillment of the College English requirement.

Students may earn College English credit through the subject examination in English Composition of the College Level Examination Program (CLEP); students who earn credit equivalent to ENG 11011 through this program are then placed into ENG 21011. Credit may also be earned through the university's Credit-By-Examination (CBE) program, described elsewhere in this Catalog.

International Students

Students for whom English is a second language are required to complete the special sequence ENG 10205 Advanced ESL Writing II, ENG 10101 College English I for Foreign Students and ENG 21011 College Writing II (the concluding course in the basic college writing sequence).

Entering international students must register for ENG 10205. During the first week of the semester, the Michigan Test of English Language Proficiency will be administered and the results compared to the students' scores on the Test of English as a Foreign Language (TOEFL). Based on these scores, the students will either remain in ENG 10205 or be immediately advanced to ENG 10101.

Students who are placed into ENG 10205 must receive passing grades both in the course and on a final test of language competency before being eligible to enroll in ENG 10101. Upon satisfactory completion of ENG 10101, the students will proceed to ENG 21011 in order to complete the college writing requirement.

Progress Toward Fulfillment

Because College English involves basic skills that are essential to academic progress and academic success, students must begin their College English coursework in the first year of full-time enrollment and continue taking College English until the full requirement is completed. Entering transfer students with junior standing must undertake outstanding portions of the requirement within two semesters.

Mathematics and Critical Reasoning

Students pursuing the B.A. or B.S. in the College of Arts and Sciences must satisfactorily complete a minimum of 3 credit hours in mathematics, computer sciences or logic. Entering freshmen are placed in mathematics coursework based on a mathematics placement test, their ACT math scores and their mathematics coursework in high school. The courses that may be taken to fulfill this requirement are listed under the individual degree requirements. In addition, many programs require that students complete a sequence of courses in mathematics. Because the various introductory mathematics sequences overlap somewhat in content, and because specific programs require specific sequences, students should carefully examine their program requirements before enrolling in mathematics. Arts and sciences students are referred to the college General Requirements for each degree for restrictions on the applicability of MATH 14001 and 14002 toward this requirement.

Students with previous credit in mathematics earned at another institution, through CLEP or through the Advanced Placement Program, may enter the next higher mathematics course in the sequence required in their majors.

In some cases, students may be given a mathematics placement examination upon entering the university. Students may not receive credit for a prior course in any mathematics sequence to one which has already been completed satisfactorily.

Further information about appropriate entry courses may be obtained from the Department of Mathematical Sciences in Room 233 in the Mathematical Sciences Building, 330-672-2430.

Foreign Language

The College of Arts and Sciences' foreign language requirement is stated in terms of proficiency. Students seeking the B.A. degree must demonstrate proficiency equivalent to Intermediate II (or up to 14-15 hours of coursework) in one foreign language; students seeking the B.S. degree must demonstrate proficiency equivalent to Elementary II (or up to 8-10 hours of coursework) in one foreign language. Successful completion of a language-based course at a higher level than the minimum required also will satisfy the requirement.

In general, students may elect any foreign language taught through the Department of Modern and Classical Language Studies or the Department of Pan-African Studies. However, certain majors, fields of concentration and minors require specific languages or limit the languages from which students may choose. In addition, students who plan to pursue graduate study may need particular languages for that study. In such cases, the students should seek the advice of the appropriate department before selecting a language.

The Department of Modern and Classical Language Studies offers courses of study beyond the minimum needed to meet the foreign language requirement in Arabic, Chinese, Greek (classical and modern), Italian, Japanese and Portuguese; however no major is available for them at this time.

Progress Toward Fulfillment

Arts and sciences students are required to begin meeting the foreign language requirement by their third semester of full-time enrollment (that is, no later than upon completing 30 semester hours) and are required to continue to enroll for foreign language courses until the requirement has been completed. Students who transfer to the College of Arts and Sciences from other universities or from other programs at Kent State University with sophomore status are required to begin meeting the foreign language requirement by their second semester of full-time enrollment in the college and must continue to enroll for foreign language courses until the requirement has been completed. Students who fail to meet these stipulations risk unnecessary delays in the completion of their degree programs. The stipulation that arts and sciences students begin meeting the foreign language requirement by their third semester of full-time study applies not only to students with declared majors but also to undeclared students. This includes those students seeking admission to selective programs in other colleges who do not achieve admission to the selective program at the time they achieve sophomore status. [GO TO TOP](#)

LIMITATIONS ON APPLICABILITY OF CREDITS

The following policies impose restrictions on the applicability of credit earned in certain categories of coursework toward meeting graduation requirements for arts and sciences students. Hours restricted under these policies will not be counted toward the 121 total hour or 42 upper-division hour graduation requirements.

Variable Title Courses

Students may earn credit toward graduation through special topics courses, Honors colloquia, seminars and other variable title courses. Such coursework may not be applied toward the general requirements of the college's degree programs. Variable title coursework may not be counted toward major, field of concentration or minor program requirements unless specifically and formally allowed by the academic unit responsible for the program.

Physical Education and ROTC

No more than 4 credit hours of physical education activity (PEB) courses or lower-division ROTC (ASTU and MSC1) coursework, or of the two combined, may be counted toward the 121 credit hours required for graduation. A maximum of 12 upper-division hours in ROTC (ASTU and MSC1) may be counted toward the 121 hours required for graduation by students actively pursuing the university's Army and Air Force ROTC programs. These 12 upper-division credit hours may be counted in addition to the 4 lower-division credit hours permitted for ROTC/PEB courses.

Applied Music and Music Ensembles

A maximum of 8 credit hours in Applied Music and Music Ensembles (MUS courses with a second digit of 5, 6 or 7) combined may be counted toward the 121 total hour or 42 upper-division-hour graduation requirement. There is no limit on other music coursework.

Nontraditional Coursework

A maximum of 16 total hours of coursework from the following categories may be applied toward the 121 total hour and 42 upper-division-hour graduation requirements. Moreover, no more than 8 hours of workshop credit may be applied toward this 16-hour limit. Hours earned in HONR 40099, Senior Honors Thesis/Project, are not included within this 16-hour limit.

Internships, Field Placements, Practica

Credit earned in internships, field placements, practica or courses with a similar experiential/applied nature is included within this 16-hour limitation. Such coursework may not be applied toward the General Requirements of the college's degree programs. The year of clinical training required in the medical technology program, similar training in other Three-Plus-One programs, student teaching and other experiential components of the education minor, and study-abroad programs are exempted from this limitation.

Individual Study

Credit earned in individual study and research coursework is included within this 16-hour limitation. Individual study and research credits may not be applied to major, field of concentration or minor program requirements unless specifically and formally allowed by the department responsible for the major, field of concentration or minor.

Workshops

Credit earned in workshop courses (course numbers ending in XXX93) is limited to no more than 8 hours and is included within this 16-hour limitation. Workshop credit may not be applied to major, field of concentration or minor program requirements unless specifically and formally allowed by the academic unit responsible for the program.

[GO TO TOP](#)

GENERAL GRADUATION REQUIREMENTS

1. Total Hour Requirement

A minimum of 121 hours of applicable coursework must be successfully completed to qualify for graduation. Credit earned in certain prescribed coursework (MATH 10006, 10021, US 10003 and 10006) and hours in excess of the restrictions listed above under Limitations on Applicability of Credit do not count toward the 121 required hours. Depending upon the students' major and high school preparation, students may need to complete additional hours of prerequisite coursework. There are a limited

number of major programs in the College of Arts and Sciences that require more than 121 hours for completion. Further information on these majors can be obtained in the college office.

2. Upper-Division-Hour Requirement

The college requires a minimum of 42 hours of upper-division coursework (coursework at the 30000 and 40000 level). Transfer coursework is considered upper-division only if the coursework was taken as upper-division at the transfer institution. Community college coursework is classified as lower-division.

3. College General Requirements

The General Requirements of the college include the university Kent Core Requirements and diversity requirement as well as any conditional coursework prescribed upon admission, Destination Kent State: First Year Experience and additional coursework in mathematics/logic, foreign language, social sciences and basic sciences. Detailed discussions of the General Requirements for each of the degree programs offered in the college are listed below in the section Degree Program Requirements.

4. Major/Minor Requirements

The particular requirements of all of the major and minor programs offered in the College of Arts and Sciences are described in detail in the sections Degree Program Requirements and Minor Program Requirements. Requirements for minors offered by the other colleges are described in the appropriate college's section of the Catalog.

5. Writing-Intensive Course Requirement

Refer to the Writing-Intensive Course List for specific information on this requirement.

6. Grade Point Average Requirements

Students must achieve a cumulative GPA of at least 2.00 in all coursework taken at Kent State University including Regional Campus coursework. Students must also achieve a 2.00 cumulative average in the fields of specialization, including majors, fields of concentration and minors. Some minors offered by other colleges may stipulate a higher cumulative average requirement.

Students may need to take additional coursework beyond the specified requirements in the major or field of specialization in order to raise the cumulative average in the major or field of concentration to 2.00. In such a case, the course(s) to be used for this purpose must be selected in consultation with the faculty advisor and approved by the dean prior to registration for the course(s). It is generally required that such additional coursework be taken at the upper-division level.

7. Mandatory Outcomes Assessment

In addition to the other General Requirements of the college, candidates for an undergraduate degree in the College of Arts and Sciences are required, as a condition of graduation, to participate in an outcomes assessment. These outcomes assessments are conducted by each undergraduate degree program in the College of Arts and Sciences.

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of Arts and Sciences > Undergraduate Programs > [American Sign Language](#)

COLLEGE: College of Arts and Sciences

DEPARTMENT: Department of Modern and Classical Language Studies
109 Satterfield Hall
Tel: 330-672-2150
Fax: 330-672-4009
Web: <http://www.kent.edu/cas/mcls>

DESCRIPTION: The Bachelor of Arts in American Sign Language (ASL) presents ASL as a culture- and community-based language that interacts with other world languages. Through techniques including immersion and bilingual-bicultural comparison classes, community interaction, research, lab activities and use of digital video technology, students gain documented proficiency in ASL, validity within the deaf community and networking within the professional community.

CAREER OPPORTUNITIES: ASL majors are employed in a number of areas. Some graduates go on to become interpreters in the community. Community interpreting requires a 4 year degree; NIC licensing is preferred, see ASL at KSU's website page on community interpreting: <http://thorykksu.webs.com/communityinterpreting.htm>. Other graduates go on to teach ASL; a minor in second language education/pedagogy is required in order to obtain state licensure as needed to teach regular education K-12. Other graduates go on to work in mental health settings, non-profit agencies, Community Centers for the Deaf, and Deaf-owned businesses (which often require additional skills and possible minors in information technology, business, sales and marketing, or office management). Some graduates go into media or political advocacy, while others go on to graduate school in theater, library sciences, education, special education, medicine, legal studies, rehabilitation, linguistics and psychology.

For more on this topic, search the American Sign Language Pedagogy at Kent State.

ADMISSION REQUIREMENTS: General Admissions for New Freshman: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#). It is helpful to have been strong in English and language-related courses.

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the [Admissions website for transfer students](#).

GRADUATION REQUIREMENTS: Minimum 121 total credit hours and 42 upper-division hours for graduation. Minimum 2.00 GPA overall and 2.00 GPA in major required for graduation.

CULMINATING REQUIREMENTS: Successful community service projects in ASL 29202, 39201, and 39202; documentation of a proficiency level of Intermediate or above on the Sign Language Proficiency Interview (administered off-site), and successful completion of the capstone project in ASL 49201.

LANGUAGE REQUIREMENT: Yes

PROGRAM FEE: None

ACCREDITATION: The ASL major at KSU is the only program in the nation to have obtained national recognition and accreditation from the National Council for the Accreditation of Teacher Education (NCATE) and the American Council on the Teaching of Foreign Languages (ACTFL)

STUDY ABROAD/AWAY OPPORTUNITIES: The Sienna School for Liberal Arts, in Siena, Italy. Scholarship opportunities are available.

STUDENT ORGANIZATIONS: American Sign Language Club

GRADUATE PROGRAMS: M.A. in Translation
M.A., M.Ed., M.A.T. in Secondary Education
Eds in Special Education
M.Ed and Ed.S. in School Psychology

Alumni have successfully applied to multiple graduate programs including linguistics, rehabilitation, special education, library science, medicine, and political science.

IV. ADDITIONAL PROGRAM REQUIREMENTS (73 credits)				
Type	Course	Title		Credits
		Kent Core Additional (must be from two categories)		6
		Kent Core Basic Sciences (must include one laboratory)		9-10
		Kent Core Composition		6-8
		Kent Core Humanities and Fine Arts (minimum one course from each)		9
		Kent Core Mathematics and Critical Reasoning		3-5
		Kent Core Social Sciences (must be from two disciplines)		9
		General Electives (minimum 6 upper-division credit hours)		31
MINIMUM TOTAL				121

*Students majoring in American Sign Language may have some proficiency in the language through high-school study. Students with previous American Sign Language study should take the American Sign Language Placement Test, offered twice per semester, and enroll in the correct course based on their score.

**A minimum C grade must be earned in either ANTH 48214 or ASL 49309 to fulfill writing-intensive requirement.

ASL 49096 Individual Investigation is a recommended elective. Students should consult with their major advisor at least one semester before registering since a completed, approved research proposal is required before taking the course.

COLLEGE: College of Arts and Sciences

DEPARTMENT: 105 Bowman Hall

Tel: 330-672-2062

Web: <http://www.kent.edu/CAS/index.cfm>

DESCRIPTION: Courses in the Bachelor of Arts in American Studies enable undergraduates to study the many rich facets of the United States and its place in the global world using a variety of disciplines, including historical and literary studies, visual studies, musicology, media studies and ethnic and gender studies. The curriculum emphasizes the diversity of American society and culture while stressing the importance of studying the often conflicting stories of nationhood and the range of experiences of what it has meant—and continues to mean—to be American.

CAREER OPPORTUNITIES: Postsecondary teachers held nearly 1.7 million jobs in 2008. The following tabulation shows postsecondary teaching jobs in specialties having 20,000 or more jobs in 2008. (Source: Bureau of Labor Statistics)

ADMISSION REQUIREMENTS: General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). Kent State University Catalog 2010 - 2011

» Ancient, Medieval and Renaissance Minor

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of Arts and Sciences > Minors > [Ancient, Medieval and Renaissance](#)

Interdisciplinary
 Susanna Fein and Isolde Thyr t, Coordinators
 113 G Satterfield and 305 Bowman

The program in ancient, medieval and Renaissance studies offers a culturally comparative minor in which the distance of time lends profound diversity from present experience. The program allows students to explore the origins and development of Western culture as defined across continents, religions and civilizations, through a range of disciplines (anthropology, architecture, art, fashion, history, language, literature, music, philosophy and theatre). The program's flexibility encourages students to pursue specific interests, for example, early religion, high medieval culture, classical influences upon the Renaissance or Byzantine culture.

Students earning a minor in AMRS take a total of 21 semester hours—6 lower-division credit hours and 15-16 upper-division credit hours—in at least three disciplines. No more than 6 credit hours counted toward the major may also be counted toward the minor. There is no specific language requirement, but students are encouraged to select a language that could be used to satisfy the [Kent Core Requirements](#) and also to support their AMRS minor coursework. In selecting courses for the minor, students are responsible for meeting the prerequisites set by individual disciplines.

ANCIENT, MEDIEVAL AND RENAISSANCE MINOR REQUIREMENTS (21 credits)

Roadmaps

B.A. Program Requirements

B.S. Program Requirements

College Requirements

University Requirements

DESCRIPTION: The Bachelor of Arts in Anthropology focuses on the evolution of humans and their role in past and present environments. Anthropology's relevance to other areas of study, including sociology, social-psychology, biology and pre-medicine, links it to culture area studies, community planning and public health. Majors in the biological aspect of human nature benefit greatly from the freshmen human evolution laboratory. The program also provides an excellent foundation for the studies of such cultures as Mesoamerica and the South Pacific.

The Bachelor of Science in Anthropology consist of two concentrations in archeology and biological anthropology.

Archaeology uses the scientific method to teach students about past human societies and their environment from a comparative perspective. The program emphasizes the interdisciplinary nature of archaeology and draws from geography, geology, mathematics and chemistry. The program features hands-on training using the latest technologies, including digital recording and mapping equipment, remote sensing and Geographic Information Systems. Regional areas of specialization include Mesoamerica and eastern North America.

Biological Anthropology embodies the study of human evolution, teaching students about primate evolution, human origins and modern human variation, and the biological basis of human behavior. Biological anthropologists require primary training in chemistry and mathematics as well as the biological sciences such as ecology, zoology and evolution. The subject is also linked to pre-medicine and public health. Additionally, the new freshmen human evolution laboratory enhances the learning process in the biological aspect of human nature.

CAREER OPPORTUNITIES: A degree in Anthropology will prepare you for working with people, regardless of the specific career. It may be a stepping stone to higher degrees and/or careers in law school, medicine, or education; it may serve as a final degree in human biology or behavior, or, it may be preparation for graduate school in anthropology. Regardless, a background with a strength in human cultural and biological diversity is a gateway to a variety of careers. A recent study of students graduating with a BA in Anthropology from a major eastern university found careers in a variety of disciplines (sales, public health, teaching K-12, law, marketing, social work, school administration, small business, medicine, family counseling) (Omohundro, 2001). Some of these individuals went on to higher degrees in other fields, others found careers after having completed their BA.

About 75% of Anthropologists with Ph.Ds and some with Master of Arts degrees are teaching in colleges and universities (Omohundro, 2001). Many of those employed in academia also conduct research, often in foreign countries, but also in the U.S. (in cities, zoos, etc.). Since the 1980's employment in the non-academic sector has improved in volume and diversity with anthropologists employed in government positions (about 14%: such as the FBI, CIA, and EPA, and federally funded museums like the Smithsonian Institution), non-governmental positions (about 11%: for example conservation organizations – World

Wildlife Fund, Conservation International, Nature Conservancy, international relief organizations, the United Nations) and for-profit organizations (about 25%, for example, in state or county museums, zoos, coroner's offices, contract archaeology companies, and self-employed consultants). Employment opportunities for MA professionals in archaeology are substantially greater than for the other subfields because of the greater opportunities for employment in the private sector.

(Source: Omohundro, John T. 2001 Careers in Anthropology; Wadsworth's Anthropology Resource Center)

ADMISSION REQUIREMENTS:

General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Student: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the [Admissions website for transfer students](#).

GRADUATION REQUIREMENTS:

Minimum 121 total credit hours and 42 upper-division hours for graduation. Minimum 2.00 GPA overall and 2.00 GPA in major required for graduation.

Applied Conflict Management - B.A.

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of Arts and Sciences > Undergraduate Programs > [Applied Conflict Management](#)

COLLEGE: College of Arts and Sciences

DEPARTMENT: Center for Applied Conflict Management
321 Bowman Hall
E-mail: cacm@kent.edu
Tel: 330-672-3143
Fax: 330-672-3362
Web: <http://www.kent.edu/cacm>

DESCRIPTION: The Bachelor of Arts in Applied Conflict Management prepares students for careers or graduate study in the field of conflict management and dispute resolution. Kent State has one of the oldest, largest and most highly regarded undergraduate programs in peace and conflict studies in the country. Areas of focus include mediation, negotiation, environmental conflict resolution, international conflict resolution, workplace conflict management, nonviolent action and community organizing. Students learn applied skills and make contacts through a required internship in the profession.

CAREER OPPORTUNITIES: Community mediation centers and programs, labor organizations, law offices, non-profit organizations, insurance carriers, and other private companies and organizations that specialize in providing mediation and other dispute resolution services. Grievance and ombuds officers in educational systems and in companies and corporations. Human resource and personnel management offices. Human service agencies. Community organizing. (Source: Bureau of Labor Statistics)

ADMISSION REQUIREMENTS: General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the [Admissions website for transfer students](#).

GRADUATION REQUIREMENTS: Minimum 121 total credit hours and 42 upper-division hours for graduation. Minimum 2.00 GPA overall and 2.00 GPA in major required for graduation.

LANGUAGE REQUIREMENT: Yes

STUDY ABROAD/AWAY OPPORTUNITIES: This is an "applied" degree, thus we require an internship in the field of between 3-12 credits. This can be done in a wide variety of contexts and places of the student's choosing, with faculty approval.

PROGRAM FEE: None

I. DESTINATION KENT STATE: FIRST YEAR EXPERIENCE (1 credit)				
Type	Course	Title		Credits
	US	10097	Destination Kent State: First Year Experience	1
II. MAJOR PROGRAM REQUIREMENTS (48 credits) <i>Courses count in major GPA</i>				
Type	Course	Title		Credits
KSS	CACM	11001	Introduction to Conflict Management	3
		21002	Gender, Power and Conflict	3
		22020	International Conflict Resolution	3
		31003	Nonviolence: Theory and Practice	3
		31010	Conflict Theory	3
		35092	Internship in Conflict Management	3
		38080	Mediation: Theory and Training	3
WIC		41010	Reconciliation vs. Revenge*	3
WIC		42020	Qualitative Research in Conflict Management*	3
		Major Elective (minimum of 9 hours must be upper division)**		18
		Choose from the following:		3
	CACM	21010	Cross-Cultural Conflict Management (3)	
		32020	Strategic Planning (3)	
		33030	Conflict in the Workplace (3)	
		34040	Negotiation (3)	
		35050	Environmental Conflict Resolution (3)	
III. ADDITIONAL PROGRAM REQUIREMENTS (72 credits)				
Type	Title			Credits
	Foreign Language			14-16
	Kent Core Additional (must be from two categories)			6
	Kent Core Basic Sciences (must include one laboratory)			9-10
	Kent Core Composition			6-8
	Kent Core Humanities and Fine Arts (minimum one course from each)			9
	Kent Core Mathematics and Critical Reasoning			3-5
	Kent Core Social Sciences (must be from two disciplines)			6
	General Electives (minimum 12 upper-division credit hours)			
	<i>Number of credits required depends on meeting minimum 121 credit hours and minimum 42 upper-division credit hours</i>			19
MINIMUM TOTAL				121

* A minimum C grade must be earning in either CACM 41010 or CACM 42020 in order to fulfill the writing-intensive requirement.

** Select from the following programs, chosen in consultation with a CACM advisor: Anthropology, Applied Conflict Management, Communication Studies, Geography, History, Human Development and Family Studies, Justice Studies, Management and Information Systems, Pan-African Studies, Philosophy, Political Science, Psychology, Public Relations, Sociology or Approved others. Credits from CACM 35092 Internship in Conflict Management may be used to fulfill major electives (prerequisite: two upper-division CACM courses and junior standing).

Applied Mathematics - B.S.

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of Arts and Sciences > Undergraduate Programs > [Applied Mathematics](#)

COLLEGE: College of Arts and Sciences

DEPARTMENT: Department of Mathematical Sciences
Mathematics and Computer Science Building
E-mail: math@math.kent.edu
Tel: 330-672-2430
Fax: 330-672-2209
Web: www.kent.edu/cas/math

DESCRIPTION: Mathematics provides an excellent means for developing strong analytical and critical-thinking skills.

The Bachelor of Science in Applied Mathematics emphasizes the tools most useful in science, engineering and technology applications: mathematical modeling, scientific computing and probability and statistics. The B.S. in Applied Math at KSU offers the follows four concentrations.

Applied Mathematics concentration emphasizes the classical aspects of the discipline, which are rooted in mathematical modeling and applications in the sciences. It couples well with Physics as a minor or double major.

Computational Mathematics concentration is designed for students with interests in numerical modeling and scientific computing; it pairs well with Computer Science as a minor or double major.

Financial Mathematics concentration prepares students for graduate programs in mathematical or computational finance or financial engineering, such as Kent State's interdisciplinary Master of Science in Financial Engineering.

The Applied Mathematics- Probability and Statistics concentration emphasizes the mathematics underlying processes that involve randomness and the mathematical tools used in the analysis of data.

CAREER OPPORTUNITIES: A degree in mathematics opens the door to a very wide range of satisfying and lucrative career opportunities. Many of them are consistently top-ranked in annual job satisfaction surveys which take into account key components including salary, work environment, job stability, and benefits. For example, a 2009 survey by the Wall Street Journal found that the top three jobs among the 200 they surveyed were; Mathematician, Actuary and Statistician. Each of these careers begins with a mathematics degree (and several others in the top ten also pair well with a math minor or double major).

Indeed, in our technology and information-driven society, the ability to analyze and solve quantitative problems is naturally a key factor which distinguishes the most valuable employees and highest earners. Contrary to a popular misconception (which is not shared worldwide), mathematicians develop problem-solving skills far beyond the domain of textbook problems in arithmetic and algebra—their analytical skills have always been highly valued in the business world. For this reason, mathematics-related careers tend to be less stressful and offer greater work-life balance than most other careers with comparable salaries.

The good news is that earning a degree in mathematics is not as difficult as others would have you believe. It is challenging, yes, but not more so than most science programs; and the long-term rewards speak for themselves!

ADMISSION REQUIREMENTS: General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of

[B.S. Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: The Bachelor of Arts in Biology is designed for students interested in the biological sciences but eager to pursue a wider set of interests in the liberal arts. This degree is offered by the Department of Biological Sciences.

The Bachelor of Science in Biology consists of three different concentrations: Molecular and Cellular Biology, Organismal Biology, Pre-Medicine/Pre-Osteopathy/Pre-Dentistry. This degree is offered by the Department of Biological Sciences.

Molecular and Cellular Biology prepares students for careers and postgraduate work in molecular or cell biology, especially in biomedical sciences. Students who select this program are interested in cells, molecular biology, genetics and processes within organisms. Biology majors have the option to seek employment immediately after graduation in the private, public or nonprofit sector, or to continue their education in a wide variety of graduate and professional programs.

Organismal Biology enables students to focus on whole organism studies while maintaining a great deal of flexibility in course choice. This program helps prepare students for graduate school in areas such as ecology and animal/plant science, and for careers not requiring molecular and cell biology skills. Biology majors may seek employment immediately after graduation or continue their education in a wide variety of graduate and professional programs.

Pre-Medicine/Pre-Osteopathy/Pre-Dentistry prepares students for careers in medicine and health care. The curriculum provides the courses required for admission to medical, dental and graduate schools, as well as other professional programs (e.g., optometry, physician's assistant).

CAREER OPPORTUNITIES: Biologists work in a variety of settings and alumni with Biology degrees from Kent State have gone on to work for state agencies, companies, and a host of other employers. Others have gone on for additional education for employment opportunities in the health care professions as doctors, dentists or other health care workers, professors, educators and the many other professions related to the biological disciplines. Many students completing an undergraduate biology degree will go on for additional education in graduate or professional programs. Other students will opt to enter directly into the workforce upon Bachelors degree completion. For those not seeking additional education, career opportunities are available in state, local, and federal agencies, private companies and industry, and non-profit groups. Federal statistics reveal that about 40 percent of all biological scientists are employed by Federal, State, or local governments.

The Department of Biological Sciences has several mechanisms to help students prepare for their future careers. All students, particularly those who plan to go on to graduate school or seek employment directly after degree completion, are strongly encouraged to complete research projects, through our Individual Investigation course, and/or do an internship in the area in which they plan to be employed. In addition, we offer BSCI 30005, Career Pathways in Biology, which provides students a chance to learn more about career paths and how to achieve their goals. Lastly, students are expected to meet regularly with their

**Any combination of BSCI courses. Students should consult with a biology advisor to determine the most appropriate courses given their disciplinary interests and career aspirations.

Biology courses not accepted for credit in the major:

BSCI 10001 Human Biology (3)
 10002 Life on Planet Earth (3)
 20001 Zoological Foundations of Medicine (4)
 20020 Biological Structure and Function (5)
 20021 Basic Microbiology (3)
 20022 Basic Microbiology Laboratory (1)
 30030 Human Physiology (4)
 30050 Human Genetics (3)
 40020 Biology of Aging (3)

I. CONCENTRATION REQUIREMENTS (39 credits) Courses count in major GPA			
Type	Course	Title	Credits
BSCI	30140	Cell Biology	4
	40158	Molecular Biology	3
	Choose from the following		1-3
	20482	Basic Organic Chemistry II (2)	
	30475	Organic Chemistry Laboratory I (1)	
	30482	Organic Chemistry II (3)	
	Choose from the following: BSCI and/or CHEM and/or PHY		31
BSCI	Biology courses* (in consultation with advisor) (16-31)		
CHEM	20482	Basic Organic Chemistry II (2)	
	or		
	30482	Organic Chemistry II (3)	
	30475	Organic Chemistry Laboratory I (1)	
	30476	Organic Chemistry Laboratory II (1)	
PHY	13001	General college Physics I (4)	
	and		
	13021	General College Physics Laboratory I (1)	
	or		
	23101	General University Physics I (5)	
	13002	General College Physics II (4)	
	and		
	13022	General College Physics Laboratory II (1)	
	or		
	23102	General University Physics II (5)	
II. ADDITIONAL CONCENTRATION REQUIREMENTS (14 credits)			
Type	Course	Title	Credits
	General Elective (minimum 10 upper-division credit hours; number of credits required depends on meeting minimum 121 credit hours and 42 upper-division hours)		14
TOTAL			53

*Must take any one of the following:

Maximum 6 credit hours of any combination of the following may be used to fulfilling this elective (enrollment in these course must be determined with a faculty advisor)

- BSCI 30005 Career Pathways in Biology (1)
- 40099 Senior Honors Thesis (1-3)
- 40191 Senior Seminar (1)
- 40192 Internship in Biological Sciences (3-6)
- 40196 Individual Investigation (1-3)

Organismal Biology Concentration

For semester-by-semester course sequencing for this program, view the [2010-2011 Roadmap](#).

I. CONCENTRATION REQUIREMENTS (38-42 credits) Courses count in major GPA			
Type	Course	Title	Credits
	Choose from the following: Organismal Core		7-8
BSCI	30171	General Microbiology (4)	
	30275	Local Flora (4)	
	30360	General Ecology (4)	
	30560	Invertebrate Zoology (4)	
	30580	Entomology (4)	
	40272	Plant Anatomy (4)	
	40277	Morphology of Lower Plants (4)	
	40430	Animal Physiology (3)	
	40556	Vertebrate Zoology (4)	
	Choose from the following		1-3
	20482	Basic Organic Chemistry II (2)	
	30475	Organic Chemistry Laboratory I (1)	
	30482	Organic Chemistry II (3)	
	Choose from the following: BSCI and/or CHEM and/or PHY		30-31
BSCI	Biology courses* (in consultation with advisor)		
CHEM	20482	Basic Organic Chemistry II (2)	

		or	
	30482	Organic Chemistry II (3)	
	30475	Organic Chemistry Laboratory I (1)	
	30476	Organic Chemistry Laboratory II (1)

DESCRIPTION:

The interdisciplinary Bachelor of Science in Biotechnology provides a strong academic foundation in biological sciences and chemistry, practical training in the various biotechnologies and a solid understanding of their application in industry and biomedicine. The science of biotechnology extends across many areas of biology and chemistry and provides cutting-edge technology tools for modern biology and biomedical research. The curriculum includes a research experience at Kent State and/or an internship at a biotechnology company. Biotechnology graduates have employment opportunities in biomedical research and in the rapidly growing biotechnology and pharmaceutical industries.

CAREER OPPORTUNITIES:

This U.S. biotechnology industry comprises establishments primarily engaged in conducting biotechnology research and experimental development. Biotechnology research and experimental development involves the study of the use of microorganisms and cellular and biomolecular processes to develop or alter living or non-living materials. This research and development in biotechnology may result in development of new biotechnology processes or in prototypes of new or genetically-altered products that may be reproduced, utilized, or implemented by various industries.

Biotechnology establishments in the U.S. numbered about 26,000 in 2007 and include the following subsectors: Agricultural Biotech, Industrial Biotech, Medical Devices Equipment & Supplies, and Pharmaceuticals and Related Manufacturing. In 2008, 141,721 biotechnologists were employed in these areas, an increase of 4.6% over the previous year.

Bioinformatics is an important area of biotechnology. Bioinformatics tools are applied to visualize, analyze, manipulate or interpret molecular data. Bioinformatics technicians, for example, use principles and methods of bioinformatics to assist scientists in areas such as pharmaceuticals, medical technology, biotechnology, computational biology, proteomics, computer information science, biology and medical informatics.

Biotechnology majors will also pursue careers in a variety of chemical, biological, or biomedical areas in industrial or academic settings in which biotechnology methods are applied. Careers in biotechnology include laboratory technician, biologist, process supervisor, research specialist, research & development scientist, process development technician, quality control technician/analyst, research technician/associate/assistant, bioinformatics technician, and others.

ADMISSION REQUIREMENTS:

General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new](#)

[University Requirements](#)

DESCRIPTION: Students in the Bachelor of Science in Botany study a wide variety of topics, concentrating on plant-related courses. Botany students often continue their education in a wide variety of postgraduate professional or graduate programs, leading them to careers involving the plant sciences. This degree is offered by the Department of Biological Sciences.

CAREER OPPORTUNITIES: Many students completing an undergraduate botany degree will go on for additional education in graduate or professional programs. Other students will opt to enter directly into the workforce upon Bachelors degree completion in fields related to the economic importance of plants including agriculturally-based and related professions, environmental consulting or in federal, state or local agencies. The Department of Biological Sciences has several mechanisms to help students prepare for their future careers. All students, particularly those who plan to go on to graduate school or seek employment directly after degree completion, are strongly encouraged to complete research projects, through our Individual Investigation course, and/or do an internship in the area in which they plan to be employed. In addition, we offer BSCI 30005, Career Pathways in Biology, which provides students a chance to learn more about career paths and how to achieve their goals. Lastly, students are expected to meet regularly with their faculty advisor to talk about career options, get help in selecting electives, and discuss ways to get experience required for their career goals.

ADMISSION REQUIREMENTS: General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). B.A. Program Requirements

B.S. Program Requirements

College Requirements

University Requirements

DESCRIPTION: The Bachelor of Arts in Chemistry has fewer required courses than Bachelor of Science program, which allows students greater flexibility in choosing electives and additional concentrations. Although not intended for students planning to become practicing chemists, this degree program is well suited for those needing a strong chemistry background as preparation for other career opportunities. The degree may be used to meet pre-medicine and pre-dentistry requirements when appropriate courses from the biological sciences are used to fulfill elective hours. However, the B.S. in Chemistry–Biochemistry is strongly recommended for students interested in medical or dental school.

The Bachelor of Science in Chemistry consists of four concentrations: Biochemistry, Biochemistry - Pre-Medicine/Pre-Osteopathy/Pre-Dentistry, Chemistry and Materials Chemistry.

Biochemistry provides one of the strongest possible preparations for medical and dental school. Tailored for students interested in careers in medicine, dentistry or pharmacy, as well as those planning to pursue graduate study in biochemistry, it provides ideal preparation for students intending to pursue a Doctor of Pharmacy degree, having been designed to closely fit the requirements of the Northeastern Ohio Universities College of Pharmacy (NEOUCOP). Students may transfer to NEOUCOP after three years at Kent, using 16 credit hours of courses from NEOUCOP to complete their Kent State degree requirements. With the appropriate electives, this degree concentration may be certified by the American Chemical Society.

Biochemistry–Pre-Medicine/Pre-Osteopathy/Pre-Dentistry provides one of the strongest possible preparations for medical and dental school.

Chemistry is designed for students interested in careers as practicing chemists in industrial research and development, in government research laboratories or in academia. It includes a strong foundation in both chemistry and related disciplines (physics and mathematics), and provides opportunities to pursue advanced chemistry electives. This concentration meets the requirements for certification by the American Chemical Society and is ideal for students who plan to pursue graduate studies in chemistry.

Materials Chemistry is recommended for students interested in pursuing graduate study or industrial careers in materials science, including nanotechnology. Its requirements, similar to those of the traditional chemistry concentration, provide an opportunity for more in-depth study in the synthesis and characterization of inorganic and organic materials, including polymers.

CAREER OPPORTUNITIES: Chemists and materials scientists held about 94,100 jobs in 2008. Chemists accounted for about 84,300 of these, and materials scientists accounted for about 9,700 jobs. In addition, 24,800 chemists held faculty positions.

About 42 percent of Many chemistry graduates find employment in government research and analysis, forensic science, industrial research and development and manufacturing in fields such as pharmaceuticals, biotechnology, cosmetics, materials (liquid crystals, plastics, ceramics, paints and

coatings, composites, nanotechnology), energy (petrochemicals, biofuels, energy storage), agriculture, the food industry, environmental science (water resource management, pollution monitoring), and instrument design.

(Source: Bureau of Labor Statistics)

ADMISSION REQUIREMENTS:

General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

GRADUATION REQUIREMENTS:

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the [Admissions website for transfer students](#).

Minimum 121 total credit hours and 42 upper-division hours for graduation. Minimum 2.00 GPA overall and 2.00 GPA in major required for graduation.

LANGUAGE REQUIREMENT:

Yes

STUDY ABROAD/AWAY OPPORTUNITIES:

Exchange program with the University of Leicester (UK)

PROGRAM FEE:

None

ACCREDITATION:

American Chemical Society

STUDENT ORGANIZATIONS:

Bachelor's of Arts: Alpha Chi Sigma

Bachelor's of Science: Alpha Chi Sigma; American Medical Student Association, Kent State University; Doctoral Student Management Association (DSMA); Phi Delta Epsilon

GRADUATE PROGRAMS:

M.S. in Chemistry

[University Requirements](#)

DESCRIPTION: The Bachelor of Arts in Classics consists of three concentrations; Greek, Latin and Classical Civilization.

Greek Concentration offers instruction in both Ancient Greek and Latin. Students learn to read original Greek text by such authors as Plato and Homer in the original, and they take one year of Latin in order to enrich their knowledge of Classical languages. Student may select from a list of culture courses dealing with the art, archaeology, history, mythology and literature of the Classical world. Colloquia are regularly offered covering such thematic topics as Violence, Gender and Sexuality, and Ancient Christianities. A Classics major provides an excellent foundation in the Western humanities while sharpening a student's analytical skills and English vocabulary through the systematic study of the ancient languages.

Latin Concentration offers instruction in both Latin and Ancient Greek. Students learn to read original Latin text by such authors as Cicero and Vergil in the original, and they take one year of Greek in order to enrich their knowledge of Classical languages. Students may select from a list of culture courses dealing with the art, archaeology, history, mythology and literature of the Classical world. Colloquia are regularly offered covering such thematic topics as Violence, Gender and Sexuality, and Ancient Christianities. A Classics major provides an excellent foundation in the Western humanities while sharpening a student's analytical skills and English vocabulary through the systematic study of the ancient languages.

Classical Civilization Concentration is designed for students with a broad interest in the classical world. The major offers a wide variety of diverse subjects, including the literature, art archaeology, history, law, religion, sport and mythology of the Classical world. Colloquia are regularly offered covering such thematic topics as Violence, Gender and Sexuality, and Ancient Christianities. The course work for the major is all in English, but students may elect to substitute up to 12 hours of coursework in ancient Greek or Latin beyond the elementary level. The program provides students with a strong, general liberal arts education appropriate to many pursuits after college, including law, medicine, business, writing and publishing.

CAREER OPPORTUNITIES: As a foundational discipline in the Liberal Arts, Classics does not prepare you for one narrow path of employment. Rather, it develops effective communication and cognitive skills, and provides you with experience in analyzing and solving problems in a variety of contexts: historical, literary, philosophical, and aesthetic. Graduates with a Classics degree have gone on to careers in law, higher education, business, nonprofit, and politics. A Classics Baccalaureate degree also provides preparation for those wishing to pursue graduate study in a number of fields including Classical Philology, History, Literature, and Archaeology.

ADMISSION REQUIREMENTS: General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or

DESCRIPTION: The Bachelor of Science in Computer Science nurtures students to become leaders in their chosen fields by integrating theory with programming and using strong student-instructor interaction, faculty-supervised team-oriented programming projects and industrial internships. Graduates secure jobs involving computer networks and software development and the design, programming and administration of computers. The program is also available as a combined B.S./M.S. degree.

CAREER OPPORTUNITIES: Computers influence the daily lives of almost every individual and industry in modern civilization. Many careers in computer science involve a large amount of social interaction with users and customers to determine product requirements or problems. Careers often require creativity and drive to develop and apply new technology. Teams of bright, social, and creative individuals develop software. Certainly, computer science is one of the most exciting and rewarding career choices for the future.

Computer Science graduates hold jobs in the areas of computer networking, database administration, computer-aided design such as in the auto and aviation industries; IT services (including contract based programming) for automation of industrial processes; custom computer programming services, network and information security, computer game design, computer animation, network and data communication analysis, network and system administration, financial software development, computer design and development, computer related software development, web development and management, mobile computing software development, management of large scale software systems, development of automation software, software for intelligent systems used in robotics, avionics, automation, and defense industries, data mining for planning and forecasting, medical Informatics for managing and analyzing large amount of health related data, bioinformatics to design and develop new medicines, multimedia interfaces for human-computer interaction.

Computer Science graduates are employed in a wide range of industries such as the auto industry, avionics industries, the telecommunications industry, manufacturing industries; transportation and postal industries, health industries, finance industries such as investment, insurance and banking, computer design and software development industries, government agencies for data and information management analysis, the corporate sector of every industry to analyze data, automate and plan tasks, and forecast sales.

According to the 2008 United States Bureau of Labor statistics, computer network, systems, and database administrators held about 961,200 jobs. There are 120,400 database administrators with a median salary, in May 2008, of \$72,900. There were 339,500 network and computer systems administrators with a median salary of \$66,310; 292,000 network systems and data communication analysts with a median salary of \$71,100. In addition, about 209,300 were employed as "computer specialists" in other industries. According to this same source, there were 394,230 computer programmers with a median salary of \$73,470; 494,160 computer software application engineers with a median salary of \$87,900; 381,830 computer software system engineers with a median salary of \$94,520. There are 191,780 other computer specialists in various industries with a median salary of \$76,000. There are 489,890 computer systems analysts with a median salary of \$78,830. There are 26,610 research computer and information scientists

with a median salary of \$100,900.

The starting salary of a new computer science graduate (BS in Computer Science) in the year 2010 is estimated to be \$59,700. Job prospects are excellent, and job growth is expected to be much faster (around 20% faster) than other similar disciplines. Salaries are growing at a healthy 4% - 6% rate per year. According to the Northeast Ohio Information Technology Workforce (NorTech) Report, the demand for computer scientists will remain strong for years to come with demand easily outpacing supply.

Program Requirements

College Requirements

University Requirements

DESCRIPTION: The Bachelor of Science in Conservation, designed for students interested in a career in the environmental sciences, provides a depth of educational experience in biology as well as in the supporting fields of geology, geography, chemistry and mathematics. Conservation majors may find employment in local state and federal agencies, in private industry, in foundations, nature centers, zoos or museums. This degree is offered by the Department of Biological Sciences.

CAREER OPPORTUNITIES: Nationally, most conservation scientists are employed by local (including parks systems), state or federal agencies. In addition, many graduates from the conservation program at Kent State go on to work for environmental consulting firms. Some conservation students will go on to graduate school; these students may need to take additional courses to meet admissions requirements of some graduate programs and thus should consult with their faculty advisor. (Source: Bureau of Labor Statistics)

The Department of Biological Sciences has several mechanisms to help students prepare for their future careers. All students, particularly those who plan to go on to graduate school or seek employment directly after degree completion, are strongly encouraged to complete research projects, through our Individual Investigation course, and/or do an internship in the area in which they plan to be employed. In addition, we offer BSCI 30005, Career Pathways in Biology, which provides students a chance to learn more about career paths and how to achieve their goals. Lastly, students are expected to meet regularly with their faculty advisor to talk about career options, get help in selecting electives, and discuss ways to get experience required for their career goals.

ADMISSION REQUIREMENTS: General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the [Admissions website for transfer students](#).

GRADUATION REQUIREMENTS: Minimum 121 total credit hours and 42 upper-division hours for graduation. Minimum 2.00 GPA overall and 2.00 GPA in major required for graduation.

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of Arts and Sciences > Undergraduate Programs > [Earth Science](#)

COLLEGE: College of Arts and Sciences

DEPARTMENT: Department of Geology
221 McGilvrey Hall
E-mail: geology@kent.edu
Tel: 330-672-2680
Fax: 330-672-7949
Web: <http://www.kent.edu/cas/geology>

DESCRIPTION: The Bachelor of Arts in Earth Science is ideal for students interested in an interdisciplinary basic science leading to potential careers in allied environmental, ecological or earth system fields. The program requires a minimum of 21 hours of biology, chemistry, mathematics and physics; and 30 hours of geology, including courses in oceanography, minerals, rocks, fossils and landforms. A geography sequence is also required. A capstone field course is not required; however, most geology courses have extensive (one-to-three-day) excursions that allow students to obtain valuable field experience.

CAREER OPPORTUNITIES: Geoscientists held about 33,600 jobs in 2008, while another 8,100 were employed as hydrologists. Many more individuals held geoscience faculty positions in colleges and universities, but they are classified as college and university faculty.

About 23 percent of geoscientists were employed in architectural, engineering, and related services and 19 percent worked for oil and gas extraction companies. State agencies such as State geological surveys and State departments of conservation employed another 9 percent of geoscientists. Eight percent worked for the Federal Government, including geologists, geophysicists, and oceanographers, mostly within the U.S. Department of the Interior for the U.S. Geological Survey (USGS) and within the U.S. Department of Defense.

Among hydrologists, 26 percent were employed in architectural, engineering, and related services, and 19 percent worked for management, scientific, and technical consulting services. The Federal Government employed about 27 percent of hydrologists, mostly within the U.S. Department of the Interior for the U.S. Geological Survey (USGS) and within the U.S. Department of Defense.

[Roadmaps](#)

[Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: Economics studies the allocation of scarce resources by society and is important in understanding how markets function and in designing public policies to solve social problems. The Bachelor of Arts in Economics equips students with a variety of skills sought by employers, including conceptualizing and solving problems; understanding and analyzing data in decision making; and critical thinking skills. In their junior year, student learn microeconomic and macroeconomic theory which enables them to use economic modeling to understand a wide variety of issues; students also take an applied econometrics class where they learn to use statistical software used to run regression analysis. Students then take a series of electives that deal with vital current topics relevant to many careers in which these theories and skills are applied, such as our financial and banking systems the economic relation between the United States and foreign countries; government spending and taxation policies; the United states' health system and policy options. In their senior year, students take a capstone course that utilizes and applies the theory, analytical skills and data analysis techniques learned in the program.

Combined Baccalaureate/Master's Program in the College of Business Administration and Graduate School of Management: Students must have earned 90 semesters hours to apply for the Combine Baccalaureate/Master's Program in the College of Business Administration. In addition, they must meet the GPA requirement of 3.30 after 90 semester hours

CAREER OPPORTUNITIES: Economists held about 14,600 jobs in 2008. Government employed 53 percent of economists, in a wide range of agencies, with 31 percent in Federal Government and 22 percent in State and local government. The remaining jobs were spread throughout private industry, particularly in scientific research and development services and management, scientific, and technical consulting services. A number of economists combine a full-time job in government, academia, or business with part-time or consulting work in another setting.

Employment of economists is concentrated in large cities. Some work abroad for companies with major international operations, for U.S. Government agencies, and for international organizations, such as the World Bank, International Monetary Fund, and United Nations.

In addition to the previously mentioned jobs, economists who hold faculty positions in colleges and universities are counted as postsecondary teachers.

KAD	12002	and Analytic Geometry and Calculus (5)			
	MIS 24056	Business Statistics		3	
III. ADDITIONAL PROGRAM REQUIREMENTS (81 credits)					
Type	Course	Title		Credits	
		Foreign Language		14-16	
		Kent Core Basic Sciences (must include one laboratory)		9-10	
		Kent Core Composition		6-8	
		Kent Core Humanities and Fine Arts (minimum one course from each)		9	
		Kent Core Social Sciences (must be from two disciplines)		6	
		General Electives (minimum 24 upper-division credit hours)		37	
				TOTAL	121

*A minimum C (2.0) grade must be earned to fulfill the writing-intensive requirement.

Students interested in pursuing graduate study in economics are encouraged to take MATH 12002 Calculus I, MATH 12003 Calculus II and other mathematics and statistics courses. Interested students with the appropriate prerequisites may also want to substitute MATH 40011 and 40012 for MIS 24056 and ECON 32050, with departmental approval.

A *Bachelor of Business Administration in economics* is offered in the College of Business Administration.

[Roadmaps](#)

[Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: The Bachelor of Arts in English allows students to focus on topics of personal interest while developing a broad background in English studies. All students take core classes, surveying English and American literatures and approaches to literary study. They also choose from a wide variety of elective courses in three areas (historical; writing and language studies; and genre, cultural studies and literary theory) and complete a capstone senior seminar. English majors can participate in the English Club and Sigma Tau Delta and earn various scholarships and awards.

CAREER OPPORTUNITIES: At the undergraduate level, our programs prepare students for careers in professional writing, editing, publishing, public relations, and teaching, as well as for graduate and professional studies in language, literature, education, law, and communications.

Source: Bureau of Labor Statistics:

Authors, writers and editors held about 281,300 jobs in 2008. Writers and authors held about 151,700 jobs and editors held about 129,600 jobs. About 70 percent of writers and authors were self-employed, while 12 percent of editors were self-employed.

Among the 30 percent of salaried writers and authors, about half work in the professional, scientific, and technical services and in publishing (except Internet) industries. These industries include advertising, public relations and related services and newspaper, periodical, book, and directory publishers, respectively. Other salaried writers and authors work in broadcasting, professional and social organizations, and the motion picture and video industries.

While 51 percent of salaried editors worked in the publishing, except Internet industry (half of those for newspapers), a large number of editors were also employed in other industries. Business, professional and social organizations, information services, and educational institutions employed editors to work on their publications or Web content.

Jobs are somewhat concentrated in major media and entertainment markets—Boston, Chicago, Los Angeles, New York, and Washington, DC—but improved communications and Internet capabilities allow writers to work from almost anywhere. Many prefer to work outside these cities and travel regularly to meet with publishers and clients and to do research or conduct interviews in person. As a result, job location is less of a requirement for many writing or editing positions than it once was.

ADMISSION REQUIREMENTS: General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An

Roadmaps

Program Requirements

College Requirements

University Requirements

DESCRIPTION: Students in the Bachelor of Arts in French study the language, literature and culture of France and Francophone countries. They gain a respectable measure of competence in reading, writing and oral/aural skills in the French language. To help students gain proficiency, they are able to attend a weekly French table. A conversation course sometimes involves speaking to people in France live via teleconferencing and an occasional French film. Kent State also offers study-abroad programs in France during the academic year.

CAREER OPPORTUNITIES: Students with an interest in teaching who major in French can, by taking the appropriate education courses in addition, pursue careers as high school French teachers. Teaching is not for everyone, however, nor should it be a fallback for those who do not have a real dedication to it. A major in French can also be combined with a major in a variety of other fields that have international components to enhance job opportunities in those fields, such as international relations, international business, art history, non-European history, etc.

ADMISSION REQUIREMENTS: General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the [Admissions website for transfer students](#).

GRADUATION REQUIREMENTS: Minimum 121 total credit hours and 42 upper-division hours for graduation. Minimum 2.00 GPA overall and 2.00 GPA in major required for graduation.

LANGUAGE REQUIREMENT: Yes

STUDY ABROAD/AWAY OPPORTUNITIES: Students can also take upper-division French courses abroad, either through Kent's own year-long program with the University of Bordeaux or with any accredited study abroad program offered by another university. Such programs may be for one semester, one academic year, or one summer. They most benefit students who have already acquired a strong command of the language here before leaving, however.

PROGRAM FEE: None

* FR 13201, 13202, 23201 and 23202 (Elementary and Intermediate French series of courses) are not part of the French major. If a student has previously gained proficiency to bypass these courses, they should do so, and begin with the first courses in the major, FR 33211 and 33212. Students with previous French study should take the French Placement Test and enroll in the correct course(s) based on their score. Students who have completed three or four years of high school French should see a French major advisor for placement, as the French Placement Test is not always a reliable tool for placement, especially for those students who have had taken a considerable amount of French. Students with sufficient French to place into higher semesters are not permitted to take Elementary French I (FR 13201).

** One course must be earned with minimum C grade to fulfill writing-intensive requirement.

[Roadmaps](#)

[Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: The Bachelor of Science in French Translation is a pre-professional degree designed for students to develop the skills needed to become working translators. The program also introduces the rudiments of translation theory as it applies to the actual practice. While meeting requirements designed to ensure competence in French, translation majors take five core courses in translation during the junior and senior years. The major features a 30-credit subject area specialty requirement, which enables translation students to acquire a level of expertise in a specific field in which they can specialize as translators. Translation majors are strongly encouraged to undertake study in a country where French is spoken.

CAREER OPPORTUNITIES: Opportunities are many and varied, depending on language combinations and subject area specialties. According to the U.S. department of labor projections, "employment of interpreters and translators is projected to increase 22 percent over the 2008-18 decade, which is much faster than the average for all occupations. Higher demand for interpreters and translators results directly from the broadening of international ties and the large increases in the number of non-English speaking people in the United States... Job prospects for interpreters and translators vary by specialty and language," ranging from healthcare to law. In 2009, about 28 percent worked in public and private educational institutions. About 13 percent worked in healthcare and social assistance, many of whom worked for hospitals. Another 9 percent worked in other areas of government, such as Federal, State, and local courts. Other employers of interpreters and translators include interpreting and translation agencies, publishing companies, telephone companies, and airlines. About 26 percent of interpreters and translators are self-employed."

Translators work with written documents, as distinguished from interpreters, who work with oral language. Many translators will require on-the-job training in addition to Kent's pre-professional BS in Translation. Translators work predominantly into the mother tongue.

Many translators rely on other sources of income to supplement earnings, such as teaching or language consultancy. The career outlook is best for those who gain a functional ability with translation tools and such skills as revising/editing/proofreading and desktop publishing. Prospects are currently strong in software internationalization and webpage localization (making products, text, or images acceptable to target-country market norms).

ADMISSION REQUIREMENTS: General Admissions for New Freshman: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the [Admissions website for transfer students](#).

*Students majoring in French Translation are expected to have some proficiency in French through high-school study. All students with previous French study should take the French Placement Test and enroll in the correct course based on their score. Students who have completed three or four years of high school French should see a French Major Advisor for placement. Students lacking in sufficient major-level proficiency to take the first major courses (FR 33211 and FR 33212) can reach it by taking courses in the prerequisite sequence (FR 13201, 13202, 23201, 23202) based on their placement score and high school training. Students with sufficient French to place into higher semesters are not allowed in Elementary French I. Due to prerequisite requirements; summer study is required after the first year to complete the major within four years.

**A minimum C (2.0) grade must be earned to fulfill the writing-intensive requirement.

***The Subject Area Specialty is a departmentally approved coherent sequence of courses (30 credits) in one or more other disciplines (i.e., not in the Department of Modern and Classical Language Studies). In order to be approved, the Subject Area Specialty must include courses in an area or areas that are currently marketable, such as business, legal studies, international relations, political science, computer science, chemistry, physics or other "hard" sciences. The Subject Area Specialty may include up to 17 credit hours of a different language in the sequence through composition/conversation. It may also optionally include MCLS 23217 The Francophone Experience. The recommended Kent Core courses (see Kent Core Summary) may be included within this area with advisor approval.

**** Recommended Courses

Kent Core Basic Sciences:

BSCI 10001 Human Biology (3)

CHEM 10050 Fundamentals of Chemistry (3)

GEOL 21062 Environmental Geology (3)

Kent Core Social Sciences:

ECON 22060 Principles of Microeconomics (3)

ECON 22061 Principles of Macroeconomics (3)

COLLEGE: College of Arts and Sciences

[College Requirements](#)

DEPARTMENT: 105 Bowman Hall
Tel: 330-672-2062
Web: <http://www.kent.edu/cas/>

[University Requirements](#)

DESCRIPTION: The Bachelor of General Studies is a non-major degree that provides maximum freedom for students who wish to take an interdisciplinary and creative approach to the design of an educational program while maintaining a focus on career or professional goals. It is an individualized program in which students, rather than a faculty department, undertake the responsibility for the research and design of their program. Students choose a minimum of three academic departments in which to select courses and develop a rationale for the way in which these courses are supportive of their career goals.

CAREER OPPORTUNITIES: Since the B.G.S. degree is designed by students to meet their individual academic and career goals, the career opportunities are limitless.

ADMISSION REQUIREMENTS: Students who wish to become candidates for the B.G.S. must make a special application to the College of Arts and Sciences. Students should begin the process for evaluation and program review at or near the time they achieve junior standing. The formal application must be submitted by application deadlines prior to the term before students begin the last 30 credit hours of academic work. July 1 is the application deadline for program approval for the fall term; November 1 is the application deadline for program approval for the spring term; and April 1 is the application deadline for program approval for the summer term.

To be admitted to candidacy for the B.G.S. degree, follow the guidelines listed below:

1. Visit the college office, 105 Bowman Hall, for an initial conference with a B.G.S. advisor. This conference may include or be followed by an evaluation of course credit and further advising as appropriate. Students may be required to produce evidence of consultation with the Office of Career Services in order to develop an appropriate course plan to meet educational and/or career objectives.
 2. The following application steps must be completed: (1) application form, including date of expected graduation; (2) program rationale; and (3) proposed program plan, to the College of Arts and Sciences, requesting admission to the B.G.S. degree program. The rationale should state the interdisciplinary focus of the program design; reasons for seeking the degree; expectations concerning the usefulness of the degree for employment or for further education; acknowledgement of the nontraditional nature of the degree, recognition that the degree falls outside the pattern of standard degrees; and a statement declaring full responsibility for one's B.G.S. program.
- Submit a proposed program plan of study, consisting of minimum three academic departments, of which a minimum of one must be housed in the College of Arts and Sciences (e.g., history, theatre and sociology) from which courses will be selected. Maximum 30 credit hours from the College of Business Administration may be counted toward stated degree requirements. The program plan will provide a formula of academic departments from which courses are selected to meet remaining requirements (e.g., 9 credit hours history + 6 credit hours theatre + 12 credit hours sociology + 3 credit hours electives). The plan must include remaining Kent Core and diversity and writing-intensive course requirements. In planning the proposed program of study, allowance should be made for the total number of credit hours and the total number of upper-division hours needed to complete the degree. A maximum of 6 credit

hours of electives—courses to meet hourly totals but not bound by an academic department classification—may be permitted as part of the program plan formula. Not every course is suitable for the B.G.S. program. The B.G.S. advisor will inform students which courses are not available.

- However, regardless of remaining total and upper-division requirements, the program plan MUST include a minimum of 12 upper-division semester credit hours and a minimum total of 30 semester credit hours.
- Courses taken as part of the B.G.S. program plan are excluded from the Pass/Fail grading option

3. When the proposed program of study and rationale have been approved by the college, complete a Change of Program form in the college office. The signing of this form completes admission to the program

GRADUATION REQUIREMENTS:

The Bachelor of General Studies (B.G.S.) requires a total of 121 semester hours of successfully completed credits. In addition, 42 of those 121 credit hours must be at the upper-division (30000-40000) level. Students must complete the degree with minimum 2.00 cumulative GPA.

Students pursuing the B.G.S. must complete the university's [Kent Core](#) and [diversity](#) and [writing-intensive](#) course requirements as described in this Catalog.

(1) Minimum 3 semester credit hours in mathematics, logic or computer science; and (2) minimum one laboratory science within the 6-credit-hour basic sciences Kent Core category. Courses taken to satisfy the social sciences must be taken in at least two curricular areas (e.g., ANTH, ECON, etc.). Courses taken to satisfy the Kent Core should be carefully chosen to fit in with the overall B.G.S. program. University and college requirements apply to this degree.

COURSEWORK RESTRICTIONS:

All of the limitations on the applicability of credit described in this Catalog apply to the B.G.S. These limitations affect applied and nontraditional coursework, applied music and music ensembles, native languages other than English, physical education activity courses and ROTC courses.

No more than 24 semester credit hours in any one department may be counted toward the 121 credit hours required for graduation. When two or more disciplines are housed in one department (such as French and Spanish), they may be counted separately.

Students who already have completed the course or hour requirement for another major may not be admitted to the B.G.S. program unless given special permission by the College of Arts and Sciences. Students who already have earned a baccalaureate degree are not eligible to pursue the B.G.S. degree. No credit will be allowed for duplication of courses.

No credit will be allowed for duplication of certain series of courses as stated elsewhere in this Catalog.

ADVISING:

Because the B.G.S. is a nontraditional degree program, it is essential that students pursuing this degree plan their programs with care. Careful planning demands close consultation with advisors in the college office and with faculty advisors in the departments where the student plans to concentrate coursework, as well as with advisors in Career Services to research potential educational and career goals. Extensive advising is especially important for students who plan to pursue advanced studies after completing the B.G.S. degree.

Students pursuing the B.G.S. degree are officially advised in the college office. All decisions regarding students' program plans are made in the college office, including approval of any alteration in the departmental formulas provided in the original program plan.

All changes must be requested in writing at least six weeks prior to course registration and must include a revised program rationale.

Not every course is suitable for the B.G.S. program. The B.G.S. advisor will inform students which courses are not available.

STUDY ABROAD/AWAY OPPORTUNITIES:

There are many study abroad/away opportunities, for more information contact the [Office of International Affairs](#).

[Roadmaps](#)

[Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: The Bachelor of Arts in Geography consists of three concentrations: Environmental Geography, Geographic Information, Social Geography.

Environmental Geography provides learning opportunities that exceed the 23-credit-hour geography core requirements. In addition to required upper-division courses (two in geographic information science and one in social geography), students may choose among course offerings in atmospheric science, Climatology, environmental change, polar and glacial environments, natural resources and soils geography. Students who choose this concentration can pursue careers in environmental science and planning, disaster management, conservation of natural resources and environmental education, or they may choose to study these and related fields on a graduate level.

Geographic Information provides students with a comprehensive background in the field of geospatial technology. This involves the study and application of theory, method, technology and data knowledge to processes, relationships and patterns in both human and physical geography. This rapidly growing field can be divided into three areas: geographic information sciences (capturing, checking, integrating, analyzing and displaying spatially referenced data); remote sensing (analyzing and interpreting aerial data and satellite imagery); and global positioning systems. Students in this concentration gain quantitative and technical skills to prepare them for jobs in both the public and private sectors, or for further study in graduate school.

Social Geography includes courses that involve the social sciences and humanistic aspects of geography. Students choose from a variety of upper-level courses in urban (including planning), economic, political and historical geography. In addition to at least four courses in this concentration, students take three distributional requirements: two in geographic information sciences and one in environmental geography. Potential careers include urban planning, transportation, government at all scales, business, international relations, mapping and geography education. Students may choose to pursue graduate studies in these or related fields.

CAREER OPPORTUNITIES: Geographers can find work in the government or private sector. All levels of government hire geographers as development or planning officers, researchers, mappers, and GIS or satellite image analysts. The private sector hires geographers to apply their ideas, skills and technologies to complex real-world systems. This can include conducting marketing studies, planning transportation routes, understanding international markets, and determining environmental risks associated with land use change. Currently geospatial technology is the third fastest growing industry in the USA.

Surveyors, cartographers, photogrammetrists, and surveying technicians held about 147,000 jobs in 2008. Employment was distributed by occupational specialty as follows:

Surveying and mapping technicians 77,000
Surveyors 57,600
Cartographers and photogrammetrists 12,300

[Roadmaps](#)

[B.A. Program Requirements](#)

[B.S. Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: The Bachelor of Arts in Geology graduates have excellent opportunities for employment in a wide variety of careers where an understanding of the natural sciences is useful or critical for success. Geology can be a strong background for advanced study or career development in areas such as business, city management, regional development, planning, law, journalism and science writing. Requirements include courses concerning minerals, rocks, landforms, fossils, structural geology, geochemistry and field mapping.

The Bachelor of Science in Geology is designed for those interested in a professional career in the field. Students must complete 50 credits of geology courses focusing on minerals, rocks, landforms, fossils, structural geology, geochemistry and field mapping, among others. Supplemental courses include introductory chemistry, physics, biology and mathematics. Students also select several upper-division geology electives that allow specialization in a variety of applied or theoretical areas of the science. The program features a 6-credit capstone summer field course in the Black Hills, South Dakota.

CAREER OPPORTUNITIES: The Bachelor of Arts
In the coming decade, the need for energy, environmental protection and responsible land and water management is expected to increase employment demand within the geosciences, including employment in management, scientific and technical services, for which the B.A. in Geology provides academic preparation. Between 2008 and 2018, employment growth of 18 percent is expected for geoscientists and hydrologists, growth of 29 percent is expected for environmental science and protection technicians, and growth of 15 percent is expected for natural science managers.

The Bachelor of Science
Geoscientists held about 33,600 jobs in 2008, while another 8,100 were employed as hydrologists. Many more individuals held geoscience faculty positions in colleges and universities, but they are classified as college and university faculty.

About 23 percent of geoscientists were employed in architectural, engineering, and related services and 19 percent worked for oil and gas extraction companies. State agencies such as State geological surveys and State departments of conservation employed another 9 percent of geoscientists. Eight percent worked for the Federal Government, including geologists, geophysicists, and oceanographers, mostly within the U.S. Department of the Interior for the U.S. Geological Survey (USGS) and within the U.S. Department of Defense.

Among hydrologists, 26 percent were employed in architectural, engineering, and related services, and 19 percent worked for management, scientific, and technical consulting services. The Federal Government employed about 27 percent of hydrologists, mostly within the U.S. Department of the Interior for the U.S. Geological Survey (USGS) and within the U.S. Department of Defense.

REQUIREMENTS: the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the [Admissions website for transfer students](#).

GRADUATION REQUIREMENTS: Minimum 121 total credit hours and 42 upper-division hours for graduation. Minimum 2.00 GPA overall and 2.00 GPA in major required for graduation.

LANGUAGE REQUIREMENT: Yes

STUDY ABROAD/AWAY OPPORTUNITIES: There are many study abroad/away opportunities, for more information contact the [Office of International Affairs](#).

PROGRAM FEE: None

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: The Bachelor of Arts in German provides instruction designed to develop competence in oral and written communication; insights into language form, usage and meaning; and knowledge of German literature, cultural history and contemporary issues. The flexibility of the major makes it easy to combine with a second major such as History, International Studies, Political Science or another foreign language. Combined with the Education minor, the German major leads to multi-age (K-12) teacher licensure in Ohio. Majors traditionally pursue a liberal arts program, which can be used as a stepping-stone to advanced study or professional preparation in fields such as engineering, international business, medicine and law.

CAREER OPPORTUNITIES: Postsecondary teachers held nearly 1.7 million jobs in 2008. The following tabulation shows postsecondary teaching jobs in specialties having 20,000 or more jobs in 2008. (Source: Bureau of Labor Statistics)

ADMISSION REQUIREMENTS: General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. *Student majoring in German are expected to have some proficiency in German through high school study. Students with previous German study should take the German Placement Test and enroll in the correct course(s) based on their score. Students who have completed three or four years of high school German should see a German major advisor for placement. Student lacking in sufficient major-level proficiency to take the first major courses (GER 31201 and 31211) can reach it by taking courses in the prerequisite sequence (GER 11201, 11202, 21201 and 21202) based on their placement score and high school training. Students with sufficient German to place into higher semesters are not allowed to take Elementary German I (GER 11201).

**A minimum C (2.0) grade must be earned to fulfill the writing-intensive requirement.

German Translation - B.S.

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of Arts and Sciences > Undergraduate Programs > [German Translation](#)

COLLEGE: College of Arts and Sciences

DEPARTMENT: Department of Modern and Classical Language Studies
109 Satterfield Hall
Tel: 330-672-2150
Fax: 330-672-4009
Web: <http://www.kent.edu/cas/mcls>

DESCRIPTION: The Bachelor of Science in German Translation is a pre-professional degree designed for students to develop the skills needed to become working translators. The program also introduces the rudiments of translation theory as it applies to the actual practice of translation. While meeting requirements designed to ensure competence in German, translation majors take five core courses in translation during the junior and senior years. The major features a 30-credit subject area specialty requirement, which enables students to acquire a level of expertise in a specific field in which they can specialize as translators. Translation majors are strongly encouraged to undertake study in a country where German is spoken.

CAREER OPPORTUNITIES: Opportunities are many and varied, depending on language combinations and subject area specialties. According to the U.S. department of labor projections, "employment of interpreters and translators is projected to increase 22 percent over the 2008-18 decade, which is much faster than the average for all occupations. Higher demand for interpreters and translators results directly from the broadening of international ties and the large increases in the number of non-English speaking people in the United States... Job prospects for interpreters and translators vary by specialty and language," ranging from healthcare to law. In 2009, about 28 percent worked in public and private educational institutions. About 13 percent worked in healthcare and social assistance, many of whom worked for hospitals. Another 9 percent worked in other areas of government, such as Federal, State, and local courts. Other employers of interpreters and translators include interpreting and translation agencies, publishing companies, telephone companies, and airlines. About 26 percent of interpreters and translators are self-employed."

Translators work with written documents, as distinguished from interpreters, who work with oral language. Many translators will require on-the-job training in addition to Kent's pre-professional BS in Translation. Translators work predominantly into the mother tongue.

Many translators rely on other sources of income to supplement earnings, such as teaching or language consultancy. The career outlook is best for those who gain a functional ability with translation tools and such skills as revising/editing/proofreading and desktop publishing. Prospects are currently strong in software internationalization and webpage localization (making products, text, or images acceptable to target-country market norms).

ADMISSION REQUIREMENTS: General Admissions for New Freshman: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high

Students with sufficient German to place into higher semesters are not allowed to take Elementary German I (GER 11201).

**A minimum C grade must be earned in either GER 41216 or GER 41230 to fulfill writing-intensive requirement.

***The Subject Area Specialty is a departmentally approved coherent sequence of courses in one or more other disciplines (i.e., not in the Department of Modern and Classical Language Studies). In order to be approved, the Subject Area Specialty must include courses in an area or areas that are currently marketable, such as business, legal studies, international relations, political science, computer science, chemistry, physics or other "hard" sciences. The Subject Area Specialty may include a maximum 17 credit hours of a different language in the sequence through composition and/or conversation. Total credits: 30. The recommended Kent Core courses (see Kent Core Summary) may be included within this area with advisor approval.

**** Recommended Courses

Kent Core Basic Sciences:

BSCI 10001 Human Biology (3)

CHEM 10050 Fundamentals of Chemistry (3)

GEOL 21062 Environmental Geology (3)

Kent Core Social Sciences:

ECON 22060 Principles of Microeconomics (3)

ECON 22061 Principles of Macroeconomics (3)

Program Requirements

College Requirements

University Requirements

DESCRIPTION: The Bachelor of Arts in History appeals to individuals seeking both a well-rounded educational experience and intellectual independence. The study of history, through the emphasis on research, examination, interpretation and reflection, offers thorough training in a range of skills, including the ability to read extensively and critically; the capability to apprehend, evaluate and analyze complex evidence, arguments and opinions; the know-how to develop and present a carefully informed, reasoned and crafted argument; confident and clear oral communication skills; and the capacity to undertake independent work and manage time effectively.

CAREER OPPORTUNITIES: Majoring in History provides a foundation for a number of careers and post-graduate programs. Traditionally, a large number of pre-law students major in history in order to benefit from the critical thinking and writing skills necessary to analyze and process evidence; then learning to make a strong case using evidence. Many teachers and librarians also major in history before attending an M.A. or M.L.I.S. (MLA) program. Professions within history itself have grown over the years and as states such as Ohio invest more in tourism, park systems and heritage sites these public history fields continue to grow. Likewise, many of our students go on to national and international careers in public history. The department of History also offers a Masters of Arts and Ph.D. program in History, as well as a new Masters of Arts in History for Teachers.

Undergraduate majors can consider these post-graduate programs along with other nationally competitive programs to which our majors have been accepted.

ADMISSION REQUIREMENTS: General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the [Admissions website for transfer students](#).

GRADUATION REQUIREMENTS: Minimum 121 total credit hours and 42 upper-division hours for graduation. Minimum 2.00 GPA overall and 2.00 GPA in major required for graduation.

LANGUAGE REQUIREMENT: Yes

COLLEGE: College of Arts and Sciences

DEPARTMENT: Department of Biological Sciences
256 Cunningham Hall
Tel: 330-672-9613 | Fax: 330-672-3713
Web: <http://www.kent.edu/cas/biology>

DESCRIPTION: The Bachelor of Applied Horticulture provides a course of study for students who have completed the Associate of Applied Science in Horticulture Technology and wish to complete a bachelor's degree in their chosen field. The program builds upon the knowledge acquired in the associate's degree and aid students in the development of managerial level expertise in such areas as landscape architecture, urban ecology, sports turf management, landscape design, plant propagation and nursery operations. This degree is designed to increase the student's potential by emphasizing technical application and theory, while the liberal education requirements will increase the student's ability to understand the environment in which he or she is working. Expanded internship offerings and specific targeted practicum areas for student exploration are promoted. The program is offered at the [Salem](#) campus.

CAREER OPPORTUNITIES: Landscape architects held about 28,000 jobs in 2006. More than 1 out of 2 landscape architects were employed in architectural, engineering, and related services. State and local governments employed approximately 6 percent of all landscape architects. About 2 out of 10 landscape architects were self-employed.

Employment of landscape architects is concentrated in urban and suburban areas throughout the country; some landscape architects work in rural areas, particularly those employed by the Federal Government to plan and design parks and recreation areas.
(Source: Bureau of Labor Statistics)

ADMISSION REQUIREMENTS: Admission is open to students who have completed the Associate of Applied Science in Horticulture Technology.

GRADUATION REQUIREMENTS: Minimum 126 credit hours. Minimum 2.0 cumulative and major GPA.

LANGUAGE REQUIREMENT: Yes

STUDY ABROAD/AWAY OPPORTUNITIES: There are many study abroad/away opportunities, for more information contact the [Office of International Affairs](#).

[Roadmaps](#)

[Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: The Associate of Applied Science in Horticulture Technology prepares students for careers in landscape management, turf management, tree care, nursery and greenhouse operations and related horticultural professions. In addition to a core of horticulture and basic science courses, the major provides three areas of concentration: urban forestry, landscape design and turfgrass management. The program emphasizes practical experience through hands-on training in outdoor labs and site visits to employers. Students complete two paid summer internships in their areas of concentration. Requirements articulate with the Bachelor of Applied Horticulture. This program is available at the [Salem](#) Campus.

CAREER OPPORTUNITIES: Grounds maintenance workers held about 1.5 million jobs in 2006.

More than one-third of the workers in grounds maintenance were employed in companies providing landscaping services to buildings and dwellings. Others worked for amusement and recreation facilities, such as golf courses and racetracks; educational institutions, both public, and private; and property management and real-estate development firms. Some were employed by local governments, installing and maintaining landscaping for parks, hospitals, and other public facilities. Almost 24 percent of grounds maintenance workers were self-employed, providing landscape maintenance directly to customers on a contract basis.

About 14 percent of grounds maintenance workers worked part time; about 9 percent were younger than age twenty.

(Source: Bureau of Labor Statistics)

ADMISSION REQUIREMENTS: Admission is open to anyone with a high school diploma or its equivalent.

GRADUATION REQUIREMENTS: Minimum 68 credit hours. Minimum 2.0 cumulative GPA and in major.

LANGUAGE REQUIREMENT: None

PROGRAM FEE: None

ACCREDITATION:

STUDENT ORGANIZATIONS: Horticulture Club, Salem Campus

COLLEGE: College of Arts and Sciences

College Requirements

DEPARTMENT: 105 Bowman Hall
Tel: 330-672-2062
Web: <http://www.kent.edu/cas>

University Requirements

DESCRIPTION: The individualized major is designed to allow students to pursue a self-constructed course of study leading to a Bachelor of Arts degree. The major is intended for students with focused educational objectives that cannot be met through standard majors offered by the college.

The program, with a core of related and clearly articulated courses, must be planned in consultation with the dean of the college or the dean's designee; the program must be approved by the Curriculum Committee of the college or its designee. Courses in other colleges in the university may be included in the individualized major, with the limitation that two-thirds of the hours counted for the major must be within the College of Arts and Sciences.

CAREER OPPORTUNITIES: Since the Individualized Major is designed by the student with specific academic and career goals in mind, the career opportunities are limitless.

ADMISSION REQUIREMENTS: Formal application for this major must be made by the beginning of the junior year. Transfer students with junior standing or beyond must make application immediately upon entrance to Kent State University. Revisions in the program after its approval may be made by the dean or the dean's designee.

GRADUATION REQUIREMENTS: The requirements for an individualized major are as follows:

- 121 hours required for graduation.
- 42 hours of upper-division coursework.
- Fulfillment of the General Requirements for the Bachelor of Arts in the College of Arts and Sciences.
- A coherent program of at least 35 credit hours designed to fit students' needs. At least half of this program must be in upper-division coursework. This program must be presented to the Curriculum Committee of the college or its designee for recommendations and final approval.

Students considering the individualized major should seek advice from the college office at the earliest possible time, but in any case well before submitting a proposed program.

LANGUAGE REQUIREMENT: Yes

STUDY ABROAD/AWAY OPPORTUNITIES: There are many study abroad/away opportunities, for more information contact the [Office of International Affairs](#).

Tel: 330-672-3015
Web: <http://www.kent.edu/Academics/bs-md>

[Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION:

The Northeastern Ohio Universities College of Medicine (NEOUCOM) was established in 1973 by an act of the Ohio General Assembly. The college is a consortium of The University of Akron, Kent State University and Youngstown State University. NEOUCOM is fully accredited by the Association of American Medical Colleges and the Council on Medical Education of the American Medical Association. The first class graduated in the spring of 1981.

The college was established to provide new opportunities in medical education. Its purpose is to prepare well-qualified physicians who are oriented to the practice of medicine at the community level, especially primary care and family medicine. The medical training required in the program is combined and integrated with university coursework in order to produce physicians who are well-grounded in the sciences, humanistic in their approach to patients and liberally educated.

This program requires that students be enrolled for 11 months in each of the six academic years. Phase I of the program is spent on one of the three university campuses. Phase I begins with a summer term and continues through two academic years and two additional summer terms. During this period, coursework is focused on studies in the behavioral and basic pre-medical sciences. It also includes orientation to clinical medicine and work in the humanities.

Phase II of the program involves intensive medical training and may be accompanied by summer coursework in the humanities. In the first year of Phase II, students study the basic medical sciences, including anatomy, physiology and microbiology, at the NEOUCOM Basic Medical Sciences Campus in Rootstown. Students may return to the university campus for the summer term following this year to complete any requirements for the Bachelor of Science degree.

In the remaining three years of Phase II (years four, five and six of the overall program), students develop competence in the clinical aspects of medicine through instruction provided principally at one or more of the community hospitals associated with the program.

ADMISSION

REQUIREMENTS:

Eligibility for Admission:

Current high school students and those students who have completed high school, but have not yet earned college credit after graduating from high school, may be considered for the combined B.S./M.D. program. Students who earn college credits while in high school are eligible.

Evaluation of Progress:

Progress through the undergraduate portion of the B.S./M.D. program is measured by academic performance and development of personal maturity appropriate to assumption of professional responsibility. The Committee Academic and Professional Progress (CAPP) will assess these factors and the student's successful performance on the MCAT in order to recommend students for promotion and formal admission to Phase II of the program.

The application for the combined B.S. /M.D. program is available online on the NEOUCOM website. Questions about the admissions process may be directed to the Integrated Life Sciences office at 330-672-3015.

Cost:

During Phase I of the combined B.S. /M.D. portion, students pay tuition directly to the Kent State University. To learn more about tuition amounts, please contact the Kent State University Bursar's Office at 330-672-2626.

GRADUATION REQUIREMENTS:

Minimum 124 total credit hours required for graduation.

STUDY ABROAD/AWAY OPPORTUNITIES:

Students in Phase I may extend the program by one year to participate in an Enrichment Experience. This Enrichment Experience may include: Senior thesis, Graduate study, Study Abroad, Ambulatory care experience, Missionary or other service work. To be eligible for an Enrichment Experience, the student must meet minimum academic criteria and receive approval from CAPP.

Humanities and Electives

THE HUMANITIES COMPONENT (18):

Objective: Within the constraints imposed and the opportunities afforded by summer academic scheduling, to provide disciplined experience in and exposure to the differing modes of thought, perception/perspectives and methodologies of the disciplines usually classified as the "humanities" in arriving at informed critical analyses of the human experience.

Requirement: 18 semester hours of academic credit. At least one of the courses taken to satisfy the humanities must also satisfy the diversity requirement. The humanities requirements may be fulfilled in the following fashion during the students' fourth and fifth summers (fourth and sixth summers for students who begin core clerkships in fifth summer, rather than in the fall) in the joint six-year B.S./M.D. program offered by the university in conjunction with the Northeastern Ohio Universities College of Medicine:

I. Fine Arts (3)

Students are to take at least one approved course from the list of Kent Core Fine Arts courses.

II. History, Literature, Philosophy (12)

Students must take two courses (one lower and one upper division) from two of the following three fields:

History

Literature

Philosophy*

*Students are strongly urged to take an ethics course from Philosophy as parts of the Humanities Requirement.

III. Humanities Elective (3)

Students are to take one additional course in Humanities, Fine Arts or Foreign Language.

IV. Electives (6)

During the time devoted to fulfillment of the humanities requirements of the ILS program, students also will be taking "elective" hours sufficient to complete the 124 semester hours of satisfactorily completed academic credits required for the B.S. degree as offered through the College of Arts and Sciences of Kent State University. Humanities hours in excess of the 18 semester hours minimum of the humanities component requirement will be applied toward these "elective" hours.

Diversity

Students must also satisfy the 6-hour diversity requirement of the university. At least one of the courses taken to satisfy the humanities must also satisfy the diversity requirement. The 6 hour diversity requirement is fulfilled with one domestic diversity course and one global diversity course.

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of Arts and Sciences > Undergraduate Programs > [International Relations](#)

COLLEGE: College of Arts and Sciences

DEPARTMENT: 105 Bowman Hall
Tel: 330-672-8968
Fax: 330-672-2646
Web: <http://dept.kent.edu/cicp/irmajor/index>
Mary Ann Haley, Director

DESCRIPTION: The Bachelor of Arts in International Relations is the largest interdisciplinary program in the College of Arts and Sciences. Its curriculum provides a well-rounded education for students interested in global issues and the challenge of advanced foreign language coursework. The study of Spanish, French, German, Russian, Arabic, Chinese, Japanese or Italian is coupled with a broad exposure to the social sciences and humanities approaches to the problems facing the modern world, including human rights, economic development, ethnic conflicts and the role of supranational organizations. Students have the opportunity to study abroad and participate in internships with international organizations through Kent State's Semester Abroad in Geneva, Switzerland.

Combined Baccalaureate/Master's Program in the College of Arts and Sciences and the Graduate School of Management Leading to the Bachelor of Arts and Master of Business Administration Degrees: Students must be international relations majors and complete their undergraduate coursework in the first three years of study. In addition, students must pass a language proficiency exam, have a cumulative GPA of 3.30 and earn a minimum GMAT score of 525 before being admitted to the M.B.A program. In the fourth year of this combined program, students take graduate business courses that are applicable to the undergraduate degree as electives and to the M.B.A degree as foundation coursework. During the final year, students take advanced graduate business coursework leading to the M.B.A degree.

CAREER OPPORTUNITIES: While the best known career opportunity for students in International Relations is diplomacy, graduates find employment in many other fields. A variety of governmental organizations, such as the State, Commerce and Defense Departments, Homeland Security and national intelligence and security agencies, seek out students with training in International Relations.

International organizations, such as the United Nations and its affiliated agencies, similarly desire employees with the broad background a baccalaureate degree in International Relations provides. Non-governmental organizations with interests in refugee assistance, economic development, fair trade, human rights and immigration regularly hire students with an International Relations degree.

Private sector positions are available in financial, research and lobbying firms and in multi-national corporations with business interests around the globe.

Recent graduates with degrees in International Relations often apply to serve in the Peace Corps, an agency of the United States government which provides economic and social development assistance to developing countries and their citizens around the world. International organizations and corporations often seek out individuals who have had this worthwhile and rewarding experience abroad.

The undergraduate International Relations degree also prepares students for the rigors of graduate school in a wide range of areas including international affairs, political science, public policy, economic development and business management. Additionally many graduates go on to pursue law degrees with a

ADMISSION REQUIREMENTS: General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the [Admissions website for transfer students](#).

GRADUATION REQUIREMENTS: Minimum 121 total credit hours and 42 upper-division hours for graduation. Minimum 2.00 GPA overall and 2.50 GPA in major required for graduation.

		Kent Core Social Sciences (must be from two disciplines)		3
		General Electives (upper division)		34
			TOTAL	121

*One course must be earned with a minimum C (2.0) grade to fulfill the writing-intensive requirement.

**The following foreign languages are approved for International Relations majors: Arabic, Chinese, French, German, Italian, Japanese, Russian and Spanish. Students should contact the International Relations director for approval for other languages. Students with foreign language experience should consult with the Department of Modern and Classical Languages Studies for appropriate placement. To graduate in four years, students should begin foreign language study by semester four; starting later may require summer courses or delay graduation.

One course beyond the Intermediate II level in French, German, Russian or Spanish. Students may appeal to their advisor for substitution of another language, when justified by special circumstances. Satisfactory performance in a language proficiency test covering speaking, listening, reading and writing. This requirement also may be satisfied through completion of two additional approved courses in the same or a closely related language with minimum B- (2.7) grade. Prior approval for courses used in this connection must be given in writing by student's advisor. This course should be taken as soon as Intermediate II is completed. Students should consult with the International Director regarding the foreign language proficiency requirement while enrolled in this course.

Justice Studies - B.A.

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of Arts and Sciences > Undergraduate Programs > [Justice Studies](#)

COLLEGE: College of Arts and Sciences

DEPARTMENT: Department of Sociology
215 Merrill Hall
Tel: 330-672-2562
Fax: 330-672-4724
Web: <http://www.kent.edu/cas/sociology/>

DESCRIPTION: The Bachelor of Arts in Justice Studies takes an interdisciplinary approach to the study of crime, law and justice. Faculty members view crime, deviance and society's response from the fields of sociology, political science, psychology, social work and traditional criminal justice viewpoints. The curriculum provides a firm understanding of the basic institutions of the criminal justice system. Students are also exposed to criminological theory and diversity courses, which help them understand the complex relationship between the individual, society and the criminal justice system. The program stresses effective writing and analytical skills. Students are afforded the opportunity to earn credit through internship placements, including Kent State's fully accredited police academy.

CAREER OPPORTUNITIES: Career opportunities related to Justice Studies interests and credentials include positions in criminal and regulatory law enforcement affiliated with a wide variety of municipal/city, county, state, regional and national agencies; correctional positions including guards, counselors, probation and parole officers, and supervisors; homeland security; courthouse security; park/forest rangers; private security services, including for businesses, transportation systems, hospitals and campuses; juvenile detention, counseling and supervision; investigative and criminal history research positions for courts or private businesses; victim services and victim advocacy.

In combination with relevant graduate degrees, students may also qualify for professional positions in legal practice; teaching; policy research including applied statistics and crime mapping; social work, clinical psychology, counseling, or therapy; and forensics expert or technician (with cross-training in fields such as psychology, biology, chemistry, physics, anthropology, economics, computer science, linguistics, or others).

ADMISSION REQUIREMENTS: General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the [Admissions website for transfer students](#).

GRADUATION REQUIREMENTS: Minimum 121 total credit hours and 42 upper-division hours for graduation. Minimum 2.00 GPA overall and 2.00 GPA in major required for graduation.

Program Requirements

College Requirements

University Requirements

DESCRIPTION: The Bachelor of Arts in Latin prepares students to read and interpret ancient Latin texts at a high level. By the end of Intermediate Latin I, students are reading unmodified ancient Latin texts in both prose and poetry from a wide range of genres. Latin authors that are the subject of upper-division courses include Cicero, Vergil, Ovid, Tacitus, Caesar and Plautus. Students also take culture courses taught in English to gain a better understanding of the world in which the texts were written. Regularly offered culture courses include mythology, civilization and colloquia covering such thematic topics as violence, gender and sexuality and ancient Christianities. Latin majors are also required to take courses on Roman history and English vocabulary from the classical languages.

CAREER OPPORTUNITIES: A major in Latin is required in the state of Ohio for licensure to teach Latin in the secondary schools. A Latin major combined with the Greek minor is also excellent preparation for graduate study in Classics or Archaeology. The study of Latin develops effective communication and cognitive skills, and graduates with degrees in Latin score higher than other disciplines on the GRE, making Latin a good choice for students who wish to pursue careers in law and related fields. Graduates with a Latin degree have gone on to careers in law, higher education, business, nonprofits, and politics.

ADMISSION REQUIREMENTS: General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the [Admissions website for transfer students](#).

GRADUATION REQUIREMENTS: Minimum 121 total credit hours and 42 upper-division hours for graduation. Minimum 2.00 GPA overall and 2.00 GPA in major required for graduation.

LANGUAGE REQUIREMENT: Yes

STUDY ABROAD/AWAY OPPORTUNITIES: There are many study abroad/away opportunities, for more information contact the [Office of International Affairs](#).

PROGRAM FEE: None

DESCRIPTION: The Bachelor of Arts in Latin American Studies introduces students to issues facing this vibrant world region. Core courses are taught in history, political science, geography and pan-African studies. Additional elective courses are offered in anthropology, economics, English, justice studies, languages, music and sociology. Graduates of this program are prepared for employment opportunities in governmental and nongovernmental organizations; in business and education (when combined with those programs); and further study in a graduate program.

CAREER OPPORTUNITIES: Postsecondary teachers held nearly 1.7 million jobs in 2008. The following tabulation shows postsecondary teaching jobs in specialties having 20,000 or more jobs in 2008

ADMISSION REQUIREMENTS: General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). [B.A. Program Requirements](#)

[B.S. Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: Mathematics provides an excellent means for developing strong analytical and critical-thinking skills which are applicable in a wide range of highly rewarding careers from education to industry.

The Bachelor of Science in Mathematics comprises core areas in algebra (number systems, equations, discrete structures), analysis (functions, limits, continuous processes), geometry (space, shape, form) and associated generalizations and abstractions. The major is recommended for students interested in a flexible option of careers or graduate study in mathematics. Coupled with the Education minor, it can lead to Ohio teacher certification.

The Mathematics - Actuarial Mathematics concentration resides within the Bachelor of Science program in Mathematics. It prepares students for the actuarial profession, the discipline that applies mathematical and statistical methods to assess risk in the insurance and finance industries.

The Bachelor of Arts in Mathematics requires fewer analytical and advanced courses than the Bachelor of Science. It can be used as a stand-alone program, although the Bachelor of Science is more recommended and most popular as such, but it is also recommended as a supplement to other programs. For example, as a supplement to the Integrated Mathematics major within Education, it can lead to faster advancement within the secondary education profession.

CAREER OPPORTUNITIES: A degree in mathematics opens the door to a very wide range of satisfying and lucrative career opportunities. Many of them are consistently top-ranked in annual job satisfaction surveys which take into account key components including salary, work environment, job stability, and benefits. For example, a 2009 survey by the Wall Street Journal found that the top three jobs among the 200 they surveyed were; Mathematician, Actuary, Statistician. Each of these careers begins with a mathematics degree (and several others in the top ten also pair well with a math minor or double major).

Indeed, in our technology and information-driven society, the ability to analyze and solve quantitative problems is naturally a key factor which distinguishes the most valuable employees and highest earners. Contrary to a popular misconception (which is not shared worldwide), mathematicians develop problem-solving skills far beyond the domain of textbook problems in arithmetic and algebra—their analytical skills have always been highly valued in the business world. For this reason, mathematics-related careers tend to be less stressful and offer greater work-life balance than most other careers with comparable salaries.

The good news is that earning a degree in mathematics is not as difficult as others would have you believe. It is challenging, yes, but not more so than most science programs; and the long-term rewards speak for themselves!

ADMISSION REQUIREMENTS: General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college

[Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: Students in the Bachelor of Science in Medical Technology combine three years of study at Kent State with 12 months of additional professional training at an approved hospital.

CAREER OPPORTUNITIES: Graduates in this degree program enjoy high employment opportunities.

Medical technologists are trained to perform complex chemical, microscopic and microbiological procedures. Graduates are eligible for the exams Medical Laboratory Personnel and the Board of Registry of the American Society of Clinical Pathologists. This degree is offered by the Department of Biological Sciences.

ADMISSION REQUIREMENTS: General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the [Admissions website for transfer students](#).

GRADUATION REQUIREMENTS: Minimum 121 total credit hours and 42 upper-division hours for graduation. Minimum 2.00 GPA overall and 2.00 GPA in major required for graduation.

LANGUAGE REQUIREMENT: Yes

PROGRAM FEES: None

STUDY ABROAD/AWAY OPPORTUNITIES: There are many study abroad/away opportunities, for more information contact the [Office of International Affairs](#).

[Roadmaps](#)

[Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: The Bachelor of Arts in Pan-African Studies consists of four concentrations: African Disapora Studies, Pan-African Literature, Arts and Culture, Pan-African Studies and Theoretical and Applied Research in Pan-African Studies.

African Diaspora Studies, within the Bachelor of Arts in Pan-African Studies, focuses on the history, culture and politics of people of African descent in Africa, the United States, the Caribbean, South America, Europe, Asia and the Middle East. Using an interdisciplinary and comparative approach, this concentration prepares students to function in a diverse, global and multicultural environment, working in areas such as education, law, public service, social work, research, foreign service, business and community development.

Pan-African Literature, Arts and Culture, within the Bachelor of Arts in Pan-African Studies, focuses on the study of people of African descent in Africa, the Americas, the Caribbean, Europe, Asia and the Middle East through the study of literature, arts and culture. With a strong emphasis on popular as well as non-literary cultural expressions, this concentration provides insights into the challenges black communities face while encouraging the study of less commonly taught languages such as Kiswahili. This program also provides a good foundation for those interested in continuing to graduate school in ethnic studies, public health, international studies, political science, justice studies, comparative literature and global and world studies.

Pan-African Studies focuses on African descendants' global, cultural and historical experiences. It examines ways in which continental African and African diasporic communities and individuals have developed political, creative and coordinated strategies for survival in the midst of, and resistance to, racism, socio-economic and political oppression. In addition to preparing students to work in areas such as education, law, public service, social work, research, foreign service, business and community development, this program provides a good foundation for those interested in graduate studies.

Theoretical and Applied Research in Pan-African Studies focuses on major theoretical issues and methodologies involved in studying the African Diaspora, encompassing the study and research on communities of continental Africa. This concentration helps students synthesize information through research, intensive reading and critical writing. This concentration prepares students to work in areas such as education, law, public service, social work, research, foreign service, business and community development. It also provides a good foundation for those interested in continuing to graduate school.

CAREER OPPORTUNITIES: In addition to the career and graduate school opportunities mentioned above, a degree in Pan-African Studies opens many doors. Postsecondary teachers held nearly 1.7 million jobs in 2008. Archivists, curators, and museum technicians held about 29,100 jobs in 2008. About 39 percent were employed in museums, historical sites, and similar institutions and 18 percent worked for public and private educational services. Around 30 percent of archivists, curators, and museum technicians worked in Federal, State, and local government, excluding educational institutions. Most Federal archivists work for the National Archives and Records Administration; others manage military archives in the U.S. Department of Defense.

[Paralegal Studies](#)[Philosophy](#)[Physics](#)[Political Science](#)[Pre-Dentistry Advising Program](#)[Pre-Medicine/Pre-Osteopathy Advising Program](#)[Pre-Pharmacy Advising Program](#)[Pre-Veterinary Medicine Advising Program](#)[Psychology](#)[Russian](#)[Russian Translation](#)[Sociology](#)[Soviet and East European Studies](#)[Spanish](#)[Spanish Translation](#)[Teaching English as a Second Language](#)[Zoology](#)[Minors](#)[Certificates](#)[Graduate Programs](#)[» College of the Arts](#)[» College of Business Administration](#)[» College of Communication and Information](#)[» College of Education, Health and Human Services](#)[» College of Nursing](#)[» College of Public Health](#)[» College of Technology](#)[» Regional College](#)[» Honors College](#)

Most Federal Government curators work at the Smithsonian Institution, in the military museums of the U.S. Department of Defense, and in archaeological and other museums and historic sites managed by the U.S. Department of the Interior. All State governments have archival or historical record sections employing archivists. State and local governments also have numerous historical museums, parks, libraries, and zoos employing curators. (Source: American Political Science Association)

ADMISSION REQUIREMENTS:

General Admissions for New Freshman: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the [Admissions website for transfer students](#).

GRADUATION REQUIREMENTS:

Minimum 121 total credit hours and 42 upper-division hours for graduation. Minimum 2.00 GPA overall and 2.00 GPA in major required for graduation.

Hedi Nasheri, Director and Professor of Justice Studies

DESCRIPTION: The Bachelor of Arts in Paralegal Studies is approved by the American Bar Association. This interdisciplinary program combines a liberal arts/general education background with law-related specialty courses to provide students with communication, critical reasoning and analytical skills; knowledge of the legal system; and practical hands-on experience. A Paralegal Studies minor is also available.

CAREER OPPORTUNITIES: The U.S. Department of Labor continues to predict that paralegal jobs will be growing faster than average. The legal market has a high demand for skilled paralegals with a four year degree, from ABA approved institutions. Kent State graduates are prepared for careers in private law offices, public agencies, corporations, legal services, and law-related occupations in corporations, banks, and other business entities. The rate of job placement for graduates has been high. Kent State graduates are employed by some of the most prestigious law firms in the country. All students in Paralegal Studies must complete an internship course in a legal setting prior to graduation which may result in a permanent position. (Source: Bureau of Labor Statistics)

The use of paralegals in law firms and other law related settings greatly enhances the accessibility of legal services. Therefore, employers are placing an increased emphasis on the hiring of paralegals to perform tasks that many young attorneys can perform. Although private law firms are the largest consumer of paralegal services many legal departments of corporations and government entities also utilize paralegals. For example, estate and trust departments of large banks, health care entities, insurance companies and real estate related organizations are continually finding that employing paralegals is an effective way to perform legal services.

- Private Law Firms
- Law Departments of corporations
- Banks
- Insurance Companies
- Government Agencies
- Legal Services/Legal Aid Offices
- Special Interest Groups/Associations
- Criminal Law Offices
- Freelance or Independent Paralegals
- Service Companies
- Consulting Firms

For more information for career opportunities please visit http://www.kent.edu/CAS/Justice/paralegal/links/paralegal_does.cfm

[Roadmaps](#)

[Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: The Bachelor of Arts in Philosophy examines the ideas of some of the most brilliant minds in human history. Philosophy explores the larger questions in human life, such as: What can I know, and how can I be certain I know it?; What is the nature of reality?; and What kind of life should I live? By understanding the history and methodologies of philosophy, majors develop analytical and critical abilities as well as reading, writing, creative and problem-solving skills. Philosophy provides the relevant background and skills for successful careers in various fields, including law, business, religion, medicine, writing and editing.

CAREER OPPORTUNITIES: Philosophy is not a specifically job-oriented major the way journalism or nursing might be. Still, students majoring in philosophy find themselves equipped with skills attractive to a range of potential employers. Students with a philosophy background are able to make fine distinctions, to follow and construct arguments, to express themselves well orally, in writing and to read demanding texts with depth and care.

A Philosophy major or minor is not only an intellectually stimulating and rewarding course of study available at Kent State University, it is a great way to develop critical and creative thinking skills, an ability to read and comprehend complex material, and a facility with both creative and technical writing. These are skills that today's employers are seeking and which no employee can afford to be without. With a Philosophy major or minor, you are well prepared for a wide range of career opportunities.

Interested in a Career in Law or Government? Recent studies show that, as a group, Philosophy majors outperform many other majors and all government and prelaw majors on the LSAT (Law School Admissions Test)! (Source: Philip Handwerk, LSAC Data Services, Law Services Admission Council)

Interested in a Career in Business? Recent studies show that, as a group, Philosophy majors outperform economics majors and all other business majors on the GMAT (Graduate Management Admission Test)!

Interested in Graduate Studies? Recent studies show that, as a group, Philosophy majors outperform most other majors and all business, pre-law, and liberal arts majors on the GRE (Graduate Records Exam)! Philosophy was the only major of 57 reported to score a mean 5.0 on the Analytical Writing section of the exam. (Source: GRE Guide to use of Scores, 2007-08, Educational Testing Service)

ADMISSION REQUIREMENTS: General Admissions for New Freshman: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). [Roadmaps](#)

[B.A. Program Requirements](#)

[B.S. Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: The Bachelor of Arts in Physics prepares students for such varied fields as secondary education, patent law, science journalism or interdisciplinary science careers. The core requirements permit a large number of elective courses, which allow students to complete a minor or second major in preparation for an interdisciplinary career. This program is well suited for those with a strong interest not only in science but also in a non-science field. Students completing the program may choose to continue their physics studies on a graduate level.

The Bachelor of Science in Physics consists of six concentrations: the Research and Applied Physics concentrations plus four interdisciplinary concentrations in Biological Sciences, Chemistry, Applied Mathematics and Computer Science and Mathematics.

The Research Concentration prepares majors for further study at the graduate level. This program trains students in logical thinking and problem solving using both analytical and computational methods. It also furnishes students with a comprehensive understanding of the basic laws and principles that govern the physical world. Academic assessment and GRE results keep the program up-to-date via curricular revisions. This program is a popular stepping stone to graduate degrees not only in physics, but also in engineering, astronomy/astrophysics and materials science.

The Applied Physics Concentration prepares students for immediate entry into careers in industry. Course requirements include electronics, introduction to computer programming, and data analysis and computational physics techniques. While rooted in the basic principles of physics, this program is optimized for students concerned with the application of physics in practical devices and systems.

The Biological Sciences Concentration is for students with a strong interest in both physics and biology, who may wish to prepare for graduate study in biophysics or for work in a biotechnology company. This program satisfies requirements for the Biological Sciences minor.

The Chemistry Concentration is designed for students with a strong interest in both physics and chemistry, who may wish to prepare for graduate study in chemical physics or for work in a high-technology materials-related research and development laboratory. This program satisfies requirements for the Chemistry minor.

The Applied Mathematics and Computer Science Concentration provides a foundation in physics while emphasizing the use of computer software in scientific applications. Graduates are prepared for computer-related careers that require an understanding of the underlying science as well as knowledge of relevant computer applications. This program satisfies requirements for the Computer Science minor.

The Mathematics Concentration requires that students take, in addition to physics, courses in pure mathematics as well as applied mathematics. Students will understand physical theory, its applications and the underlying mathematics. This training, valuable for start-up positions with a number of industries, may also serve as preparation for graduate work in either physics or mathematics.

CAREER OPPORTUNITIES:

A Ph.D. degree in physics or closely related fields is typically required for basic research positions, independent research in industry, faculty positions, and advancement to managerial positions. Graduate study in physics prepares students for a career in research through rigorous training in theory, methodology, and mathematics. Most physicists specialize in a subfield during graduate school and continue working in that area afterwards.

Additional experience and training in a postdoctoral research appointment, although not required, is important for physicists and astronomers aspiring to permanent positions in basic research in universities and government laboratories. Many physics and astronomy Ph.D. holders ultimately teach at the college or university level.

Master's degree holders usually do not qualify for basic research positions, but may qualify for many kinds of jobs requiring a physics background, including positions in manufacturing and applied research and development. Increasingly, many master's degree programs are specifically preparing students for physics-related research and development that does not require a Ph.D. degree. These programs teach students specific research skills that can be used in private-industry jobs. In addition, a master's degree coupled with State certification usually qualifies one for teaching jobs in high schools or at 2-year colleges.

Those with bachelor's degrees in physics are rarely qualified to fill positions in research or in teaching at the college level. They are, however, usually qualified to work as technicians or research assistants in engineering-related areas, in software development and other scientific fields, or in setting up computer networks and sophisticated laboratory equipment. Increasingly, some may qualify for applied research jobs in private industry or take on nontraditional physics roles, often in computer science, such as systems analysts or database administrators. Some become science teachers in secondary schools.

Holders of a bachelor's or master's degree in astronomy often enter an unrelated field where their strong analytical background provides good preparation. However, they are also qualified to work in planetariums running science shows, to assist astronomers doing research, and to operate space-based and ground-based telescopes and other astronomical instrumentation.

(Source: Bureau of Labor Statistics)

ADMISSION REQUIREMENTS:

General Admissions for New Freshman: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the [Admissions website for transfer students](#).

GRADUATION REQUIREMENTS:

Minimum 121 total credit hours and 42 upper-division hours for graduation. Minimum 2.00 GPA overall and 2.00 GPA in major required for graduation.

Graduate Programs

*A minimum C grade must be earned in either PHY 30020 or PHY 40020 in order to fulfill the writing-intensive requirement.

**With advisor's permission. PHY 40092 may be replaced with PHY 40096 Individual Investigation or PHY 40099 Senior Honors Thesis. If PHY 40096 is taken, a suitable research project should be selected.

Additional Notes for the Physics major:

The following courses may not count towards the major:

PHY 11030 Seven Ideas that Shook the Universe (3)

PHY 21430 Frontiers in Astronomy (3)

PHY 21040 Physics in The Entertainment and the Arts (3)

PHY 21041 Physics in The Entertainment and the Arts Laboratory (1)

PHY 24001 Astronomy (3)

Credit is not granted for both the PHY 13001/PHY 13002 and the PHY 23101/PHY 23102 series, nor for the PHY 13011/PHY 13012 series.

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of Arts and Sciences > Undergraduate Programs > [Political Science](#)

COLLEGE: College of Arts and Sciences

DEPARTMENT: Department of Political Science
302 Bowman Hall
Tel: 330-672-2060
Fax: 330-672-3362
Web: <http://www.kent.edu/cas/PoliSci/index.cfm>

DESCRIPTION: The Bachelor of Arts in Political Science consists of four concentrations: American Politics, International Relations-Comparative Politics, General, Public Policy.

American Politics provides a broad grounding in the general field of political science (domestic and global politics and policy, as well as theory and methods) while focusing on the specific topics of U.S. political processes, behaviors, institutions and policies. This concentration is a likely option for pre-law students, for those seeking entry-level positions in government, for those interested in pursuing graduate coursework in American politics, and for those generally interested in studying how politics works in the United States.

International Relations-Comparative Politics provides a broad grounding in the general field of political science while focusing on questions of governing the global political economy. Topics include governmental functions (e.g., holding elections, legislating, justice) and how they are performed across diverse nations; and how diverse nations are united under common global governing mechanisms, such as the United Nations. This concentration is a likely option for those seeking entry-level positions in government, as well as for those interested in pursuing graduate coursework in this field.

General provides a broad grounding in the general field of political science (domestic and global politics and policy, as well as theory and methods) while permitting students to take advanced coursework in the field without concentrating in any specific area. This concentration is a likely option for those seeking entry-level positions in government as well as those interested in pursuing graduate coursework in an undetermined subfield.

Public Policy provides a broad grounding in the general field of political science while focusing attention on how actors in the public sector (i.e., governmental or quasi-governmental employees) satisfy individual preferences and provide collective solutions to public problems. The concentration is a likely option for students seeking entry-level positions in government, as well as for those interested in pursuing the Master of Public Administration, which generally leads to a career in managing public agencies.

CAREER OPPORTUNITIES: Many political science majors go on to careers in business; undergraduate political science training offers a good preparation for graduate programs in business. Students who have focused on international relations or country/area studies may find opportunities in international business and trade.

While careers in public affairs can be pursued with a bachelor's degree in political science, there are graduate programs that offer specialized professional training for careers in public affairs and public service. There are also programs in public administration, public policy and political campaign management. Such programs provide training for public for management positions in governmental agencies, professional and interest groups organizations, the governmental relations divisions of corporations, for-profit consulting and marketing agencies and the expanding sectors of NGOs.

If you are considering a career in public service, one area to explore is the rapidly expanding employment sector of non-profit/non-governmental organizations and associations. There are NGOs at all levels of

government and geographical areas from the local to the global arena. Moreover, there are NGOs for virtually all public issues and policy areas, from neighborhood housing and environmental renewal to food banks and youth development to national policy areas such as health education, civil rights and criminal justice to global issues areas or economic and democratic development, human rights, trade and the environment.

If you are interested in a career in print or broadcast journalism, a political science major can give you the expertise you need substantively and analytically. Typically political science courses place heavy emphasis on developing fluid and clear writing and speaking skills. Journalism can be entered with a bachelor's degree or after completing a graduate program in journalism.
(Source: American Political Science Association)

Formal requirements to become a lawyer usually include a 4-year college degree, 3 years of law school, and passing a written bar examination; however, some requirements may vary by State. Lawyers held about 759,200 jobs in 2008. Approximately 26 percent of lawyers were self-employed, practicing either as partners in law firms or in solo practices. Most salaried lawyers held positions in government, in law firms or other corporations, or in nonprofit organizations. Most government-employed lawyers worked at the local level. In the Federal Government, lawyers worked for many different agencies, but were concentrated in the Departments of Justice, Treasury, and Defense. Many salaried lawyers working outside of government were employed as house counsel by public utilities, banks, insurance companies, real-estate agencies, manufacturing firms, and other business firms and nonprofit organizations. Some also had part-time independent practices, while others worked part time as lawyers and full time in another occupation. (Source: Bureau of Labor Statistics)

ADMISSION REQUIREMENTS:

General Admissions for New Freshman: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the [Admissions website for transfer students](#).

GRADUATION REQUIREMENTS:

Minimum 121 total credit hours and 42 upper-division hours for graduation. Minimum 2.00 GPA overall and 2.00 GPA in major required for graduation.

LANGUAGE REQUIREMENT:

Yes

STUDY ABROAD/AWAY OPPORTUNITIES:

Washington Program in National Issues
Columbus Program in Intergovernmental Issues

PROGRAM FEE:

None

STUDENT ORGANIZATIONS:

Political Science Club; Pi Sigma Alpha; Phi Alpha Delta

GRADUATE PROGRAMS:

M.A. in Political Science
Ph.D. in Public Policy: American Politics and Policy, Justice Politics and Policy, Policy Administration and Analysis, Transnational and Comparative Politics and Policy
Master in Business Administration
M.A. in Communication Studies
M.A. in Journalism and Mass Communication

» Pre-Dentistry Advising Program

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of Arts and Sciences > Undergraduate Programs > [Pre-Dentistry Advising Program](#)

COLLEGE: College of Arts and Sciences

DEPARTMENT: 105 Bowman Hall
Tel: 330-672-3015
Web: <http://www.kent.edu/cas/>

DESCRIPTION: Pre-Dentistry, a pre-professional advising program, provides students with an opportunity for further dental school training after completing their undergraduate degree. Students take courses to prepare for the Dental Admissions Test (DAT) and coursework in dental school. In addition to declaring this program, students must be admitted to a bachelor's degree program in the College of Arts and Sciences. Students who plan to pursue a bachelor's degree in Biology or Chemistry, which have their own pre-dentistry concentration, should not declare this program.

ADMISSION REQUIREMENTS: Admission requirements differ among dental schools.

General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the [Admissions website for transfer students](#).

GRADUATION REQUIREMENTS: Students should consult with a faculty pre-dentistry advisor each semester for assistance in choosing classes, the appropriate sequencing of classes, and to ensure entrance requirement for selected dental schools are being met.

STUDY ABROAD/AWAY OPPORTUNITIES: There are many study abroad/away opportunities, for more information contact the [Office of International Affairs](#).

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of Arts and Sciences > Undergraduate Programs > [Pre-Dentistry Advising Program Requirements](#)

Course requirements for Pre-Dentistry Advising Program:

BSCI 10120 Biological Foundations	4
30140 Cell Biology	4
30156 Elements of Genetics	3
30171 General Microbiology	4
40430 Animal Physiology	3
Choose one of the following:	4-5
MATH 12002 Analytic Geometry and Calculus I (5)	
12021 Calculus for Life Sciences (4)	
Choose one of the following:	3
MATH 12022 Probability and Statistics for Life Sciences (3)	
30011 Basic Probability and Statistics (3)	
Choose one of the following groups:	10
CHEM 10060 General Chemistry I (4)	
10061 General Chemistry II (4)	
10062 General Chemistry Laboratory I (1)	
10063 General Chemistry Laboratory II (1)	
or	
10960 Honors General Chemistry (5)	
10961 Honors General Chemistry (5)	
Choose one from the following groups:	6
CHEM 20481 Basic Organic Chemistry I (4)	
20482 Basic Organic Chemistry II (2)	
or	
30481 Organic Chemistry I (3)	
30482 Organic Chemistry II (3)	
Both groups take:	
CHEM 30475 Organic Chemistry Laboratory I	1
30476 Organic Chemistry Laboratory II	1
Choose one from the following groups:	10
PHY 13001 General College Physics I (4)	
13021 General College Physics Laboratory I (1)	
13002 General College Physics II (4)	
13022 General College Physics Laboratory II (1)	
or	
** 23101 General University Physics I (5)	
** 23102 General University Physics II (5)	
	Total
	53-54

While individual dental schools may require a variety of additional courses, the following list is highly recommended to strengthen a student's preparation for the DAT:

BSCI 10110 Biological Diversity (4)
30518 Vertebrate Anatomy (4)

Choose one:

CHEM 30284 Introductory Biological Chemistry (4)
40245 Biological Foundations of Medicine (4)

[Roadmaps](#)

[Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: Students in the Bachelor of Arts in Psychology apply the science of understanding and explaining thoughts, emotions and behavior to solving real-world problems. Topics include stress, biological influences on behavior, growth and development of children and diagnosis and treatment of psychological disorders. Students conduct science and evaluate and interpret data. Elective courses may be used to specialize in a number of areas of psychology and to gain hands-on experience in research labs. The degree prepares students for graduate school and employment in a range of fields, including clinical, applied and experimental areas of psychology and related fields such as education, law, human resources and health care.

CAREER OPPORTUNITIES: There are many career options for graduates with a bachelor's degree in psychology, with most employed in careers in social service and business settings. In business settings, psychology majors work in areas such as personnel, human resources, and marketing. In social services settings, psychology majors work as case workers, residential youth counselors, probation/parole officers, group home coordinators, and other related fields. With a liberal arts degree, psychology majors also are qualified to work in many other fields as well, such as working at colleges and universities in alumni relations, admissions, and other areas.

Students who choose to pursue a graduate degree have many options open to them. School Psychologists and Industrial Psychologists hold at least a master's degree. With a doctoral degree, students can pursue numerous careers in psychology, including clinical or counseling psychology, health psychology, cognitive psychology, social psychology, developmental psychology, and others. Many doctoral level psychologists are employed in research and/or teaching at educational institutions. However, about 21 percent are employed in healthcare, primarily in offices of mental health practitioners, hospitals, physicians' offices, and outpatient mental health and substance abuse centers. After several years of experience, some psychologists—usually those with doctoral degrees—enter private practice or set up private research or consulting firms. Many graduates also pursue graduate training in related fields such as community/mental health counseling and school counseling, which require a master's degree. For more information about career options for psychology majors, you can visit the Department of Psychology website.

ADMISSION REQUIREMENTS: General Admissions for New Freshman: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the [Admissions website for transfer students](#).

DESCRIPTION: The Bachelor of Arts in Russian provides a basis for the development of professional-level proficiency in the Russian language as well as a comprehensive understanding of Russian literature and culture, including television and film. Students explore the language and culture of the pre-revolutionary Russian empire, the Soviet Union and contemporary post-Soviet Russia.

CAREER OPPORTUNITIES: Postsecondary teachers held nearly 1.7 million jobs in 2008. The following tabulation shows postsecondary teaching jobs in specialties having 20,000 or more jobs in 2008. (Source: Bureau of Labor Statistics)

ADMISSION REQUIREMENTS: General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). *Students majoring in Russian are not necessarily expected to have some proficiency in Russian through high-school study. However, students with previous Russian study should see a Russian major advisor for placement. Students lacking in sufficient major-level proficiency to take the first major courses (RUSS 32201 and RUSS 32203) can reach it by taking courses in the prerequisite sequence (RUSS 12201, 12202, 22201 and 22202) based on the advisor's placement recommendation and high school training. Students with sufficient Russian to place into higher semesters are not allowed in Elementary Russian I (RUSS 12202).

**Students are required to earn a minimum C (2.0) grade in either RUSS 32303 Modern Writers or RUSS 32421 Russian Civilization to fulfill the one-course writing-intensive requirement.

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of Arts and Sciences > Undergraduate Programs > [Russian Translation](#)

COLLEGE: College of Arts and Sciences

DEPARTMENT: Department of Modern and Classical Language Studies
109 Satterfield Hall
Tel: 330-672-2150
Fax: 330-672-4009
Web: <http://www.kent.edu/cas/mcls>

DESCRIPTION: The Bachelor of Science in Russian Translation is a pre-professional degree designed for students to develop the skills needed to become working translators. It also introduces the rudiments of translation theory as it applies to the actual practice of translation. Graduates may pursue a professional degree in translation or go on to work for government, business or industry, for translation agencies or as freelance translators. Majors meet requirements designed to ensure competence in Russian and take five core courses in translation during the junior and senior years. The major features a 33-credit subject area specialty requirement, which enables translation students to acquire a level of expertise in a specific field in which they can specialize as translators. Translation majors are strongly encouraged to undertake study in a country where Russian is spoken.

CAREER OPPORTUNITIES: Opportunities are many and varied, depending on language combinations and subject area specialties. According to the U.S. department of labor projections, "employment of interpreters and translators is projected to increase 22 percent over the 2008-18 decade, which is much faster than the average for all occupations. Higher demand for interpreters and translators results directly from the broadening of international ties and the large increases in the number of non-English speaking people in the United States... Job prospects for interpreters and translators vary by specialty and language," ranging from healthcare to law. In 2009, about 28 percent worked in public and private educational institutions. About 13 percent worked in healthcare and social assistance, many of whom worked for hospitals. Another 9 percent worked in other areas of government, such as Federal, State, and local courts. Other employers of interpreters and translators include interpreting and translation agencies, publishing companies, telephone companies, and airlines. About 26 percent of interpreters and translators are self-employed."

Translators work with written documents, as distinguished from interpreters, who work with oral language. Many translators will require on-the-job training in addition to Kent's pre-professional BS in Translation. Translators work predominantly into the mother tongue.

Many translators rely on other sources of income to supplement earnings, such as teaching or language consultancy. The career outlook is best for those who gain a functional ability with translation tools and such skills as revising/editing/proofreading and desktop publishing. Prospects are currently strong in software internationalization and webpage localization (making products, text, or images acceptable to target-country market norms).

ADMISSION REQUIREMENTS: General Admissions for New Freshman: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An

Kent Core Additional (must be from two categories)	6
Kent Core Basic Sciences (must include one laboratory)****	6-7
Kent Core Composition	6-8
Kent Core Humanities and Fine Arts (minimum one course from each)	9
Kent Core Mathematics and Critical Reasoning	3-5
Kent Core Social Sciences (must be from two disciplines)****	6
MINIMUM TOTAL	124

*Students majoring in Russian are not necessarily expected to have some proficiency in Russian through high school study. However, all students with previous Russian study should see a Russian major advisor for placement. Students lacking in sufficient major-level proficiency to take the first major courses, RUSS 32201 and RUSS 32203, can reach it by taking courses in the prerequisite sequence (RUSS 12201, 12202, 22201 and 22202) based on the advisor's placement recommendation and high school training. Students with sufficient Russian to place into higher semesters are not allowed in Elementary Russian I.

**A minimum C grade must be earned in either RUSS 32303 or RUSS 32421 to fulfill writing-intensive requirement.

***The Subject Area Specialty is a departmentally approved coherent sequence of courses (33 credits) in one or more other disciplines (i.e., not in the Department of Modern and Classical Language Studies). In order to be approved, the Subject Area Specialty must include courses in an area or areas that are currently marketable, such as business, legal studies, international relations, political science, computer science, chemistry, physics or other "hard" sciences. The Subject Area Specialty may include up to 17 credit hours of a different language in the sequence through composition/conversation. It may also optionally include MCLS 22217 Diversity in Today's Russia. Total credits: 33. The recommended Kent Core courses (see Kent Core Summary) may be included within this area with advisor approval.

**** Recommended Courses

- Kent Core Basic Sciences:
 BSCI 10001 Human Biology (3)
 CHEM 10050 Fundamentals of Chemistry (3)
 GEOL 21062 Environmental Geology (3)
- Kent Core Social Sciences:
 ECON 22060 Principles of Microeconomics (3)
 ECON 22061 Principles of Macroeconomics (3) .

[Roadmaps](#)

[Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: The Bachelor of Arts in Sociology provides broad training in the theories and methods that sociologists use to understand contemporary social issues and problems. Students are encouraged to think critically as they examine issues ranging from small group behavior to global social movements. In addition to a core curriculum that focuses on social inequalities, social psychology and health and illness, the program offers courses on a variety of topics, including urban living, deviant behavior, religion and family.

CAREER OPPORTUNITIES: A BA in Sociology prepares students for a wide variety of jobs in such sectors as health services, counseling, community programs, journalism, group and recreation work, sales and marketing, human resources, social services, the criminal justice system, public administration, government programs, and social research. Sociology not only provides students with a strong liberal arts background in scientific and humanistic perspectives of social life, but also enables them to develop investigative skills in research design, statistics, and data analysis which will be useful when entering the labor market.

ADMISSION REQUIREMENTS: General Admissions for New Freshman: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the [Admissions website for transfer students](#).

GRADUATION REQUIREMENTS: Minimum 121 total credit hours and 42 upper-division hours for graduation. Minimum 2.00 GPA overall and 2.00 GPA in major required for graduation.

LANGUAGE REQUIREMENT: Yes

STUDY ABROAD/AWAY OPPORTUNITIES: There are many study abroad/away opportunities, for more information contact the [Office of International Affairs](#).

PROGRAM FEE: None

I. DESTINATION KENT STATE: FIRST YEAR EXPERIENCE (1 credit)				
Type	Course	Title		Credits
	US 10097	Destination Kent State: First Year Experience		1
II. MAJOR PROGRAM REQUIREMENTS (34 credits) <i>Courses count in major GPA</i>				
Type	Course	Title		Credits
KSS	SOC 12050	Introduction to Sociology		3
DD		32210	Researching Society	3
DG		32220	Data Analysis	3
		32221	Data Analysis Laboratory	1
WIC		42126	Sociological Theories*	3
		SOC Electives (minimum 15 upper-division credit hours)		21
III. ADDITIONAL PROGRAM REQUIREMENTS (86 credits)				
Type	Course	Title		Credits
		Foreign Language		14-16
		Kent Core Additional (must be from two categories)		6
		Kent Core Basic Sciences (must include one laboratory)		9-10
		Kent Core Composition		6-8
		Kent Core Humanities and Fine Arts (minimum one course from each)		9
		Kent Core Mathematics and Critical Reasoning		3-5
		Kent Core Social Sciences (must be from two disciplines)		6
		General Electives (minimum 24 upper-division credit hours)		33
MINIMUM TOTAL				121

*A minimum C (2.0) grade must be earned to fulfill the writing-intensive requirement.

To fulfill the diversity requirement, students must take one global diversity course that is not a SOC course.

Although students earning a BA are not required to have a minor, many sociology majors choose to obtain a minor as one way of completing the 42 upper-division credits required for the degree. Minors that work well with a sociology major include psychology, justice studies and other social sciences.

College Requirements

University Requirements

COLLEGE: College of Arts and Sciences

DEPARTMENT: 105 Bowman Hall
Tel: 330-672-2062
Web: www.kent.edu/cas

DESCRIPTION: The Bachelor of Arts in Soviet and East European Studies provides students with a strong understanding of the politics, history, geography and languages of the countries of the former Soviet Union (including the Baltic, Caucasus and Central Asian states) and Eastern Europe. The major introduces the student to the region's domestic politics, its foreign policy and to the history that shaped its political, economic and social structures. Attention is also paid to geography, environment and the region's cultures. Students are required to learn a language from the region. The major will help prepare the student for work in non-governmental organizations and government agencies and for graduate studies in the field.

CAREER OPPORTUNITIES: Postsecondary teachers held nearly 1.7 million jobs in 2008. The following tabulation shows postsecondary teaching jobs in specialties having 20,000 or more jobs in 2008

ADMISSION REQUIREMENTS: General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). DESCRIPTION: Students pursuing the Bachelor of Arts in Spanish explore the rich diversity of Spanish cultures, develop written and oral skills in the Spanish language and increase their understanding of the cultures and history of Spain and Latin America through the analysis of literary and nonliterary texts. Proficiency in the Spanish language and awareness of aspects of Hispanic cultures are valuable assets in many majors and careers, including international relations, international business, journalism and mass communication, health care, government, education, justice studies and law.

CAREER OPPORTUNITIES: Postsecondary teachers held nearly 1.7 million jobs in 2008. The following tabulation shows postsecondary teaching jobs in specialties having 20,000 or more jobs in 2008. (Source: Bureau of Labor Statistics)

		Kent Core Composition	6-8
		Kent Core Humanities and Fine Arts (minimum one course from each)	9
		Kent Core Mathematics and Critical Reasoning	3-5
		Kent Core Social Sciences (must be from two disciplines)	9
		General Electives (minimum 10 upper-division credit hours)	31
MINIMUM TOTAL			121

*Students majoring in Spanish are expected to have some proficiency in Spanish through high-school study. Students with previous Spanish study should take the Spanish Placement Test and enroll in the correct course(s) based on their score. Students who have completed three or four years of high school Spanish should see a Spanish major advisor for placement. Student lacking in sufficient major-level proficiency to take the first two major courses (SPAN 38211 and SPAN 38213) can reach proficiency by taking courses in the prerequisite sequence (SPAN 18201, 18202, 28201 and 28202) based on their placement score and high school training. Students with sufficient French to place into higher semesters are not allowed to take Elementary Spanish I (SPAN 18202).

**One course must be earned with minimum C grade to fulfill the writing-intensive requirement.

COLLEGE: College of Arts and Sciences

DEPARTMENT: Department of Modern and Classical Language Studies
109 Satterfield Hall
Tel: 330-672-2150
Fax: 330-672-4009
Web: <http://www.kent.edu/cas/mcls>

DESCRIPTION: The Bachelor of Science in Spanish Translation is a pre-professional degree designed for students to develop the skills needed to become working translators. It also introduces the rudiments of translation theory as it applies to the actual practice of translation. Graduates may enter graduate programs in translation (the professional degree) or go on to work for government, business or industry, for translation agencies or as freelance translators. While meeting requirements designed to ensure competence in Spanish, translation majors take five core courses in translation during the junior and senior years. The 27-credit subject area specialty requirement enables translation students to acquire a level of expertise in a specific field in which they can specialize as translators. Translation majors are strongly encouraged to undertake study in a country where Spanish is spoken.

CAREER OPPORTUNITIES: Translators provide products and services, and work with written documents, as distinguished from interpreters, who work as oral language mediators. Most practitioners pursue one field or the other; it is less common to work in both. Interpreters and translators are employed in a variety of industries: schools, colleges, and universities; healthcare and social assistance, especially hospitals; and other areas of government, such as Federal, State, and local courts. Other employers of interpreters and translators include interpreting and translation agencies, and publishing companies. Many translators will require on-the-job training in addition to Kent's pre-professional BS in Spanish Translation. Translators work predominantly into the mother tongue.

About 26 percent of interpreters and translators are self-employed, and thus majors should have a strong foundation in entrepreneurship; those who work in-house should be aware that such opportunities are growing steadily fewer due to outsourcing and vendor consolidation. Many translators rely on other sources of income to supplement earnings, such as teaching or language consultancy. The career outlook is best for those who gain a functional ability with translation tools and value-added skills such as revising/editing/proofreading and desktop publishing. Prospects are currently strong in software internationalization and webpage localization (making products, text, or images acceptable to target-country market norms). Literary translation, while not a highly remunerative activity, is nevertheless an important area of the field. To break into the language industry, many inexperienced translators do pro bono humanitarian translation, preferably under supervision.

The freelancer's best credential at present is to become certified in the language combination through the American Translators Association, or for interpreters, through federal bodies at the national level. Growth projections for the coming decade are strong for the Spanish-English combination due in part to the rise in the Hispanic population in the U.S.

(Sources: Common Sense Advisory; Byte Level Research; Bureau of Labor Statistics)

ADMISSION REQUIREMENTS: General Admissions for New Freshman: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: The Bachelor of Arts in Teaching English as a Second Language provides students with a broad understanding of both theory and practice in language studies, pedagogy and culture. Students gain mastery in implementing their skills in varied second-language teaching contexts; in addition, they can observe and participate with international learners in the state-of-the-art technology classroom. Students completing their practicum work in Dresden, Germany, receive a Certificate in Teaching English as a Foreign Language. Students can additionally work toward state teacher licensure by completing the Education minor.

CAREER OPPORTUNITIES: At the undergraduate level, our programs prepare students for careers in teaching English as a second and/or foreign language, as well as for graduate and professional studies in language, education, and communications. Many graduates of the BA in TESL go on to teach English abroad.

Teachers of adult literacy and remedial education held about 96,000 jobs in 2008. Additional teachers worked as unpaid volunteers. Many of the jobs are Federally funded, with additional funds coming from State and local governments. The majority of these teachers are employed by the educational services industry. (Source: Bureau of Labor Statistics)

ADMISSION REQUIREMENTS: General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). University Requirements

DESCRIPTION: The Bachelor of Science in Zoology prepares students for careers centering on animals. Students pursuing this degree often continue their education in a wide variety of post-graduate professional and graduate programs or seek employment in zoos, parks departments, laboratories, among others. Students considering a career in veterinary medicine often choose this major. This degree is offered by the Department of Biological Sciences.

CAREER OPPORTUNITIES: Students completing a degree in Zoology opt to either go on for additional education to get graduate degrees or degrees in veterinary medicine or enter the workforce directly after graduation. Those enter the workforce directly may go on to work for parks departments, zoos/aquaria, museums, animal research facilities, wildlife rehabilitation centers, veterinarian offices or humane societies.

The Department of Biological Sciences has several mechanisms to help students prepare for their future careers. All students, particularly those who plan to go on to graduate school or seek employment directly after degree completion, are strongly encouraged to complete research projects, through our Individual Investigation course, and/or do an internship in the area in which they plan to be employed. In addition, we offer BSCI 30005, Career Pathways in Biology, which provides students a chance to learn more about career paths and how to achieve their goals. Lastly, students are expected to meet regularly with their faculty advisor to talk about career options, get help in selecting electives, and discuss ways to get experience required for their career goals.

ADMISSION REQUIREMENTS: General Admissions for Freshman Students: Students most likely to be admitted and succeed at the Kent Campus are those who have graduated with at least 16 units of the recommended college preparatory curriculum in high school, who have achieved a cumulative high school grade point average of 2.5 or higher (on a 4.0 scale), and whose composite ACT score is 21 or better (980 combined critical reading and math SAT score). For more information on admissions, visit the [Admissions website for new freshmen](#).

General Admissions for Transfer Students: Generally, a transfer applicant who has taken 12 or more semester hours with a college cumulative GPA of at least 2.0 on a 4.0 scale may be admitted. An applicant who has taken fewer than 12 semester hours will be evaluated on both collegiate and high school records. For more information on admissions, visit the [Admissions website for transfer students](#).

GRADUATION REQUIREMENTS: Minimum 121 total credit hours and 42 upper-division hours for graduation. Minimum 2.00 GPA overall and 2.00 GPA in major required for graduation.

LANGUAGE REQUIREMENT: Yes

PROGRAM FEE: None

STUDY ABROAD/AWAY: There are many study abroad/away opportunities, for more information contact the [Office of International Affairs](#).

III. ADDITIONAL PROGRAM REQUIREMENTS (44-48 credits)

Type	Course	Title	Credits
		Foreign Language	8-10
		Kent Core Additional (must be from two categories)	2
		Kent Core Composition	6-8
		Kent Core Humanities and Fine Arts (minimum one from each)	9
		Kent Core Social Sciences (must be from two disciplines)	6
		General Elective (upper division)	14
MINIMUM TOTAL			121

*A minimum C (2.0) grade must be earned to fulfill the writing-intensive requirement.

**Maximum 4 credit hours of these courses may be satisfactory/unsatisfactory graded

***Must choose any one of the following:

Maximum 6 credit hours of any combination of the following may be used to fulfilling this elective (enrollment in these course must be determined with a faculty advisor):

- BSCI 30005 Career Pathways in Biology (1)
- 40099 Senior Honors Thesis (1-3)
- 40191 Senior Seminar (1)
- 40192 Internship in Biological Sciences (3-6)
- 40196 Individual Investigation (1-3)

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of Arts and Sciences > [Graduate Programs](#)

The graduate program in the College of Arts and Sciences is the largest and most diverse graduate program at Kent State University, offering graduate degrees in the natural sciences and mathematics, the social sciences and the humanities. Graduate degrees are offered in a wide variety of academic disciplines and interdisciplinary areas. Information regarding individual graduate programs in the College of Arts and Sciences is provided on the following pages. Persons seeking information on graduate non-degree status or graduate certificate programs should consult the Division Graduate Studies, Office of Graduate Program Services, 330-672-2661. For more information, visit the College of Arts and Sciences Web site at <http://www.kent.edu/cas>.

Master's Programs

Master's degree programs are available in 21 disciplines and interdisciplinary areas with 46 different majors and include the degrees of Master of Arts, Master of Fine Arts, Master of Liberal Studies, Master of Public Administration and Master of Science:

- Anthropology (M.A.)
- Biological Sciences (M.A., M.S.)
- Biomedical Sciences (M.A., M.S.)
- Chemical Physics (M.S.)
- Chemistry (M.A., M.S.)
- Computer Science (M.A., M.S.)
- Creative Writing (M.F.A.)
- English (M.A.)
- Geography (M.A.)
- Geology (M.S.)
- History (M.A.)
- Justice Studies (M.A.)
- Liberal Studies (L.S.M.)
- Mathematics (M.A., M.S.)
- Modern and Classical Language Studies (M.A.)
- Philosophy (M.A.)
- Physics (M.A., M.S.)
- Political Science (M.A.)
- Psychology (M.A.)
- Public Administration (M.P.A.)
- Sociology (M.A.)

Doctor of Philosophy

The Doctor of Philosophy (Ph.D.) degree is offered in 15 disciplines with 31 different majors:

- Biological Sciences
- Biomedical Sciences
- Chemical Physics
- Chemistry
- Computer Science
- English
- Geography
- Geology
- History

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of Arts and Sciences > Graduate Programs > [Anthropology](#)

COLLEGE: College of Arts and Sciences

DEPARTMENT: Department of Anthropology
226 Lowry Hall
Tel: 330-672-4363
Web: <http://www.kent.edu/cas/anthropology/index.cfm>

[Program Requirements](#)
[College Requirements](#)
[University Requirements](#)

DESCRIPTION: Students in the Master of Arts in Anthropology receive training in three fields: cultural anthropology, archaeology, and biological anthropology. The research-oriented program encourages students to develop their own projects or participate in existing projects by their second semester. The program provides students with the training to either continue study in a Ph.D. program or obtain employment after graduate. More than 80 percent of M.A. graduates continue for the Ph.D. or find employment in an area directly related to their training.

ADMISSION REQUIREMENTS: Official transcript(s), 3.0 GPA, GRE, goal statement and three letters of recommendation.

GRADUATION REQUIREMENTS: Minimum total 36 credit hours, 30 hours of graduate credit and 6 hours of thesis work.

THESIS/ DISSERTATION: **THESIS**
By the end of the first semester of graduate work, students should select two members of the graduate anthropology faculty in addition to their principal advisor to constitute a thesis committee. This committee must approve the thesis before it is submitted to the College of Arts and Sciences. Students should arrange for the appointment of this committee with the graduate coordinator for anthropology. A completed written thesis must be unanimously approved as a work of professional caliber as to content and form by a thesis committee of three graduate faculty. This thesis will be defended orally by the student. The defense is not to be considered a mere formality. The committee may range beyond the actual content of the thesis to questions about concepts, methods, theories upon which the thesis is based, and about the content of relevant studies included in the bibliography of the thesis.

NON-THESIS OPTION
In cases in which the faculty believe that a student's career would be better served by additional coursework rather than a thesis, 6 semester hours of additional coursework may be substituted for the thesis. The additional courses should compose an intensive investigation within the student's specialty. Permission for using the non-thesis option must be arranged through the graduate coordinator. In the very rare cases where a student is granted permission to use the nonthesis option, special written comprehensive examinations will be required.

PROGRAM FEE: None

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of Arts and Sciences > Graduate Programs > Anthropology - M.A. Program Requirements

ANTHROPOLOGY PROGRAM REQUIREMENTS (30 credits)			
Course	Title		Credits
ANTH 68199	Thesis I		6
	68230	Problems in Cultural Anthropology	3
	68430	Problems in World Prehistory	3
	68630	Problems of Biological Anthropology	3
Additional Program Requirements			15
TOTAL			30

This series is presented to ensure that graduate students demonstrate scholarly familiarity with the various sub-fields, at least sufficient for them to read intelligently in areas other than their own specialty.

Each student is also urged to elect at least one course in either linguistics or statistics. Students should choose this option in consultation with their advisors.

A minimum grade of "B" must be attained in each of the required courses: ANTH 68230, 68430 and 68630. Formal final examinations will be administered in each course. Students who score less than a "B" (3.0) in these required courses will be required to pass an appropriate additional examination. This examination will be graded "S" or "U." Students who receive a "U" will automatically be dropped from the program. Additionally, students who score less than a "C" (2.0) in any of the required courses cannot subsequently qualify for an M.A. degree in anthropology.

Students will be permitted to present up to 6 semester hours of credit from outside of anthropology. The 6 hours, however, are expected to relate to the course of study being pursued (all cases will be considered on an individual basis, and outside courses must be selected in consultation with the advisor and the coordinator of graduate studies). Students wishing to take statistics or linguistics courses from outside of anthropology may be permitted to do so without those hours counting against their allotted six, in the event that the courses are not available within the department when they are needed.

Tel: 330-672-2680
Fax: 330-672-7949
Web: <http://www.kent.edu/cas/geology>

University Requirements

DESCRIPTION: The Ph.D. in Applied Geology prepares students for careers in industry and academic institutions where research into the application of geological principles focuses on solution to basic and applied research questions. Focus areas include study of modern environments and society's interactions with that environment and research into paleo-environments, paleoecology, biological evolution and tectonics.

ADMISSION REQUIREMENTS: Official transcript(s), 3.0 GPA, GRE, goal statement and three letters of recommendation.

GRADUATION REQUIREMENTS: The courses taken by doctoral students are determined jointly with members of the graduate faculty of the department but in all cases must fulfill certain basic requirements. All students must maintain a 3.0 or greater GPA. Coursework shall be arranged so that it embraces one major area of concentration in applied geology and a minor area related to another aspect of geology

CANDIDACY: To be admitted to candidacy for the doctoral degree, a student must first fulfill the additional breadth requirement and must pass comprehensive written and oral examinations. Both of these requirements must be met prior to the start of the fifth semester after admission to the doctoral program. The comprehensive examinations focus on mastery of the student's major area of concentration and one minor area, as well as the fundamentals of geology and its allied sciences as appropriate to the student's proposed dissertation topic. Students who fail the comprehensive examinations may be allowed to repeat them once; this must be completed more than one month after the initial examination, but less than six months thereafter.

LANGUAGE REQUIREMENT: All students working toward the doctoral degree must demonstrate either proficiency in a modern language other than their native language, or alternatively, knowledge sufficiently advanced to propose research in a field ancillary to the student's major. To satisfy this requirement the student must either pass an appropriate foreign language test or prepare and defend orally a written research proposal in an ancillary field of study.

RESIDENCY: All students admitted to the doctoral program must complete two successive semesters of full-time graduate study at Kent State University. During this time they must obtain a minimum of 22 semester credits.

PROGRAM FEE: None

[Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: The Master of Arts in Applied Mathematics comprises a flexible program of coursework in mathematics beyond the bachelor's degree emphasizing areas relevant to applications in the sciences (including engineering, biological, financial and physical sciences). There is no thesis requirement or option. Students in the applied mathematics Ph.D. program can apply for this M.A. degree after completing the requisite number of credit hours.

The Master of Science in Applied Mathematics is primarily a terminal, pre-professional degree comprising coursework beyond the bachelor's degree emphasizing areas relevant to applications in the sciences (including the engineering, biological, financial and physical sciences). Students are required to write and defend a thesis in an area agreed upon with a faculty advisor.

The Ph.D. in Applied Mathematics is for those interested in becoming professional scholars, college and university teachers, or independent workers in private, industrial or government research institutions.

ADMISSION REQUIREMENTS: M.A. and M.S.: Official transcript(s), goal statement, three letters of recommendation and résumé or vita. Students applying for either master's degree are not required to have an undergraduate degree in applied mathematics; however, they are expected to have proficiency in numerical analysis and statistics at the level of Introduction to Statistical Concepts (MATH 40012) and Introduction to Numerical Computing II (MATH 42202). They are also expected to have taken computer science coursework equivalent to Introduction to Object-Oriented Programming (CS 23021). Those who do not meet these specific requirements may be granted conditional admission by the Graduate Studies Committee.

Ph.D.: Admission into the Ph.D. also requires passing the departmental qualifying examination at the master's level in algebra and analysis.

GRADUATION REQUIREMENTS: M.A. and M.S.: The Master of Arts and Master of Science programs require a total of 32 semester hours of graduate credit. Each student should submit a detailed plan of study for approval by the advisor by the time the first 16 semester hours of graduate credit have been completed.

Ph.D.: Students who wish to pursue the Ph.D. must pass the qualifying examination at the Ph.D. level. A minor of up to 10 hours will be counted toward the completion of the degree subject to the approval of the student's advisor and the graduate studies committee.

CANDIDACY: This examination will be a comprehensive examination in the field of the major subject, and will be a substantially deeper test than the qualifying examination.

» Applied Mathematics - M.A. and M.S. Program Requirements

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of Arts and Sciences > Graduate Programs > [Applied Mathematics - M.A. and M.S. Program Requirements](#)

The following two sequences are required:

- MATH 6/70061 and 6/70062
- MATH 6/72251 and 6/72252

At least 20 semester hours must be in MATH or CS courses at the 60000 level or above. Only 3 of the 6 hours of thesis will be counted toward the 20 semester hours at the 60000 level. The remaining 12 semester hours can be taken from graduate-level coursework in MATH or CS.

With permission of the advisor, up to 12 semester hours of 50000-level MATH and/or CS courses may be applied toward the total required for the degree. Candidates who do not have an undergraduate degree in applied mathematics should include MATH 52031 and 52045 in their program.

Master of Arts degree candidates must pass the departmental qualifying examination at the master's level in numerical analysis, probability or statistics, and one additional area chosen from among the areas listed for master's programs.

While students entering the master's program in applied mathematics are not required to have an undergraduate degree in applied mathematics, they are expected to have proficiency in numerical analysis and statistics at the level of MATH 40012— Introduction to Statistical Concepts and MATH 42202— Introduction to Numerical Computing II. They are also expected to have taken computer science coursework equivalent to CS 23021— Introduction to Object-Oriented Programming. Those who do not meet these specific requirements may be granted conditional admission by the Graduate Studies Committee.

DESCRIPTION: Master of Science: Graduate study leading to a Master of Science in Biological Sciences–Botany is offered with research in plant systematics, taxonomy, evolutionary studies, molecular biology, ecology and genetics. The program provides a broad background in botanical sciences and training in research. Graduate students in botany are encouraged to become familiar with cognate disciplines that will enhance their scholarship and research potential; these include biometry, biochemistry, geology, geography and relevant foreign languages.

Ph.D.: Graduate study leading to a Ph.D. in Biological Sciences–Botany is offered with research in plant systematics, taxonomy, evolutionary studies, molecular biology, ecology and genetics. The program provides a broad background in botanical sciences and training in research. Graduate students in botany are encouraged to become familiar with cognate disciplines that will enhance their scholarship and research potential; these include biometry, biochemistry, geology, geography and relevant foreign languages.

ADMISSION REQUIREMENTS: Official transcript(s), 3.0 GPA; GRE (general test); goal statement; three letters of recommendation; acceptance of the student by a faculty advisor; list of up to five potential faculty advisors; and undergraduate coursework roughly equivalent to a Biology minor.

GRADUATION REQUIREMENTS: M.S.: Minimum 32 total credit hours.

Ph.D.: Minimum 60 total credit hours.

THESIS/ DISSERTATION: M.S.: A thesis and final oral examination is required of candidates.

Ph.D.: Dissertation and final defense is required.

PROGRAM FEE: None

DESCRIPTION: The Master of Science in Biological Sciences–Cell Biology is an individualized program of study and research that prepares students for career opportunities in teaching and research in academic, governmental and industrial settings. A core series of courses sets a rigorous foundation in theory, experimental design and technical knowledge of contemporary investigations at the cellular level of organization. Areas of research include studies of membrane structure and function, transport processes, excitation-secretion coupling, immunology, and metabolism in algae, cyanobacteria and tissues of multi-cellular plants and animals.

The Ph.D. in Biological Sciences–Cell Biology is an individualized program of study and research that prepares students for career opportunities in teaching and research in academic, governmental and industrial settings. A core series of courses gives a rigorous foundation in theory, experimental design and technical knowledge of contemporary investigations at the cellular level of organization. Areas of research include studies of membrane structure and function, transport processes, excitation-secretion coupling, immunology, and metabolism in algae, cyanobacteria and tissues of multi-cellular plants and animals.

ADMISSION REQUIREMENTS: Admission into the M.S.: official transcript(s); 3.0 GPA; GRE (general test); goal statement; three letters of recommendation; acceptance of the student by a faculty advisor; list of up to five potential faculty advisors; and undergraduate coursework roughly equivalent to a Biology minor.

Admission into the Ph.D.: official transcript(s); GRE; goal statement; three letters of recommendation; list of up to five potential faculty advisors; baccalaureate in the natural sciences with a minimum of two years of chemistry, one year of calculus, one year of physics and two years of biology, including genetics, plant or animal physiology and morphology. Deficiencies at the time of admission shall be rectified during the first year of graduate study. Before admission can be completed, a prospective student must be accepted by a faculty member in the program who will act as advisor.

GRADUATION REQUIREMENTS: M.S.: Minimum 32 total credit hours.

Ph.D.: Minimum 60 total credit hours.

THESIS/ DISSERTATION: M.S.: A thesis and final oral examination is required of candidates.

Ph.D.: Dissertation and final defense is required.

DESCRIPTION: The Master of Science and Ph.D. in Biological Sciences-Ecology provides opportunities to study in areas such as animal behavior, entomology, limnology, microbial ecology, ornithology, systems ecology, systematic and evolutionary biology, environmental physiology, vertebrate ecology, and population and community ecology. Although courses of study are tailored to students' interests and needs, the programs of all students normally include training in population, community, ecosystems and evolutionary ecology and statistical theory. Because of the interdisciplinary nature of ecology, students are encouraged to take courses in geology, mathematics, chemistry and other disciplines.

ADMISSION REQUIREMENTS: Admission into the M.S.: official transcript(s); 3.0 GPA; GRE (general test); goal statement; three letters of recommendation; acceptance of the student by a faculty advisor; list of up to five potential faculty advisors; and undergraduate coursework roughly equivalent to a Biology minor.

Admission into the Ph.D.: official transcript(s); GRE; goal statement; three letters of recommendation; list of up to five potential faculty advisors; baccalaureate and a strong background in biology and related subjects such as chemistry and math. Deficiencies at the time of admission shall be rectified during the first year of graduate study. Before admission can be completed, a prospective student must be accepted by a faculty member in the ecology program who will serve as the advisor.

GRADUATION REQUIREMENTS: M.S.: Minimum 32 total credit hours.

Ph.D.: Minimum 60 total credit hours.

THESIS/DISSERTATION: M.S.: A thesis and final oral examination is required of candidates.

Ph.D.: Dissertation and final defense is required.

DESCRIPTION: The Master of Science in Biological Sciences–Physiology faculty and student researchers in this reproductive physiology/endocrinology group conduct projects investigating physiological processes that range from the cellular/molecular level to the integrative/organismal level. Research interests include topics with clear relevance to human health, such as elucidation of aberrant signaling pathways in polycystic ovarian syndrome, prostate and ovarian cancer and biochemical regulation of sperm motility and egg activation/fertilization. Another area of active investigation focuses on the adverse effects of environmental pollutants in a variety of animal models. Basic questions regarding the underlying regulation of gonadal function, such as steroidogenesis, cell proliferation and apoptosis, are also under investigation. Researchers have access to resources for physiological research—including a vivarium, tissue culture facility, confocal microscope/visualization facility, laser capture microscope, genomics and proteomics facilities—located within the Department of Biological Sciences and the School of Biomedical Sciences.

In the Ph.D. in Biological Sciences–Physiology, faculty and student researchers conduct projects investigating physiological processes that range from the cellular/molecular level to the integrative/organismal level. Research interests include topics with clear relevance to human health, such as elucidation of aberrant signaling pathways in polycystic ovarian syndrome, prostate and ovarian cancer, and biochemical regulation of sperm motility and egg activation/fertilization. Another area of active investigation focuses on the adverse effects of environmental pollutants in a variety of animal models. Basic questions regarding the underlying regulation of gonadal function, such as steroidogenesis, cell proliferation and apoptosis, are also under investigation. Researchers have access to excellent resources for physiological research, including a vivarium, tissue culture facility, confocal microscope/visualization facility, laser capture microscope, genomics and proteomics facilities.

ADMISSION REQUIREMENTS: Admission into the M.S.: Admission into the M.S.: official transcript(s); 3.0 GPA; GRE (general test); goal statement; three letters of recommendation; acceptance of the student by a faculty advisor; list of up to five potential faculty advisors; and undergraduate coursework roughly equivalent to a Biology minor.

DESCRIPTION: The Master of Arts in Biology is for students wishing to gain additional knowledge in any area of the biological sciences and are not looking towards a career in biological research. This non-thesis program complements secondary school science teachers, students looking for additional background or preparation for professional school programs such as in medicine or dentistry, and those seeking employment in life science industries in a non-research capacity.

The Master of Science in Biology provides an advanced degree for students who have undergraduate degrees in biology or a related life science. The program is offered for working biologists in various professions including educators teaching science at the secondary level.

ADMISSION REQUIREMENTS: M.A. and M.S.: Official transcript(s), 2.75 undergraduate GPA, goal statement and three letters of recommendation.

Admission into the M.S. also requires the GRE.

GRADUATION REQUIREMENTS: Minimum 32 total credit hours.

THESIS/ DISSERTATION: M.S.: Thesis is required.

University Requirements

DESCRIPTION: The Ph.D. in Biomedical Sciences–Biological Anthropology prepares graduates to teach both human anatomy and other cognate fields in demand at most medical schools (neuroanatomy, cell biology, physiology) and, thereby, normally face attractive post-graduate training and teaching options. Many graduates also use their training and teaching experience to enter regular anthropology or corporate research positions.

ADMISSION REQUIREMENTS: Official transcript(s); M.A. or M.S. in Anthropology or Biological Sciences; GRE; goal statement; three letters of recommendation; and courses in statistics and computer science. A student with an outstanding academic record may receive a waiver of the master's degree requirement upon completion of 20 hours of graduate work and be admitted directly to doctoral work.

GRADUATION REQUIREMENTS: Minimum 65 total credit hours.

DISSERTATION: As soon after completion of the candidacy examination as possible, the dissertation committee will be established consisting of the guidance committee and an outside discipline member — a graduate faculty member from another department at Kent State University or another program committee of the School of Biomedical Sciences. The student will submit to this committee his/her prospectus for the dissertation. The format of the prospectus will parallel that utilized for NIH grant proposals (without biographical, budget and facilities information). The dissertation committee may elect to examine the candidate on the proposal, may accept it as submitted, or may reject it with specific reasons and recommendations for reformulation.

[Program Requirements](#)

[College Requirements](#)

[University Requirements](#)

DESCRIPTION: The Master of Science and the Ph.D. in Biomedical Sciences–Cellular and Molecular Biology consist of two concentrations: Cellular Biology and Structure and Molecular Biology and Genetics. Cellular and Molecular Biology and Molecular and Genetics prepares creative research scientists for careers in teaching, research and biotechnology. Graduates possess an in-depth comprehension of experimental design at the cellular and molecular levels of biological organization as well as competency in current techniques in the discipline. Major research emphases include signal transduction, biochemistry and pathobiology, gene regulation, cell systems biology, cell and tissue ultrastructure, membrane structure and function, molecular aspects of neurobiology and endocrinology, genetics and metabolism of microorganisms, virology and immunology, and enzymology with an emphasis on protein dynamics and folding as well as cytochrome P-450 s.

Ph.D.: Due to the program' breadth, faculty are associated with two sub-programs: cellular biology and structure, and molecular biology and genetics.

ADMISSION REQUIREMENTS: Official transcript(s), 3.0 GPA, GRE, goal statement and three letters of recommendation. The M.S. also requires a bachelor s degree with preparation adequate to perform graduate work in the desired field. This commonly includes two years of chemistry, one year of mathematics, one year of physics and courses in anthropology, biology and psychology as appropriate to the field. Admission with deficiencies may be accorded, but these must be made up during the first two years of graduate study.

Admission to the Ph.D. also requires either completion of the M.S. or direct matriculation to the doctoral program following completion of no less than 20 hours of graduate coursework (including the core) and will be accorded upon the recommendation of the student's guidance committee and the school director. Normally, a student is admitted to the master's program prior to doctoral work, but a student holding only a baccalaureate may be admitted directly into the doctoral program in exceptional cases.

THESIS/ DISSERTATION: Ph.D.: As soon after completion of the candidacy examination as possible, the dissertation committee will be established consisting of the guidance committee and an outside discipline member — a graduate faculty member from another department at Kent State University or another program committee of the School of Biomedical Sciences. The student will submit to this committee his/her prospectus for the dissertation. The format of the prospectus will parallel that utilized for NIH grant proposals (without biographical, budget and facilities information). The dissertation committee may elect to examine the candidate on the proposal, may accept it as submitted, or may reject it with specific reasons and recommendations for reformulation.

DESCRIPTION: The Master of Science and Ph.D. in Biomedical Sciences–Pharmacology provides substantial opportunity to develop skills based in chemistry and applicable toward developing new approaches to treat disease. The multidisciplinary program is a balance of classroom and laboratory work and involves faculty in chemistry at Kent State University and faculty in anatomy, neurobiology, physiology and pharmacology at NEOUCOMP.

ADMISSION REQUIREMENTS: M.S.: Official transcript(s), 3.0 GPA, GRE, goal statement and three letters of recommendation. The M.S. also requires a bachelor's degree with preparation adequate to perform graduate work in the desired field. This commonly includes two years of chemistry, one year of mathematics, one year of physics and courses in anthropology, biology and psychology as appropriate to the field. DESCRIPTION: The Master of Science and Ph.D. in Biomedical Sciences–Physiology Interdisciplinary prepares graduates in areas that include cardiovascular, pulmonary, endocrine and neuroendocrine, reproductive or exercise physiology. In this context, emphasis is placed on an integrative approach for both research and graduate education. As with other program areas, the physiology program takes advantage of the latest molecular and cellular techniques to address questions related to human diseases.

ADMISSION REQUIREMENTS: M.S.: Official transcript(s); 3.0 GPA, GRE, goal statement and three letters of recommendation. The M.S. also requires a bachelor's degree with preparation adequate to perform graduate work in the desired field. This commonly includes two years of chemistry, one year of mathematics, one year of physics and courses in anthropology, biology and psychology as appropriate to the field. COLLEGE: [College of Arts and Sciences](#)

DEPARTMENT: [Chemical Physics Interdisciplinary Program](#)
Liquid Crystals and Materials Sciences Building
Tel: 330-672-2654
Fax: 330-672-2796
Web: <http://www.lci.kent.edu/>

DESCRIPTION: The Master of Science and Ph.D. in Chemical Physics consist of five concentrations: general chemical physics, liquid crystal synthesis and molecular design, lyotropic liquid crystals and membranes, optoelectronics and physical properties of liquid crystals.

General Chemical Physics is broad and interdisciplinary, involving chemistry and physics, not focused on liquid crystals, and employing the techniques of theoretical and experimental physics.

Liquid Crystal Synthesis and Molecular Design is for students interested in organic chemistry. The program offers more training in physics and the science of liquid crystalline materials than is traditionally provided in a graduate chemistry program. This program is tailored for students with an undergraduate background in chemistry or chemical engineering who wish to pursue graduate training in molecular design and synthesis of new and innovative liquid crystal materials.

Lyotropic Liquid Crystals and Membranes is for science majors who wish to extend their undergraduate education to the science of materials in living systems. This program is intended for undergraduate majors in chemistry, physics, chemical engineering and, possibly, biology (although some preparatory coursework may be required for the latter).

Optoelectronics is for the applied physicist, chemist or engineer who desires to study materials for their application in information display and related devices. This unique program is designed to take advantage of Kent State University's role as a leading contributor to this technology, and to prepare students for the rapidly developing display and optoelectronics industry. Specialized chemical physics courses on liquid crystal displays include a focus on both fundamental and applied science.

Physical Properties of Liquid Crystals is for students with an interest in the physics of liquid crystalline materials and who desire more training in chemistry and materials science than is offered in a traditional physics program. Students pursue advanced training, studying the interaction of liquid crystals with fields and surfaces; structural transitions, instabilities, hydrodynamics, coating preparations and rheology; characterization by linear and nonlinear optics, X-rays, NMR, SEM, tunneling electron and atomic force microscopy; and other techniques. Courses give an in-depth understanding of the unique material properties of these phases and prepare students for dissertation projects that investigate physical properties of timely interest and importance in the advancement of the understanding of liquid crystalline materials.

ADMISSION REQUIREMENTS: Official transcript(s), goal statement and three letters of recommendation. Submission of GREs (general and subject test—physics or chemistry) is not required, but strongly recommended. Admission will be granted by examination of the student's background on an individual basis. Students from a variety of undergraduate majors, such as physics, chemistry, engineering and materials science are invited to apply to the Chemical Physics Interdisciplinary program.

GRADUATION REQUIREMENTS: M.S.: A total of 32 credit hours is required for each concentration in the master's degree program. For each of the five concentrations, students are required to complete 24-27 credit hours of core courses. If any

required course is not available, an equivalent course may be substituted with permission of the graduate coordinator.

Ph.D.: Students are required to complete 50-52 credit hours of core courses and 12 credit hours of electives for the general chemical physics concentration, and 26-33 credit hours of core courses and 30 credit hours of electives for all other concentrations. The choice of electives must be approved by the student's faculty advisor. The elective requirements may be waived depending on previously completed coursework. If a required core course is not available, an equivalent course may be substituted with permission of the graduate coordinator.

CANDIDACY: Ph.D.: In addition to satisfying the course and computer language requirements, the student must pass the Chemical Physics Interdisciplinary Program candidacy examination. The examination will cover material in the core courses of the chemical physics program. A student may make two attempts at passing the examination. If the student fails the second attempt, he/she will not be permitted to continue toward the doctoral degree but may complete the requirements for the Master of Science degree. The student's first attempt at candidacy should come following the first year of study in all concentrations except general chemical physics. In exceptional cases, a student may defer taking the candidacy examination until the beginning of the third year of graduate study.

THESIS/ DISSERTATION: M.S.: Candidates must register for CPHY 60199, Thesis I, for a total of 6 credits. The thesis for the Master of Science degree will present and interpret results of original research and must be defended before a committee of the Chemical Physics graduate faculty.

Ph.D.: A prospectus of the dissertation research project is required for all Ph.D. candidates. The prospectus is prepared jointly with the student's dissertation advisor. The prospectus must be approved by the members of the student's dissertation committee.

A dissertation presenting and interpreting results of original research is required for the Doctor of Philosophy degree. The areas of research are outlined under the various concentrations. Following acceptance of the dissertation by the dissertation committee, the final degree requirement is the satisfactory completion of the final oral exam (defense of dissertation) before a committee of the graduate Chemical Physics faculty.

COMPUTER LANGUAGE REQUIREMENT: Every successful candidate for the doctoral degree must satisfy a computer language requirement. This requirement can be satisfied by one of the following: (1) Completion of either Scientific Computing (PHY 35402), Introduction to Computer Science (CS 10061) or Computer Analysis of Experimental Measurements (PHY 5/75403) with a grade of "B" or better. Equivalent coursework from the student's previous academic records may satisfy this requirement. (2) Since a student may acquire the necessary literacy to fulfill this requirement through use of computers in carrying out dissertation research, the student's dissertation advisor may certify proficiency for consideration by the program director.

PROGRAM FEE: None

[University Requirements](#)

DESCRIPTION: The Master of Arts in Chemistry provides opportunities with courses in analytical, bio-, inorganic, organic and physical chemistry. The extraordinary breadth of the program gives students considerable flexibility in curriculum design, ensuring a modern and dynamic graduate education.

The Master of Science in Chemistry provides opportunity in research in the areas of analytical, inorganic, organic and physical chemistry as well as biochemistry. Many of the research topics are built around interdisciplinary themes in biomedical heresiarch (bioanalytical, bioinorganic and biophysical chemistry), materials science (nanomaterials, liquid crystals, photonic materials, spectroscopy, surface science) and environmental research (atmospheric chemistry, environmental remediation).

The Ph.D. in Chemistry provides students with opportunities for research in the areas of analytical, inorganic, organic and physical chemistry as well as biochemistry. Many of the research topics are built around interdisciplinary themes in biomedical heresiarch (bioanalytical, bioinorganic and biophysical chemistry), materials science (nanomaterials, liquid crystals, photonic materials, spectroscopy, surface science) and environmental research (atmospheric chemistry, environmental remediation).

ADMISSION REQUIREMENTS: Official transcript(s), GRE, goal statement and three letters of recommendation. The M.S. requires a 3.0 GPA. The Ph.D. requires a 3.0 undergraduate GPA and 3.25 graduate GPA. For the M.A. and M.S., a background of undergraduate courses consisting of one year each in analytical chemistry or biochemistry, organic chemistry, physical chemistry, calculus and physics is expected.

GRADUATION REQUIREMENTS: M.A.: A total of 32 semester hours of graduate credit is required, including at least 21 hours of classroom courses. The selection of these hours will be planned by the student and a faculty adviser to best fulfill the needs of the student. There is no research requirement for this degree. This program is only available with permission.

M.S.: Each student must complete a total of 32 semester hours of courses including research and thesis. Of these, at least 18 hours must be for graduate credit other than research and thesis. Required courses include College Teaching of Chemistry (CHEM 60894; 1 hour) and, in the major area, two semester hours of Seminar (CHEM 62191, 62291, 62391, 62491 or 62591) and two semester hours of Problem Solving or Recent Developments courses (CHEM 61191, 60291, 60391, 60491 or 60591). A total of 13 semester hours of graduate chemistry classroom courses are also required; one of these courses must be outside the major area.

Ph.D.: Each student must complete a total of 90 semester hours beyond the bachelor's degree or 60 hours beyond the master's degree including research and dissertation. Of these, at least 27 hours must be for graduate credit other than research and dissertation. Required courses include College Teaching of Chemistry (CHEM 70894; 1 hour) and, in the major area, four semester hours of Seminar (CHEM 72191, 72291, 72391, 72491 or 72591) and four semester hours of Problem Solving or Recent Developments courses (CHEM 71191, 70291, 70391, 70491 or 70591). A total of 18 semester hours of graduate chemistry classroom courses are required; one of these courses must be outside the major area.

CULMINATING REQUIREMENTS: M.S.: A thesis presenting and interpreting the results of original research is required. The Department of Chemistry considers research to be a fundamental part of the Master's of Science program. Areas in which

research may be carried out are analytical chemistry, biochemistry, inorganic chemistry, organic chemistry and physical chemistry. The thesis must be successfully defended in an oral examination before the student's advisory committee.

- CANDIDACY:** To be admitted to candidacy for the doctoral degree, the student must pass a written examination in the field of specialization, the form and time of the examination being determined by each division (analytical chemistry, biochemistry, inorganic chemistry, organic chemistry or physical chemistry). Those failing this examination may repeat the examination once. After passing the written examination, the student must present a detailed written proposal for his/her dissertation research. The successful oral defense of this proposal and its acceptance by the advisory committee admits the student to candidacy for the Ph.D. degree.
- DISSERTATION:** The dissertation describes original research. The dissertation topic can be in/between the subdisciplines of analytical chemistry, biochemistry, inorganic chemistry, organic chemistry and physical chemistry. The written dissertation is reviewed and approved by the research advisor and the advisory committee prior to scheduling the final oral examination.
- PROGRAM FEE:** None

DESCRIPTION:

The Ph.D. in Clinical Psychology prepares students to conduct research, to serve on college and university faculties, and to provide a range of clinical services. The program adheres to the Clinical Scientist model of education and training, which is founded on the idea that the practice of psychology should be based on the science of psychology, and that practicing psychologists should be able to translate clinical observation into researchable questions and pursue new knowledge on the basis of their observations. Students are expected to develop an area of special expertise in research, and opportunities for specialized clinical training are offered. In addition to general training in clinical psychology, students may receive specialized research and clinical training in one of the following areas: Adult Psychopathology; Assessment; Child-Family; or Health Psychology.

The Master of Arts in Clinical Psychology is an intermediate degree required of students in the doctoral program.

With the interdisciplinary Master of Arts in Clinical Psychology–Gerontology, students develop a specialty in gerontological studies in preparation for doctoral work.

ADMISSION REQUIREMENTS:

Applications for admission are accepted only from holders of a baccalaureate who aspire to the doctorate.

The M.A. requires a broad undergraduate preparation; research experience; junior-senior scholastic GPA average of 3.0; and 18 semester hours in psychology, which include a course in statistics and a broad background in psychology. Students also must submit a statement of goals and motivations for pursuing a career in psychology, official transcript(s), scores from the Graduate Record Examination, and three letters of recommendation.

In addition to the requirements above, admission into the Ph.D. program requires an M.A. or M.S. in Psychology.

GRADUATION REQUIREMENTS:

M.A.: Requirements for the M.A. degree are at least 32 semester hours, which include a basic core of required courses, clinical practica, and a thesis. Additional courses are selected with the aid of an advisor. A limited number of courses outside the department may be credited toward the degree. No 50000-level psychology courses may be applied toward degree requirements for psychology majors. Students must complete at least 18 semester hours of course credits within an academic year.

Ph.D.: The doctoral program, with the M.A. as an intermediate degree, requires a minimum of four years of full-time attendance for holders of the baccalaureate degree. All doctoral students in psychology

(regardless of area of specialization) complete a program of basic core courses and clinical practica, select additional courses and seminars with the aid of a faculty advisor, and complete a master's thesis and a doctoral dissertation. A limited number of graduate courses outside the department may be credited toward graduation. No 50000-level psychology courses may be applied to the degree program for psychology majors.

Doctoral program aspirants who do not hold the M.A. must complete all the requirements for the master's degree.

Clinical psychology students must complete a supervised traineeship in a faculty-approved mental health facility outside the department, which involves a minimum of 1,000 hours. Additionally, a 2,000-hour internship in a setting approved by the American Psychological Association is required.

The program requires full-time continuous enrollment including summers.

CANDIDACY: Ph.D.: Students who have been admitted into the doctoral program will be considered for Ph.D. candidacy after they have met all requirements for the M.A. and have passed a qualifying examination in a major area of specialization in psychology. In addition, the department reserves the right to separate from the program a student who, in the opinion of a duly constituted departmental committee, is not likely to succeed professionally despite earning acceptable grades. Proficiency in a foreign language is not a requirement for a doctoral degree in psychology.

THESIS/ DISSERTATION: The graduate programs in psychology are strongly research-oriented. Students are encouraged to become engaged in a variety of research projects.

M.A.: Students must complete a master's thesis.

Ph.D.: Students must complete a doctoral dissertation.

[University Requirements](#)

DESCRIPTION: The Master of Arts and Master of Science in Computer Science provides students with an educational and research environment to develop career paths through necessary training with emerging technologies. Graduates have the technical knowledge and skills necessary for success within the information and high technology industries.

The M.A. in Computer Science emphasizes breadth of knowledge in advanced computer science topics to augment the student's bachelor's degree.

The M.S. in Computer Science Thesis Option is for students who seek academic careers or positions in research and development industry, or for students who want to continue their education into the Ph.D. program. The Non-Thesis Option supports the needs of persons seeking graduate education for entry into non-academic careers or to enhance and expand their career options.

The Ph.D. in Computer Science provides students with an educational and research environment that fosters personal and intellectual growth, flourishes academic goals and develops career paths through necessary training with emerging technologies. The program promotes research, discovery and integration, and is designed for students interested in becoming professional scholars, college and university teachers or independent research workers in private, industrial or government research institutions.

ADMISSION REQUIREMENTS: M.A. and M.S.: Official transcript(s), goal statement, résumé and three letters of recommendation. A student entering the program must have the core components of an undergraduate computer science curriculum. Students are required to have successfully completed coursework equivalent to Computer Science I - Programming and Problem Solving (CS 23021), Discrete Structures (CS 23022), Computer Science II - Data Structures and Abstraction (CS 33001), Operating Systems (CS 35211), Computer Architecture (CS 35101), and Design and Analysis of Algorithms (CS 46101). In mathematics, they are required to have successfully completed coursework equivalent to Calculus I (Math 12002), Calculus II (Math 12003), and Linear Algebra (Math 21001).

Ph.D.: Admission into the Ph.D. also requires a master's degree in computer science (or closely related field) and the preliminary examination within 20 months of entrance into the doctoral program.

GRADUATION REQUIREMENTS: M.S. and M.A.: The master's program requires a total of 32 graduate-level credit hours in computer science (courses outside computer science must be approved by the advisor and graduate coordinator).

Candidates for the Master of Science with a non-thesis option must successfully complete 32 credit hours of graduate courses in CS excluding Research (CS 69098) and including 2 credit hours of Master's Seminar (CS 69191) that incorporates a project and a final examination on the project. Of the remaining 30 credit hours, at least 24 credit hours must be at the 60000-level or above, and up to 6 credit hours can be at the 50000-level.

Candidates for the Master of Science with a thesis option must successfully complete 24 credit hours of graduate courses in CS, of which at least 16 credit hours must be at the 60000-level, at most 6 credit

hours can be at the 50000-level. In addition, 2 credit hours of Master s Seminar (CS 69191) are required. Only a total of 3 credit hours of Research (CS 69098) may be counted toward the degree, however, students are permitted to take these courses multiple times. Students must write and defend a Master s thesis for which 6 credit hours are earned in Thesis I (CS 69199) and Thesis II (CS 69299).

Ph.D.: A doctoral student must complete 60 graduate credit hours beyond the master's degree—30 credits of which are CS 89199 Dissertation I and 30 credits (excluding Dissertation I and II) are coursework at the 70000 level or above. Only 9 credits of CS 89098 Research or CS 89991 Research Seminar in Computer Science may count towards the degree (however, students can take more than 9 credit hours of these courses).

The student will develop a Doctoral Plan of Work that is approved by the advisor and the graduate coordinator. Students are highly encouraged to select an advisor and develop a Plan of Work as early as possible (i.e., before the end of their second term in the program). The Plan of Work must be filled out and submitted to the graduate coordinator within 18 months of entrance to the program.

All students must take 3 credit hours of CS 89191 Doctoral Seminar and make a public presentation of project and/or research work (excluding dissertation defense and candidacy examination) at least two times before graduation. The presentation must take place in the doctoral seminar at least one full term before graduation and not more than two years after entering the program. The doctoral seminar is offered for 1 or 2 credit hours; therefore the student must enroll in this course at least two times. This course can be taken multiple times but only 3 credit hours count toward the degree.

CULMINATING REQUIREMENTS:

M.A.: Candidates for the Master of Arts degree are required to enroll for 3 credit hours in CS 69098 Research under the direction of a graduate faculty member and to develop a master's project. A master's project committee must be formed that includes the advisor and at least two other graduate faculty members. The committee and project topic must be approved by the graduate coordinator. The student must present and defend the project to the committee.

CANDIDACY:

Ph.D.: The candidacy examination is a comprehensive examination in the field of the major subject. The format of the candidacy examination will be determined by the student's Candidacy Examination Committee, which is composed of the student's advisor and two other graduate faculty members. The Candidacy Examination Committee must be approved by the graduate coordinator. The student must complete the candidacy examination at least one year before the dissertation defense.

THESIS/ DISSERTATION:

M.S. thesis option: Candidates for the Master of Science degree must write and defend a suitable master's thesis for which 6 credit hours are earned in CS 69199 Thesis I. A master's thesis committee must be formed that includes the advisor and at least two other graduate faculty members. The thesis topic and committee must be approved by the advisor and graduate coordinator. The final version of the thesis must be approved by the advisor, committee and graduate coordinator.

The M.S. also offers a Non-Thesis option in Computer Science.

Ph.D.: A dissertation describes original research performed by the student. The dissertation topic must be approved by the advisor and graduate coordinator. A dissertation committee, made up of graduate faculty, must be formed to assess the quality and value of the work. A public dissertation defense is made by the student. The final dissertation and defense must be approved by the advisor and dissertation committee. Further details can be found on the department's Web site.

Summary of doctoral degree requirements: preliminary examination plus the Doctoral Plan of Work; 3 credits of CS 89191 Doctoral Seminar; 9 credits major concentration coursework; 9 credits minor concentration coursework; 9 credits elective coursework or research; the candidacy examination; and 30 credits of CS 89199 Dissertation I along with the dissertation and defense.

[University Requirements](#)

DESCRIPTION: A consortium of four universities—Kent State, Cleveland State, Youngstown State and University of Akron—the Master of Fine Arts in Creative Writing is a unique collaborative design that allows students to take advantage of an award-winning 26-member faculty and to concentrate in the writing of poetry, fiction and creative non-fiction. In addition, the program is among only a few in the country offering a playwriting focus, and one of three programs with an internationally recognized faculty who offer a focus in literary translation. The number and variety of faculty guarantee consistent individual attention to student work. The range of study gives students opportunities to take classes with other writers from different backgrounds and in different genres. An annual series of readings and visiting writers in all genres supports the regular curricular offerings.

ADMISSION REQUIREMENTS: Official transcript(s); acceptance to a gateway school and admission to a consorial degree program in English; three letters of recommendation; portfolio (15-20 pages of poetry or literary translation of poetry, 30 pages of fiction, creative nonfiction, playwriting or prose and at least one finished work.)

GRADUATION REQUIREMENTS: The program requires 48 semester hours of graduate-level coursework, including a three-hour internship in teaching, editing or arts administration. There are six areas of coursework in the M.F.A.: Writing Workshops (15 hours); Craft and Theory Courses (6 hours); Literature Courses (9 hours); Internship (3 hours); Electives (9 hours); and Thesis (6 hours). The thesis must be submitted according to the general requirements established by the School of Graduate Studies and Research. The student is required to defend the thesis in an oral presentation before a committee of graduate faculty from a minimum of two consortium schools.

[University Requirements](#)

Tammy Clewell, Graduate Studies Coordinator
E-mail: tclewell@kent.edu

DESCRIPTION: The Master of Arts in English consists of three concentrations: Literature and Writing, Comparative Literature and a Concentration for Teachers.

Literature and Writing offers students a broad perspective of English studies while providing concentrated study in one area. The program achieves this goal with distribution requirements, electives and a required focus in either literary traditions, critical theory or rhetoric and composition. The degree prepares students for further graduate study in English and related fields, for professional training in such fields as library and information science, and for careers in teaching.

Concentration for Teachers is for teachers interested in advanced study of literature and writing. Coursework focuses on current scholarship and approaches to literature and writing. While not a degree in literary and composition pedagogy, it is designed to encourage the application of current literary and writing research to the work responsibilities of the practicing teacher.

Comparative Literature requires work in the broad range of fields represented in contemporary English studies and allows more intensive study of special interests through electives.

The Ph.D. in English permits students to focus on literary traditions and literary theory. Graduate students identify, investigate and theorize the social functions of texts in a variety of contexts both within and outside the academy, doing work that crosses the increasingly fluid boundaries that have begun to characterize the profession of literary and cultural studies. The program provides sustained focus on the social functions of all categories of texts (both literary and non-literary), including the conditions of their production, distribution and consequent use.

ADMISSION REQUIREMENTS: Official transcript(s), GRE (waived for in-service teachers), goal statement, three letters of recommendation and an 8-15 page writing sample relevant to the field of study (writing sample waived for Concentration for Teachers concentration). All requirements are reviewed and evaluated holistically.

GRADUATION REQUIREMENTS: M.A.: All graduate students are required to complete 33 hours of graded coursework. Student pursuing the M.A. in Comparative Literature may elect the thesis option for 6 hours. Graduate students must take ENG 61000. All graduate assistants must also take ENG 61094.

Ph.D.: Students with an emphasis in literature are required to complete 27 hours of coursework beyond the Master of Arts. New graduate students without prior teaching experience must take ENG 61094. Students must also demonstrate proficiency in an approved language either by examination or by taking approved coursework in the language

CANDIDACY: Ph.D.: Doctoral students must pass three written examinations in three distinct areas of English studies before being admitted to candidacy. They must also defend a dissertation prospectus.

[University Requirements](#)

DESCRIPTION: The Ph.D. in English–Rhetoric and Composition is focused on literacy, rhetoric and social practice. Grounded in rhetoric and language study, students complete coursework and research centered on how advanced literacy is embedded within and constitutive of communities of work and citizenship in contemporary culture. Given the historical and institutional link between composition instruction and the humanities, the program attempts to forge close connections between language and literacy at the university and in the work and lives of students and communities.

ADMISSION REQUIREMENTS: Official transcript(s), GRE, goal statement, three letters of recommendation and an 8-15 page writing sample relevant to the field of study. All requirements are reviewed and evaluated holistically.

GRADUATION REQUIREMENTS: Students admitted to the Rhetoric and Composition doctoral major complete a minimum of 30 semester hours of doctoral-level coursework across five areas: introduction to the study of writing and rhetoric, theoretical foundations, language and linguistics, research methods, and literate practices. Students, with guidance from faculty, complete a language requirement and a qualifying examination before writing a dissertation prospectus. The language requirement can be satisfied by either a second language or a representational system, if the latter is relevant to the student's course of study. Upon the successful completion of the qualifying examination, students form a dissertation committee whose members direct the student through the dissertation and the completion of the degree.

CANDIDACY: Doctoral students must pass three written examinations in three distinct areas of English studies before being admitted to candidacy. They must also defend a dissertation prospectus.

PROGRAM FEE: None

DESCRIPTION:

The Ph.D. in Experimental Psychology program offers doctoral education and training in experimental psychology, with specializations in biopsychology, cognitive psychology, developmental psychology, social psychology and health psychology. The curriculum and other aspects of training offered by the Department prepare students for careers in research and teaching.

The Master of Arts in Experimental Psychology is an intermediate degree required of students in the doctoral program and offers specialization in biopsychology, cognitive psychology, developmental psychology, social psychology, and health psychology.

With the interdisciplinary Master of Arts in Experimental Psychology–Gerontology, students develop a specialty in gerontological studies in preparation for doctoral work.

ADMISSION

REQUIREMENTS:

Applications for admission are accepted only from holders of a baccalaureate who aspire to the doctorate.

The M.A. requires a broad undergraduate preparation; research experience; junior-senior scholastic GPA average of 3.0; and 18 semester hours in psychology, which include a course in statistics and a broad background in psychology. Students also must submit a statement of goals and motivations for pursuing a career in psychology, official transcript(s), scores from the Graduate Record Examination, and three letters of recommendation.

In addition to the requirements above, admission into the Ph.D. program requires an M.A. or M.S. in Psychology.

GRADUATION

REQUIREMENTS:

M.A.: Requirements for the M.A. degree are a minimum of 32 total credit hours, which include a basic core of required courses and a thesis. Additional courses are selected with the aid of an advisor. A limited number of courses outside the department may be credited toward the degree. No 50000-level psychology courses may be applied toward degree requirements for psychology majors. Students must complete at least 18 semester hours of course credits within an academic year.

Ph.D.: The doctoral program, with the M.A. as an intermediate degree, requires a minimum of four years of full-time attendance for holders of the baccalaureate degree. All doctoral students in psychology (regardless of area of specialization) complete a program of basic core courses, select additional courses and seminars with the aid of a faculty advisor, and complete a master's thesis and a doctoral dissertation. A limited number of graduate courses outside the department may be credited toward graduation. No

50000-level psychology courses may be applied to the degree program for psychology majors.

Doctoral program aspirants who do not hold the M.A. must complete all the requirements for the master's degree.

The program requires full-time continuous enrollment including summers.

CANDIDACY: Ph.D.: Students who have been admitted into the doctoral program will be considered for Ph.D. candidacy after they have met all requirements for the M.A. and have passed a qualifying examination in a major area of specialization in psychology. In addition, the department reserves the right to separate from the program a student who, in the opinion of a duly constituted departmental committee, is not likely to succeed professionally despite earning acceptable grades. Proficiency in a foreign language is not a requirement for a doctoral degree in psychology.

RESEARCH OPPORTUNITIES: The graduate programs in psychology are strongly research-oriented. Students are encouraged to become engaged in a variety of research projects.

THESIS/ DISSERTATION: M.A.: Students must complete a master's thesis.
Experimental Psychology-Gerontology: The master's thesis must be empirical in nature. It will be presented and defended before a committee of graduate faculty members, at least two of whom will be members of the faculty in gerontological studies. One member of the thesis committee must be from another department participating in the gerontological studies program. The thesis and its defense must meet the requirements of the Department of Psychology.

Ph.D.: Students must complete a doctoral dissertation.

GERONTOLOGY CORE CONCENTRATION REQUIREMENTS

Course	Title	Credits
BSCI 50020	Biology of Aging	3
ELS 60610	Physiology of Aging	3
GCOL 60120	?	3
PSYC 60610	Psychology of Adulthood and Aging	3
SOC 62877	Social Gerontology	3
TOTAL		15

Students must complete two quantitative methods courses appropriate to their areas of specialization within psychology.

Students must also complete five departmental core courses selected from four areas (biological bases of behavior, cognitive and affective bases of behavior, social bases of behavior, individual behavior). Specific courses vary according to students' areas of specialization within psychology.

Fax: 330-672-2209
Web: www.kent.edu/cas/math

DESCRIPTION:

The interdisciplinary Master of Science in Financial Engineering is for those with strong quantitative backgrounds who have career goals of becoming risk management officers, derivatives analysts or traders. The program is rigorous and requires the completion of 36 credit hours of coursework, including an industry-based project. The curriculum meets the guidelines established by the International Association of Financial Engineers.

The Financial Engineering program also partners with the WISE institute at Xiamen University in China to offer a concentration in Financial Engineering Quantitative to students who first enroll at Xiamen for one year. These students take extensive coursework in Finance, Math and Economics topics to prepare for the program. Since their preparation covers some coursework in the program, they are on a second track or concentration in this degree. Other than these coursework differences, the program is the same.

The program is a demanding one, and requires the completion of 36 credit hours of coursework, including an industry based internship. It combines strong quantitative skills from mathematics, including probability theory and numerical computing, with risk management and dynamic valuation skills from finance. The program emphasizes applied skills in the area of financial engineering, while still providing the necessary theoretical background. The coursework was designed by an industry advisory board of leading investment banks and financial firms. The board works closely with faculty to revise the content regularly. For a list of current MSFE Advisory Board Members please see www.business.kent.edu/msfe.

The on-campus electronic Olga A. Mural Financial Engineering Trading Floor allows students to receive hands-on experience in derivatives trading and risk management. Kent State has the only derivatives-oriented trading floor in an academic institution with direct connections to the futures exchanges. The trading floor is equipped with the same software used by major investment banking firms. Live exchange data feeds and real-time market information allow students to simulate real trading. The software includes Trading Technologies X Trader, Patsystems, and SunGard's MicroHedge options analytical product. Data feeds from CQG and Reuters provide continuous news and pricing information. At the front of the trading floor is a data board that provides real-time pricing information on derivatives. Students use this information to assess market conditions for trading tendencies. Live satellite feeds are shown on plasma displays.

This unique trading floor is an integral part of the MSFE program at Kent State University. Since students use the same data feeds and trading software that are used by major investment banking firms, the trading floor allows them to replicate dynamic trading strategies and derivative security analyses.

An industry-based internship is assigned. The project will involve direct interaction with a contributing firm. The student will undertake a ten-week internship to complete the required project with a firm from the financial community. The project will be presented to the program faculty for final evaluation. Prior participating firms include the Chicago Board of Trade, Eurex, Prebon Yamane, State Street Research, KeyBank, SunGard, FirstEnergy, Goldman Sachs, and ICAP. Students are given opportunities to network with top industry officials. The class visits both the Chicago and New York financial districts to interact with professionals in the derivatives field.

Financial Engineering - M.S. Program Requirements

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of Arts and Sciences > Graduate Programs > [Financial Engineering - M.S. Program Requirements](#)

The MSFE program requires the completion of 36 semester hours of coursework. The quantitative prerequisites for students applying to the program are:

- Calculus: differentials, infinite series, Taylor's formula, partial derivatives, multiple integrals. Linear Algebra: matrices, vectors, determinants, linear systems of equations, linear independence, bases, eigenvalues, eigenvectors.
- Ordinary Differential Equations: 1st-order ODEs, solution techniques, initial value problems, exponential growth/decay, logistic model equilibrium, steady state 2nd-order linear constant-coefficient ODEs.
- Probability: continuous and discrete distributions, multivariate distributions and independence, ordinary and conditional expectations, Central Limit Theorem.
- Statistics: regression analysis including detection of and solutions to various violations of classic regression assumptions (heteroskedasticity, autocorrelation, multicollinearity and simultaneity).
- Computer Programming: programming ability in a highlevel language such as C, C++, Fortran (77 or 90/95), Basic, Visual Basic or Matlab.
- Economics: basic micro- and macroeconomic topics including supply and demand functions, market structure and the role of money.

Qualified students can be conditionally admitted on the basis of completing these summer workshops.

Tel: 330-672-2150
Fax: 330-672-4009
Web: <http://www.kent.edu/cas/mcls/>

University Requirements

DESCRIPTION: The Master of Arts in French consist of two concentrations: Literature and Applied Linguistics and Pedagogy.

Literature is primarily for students who anticipate continuing their graduate studies beyond the M.A. level, who plan to teach language at the college or post-secondary level, and who wish to pursue scholarly research in modern language and literature studies.

Applied Linguistics and Pedagogy is primarily for students who wish to teach in elementary and secondary schools, and for those who wish to increase their language proficiency and effectiveness as teachers.

ADMISSION REQUIREMENTS: Official transcript(s); goal statement; three letters of recommendation; an audiocassette tape, CD or MP3/wav file with a 5-10-minute oral sample in both applicant's first and second languages (conversational, not read from a script); and writing sample(s) in applicant's second language, which should be accompanied by a signed declaration that the sample is original work and that the applicant received no help in its preparation. International applicants should also submit a writing sample in English.

GRADUATION REQUIREMENTS: Applied Linguistics and Pedagogy: Students must successfully complete 36 semester hours of coursework and a final project, a portfolio, or a comprehensive examination. Additionally, students will complete an exit oral interview and an exit essay examination in the language in which they are earning their degree. Specific requirements include courses in the student's second language (12 hours): FR 53213/GER 51212/SPAN 68215; FR 53216/GER 51216/SPAN 58216; and 6 hours of literature and culture/civilization courses.

In addition, students must successfully complete MCLS 50660,* 60601, 60661, and 60698 (12 hours), 9 hours of graduate courses in second language pedagogy, and 3 hours of graduate electives.

Students are encouraged to enroll in study-abroad programs (limit 6 hours) and in specialized workshops in advanced language or pedagogy (limit 4 hours). Departmental permission must be obtained before enrolling in such programs.

*Students who are already licensed to teach language in Ohio may, with departmental approval, substitute a graduate secondlanguage pedagogy elective for MCLS 50660.

Literature: Students must successfully complete 33 credit hours of coursework and a comprehensive examination.

Specific course requirements amount to 12 semester hours and include MCLS 60000 for all candidates; FR 53213/GER 61001/ SPAN 68215 for candidates in the modern languages; students must enroll in the latter of these in their first fall semester. Candidates in French and Spanish must successfully complete at least three additional courses, one in each of the three major literary genres (poetry, drama and prose). Candidates in German must successfully complete at least three additional courses, including GER 51212.

A maximum of 6 semester hours of individual investigation research may be applied toward the degree.

[University Requirements](#)

DESCRIPTION: The curriculum for the Master of Arts in Geography meets the needs of students who expect to continue with a professional career in academic or applied fields such as business, environmental or social planning, geographical information systems or cartography in private or governmental agencies. Students are exposed to geographic thought, research techniques and topical specialties, and are prepared to conduct original research.

The Ph.D. in Geography provides specialized training and inquiry into contemporary problems in geography.

ADMISSION REQUIREMENTS: Official transcript(s), GRE, goal statement and three letters of recommendation.

GRADUATION REQUIREMENTS: M.A.: The curriculum for the Master of Arts degree is designed to meet the needs of students who expect to continue with a professional career in academic or applied fields such as business, environmental or social planning, geographical information systems or cartography in private or governmental agencies. Students must complete GEOG 60800, 69004 and 69701 as well as other courses suggested by their thesis advisory committees. Students may elect to write a thesis or two research papers.

Ph.D.: The program for the Doctor of Philosophy degree is designed to provide specialized training and inquiry into contemporary problems in geography. Students should take courses with the advice of the department and their dissertation advisory committees. At least 6 hours of coursework must be taken in a cognate field in a department other than geography.

CANDIDACY: Candidacy examinations are taken after the dissertation proposal is approved by the committee. This should be completed by the end of the second year of doctoral study.

[University Requirements](#)

DESCRIPTION: The Master of Arts in History consist of three concentrations: History, Public History and History for Teachers.

The Master of Arts in History offers students the opportunity for advanced study in a variety of areas. Coursework emphasizes interpretation, methodology and original research. Students who anticipate continuing their graduate study beyond the M.A. should pursue one of the thesis tracks; non-thesis options are available for those who do not expect to go on to doctoral work.

Public History prepares students for work in museums, historical societies, business and wherever the expertise of a professional historian is needed. The interdisciplinary program includes at least one internship.

History for Teachers is for teachers interested in advanced study of history. Coursework is focused on current scholarship and approaches to history, and while it is not a degree in history pedagogy, it is designed to encourage the application of current historical scholarship to the work responsibilities of the practicing teacher. The program provides school professionals with a structured but flexible approach to analyzing and teaching history while permitting interdisciplinary work in related fields or areas particularly relevant to students' professional objectives.

The Ph.D. in History prepares students to become professional scholars, college and university teachers and independent researchers in private or public research institutions.

ADMISSION REQUIREMENTS: Official transcript(s); GRE; statement of purpose describing professional objectives and proposed field of study; significant piece of written work; and three letters of recommendation (preferably academic). The Ph.D. also requires an M.A. in History (or its equivalent).

GRADUATION REQUIREMENTS: M.A.: All students must successfully complete History 61001 and 61002. Students selecting a thesis option must demonstrate a reading knowledge of one or more foreign languages if their advisers determine that it is necessary for research. HIST 69896 and 69898 are not generally available until students have earned 20 semester hours.

- **History:** In addition to the requirements listed above, all students in the History concentration must complete successfully four seminars/colloquia (at least one seminar) and must distribute their coursework among various fields, which include ancient, medieval, European, United States, Latin American and African history. It is possible to introduce a minor in a department outside the Department of History. The non-thesis option allows for an individualized minor (8-9 hours).
- **Public History** is intended to prepare students for careers in various types of agencies such as state and local historical societies, government agencies, museums, archives and the like. In addition to the coursework required of all master's students, those who elect this concentration are required to successfully complete HIST 51000, 60092, 62097, three additional courses in history (at least one seminar and one colloquium) and appropriate coursework in other departments.
- **History for Teachers** concentration is designed to provide a program of advanced historical study for history/social studies teachers. Students enrolled in this concentration must take at least

[Geology](#)[German](#)[History](#)[Justice Studies](#)[Latin](#)[Liberal Studies](#)[Mathematics for Secondary Teachers](#)[Philosophy](#)[Physics](#)[Political Science](#)[Public Administration](#)[Pure Mathematics](#)[Sociology](#)[Spanish](#)[Teaching English as Second Language](#)[Translation](#)[Translation Studies](#)[» College of the Arts](#)[» College of Business Administration](#)[» College of Communication and Information](#)[» College of Education, Health and Human Services](#)[» College of Nursing](#)[» College of Public Health](#)[» College of Technology](#)[» Regional College](#)[» Honors College](#)

18 hours of graduate coursework in the department of history at Kent State University. In addition to HIST 61001 and 610002, student will take at least one reading colloquium and one writing seminar and at least one course in each of the following areas: U.S. History, Europe since 1500 and Global History (Europe before 1500, Africa, Asia and Latin America). 9 hours of graduate coursework may be taken outside the Department of History for most students these courses will be drawn from TLC. Up to 3 of the required 33 credits hours for the concentrations may come from graduate workshops offered by the department of History or other KSU units (such as TLC and LIS).

Ph.D.: The student will elect one general, one specialized, and one thematic field. General fields include Asia, Africa, Europe, Latin America, and United States. Specialized fields include topical and regional areas of Europe and the United States, public history, and gender/women. Either the general or the specialized field must be the field embracing the dissertation. The thematic field must combine two different continents, or the modern period and a chronological period before 1500, and revolve around a common theme. Thematic fields include political/intellectual, social/cultural, empire/foreign relations, and religion and society. (Current lists of all general, specialized, and thematic fields may be obtained from the department.) In addition to fulfilling university requirements, the student must meet those of the Department of History. The student must complete successfully HIST 79894, and a combination of six 7/80000-level seminars and colloquia. The department requires that the student demonstrate reading knowledge of one foreign language by the end of the third semester after initial registration. The student's adviser will determine if the student needs to demonstrate reading knowledge of a second or third foreign language. All students must elect additional courses in a discipline or research area related to history that will be useful in completing their dissertations.

CANDIDACY:

Ph.D.: After completing all of the requirements, the student takes written and oral examinations in the three elected fields of history.

DESCRIPTION: The Master of Arts in Justice Studies prepares students for staff and administrative careers in fields related to the prevention, treatment and control of crime and delinquency. It also offers opportunities for agency personnel to broaden their education and upgrade their skills. An important purpose of the program is preparation for advanced study at the doctoral level.

ADMISSION REQUIREMENTS: Official transcript(s), 3.2 GPA, GRE, goal statement and three letters of recommendation (preferably academic).

GRADUATION REQUIREMENTS: Requirements for the degree are 33 semester hours. These requirements include 15 hours of required core courses, 12 hours of electives, and 6 hours of thesis, internship and research paper, or an additional course and research.

THESIS/ DISSERTATION: Students have three options for the final culminating research requirement. The first option is the thesis requirement. The second option is an internship and research paper. The third option is to complete one additional elective course and write a research paper.

If a student chooses the thesis option, the thesis topic must be approved by the student's thesis committee. A completed thesis must show evidence of original research and meet the standards set by the university.

If a student chooses the internship and research option, the internship arrangements can be made with a wide variety of juvenile and adult federal, state and county justice agencies. Students must also write a monograph over the internship experience. In addition to the internship, the student must complete an original research paper and oral examination on the research paper.

If a student chooses the additional elective course and research paper, the student can select any 60000-level course, except JUS 66796 Individual Investigation. The student must also complete an original research paper and oral examination on the research paper.

University Requirements

DESCRIPTION: The Master of Arts in Latin consist of two concentrations: Literature and Applied Linguistics and Pedagogy.

Literature is primarily for students who anticipate continuing their graduate studies beyond the M.A. level, who plan to teach language at the college or post-secondary level, and who wish to pursue scholarly research in modern language and literature studies.

Applied Linguistics and Pedagogy is primarily for students who wish to teach in elementary and secondary schools, and for those who wish to increase their language proficiency and effectiveness as teachers.

ADMISSION REQUIREMENTS: Official transcript(s), goal statement, three letters of recommendation and a 5-10 page writing sample in English (research paper or essay), which should be accompanied by a signed declaration that the sample is original work and that the applicant received no help in its preparation.

GRADUATION REQUIREMENTS: Applied Linguistics and Pedagogy: Students must successfully complete 36 semester hours of coursework and a final project, a portfolio, or a comprehensive examination. Additionally, students will complete an exit oral interview and an exit essay examination. Specific course requirements include LAT 66211 and CLAS 51006 or CLAS 51301 plus 6 hours of courses in Latin literature and Roman culture/civilization, of which 3 hours must be literature courses (12 hours).

In addition, students must successfully complete MCLS 50660,* 60601, 60661 and 60698 (12 hours), 9 hours of graduate courses in second-language pedagogy, and 3 hours of graduate electives.

Literature: Students must successfully complete 33 semester hours of coursework plus a comprehensive final examination based on the Latin reading list or 27 semester hours of coursework plus a thesis. A minimum of 18 semester hours must be courses in Latin language and literature.

Students may combine a graduate major in Latin with a minor in another field with the approval of the adviser by completing 21 semester hours in Latin courses and 12 semester hours in another language or department. A graduate student majoring in another field may elect a minor in Latin by successfully completing 12 semester hours in Latin.

PROGRAM FEE: None

STUDY ABROAD/AWAY OPPORTUNITIES: Students are encouraged to enroll in study-abroad programs (limit 6 hours) and in specialized workshops in advanced language or pedagogy (limit 4 hours). Departmental permission must be obtained before enrolling in such programs.

University Requirements

For more information, please contact:

Dr. Alison J. Smith

alisonjs@kent.edu

DESCRIPTION: Unlike most graduate programs that emphasize specialization, the Master of Liberal Studies encourages a broad educational perspective and interdisciplinary study.

ADMISSION REQUIREMENTS: Official transcript(s), goal statement and three letters of recommendation.

GRADUATION REQUIREMENTS: The degree consists of 32 hours of coursework, 12 to 15 hours in a single discipline and 12 to 15 hours divided among two or more related areas. Courses may be taken in the arts, business, education, humanities, social and natural sciences.

Students will complete a program of study document in which they will develop a theme (title) and choose coursework in the major and minor areas. In developing programs of study, Liberal Studies students must adhere to several fundamental principles:

- The program of study must be integrated
- Since the L.S.M. degree specifically focuses on the values of liberal arts education, the program of study must include at least 12 hours of coursework in the College of Arts and Sciences
- The program of study must emphasize interdisciplinary perspectives to learning

All students are required to take Introduction to Liberal Studies (61000) within the first year and Liberal Studies Essay (61098). Except for these, no other specific courses are required for the L.S.M. program. Candidates for the L.S.M. degree must complete the minimum 32 semester hours of graduate work, 16 hours of which must be at the 60000-level or higher. It should be understood that some available graduate courses may require prerequisites.

[Kent State University Catalog 2010 - 2011](#) > [Colleges and Programs](#) > [College of Nursing](#) > [Graduate Programs](#) > [Master of Science in Nursing/Master of Public Administration Dual Degree Program](#)

A dual degree in nursing and public administration is offered for those nurses who desire to integrated knowledge and skills from nursing with the public sector and public policy (MSN/MPA).

The MSN/MPA program is relevant for nurses who seek to improve the quality of healthcare delivery to populations and communities. Graduates are typically employed by or seek employment from government, non-governmental community agencies, voluntary organizations and non-profits. Activities of our graduates typically revolve around: community-based health promotion and disease prevention, seeking health care funding for core community health services, disaster preparedness, economics and management of public health care systems, and policy-making to ensure health care access.

In the MSN/MPA program, nursing courses focus on advanced nursing practice and management. The public administration courses focus on the management of human and material resources, finances and accounting, organizational analysis, statistics, program evaluation, strategic planning and operations, economics and marketing, as well as leadership theory and behavior, law, and the social impacts of management. Capstone courses aid the student in integration of the theory and practical application from coursework.

The MSN/MPA program offers:

- High value: A combination of academic quality, efficiency, and reasonable education cost
- Practicum experiences with leaders and managers with nursing and/or business backgrounds
- Accessible location
- Many course offerings online
- A customized, flexible program plan developed with a consistent faculty adviser

The Master of Science in Nursing/Master of Public Administration dual degree coursework is integrated and concurrent. The MSN/MPA is 54 credit hours, significantly shorter than if each graduate degree were pursued separately. The program can be completed full time in 6 semesters (2.5-3 full time years), or if part time, within 4-5 years. In the MSN/MPA program, the MSN contributes 21-30 credits, while the MPA contributes 36-39 credits. Elective choice is available in either of the dual degree programs.

DESCRIPTION: The Master of Arts in Mathematics for Secondary Teachers is a three-year program offered in the evening and summer. Designed collaboratively by faculty in mathematical sciences and teacher education, the program is for in-service teachers and does not provide licensure. Students are required to pass a final qualifying examination in general mathematics.

ADMISSION REQUIREMENTS: Official transcript(s), goal statement, three letters of recommendation and résumé or vita.

GRADUATION REQUIREMENTS: The students are required to take at least 32 semester hours of graduate credit with at least 16 semester hours at the 60000 level and 22 semester hours in mathematics. In general, students will be expected to take two to three courses in each of the areas of modern algebra, geometry and analysis. Some additional exposure to applied mathematics and current trends in teaching will also be required. Candidates in this program are expected to pass a final examination in general mathematics.

COLLEGE: College of Arts and Sciences

College Requirements

DEPARTMENT: Department of Philosophy
 320 Bowman Hall
 Tel: 330-672-2315
 Fax: 330-672-4867
 Web: <http://www.kent.edu/CAS/Philosophy/>

University Requirements

DESCRIPTION: The Master of Arts in Philosophy consist of three concentrations: Culture/History, Ethics/Practice and Interpretations/Method.

Culture/History provides opportunities for students to pursue intensive, in-depth study within the discipline of philosophy, with particular attention given to developing an appreciation for the varieties of philosophical methods, perspectives and modes of analysis and their relation to the methodological concerns and interests of other disciplines.

Ethics/Practice provides opportunities for students to pursue intensive, in-depth study within the discipline of philosophy, with particular attention given to developing an appreciation for the varieties of philosophical methods, perspectives and modes of analysis and their relation to the methodological concerns and interests of other disciplines.

Interpretation/Method provides opportunities for students to pursue intensive, in-depth study within the discipline of philosophy, with particular attention given to developing an appreciation for the varieties of philosophical methods, perspectives and modes of analysis and their relation to the methodological concerns and interests of other disciplines.

ADMISSION REQUIREMENTS: Official transcript(s), GRE, goal statement and three letters of recommendation.

GRADUATION REQUIREMENTS: The M.A. degree in philosophy requires 35 hours beyond the baccalaureate degree including 6 hours of research directed toward the completion of the thesis or 9 hours of research directed toward the completion of a nonthesis research project option.

Students who lack background preparation in a specific area will be required to take an undergraduate course, and earn a letter grade of "B" (3.0) or better in that course, as a prerequisite for further graduate study in that area. The student's program advisory group, in consultation with the graduate coordinator, will determine which course prerequisites are needed.

Beyond required and elected coursework of each concentration, candidates are required to participate in PHIL 69997, Colloquium, for each semester in residence. No more than two semester hours of colloquium can be counted toward degree requirements. The graduate coordinator will consider, in consultation with the graduate faculty, various options for satisfying the colloquium requirement where circumstances demand additional consideration.

There are five elements common to each concentration: a "core" of Graduate Seminars (6 hours); concentration electives (6 hours); general electives (15 hours for the thesis option and 12 hours for the nonthesis option); culminating experience (6 hours for thesis option and 9 hours for nonthesis option); and colloquium (2 hours).

Graduate students are required to take two sections of the Graduate Seminar, PHIL 60191: Students on a normal rotation will register for the Graduate Seminar in the Spring of their first year and in the Fall of their second year.

[University Requirements](#)

DESCRIPTION: The Master of Arts in Physics is a highly flexible program that can be customized according to the constraints of the individual student. This flexibility is a good match for the needs of part-time students who continue to hold full-time employment in secondary education or in industry. Also, students in the Ph.D. program can apply for this M.A. degree after completing the requisite number of credit hours.

The Master of Science in Physics emphasizes basic research in theory and experiment, as well as some areas of applied research. The focus is on soft condensed matter, biophysics, correlated electron systems and nuclear/particle physics. Master's students normally take most of the same courses as doctoral students and defend an M.S. thesis that is briefer than a Ph.D. dissertation.

The Ph.D. in Physics emphasizes basic research in theory and experiment, as well as some areas of applied research. The focus is on soft condensed matter, biophysics, correlated electron systems and nuclear/particle physics.

ADMISSION REQUIREMENTS: Official transcript(s), 3.0 GPA (for unconditional admissions), goal statement, three letters of recommendation and résumé or vita.

GRADUATION REQUIREMENTS: M.A.: A total of 32 semester hours of graduate credit is required, with no more than one half at the 50000 level. The distribution of these hours will be planned by the student together with the faculty advisor to best fulfill the needs of the student.

M.S.: A total of 32 semester hours of credits is required, which includes 6 hours of thesis and the following physics courses or their equivalents: 55201, 55202, 6/75101 and 6/76161. The remaining hours may be divided among course, seminar and research credits according to the interests of the student with the consent of the advisor. A thesis presenting and interpreting results of original research is required. The research areas are outlined in the dissertation section under the doctoral program.

Ph.D.: Each student is required to take a set of basic courses as outlined in the Departmental Information and Policy Guide. Students may petition to have specific course requirements waived if a grade of "B" 3.0 or higher was obtained for an equivalent course at another school. The basic physics courses will prepare the student for the candidacy examination. Students present at least one seminar during their graduate career.

THESIS/ DISSERTATION: Ph.D.: The dissertation presents results of original research. Topics available for dissertation research are primarily in the areas of condensed matter physics and high-energy nuclear physics. Condensed matter research emphasizes liquid crystal/soft condensed matter physics and systems exhibiting highly correlated electrons/superconductors. It includes problems involving theory and computation, critical phenomena, X-ray scattering, nuclear magnetic resonance, light scattering, magnetic and electric phenomena, ultrasonics, and thermal and optical properties. Small angle neutron scattering and synchrotron X-ray experiments are carried out at national facilities such as the National Institute for Standard and Technology and Argonne National Laboratory. High-energy nuclear research probes the subatomic structure of matter via the subatomic particles and their strong interaction processes. Experiments are carried out at national accelerator facilities such as the Thomas Jefferson National Laboratory and the Brookhaven Relativistic Heavy Ion Collider. Research in subatomic theory concentrates on modeling hadrons in terms of quarks

DESCRIPTION: The Master of Arts in Political Science consist of four concentrations: American Politics and Policy, Justice Politics and Policy, Policy Administration and Analysis and Transnational and Comparative Politics and Policy.

Political Science produces critical thinking about how government policies affect the lives of citizens, and how citizens influence public policy.

The Ph.D. in Political Science consist of four concentrations: American Politics and Policy, Justice Politics and Policy, Policy Administration and Analysis and Transnational and Comparative Politics and Policy.

Political Science prepares students for research and teaching careers in higher education and for research-based careers in other fields. The program's primary focus is on public policy.

ADMISSION REQUIREMENTS: Official transcript(s), 3.0 GPA, GRE, goal statement, three letters of recommendation and a writing sample.

GRADUATION REQUIREMENTS: The Master of Arts program is designed for students who do not anticipate continuing their education beyond the master's degree, or who do not plan to continue their education at Kent State.

The normal program for M.A. students is as follows:

- Year 1—Students complete four core seminars plus two proseminars. The proseminars correspond to two areas in which the students develop a concentration.
- Year 2—Students take two elective courses in the areas of concentration, and one additional course to be approved by the student's advisor. Full-time M.A. students satisfy these requirements in three semesters, leaving a fourth semester to prepare an M.A. thesis or two papers of distinction.

Students may elect to complete a minor in a related discipline, which involves the successful completion of 9 credit hours of coursework in that discipline. Students not electing a minor in a related discipline are permitted to submit as many as 6 credits from related departments. Note that taking courses outside of political science will probably require additional coursework above the minimum hours required for an M.A. All credits from outside the department must be approved by the student's M.A. committee.

Ph.D: The Doctor of Philosophy prepares students for research and teaching careers in higher education and for research-based careers in other fields. The program's primary focus is on public policy. In addition to coursework, the program requires that students pass a qualifying exam after their first year, pass two field exams in their two areas of concentration, complete a research skill requirement, and write and defend a dissertation.

- » [College of Education, Health and Human Services](#)
- » [College of Nursing](#)
- » [College of Public Health](#)
- » [College of Technology](#)
- » [Regional College](#)
- » [Honors College](#)

The normal program for full-time students is as follows:

- Year 1—Students complete four core courses, two proseminars and pass a qualifying exam. The qualifying exam is based on the material from the core courses.
- Years 2-3—Students complete a proseminar, seven electives and fulfill the research-tool requirement in consultation with their Ph.D. advisory committee. After completing the necessary coursework, students must pass two field exams. Field examinations are completed before the second semester of a student's third year. After passing the examinations, the students must defend a prospectus, create a dissertation committee and begin preparatory work on the dissertation. Students are expected to defend a prospectus by the end of their third year.
- Years 4-5—Students write dissertation and present a public, oral defense.

RESIDENCY REQUIREMENT:	To meet the residency requirement, all Ph.D. students must spend two consecutive semesters pursuing doctoral studies.
THESIS/ DISSERTATION:	M.A.: Student must complete a Thesis or two papers of distinction. Ph.D.: Dissertation required.
PROGRAM FEE:	None
STUDENT ORGANIZATIONS:	Political Science Graduate Student Association

Web: <http://www.kent.edu/cas/PoliSci/index.cfm>

DESCRIPTION: The Master of Public Administration consist of three concentrations: Health Care Management, Public Management and Public Policy.

Health Care Management is for students wishing to pursue a career in either the public or not-for-profit sectors.

Public Management, offered in either classroom or online format, provides students with a broad foundation in public and non-profit management, including the scope and history of public administration, administrative theory, ethical behavior in public management, public financial management, program evaluation, methods, personnel management and information technology management.

Public Policy, offered in either classroom or online format, offers theory and skills oriented toward the practice of policy analysis. These include courses in the policy process, ethical issues, policy analysis, microeconomics and research methods.

ADMISSION REQUIREMENTS: Official transcript(s), 2.75 GPA, GRE, goal statement, three letters of recommendation and a writing sample.

GRADUATION REQUIREMENTS: Public Management: This concentration has 10 required courses (30 credit hours) and 3 elective courses (9 credit hours) that may be customized or taken within a designated area of specialization, plus a Capstone Seminar, and for students without previous experience, a formal field placement Internship (3). The core courses provide students with a broad foundation in public and nonprofit management, including the scope and history of public administration, administrative theory, ethical behavior in public management, public financial management, program evaluation, methods, personnel management and information technology management.

Three elective courses are chosen by the student in consultation with an academic advisor. Designated areas of specialization that may be selected include public and nonprofit financial management, municipal management, nonprofit management, justice management, and nursing management. Other areas of specialization utilizing elective coursework outside of the program may be developed based upon the student's needs.

Public Policy: The public policy concentration requires the completion of five specified courses (15 credit hours), three more courses chosen from a list of options (9 credit hours), and four elective courses (15 credit hours), plus a Capstone course, and depending on the student's experience or needs, a formal field placement Internship.

The core requirements offer theory and skills oriented toward the practice of policy analysis. These include courses in the policy process, ethical issues, policy analysis, microeconomics and research methods. Students select at least one of the designated courses in each of the following three areas: public management; financial management; and an advanced tool in policy research or analysis. Five electives chosen in consultation with an advisor allow students to gain expertise in substantive policy areas (i.e., education policy, information policy, environmental policy). Electives may be chosen from graduate

DESCRIPTION: The Master of Arts in Pure Mathematics is for those who want a professional education in mathematics beyond the bachelor's degree.

The Master of Science in Pure Mathematics is for those who want a professional education in mathematics beyond the bachelor's degree.

The Ph.D. in Pure Mathematics is for students interested in becoming professional scholars, college and university teachers or independent workers in private, industrial or government research institutions.

ADMISSION REQUIREMENTS: Official transcript(s), qualifying examination, goal statement, three letters of recommendation and resume or vita.

GRADUATION REQUIREMENTS: The Master of Arts and Master of Science programs require a total of 32 semester hours of graduate credit. Each student should submit a detailed plan of study for approval by the advisor by the time the first 16 semester hours of graduate credit have been completed.

Ph.D: Each student is required to take a set of basic courses as outlined in the Departmental Information and Policy Guide. Students may petition to have specific course requirements waived if a grade of "B" 3.0 or higher was obtained for an equivalent course at another school. The basic physics courses will prepare the student for the candidacy examination. Students present at least one seminar during their graduate career.

THESIS/ DISSERTATION: Candidates for the Master of Science degree must write a suitable thesis. Candidates for the Master of Arts degree must pass the departmental qualifying examination at the master's level.

COLLEGE: College of Arts and Sciences

DEPARTMENT: Department of Sociology
215 Merrill Hall
Tel: 330-672-2562
Fax: 330-672-4724
Web: <http://www.kent.edu/cas/sociology/>

DESCRIPTION: The Master of Arts in Sociology consists of two concentrations: Sociology and Gerontology.

Sociology offers specializations in crime, deviance, and criminal justice, health and health care (including mental health), social inequalities (race, class, gender), and social psychology, and provides a foundation for a variety of career lines for further graduate study.

Sociology–Gerontology provides a foundation for a variety of career lines for further graduate study. Students concentrate in the substantive and interdisciplinary area of gerontology.

The Ph.D. in Sociology prepares students for research and teaching careers in higher education and for research-based careers in both the public and private sectors. The program offers four specialties: criminology and deviance, health and health care (including mental health), social inequalities (race, class, gender), and social psychology,

ADMISSION REQUIREMENTS: M.A.: official transcript(s); 3.2 GPA; GRE, three letters for recommendations from professors; and 1-2 page statement of career interests and goals.

Ph.D.: official transcript(s), GRE, three letters of recommendation from current/former professors who can adequately evaluate the applicant's graduate work and potential; 1-2 page goal statement; completed master's degree or equivalent, or at least one year of full-time coursework or equivalent (18 hours) in an M.A. in Sociology program. The coursework must include the M.A. core sequence. This type of admission is limited to students whose records clearly indicate both scholarly and research potential to do doctoral-level work. If the M.A. is not complete upon admission, students must complete it before the start of the second semester after they begin the Ph.D. program.

GRADUATION REQUIREMENTS: M.A.: Sociology - Requirements for the degree are 34 semester hours. This includes 10 hours of required courses, 6 hours for the project (see below) and 18 hours of electives.

The curriculum consists of a core of required courses: SOC 62002, 62100, 62211, 62217, and 62199 or 62885; elective courses and an individualized project that may be in either thesis or non-thesis format. The required courses provide foundations in social theory, research methods, data analysis and college teaching. For electives, no more than 12 hours may be taken in any outside department for credit toward the M.A. degree. Further, only one 50000-level course may be applied toward the M.A. degree. The individualized project may be an empirical research study, theoretical project, or student-contracted field internship in an agency.

Ph.D.: In addition to meeting the general requirements of the university, students working toward the Doctor of Philosophy degree program in sociology must meet these requirements:

- One doctoral-level course in theory: SOC 72105.
- One doctoral-level course in methods/statistics: SOC 72218.
- Complete courses in the student's specialty areas.
- Take the following doctoral-level courses: SOC 72002 and 72894.

COLLEGE: College of Arts and Sciences

College Requirements

DEPARTMENT: Department of Modern and Classical Language Studies
109 Satterfield Hall
Tel: 330-672-2150
Fax: 330-672-4009
Web: <http://www.kent.edu/cas/mcls/>

University Requirements

DESCRIPTION: The Master of Arts in Spanish consist of two concentrations: Literature and Applied Linguistics and Pedagogy.

Literature is primarily for students who anticipate continuing their graduate studies beyond the M.A. level, who plan to teach language at the college or post-secondary level, and who wish to pursue scholarly research in modern language and literature studies.

Applied Linguistics and Pedagogy is primarily for students who wish to teach in elementary and secondary schools, and for those who wish to increase their language proficiency and effectiveness as teachers.

ADMISSION REQUIREMENTS: Official transcript(s); goal statement; three letters of recommendation; an audiocassette tape, CD or MP3/wav file with a 5-10-minute oral sample in both applicant's first and second languages (conversational, not read from a script); and writing sample(s) in applicant's second language, which should be accompanied by a signed declaration that the sample is original work and that the applicant received no help in its preparation. International applicants should also submit a writing sample in English.

GRADUATION REQUIREMENTS: Applied Linguistics and Pedagogy: Students must successfully complete 36 semester hours of coursework and a final project, a portfolio, or a comprehensive examination. Additionally, students will complete an exit oral interview and an exit essay examination in the language in which they are earning their degree. Specific requirements include courses in the student's second language (12 hours): FR 53213/GER 51212/SPAN 68215; FR 53216/GER 51216/SPAN 58216; and 6 hours of literature and culture/civilization courses.

In addition, students must successfully complete MCLS 50660,* 60601, 60661, and 60698 (12 hours), 9 hours of graduate courses in second language pedagogy, and 3 hours of graduate electives.

Students are encouraged to enroll in study-abroad programs (limit 6 hours) and in specialized workshops in advanced language or pedagogy (limit 4 hours). Departmental permission must be obtained before enrolling in such programs.

*Students who are already licensed to teach language in Ohio may, with departmental approval, substitute a graduate secondlanguage pedagogy elective for MCLS 50660.

Literature: Students must successfully complete 33 credit hours of coursework and a comprehensive examination.

Specific course requirements amount to 12 semester hours and include MCLS 60000 for all candidates; FR 53213/GER 61001/ SPAN 68215 for candidates in the modern languages; students must enroll in the latter of these in their first fall semester. Candidates in French and Spanish must successfully complete at least three additional courses, one in each of the three major literary genres (poetry, drama and prose). Candidates in German must successfully complete at least three additional courses, including GER 51212.

A maximum of 6 semester hours of individual investigation research may be applied toward the degree.

DESCRIPTION: The Master of Arts in Translation consist of six concentrations: French, German, Japanese, Russian, Spanish and a Dual Degree with Master of Business Administration.

French, German, Japanese, Russian and Spanish concentrations prepares students for careers in translation, language engineering, international business and government.

The Dual Degree with Master of Business Administration is for students with significant foreign language skills who wish to integrate graduate business education with advanced foreign language translation. This program be suitable for those whose career goals include assuming middle or executive management positions in international business or language industry enterprises; or those interested in starting their own businesses in the language services industry.

ADMISSION REQUIREMENTS: Official transcript(s); goal statement; three letters of recommendation; an audiocassette tape, CD or MP3/wav file with a 5-10-minute oral sample in both applicant's first and second languages (conversational, not read from a script); and writing sample(s) in applicant's second language, which should be accompanied by a signed declaration that the sample is original work and that the applicant received no help in its preparation. International applicants should also submit a writing sample in English.

Admission into the Dual Degree with the MBA concentration also requires the GMAT.

GRADUATION REQUIREMENTS: Students must successfully complete 36 semester hours of coursework, including a case study project.

PROGRAM FEE: None

COLLEGE: College of Arts and Sciences

DEPARTMENT: Department of Modern and Classical Language Studies
109 Satterfield Hall
Tel: 330-672-2150
Fax: 330-672-4009
Web: <http://www.kent.edu/cas/mcls/>

Program Requirements

College Requirements

University Requirements

DESCRIPTION: The Ph.D. in Translation Studies is research-based that provides advanced training in translation studies and language informatics.

ADMISSION REQUIREMENTS: Official transcript(s); a master's in translation, foreign language or any relevant discipline if it is combined with significant prior experience or training in languages or linguistics; senior scholastic average of 3.0, and/or 3.5 GPA in master's studies; TOEFL; goal statement; three letters of recommendation; and a 7-10 page essay or writing sample from a research paper on any aspect of translation or language (or a prospectus for a language informatics or translation studies project).

GRADUATION REQUIREMENTS: The Ph.D. in Translation Studies requires a minimum of 60 semester hours (including research and dissertation) beyond the master's degree. Of these, at least 30 hours must be for graduate credit other than research and dissertation. 15 hours of core courses are required of all doctoral students (regardless of area of specialization). The core courses are: Required Courses

THESIS/ DISSERTATION: After passing the written examination, the student must present a detailed written proposal of his/her dissertation research. The dissertation describes original research. The dissertation topic must be on one or more of the sub-topics within translation studies. The written dissertation is reviewed and approved by the research adviser and the dissertation advisory committee prior to scheduling a final oral examination before the committee.

LANGUAGE REQUIREMENT: All applicants must possess advanced knowledge of a foreign language.

PROGRAM FEE: None

I. TRANSLATION PROGRAM REQUIREMENTS (24 credits)

Course	Title	Credits
TRST 70001	Applied Linguistics and Translation Informatics	3
70002	The Language Industry	3
70003	Terminology Studies	3
70004	Translation Pedagogy	3
70005	Current Trends in Translation Studies	3
70006	Empirical Methods for Translation Studies	3
70007	Corpora in Translation	3
70008	Translation and Cognition	3

II. DISSERTATION/RESEARCH (30 credits)

Choose from the following		30
TRST 80098	Research in Translation Studies (1-15)	
80199	Dissertation I (15)	
80299	Dissertation II (1 or 15)	

III. SPECIALIZATION (6 credits)

Specialization in a doctoral student program is accomplished via specific combination of elective seminars in the translation studies and translation informatics areas. Students must complete 6 credits hours (2 courses) in an approved combination of seminars.

Choose from the following:		6
TRST 80091	Seminar in Translation Studies (3)	
80191	Seminar in Translation Informatics (3)	

Note: Entering Students who do not demonstrate equivalent education or experience with the content of the following M.A. level courses may be required to take one or more of these courses:

TRST 60009	Documents in Multilingual Contexts (2)	
60010	Theory of Translation and Interpreting (2)	
60011	Terminology and Computer Applications in Translation (3)	
60012	Software Localization (3)	
60013	Language Project Management (3)

The African studies program is designed to provide a broad familiarity with African history, culture and contemporary problems. Study in this program may be coordinated with relevant language study through Pan-African Studies. The African studies program requires successful completion of a minimum of 18 semester hours of coursework selected from the list given below; coursework must be completed in at least three academic disciplines.

AFRICAN STUDIES MINOR REQUIREMENTS (18 credits):		
Course	Title	Credits
Choose from the following courses:		18
ANTH 38240	Culture and Personality (3)	
	38250 Religion: A Search for Meaning (3)	
	48410 Prehistory: Eurasia and Africa (3)	
	48230 Socio-Cultural Change (3)	
ARTH 42025	Art of West Africa (3)	
	42026 Art of Nigeria (3)	
	42027 Art of Central Africa (3)	
ECON 32075	Introduction to International Trade (3)	
	42075 International Economic Relations (3)	
	42076 Economic Development (3)	
GEOG 37040	Geography of African (3)	
HIST 31130	History of African Civilization (3)	
	41131 History of Africa to 1880 (3)	
	41132 History of Africa, 1880 - Present (3)	
	41135 History of West Africa (3)	
MUS 42111	African Music and Culture (3)	
PAS 10101	Elementary Kiswahili I (4)	
	10102 Elementary Kiswahili II (4)	
	13201 Elementary Yoruba I (4)	
	13202 Elementary Yoruba II (4)	
	22200 Introduction to African Arts (3)	
	23201 Intermediate Yoruba I (3)	
	23202 Intermediate Yoruba II (3)	
	42095 Special Topics in the Literature of Pan-Africa (3)	
POL 30540	African Politics (3)	
TOTAL		18

Minimum cumulative 2.00 GPA required for graduation.

Web: <http://www.kent.edu/math>

I. APPLIED MATHEMATICS MINOR PREREQUISITES

Course	Title
MATH 11010	Algebra for Calculus (3)
11022	Trigonometry (2)
Choose one course from the following:	
CS 10051	Introduction to Computer Science (4) *
10061	Introduction to Computer Programming (3)

II. APPLIED MATHEMATICS MINOR REQUIREMENTS (25 credits)

Course	Title	Credits
MATH 12002	Analytic Geometry and Calculus I	5
12003	Analytic Geometry and Calculus II	5
21001	Linear Algebra with Applications	3
22005	Analytic Geometry and Calculus III	3
32044	Introduction to Ordinary Differential Equations	3
Elective Courses <i>Selected in consultation with the student's minor advisor</i>		6
MATH 23022	Discrete Structures for Computer Sciences (3) **	
31011	Discrete Mathematics (3) **	
40011	Introduction to Probability Theory and Applications (3)	
40012	Introduction to Statistical Concepts (3)	
40041	Statistical Methods for Experiments (3)	
40042	Sampling Theory (3)	
40051	Topics in Probability Theory and Stochastic Processes (3)	
41021	Theory of Matrices (3)	
42011	Mathematical Optimization (3)	
42031	Mathematical Models and Dynamical Systems (3)	
42041	Advanced Calculus (3)	
42045	Introduction to Partial Differential Equations (3)	
42048	Introduction to Complex Variables (3)	
42091	Seminar: Modeling Projects (3)	
42201	Introduction to Numerical Computing I (3)	
42202	Introduction to Numerical Computing II (3)	
TOTAL		25

* Students planning to take CS courses at the 20000-level or above must take CS 10051.

** Credit for both MATH 23022 and 31011 is not permitted.

Students planning to take CS courses at the 30000-level or above must take MATH 23022.

Minimum cumulative 2.00 GPA required for graduation.

» Cartography Minor

Kent State University Catalog 2010 - 2011 > Colleges and Programs > College of Arts and Sciences > Minors > [Cartography](#)

Department of Geography
College of Arts and Sciences
413 McGilvrey Hall
Tel: 330-672-2045
Fax: 330-672-4304
Web: <http://www.kent.edu/cas/geography>

The cartography minor is intended to provide expertise in modern mapmaking. It is especially designed to meet federal governmental standards for the employment of cartographers.

CARTOGRAPHY MINOR REQUIREMENTS (30 credits)			
Course		Title	Credits
GEOG	29160	Mapping Our World	3
	39161	Introduction to Cartography	3
	39162	Introduction to Cartography Laboratory	1
	49165	GeoMapping	3
Choose from the following:			6-8
GEOG	49070	Geographic Information Science (3)	
	49162	Advanced Cartography (3) *	
	49163	Advanced Cartography Laboratory (1) *	
	49198	Research in Cartography (3)	
	49210	Earth Imagery (3) **	
	49211	Earth Imagery Laboratory (1) **	
Choose from the following:			6-8
GEOG	39002	Statistical Methods in Geography (3)	
MATH	10041	Elementary Probability and Statistics (3)	
	12002	Analytic Geometry and Calculus I (5)	
Electives			
<i>Electives may be chosen from any of the above courses or from: GEOG 21062, 22061, 31064; GEOL 21062, 21080; ARCH 45630, 45631; VCD 17000. Other electives may be appropriate but must have prior approval of the program coordinator.</i>			3-9
TOTAL			30

* Student must take GEOG 49162 and GEOG 49163 together.

** Student must take GEOG 49210 and GEOG 49211 together.

Minimum cumulative 2.00 GPA required for graduation.

CHEMISTRY MINOR REQUIREMENTS (25 credits):

Course	Title	Credits
CHEM 30301	Inorganic Chemistry I	2
Choose from the following groups:		10
CHEM 10060	General Chemistry I (4)	
	10061 General Chemistry II (4)	
	10062 General Chemistry Laboratory I (1)	
	10063 General Chemistry Laboratory II (1)	
or		
	10960 Honors General Chemistry (5)	
	10961 Honors General Chemistry (5)	
Choose from the following groups:		4-6
CHEM 20481	Basic Organic Chemistry I (4)	
or		
	30481 Organic Chemistry I (3)	
	30482 Organic Chemistry II (3)	
Electives (with minor advisor approval)		7-9
CHEM 20482	Basic Organic Chemistry II (2) *	
	30050 Introduction to Materials Chemistry (2)	
	30105 Analytical Chemistry I (3)	
	30106 Analytical Chemistry II (2)	
	30107 Analytical Chemistry Laboratory I (1)	
	30108 Analytical Chemistry Laboratory II (2)	
	30284 Introductory Biological Chemistry (4) **	
	30475 Organic Chemistry Laboratory I (1)	
	30476 Organic Chemistry Laboratory II (1)	
	40245 Biochemical Foundations of Medicine (4) **	
	40247 Principles of Biochemistry (4) **	
	40302 Inorganic Chemistry (2)	
	40555 Elementary Physical Chemistry (3) ***	
	40556 Elementary Physical Chemistry (3) ***	
<i>For physics majors taking the chemistry concentration</i>		
	40567 Basic Concepts of Physical Chemistry (4) ***	
	40568 Elementary Physical Chemistry Laboratory (1) ****	
TOTAL		25

* Students who take CHEM 30481 and 30482 cannot take CHEM 20482.

** Well-prepared students may substitute CHEM 40245 or 40247 for CHEM 30284. Students can only take one of these courses.

*** Students who take CHEM 40555 or 40556 may not take CHEM 40567.

**** Students may take CHEM 40568 only if they have taken CHEM 40555, 40556 or 40567 as a pre/corequisite.

Minimum cumulative 2.00 GPA required and a 2.00 GPA in chemistry.
