1. See requirements under the A.A.S. in radiologic technology program.
2. Students who have successfully completed ATTR/EXSC 25057/25058 Human Anatomy and Physiology I/II may use those courses in place of BSCI 20020 Biological Structure and Function or BSCI 11010/11020 Foundational Anatomy and Physiology I/II.
3. US 10097 is not required of transfer students with 25 credits (excluding College Credit Plus or Dual Enrollment) or students age 21+ at time of admission.

Students should contact the radiation therapy program director at the Salem Campus for advising.

Enrollment in RIS courses is limited to students accepted to technical study, which is a selective process based on program admission criteria listed in the program application packet found on the [program website](#).
